Tasmanian Planning Scheme

State Planning Provisions

State Planning Provisions - Version Control

Version	Effective Date:	Amendment	Description
No:		No:	
1	2 March 2017		Original version of the SPPs made on 22 February 2017
2	19 April 2018	01-2017	Minor amendments not requiring public exhibition under section 30H(3) of the Act
3	19 February 2020	01-2018	Assessment of draft amendment of the State Planning Provisions to correct errors, remove anomalies and improve clarity of interpretation
4	20 July 2022	01-2021	Minor amendments under section 30NA of the Act

Foreword

The Tasmanian Planning Scheme (TPS) sets out the requirements for use or development of land in accordance with the *Land Use Planning and Approvals Act 1993* (the Act).

The TPS comprises two parts:

the State Planning Provisions (SPPs) which includes the identification and purpose, the administrative requirements and processes, including exemptions from the planning scheme and general provisions that apply to all use and development irrespective of the zone, the zones with standard use and development provisions, and the codes with standard provisions; and

the Local Provisions Schedules (LPSs) that apply to each municipal area and include zone and overlay maps, local area objectives, code lists, particular purpose zones, specific area plans, and any site-specific qualifications.

The SPPs and the relevant LPS together form all of the planning provisions that apply to a municipal area (the local application of the TPS). These will be administered by planning authorities.

The SPPs also set out the requirements for the Local Provisions Schedules.

The provisions in the TPS should be read together with the Act.

The foreword, table of contents, headings and footnotes are not legally part of this planning scheme. They have been included to assist users' understanding of the planning scheme and its relationship with the Act. They are a guide only and do not cover all relevant law relating to the operation of planning schemes or the planning application and assessment process.

Identification and Purpose of this Planning Scheme

- 1.0 Identification of this Planning Scheme
- 2.0 Planning Scheme Purpose

Administration

- 3.0 Interpretation (Planning Terms and Definitions)
- 4.0 Exemptions
- 5.0 Planning Scheme Operation
- 6.0 Assessment of an Application for Use or Development

General Provisions

7.0 General Provisions

Zones

- 8.0 General Residential Zone
- 9.0 Inner Residential Zone
- 10.0 Low Density Residential Zone
- 11.0 Rural Living Zone
- 12.0 Village Zone
- 13.0 Urban Mixed Use Zone
- 14.0 Local Business Zone
- 15.0 General Business Zone
- 16.0 Central Business Zone
- 17.0 Commercial Zone
- 18.0 Light Industrial Zone
- 19.0 General Industrial Zone
- 20.0 Rural Zone
- 21.0 Agriculture Zone
- 22.0 Landscape Conservation Zone
- 23.0 Environmental Management Zone
- 24.0 Major Tourism Zone
- 25.0 Port and Marine Zone
- 26.0 Utilities Zone
- 27.0 Community Purpose Zone
- 28.0 Recreation Zone
- 29.0 Open Space Zone
- 30.0 Future Urban Zone

Codes

- C1.0 Signs Code
- C2.0 Parking and Sustainable Transport Code
- C3.0 Road and Railway Assets Code
- C4.0 Electricity Transmission Infrastructure Protection Code
- C5.0 Telecommunications Code
- C6.0 Local Historic Heritage Code
- C7.0 Natural Assets Code
- C8.0 Scenic Protection Code
- C9.0 Attenuation Code
- C10.0 Coastal Erosion Hazard Code
- C11.0 Coastal Inundation Hazard Code
- C12.0 Flood-Prone Areas Hazard Code
- C13.0 Bushfire-Prone Areas Code
- C14.0 Potentially Contaminated Land Code
- C15.0 Landslip Hazard Code
- C16.0 Safeguarding of Airports Code

State Planning Provisions - Applied, Adopted and Incorporated Documents

LP1.0 Local Provisions Schedules Requirements

Appendix A - Local Provisions Schedules Structure

Identification and Purpose of this Planning Scheme

1.0 Identification of this Planning Scheme

1.1 Planning Scheme Title

1.1.1 This planning scheme is called the Tasmanian Planning Scheme (TPS).

1.2 Composition of this Planning Scheme

- 1.2.1 This planning scheme consists of two parts: the State Planning Provisions (SPPs) and a Local Provisions Schedule (LPS) for each municipal area in Tasmania.
- 1.2.2 The SPPs include administration clauses, general provisions, use and development standards for zones and codes and LPS requirements.
- 1.2.3 The LPSs include the zone maps, overlay maps, local area objectives, particular purpose zones, specific area plans, site-specific qualifications and code lists for each municipal area in Tasmania.
- 1.2.4 The foreword, table of contents, headings and footnotes are not legally part of this planning scheme.

