

# NEWSLETTER

Dear Families,

This week we are excited to introduce our new child care program to you, the first time this particular system has been introduced to Tasmania. The system will do away with the conventional methods of signing your children in and out using daily attendance sheets.

You will now be required to sign your children in with your individual pin number which has been allocated to each parent / guardian or persons authorized to collect your child / children as per your 2007 Re-enrolment or new 2007 Enrolment Form.

This is a confidential number which you will be asked to change to your own personal pin the first time you log in

As with most new systems, there are bound to be plenty of teething problems so please don't hesitate to call me if you have any questions, problems, concerns or confusions!!

We are excited about all the advantages this system will bring to the service. – Up to Date Accounts will now be available to you every time you log into the system, as well as any newsletters and notices. You should be able to gain access to your family home page via your home internet connection and we are also hoping to soon offer the option of online payments.

There are some other options we are able to offer families to allow you to personalize your family page such as photos of yourself and your child/children added to your family page.

Further information will be posted soon to give you the option of additional information to be included such as E-mail, Doctor, Hospital and Dentist details.

Best Regards,

*Jacqui De Angelis*