2.0 Planning Scheme Purpose

2.1 Purpose

- 2.1.1 The purpose of this planning scheme is to further the objectives of the Resource Management and Planning System and the planning process set out in Parts 1 and 2 of Schedule 1 of the Act and be consistent with State Policies in force under the *State Policies and Projects Act 1993* by:
 - (a) regulating or prohibiting the use or development of land; and
 - (b) making provisions for the use, development, protection and conservation of land.

Administration

3.0 Interpretation

3.1 Planning Terms and Definitions

- 3.1.1 Terms¹ in this planning scheme have their ordinary meaning unless they are defined in:
 - (a) the Act; or
 - (b) unless the contrary intention appears, are specifically defined in Table 3.1 or in a zone, code or specific area plan.
- 3.1.2 In this planning scheme, a reference to a Use Table is a reference to the Use Table in a zone or specific area plan.
- 3.1.3 The titles of use classes are listed and use classes are described in Table 6.2. Wherever used in this planning scheme, the use class titles are capitalised. Where a capitalised use class title is used, it is to be taken to refer to the use class listed and as described in Table 6.2, unless otherwise qualified or indicated.

Term	Definition
Act	means the Land Use Planning and Approvals Act 1993.
access strip	means the narrow part of an internal lot to provide access to a road.
activity centre	means a place that provides a focus for retail, commercial, services, employment, and social interaction in cities and towns.
activity centre hierarchy	means the activity centre network or hierarchy referred to in a relevant regional land use strategy.
adjacent	means near to, and includes adjoining.
adjoining	means next to, or having a common boundary with.
adult entertainment venue	means the use of land for the purpose of providing forms of sexually explicit entertainment for adults only, and may include provision of food and drink.

Table 3.1 Planning Terms and Definitions

¹ The Tasmanian Planning Scheme separately lists Use Classes in Table 6.2.

Term	Definition	
adult sex product shop	 means use of land to sell or hire sexually explicit material, including but not limited to: (a) publications classified as restricted under the <i>Classification (Publications, Films and Computer Games) Enforcement Act 1995</i>; and (b) materials and devices, other than contraceptives and medical treatments, used in conjunction with sexual behaviour. 	
agricultural land	means all land that is in agricultural use, or has the potential for agricultural use, that has not been zoned or developed for another use or would not be unduly restricted for agricultural use by its size, shape and proximity to adjoining non- agricultural uses.	
agricultural use	means use of the land for propagating, cultivating or harvesting plants or for keeping and breeding of animals, excluding domestic animals and pets. It includes the handling, packing or storing of plant and animal produce for dispatch to processors. It includes controlled environment agriculture and plantation forestry.	
AHD	means the Australian Height Datum (Tasmania) being the vertical geodetic datum as described in Chapter 8 of the <i>Geocentric Datum of Australia Technical Manual</i> <i>version 2.4.</i>	
amenity	means, in relation to a locality, place or building, any quality, condition or factor that makes or contributes to making the locality, place or building harmonious, pleasant or enjoyable.	
amusement parlour	 means use of land for a building that contains one or more of the following: (a) 3 or more coin, card, or token operated amusement machines; (b) one or more coin, card, or token operated amusement machines with more than one screen or console that can be played by 3 or more people simultaneously; (c) 2 or more coin, card, or token operated billiard, snooker, or pool tables; or (d) the conduct of laser games or similar. It does not include gambling machines or premises included in the Hotel Industry Use Class. 	
animal pound	means use of land for an enclosure for confining stray or homeless animals or animals impounded by a council.	
animal saleyard	means use of land to buy and sell farm animals, and hold such animals for purchase or sale.	
annual exceedance probability	means the probability of an event with a certain magnitude being exceeded in any one year.	

Term	Definition
applicable standard	means as defined in subclause 5.6.2 of this planning scheme.
application	means an application for a permit made under this planning scheme.
aquaculture	means use of land to keep or breed aquatic animals, or cultivate or propagate aquatic plants, and includes the use of tanks or impoundments on land.
art and craft centre	means use of land to manufacture, display, and sell, works of art or craft, such as handicrafts, paintings and sculpture.
arterial road	means a road that predominantly carries through traffic from one region to another, forming principal avenues of travel for traffic movements.
assisted housing	means housing provided by an organisation for higher needs tenants or residents, including those with physical or intellectual disabilities, and may include associated support services.
basement	means a storey either below finished ground level or that projects not more than 1m above finished ground level.
boarding house	means use of land for a dwelling in which lodgers rent one or more rooms, generally for extended periods, and some parts of the dwelling are shared by all lodgers.
boat and caravan storage	means use of land to store boats, caravans, vehicle-towed boat trailers or the like.
building	means as defined in the Act.
building area	means any area shown on a plan to indicate where all buildings will be located on a lot.
building envelope	means the three-dimensional space within which buildings are to occur.
building height	means the vertical distance from existing ground level at any point to the uppermost part of a building directly above that point, excluding protrusions such as aerials, antennae, solar panels, chimneys and vents.
building line	means a line drawn parallel to a frontage along the front facade of a building or through the point of a building closest to the frontage, excluding protrusions.
camping and caravan park	means use of land to allow accommodation in caravans, cabins, motor homes, tents or the like and includes amenities provided for residents and persons away from their normal place of residence.

Term	Definition
clearance and conversion	means as defined in the Forest Practices Act 1985.
cidery	means use of land for the manufacture of cider products and if land is so used, includes the display and sale of cider products, and the preparation and sale of food and drink for consumption on the premises.
cinema	means use of land to display films, videos or other moving images to persons for reward.
coastal protection works	means structures or works aimed at protecting land, property and human life from adverse impacts caused by erosion or inundation in the coastal zone.
coastal zone	means as described in section 5 of the State Coastal Policy Validation Act 2003.
collector road	means a non-arterial road that collects and distributes traffic in an area as well as serving abutting property.
communal residence	means use of land for a building to accommodate persons who are unrelated to one another and who share some parts of the building such as a boarding house, residential college and residential care facility.
consulting room	means use of land for services provided by a health or other therapies practitioner, other than services provided by a medical centre.
controlled environment agriculture	means an agricultural use carried out within some form of built structure, whether temporary or permanent, which mitigates the effect of the natural environment and climate. Such agricultural uses include production techniques that may or may not use imported growth medium such as greenhouses, polythene covered structures, and hydroponic facilities.
council	means as defined in the Act.
crop production	means use of land to propagate, cultivate or harvest plants, including cereals, flowers, fruit, seeds, and vegetables.
day respite centre	means use of land for day time respite care for the sick, aged or persons with disabilities.
declared weed	means as defined in the Weed Management Act 1999.
demolition	means the destruction or removal of any building or works in whole or in part other than by accident.
development	means as defined in the Act.

Term	Definition
development area	means the area of land occupied by development including its yard, outbuildings, vehicle parking, driveways, storage areas, landscaping and wastewater disposal areas.
Director of Housing	means the Director as defined in the Homes Act 1935.
dwelling	means a building, or part of a building, used as a self-contained residence and which includes food preparation facilities, a bath or shower, laundry facilities, a toilet and sink, and any outbuilding and works normally forming part of a dwelling.
effective date	means the date on which the Local Provisions Schedule came into effect in the municipal area.
eligible persons	means as defined in the Homes Act 1935.
employment training centre	means use of land to provide education and training to jobseekers and unemployed persons.
environmental harm	means the same as is described in the Environmental Management and Pollution Control Act 1994.
environmental nuisance	means as defined in the Environmental Management and Pollution Control Act 1994.
existing ground level	when used in respect of a development, means the level of a site at any point existing at the effective date.
finished ground level	when used in respect of a development, means the level of a site at any point after the development has been completed.
forest operations	means as defined in the Forest Management Act 2013.
forest practices	means as defined in the Forest Practices Act 1985.
forest practices plan	means a forest practices plan certified under the Forest Practices Act 1985.
frontage	means a boundary of a lot which abuts a road.
full water supply service	means a potable water supply, from a reticulated network, that meets the minimum flow requirement.
function centre	means use of land, by arrangement, to cater for functions, and in which food and drink may be served. It may include entertainment and dancing.
funeral parlour	means use of land to organise and conduct funerals, memorial services, or the like. It includes the storage and preparation of bodies for burial or cremation.

Term	Definition	
gross floor area	means the total floor area of the building measured from the outside of the external walls or the centre of a common wall.	
habitable building	means a building of Class 1 – 9 of the <i>Building Code of Australia</i> with the exception of Class 7a buildings.	
habitable room	means any room of a habitable building other than a room used, or intended to be used, for a bathroom, laundry, toilet, pantry, walk-in wardrobe, corridor, stair, hallway, lobby, clothes drying room, service or utility room, or other space of a specialised nature occupied neither frequently nor for extended periods.	
hazardous chemical of a manifest quantity	means a hazardous chemical, as defined in the <i>Work Health and Safety</i> <i>Regulations 2012</i> , if the amount of hazardous chemical stored exceeds the manifest quantity as specified under the <i>Work Health and Safety Regulations</i> 2012. ²	
home-based business	 means use of part of a dwelling by a resident for non-residential purposes if: (a) the person conducting the business normally uses the dwelling as their principal place of residence; (b) it does not involve employment of more than 2 workers on-site who do not reside at the dwelling; (c) any load on a utility is no more than for a domestic use; (d) there is no activity that causes electrical interference to use on other land; (e) there is no storage of hazardous material on site; (f) the display of goods for sale are not visible from any road or public open space adjoining the site; (g) there is, on the site, no advertising of the business other than 1 sign (non-illuminated) not exceeding 0.2m² in area; (h) there is, on the site, no refuelling, servicing, detailing or repair of vehicles not owned by a resident; (i) no more than 2 commercial vehicles are on the site at any one time and no commercial vehicle on the site exceeds 2 tonnes; and (j) all vehicles used by the business are parked on the site. 	
home-based child care	means use of a dwelling to mind or care for children for a day or part of a day, by one or more persons residing in the dwelling.	
hostel	means a supervised place of accommodation, usually supplying board and lodging for students or the like.	

² It will be necessary to refer to the relevant Safety Datasheet.

Term	Definition
hours of operation	means the hours that a use is open to the public or conducting activities related to the use, not including routine activities normally associated with opening and closing or office and administrative tasks.
housing support provider	means as defined in the Homes Act 1935.
intensive animal husbandry	means use of land to keep or breed farm animals, including birds, within a concentrated and confined animal growing operation by importing most food from outside the animal enclosures and includes a feedlot, poultry farm or piggery.
internal lot	 means a lot: (a) lying predominantly behind another lot; and (b) having access to a road by an access strip, private road or right of way.
irrigation district	means an area of land appointed as an irrigation district under Part 9 of the <i>Water Management Act 1999.</i>
junction	means an intersection between two or more roads at a common level, including the intersections of on and off ramps, and grade-separated roads.
land	means as defined in the Act.
land filling	means any change to the existing ground level of land by placement of any fill material, excluding refuse disposal, whether sourced from the land or elsewhere.
landscaping treatment	means an area of a site containing plants, placed to enhance the streetscape and be complementary to the scale of development on the site, including car parking, storage and buildings.
level 2 activity	means as defined in the Environmental Management and Pollution Control Act 1994.
level crossing	means as defined in section 35 of the Rail Infrastructure Act 2007.
limited water supply service	means a water supply service other than a full water supply service.
liquid fuel depot	means use of land for the storage, wholesale and distribution of liquid fuel.
local shop	means the use of land for the sale of grocery or convenience items if the gross floor area is not more than 200m ² .
lot	means a piece or parcel of land where there is only one title other than a lot within the meaning of the <i>Strata Titles Act 1998</i> .

Term	Definition
major sporting facility	means a sporting facility providing for national standard sporting competition with associated spectator facilities.
managing authority	means a managing authority under section 12G of Crown Lands Act 1976 or section 29 of the National Parks and Reserves Management Act 2002.
marina	means use of land to moor boats, or store boats above or adjacent to the water. It includes boat recovery facilities, facilities to repair, fuel, and maintain boats and boat accessories, and may include boat sales.
marine farming shore facility	means use of land to provide on shore support infrastructure and facilities for off- shore aquaculture but does not include the processing of fish or other marine organisms.
market	means use of land to sell goods, including but not limited to foodstuffs, from stalls.
medical centre	means use of land to provide health services (including preventative care, diagnosis, medical and surgical treatment, and counselling) to out-patients only.
mezzanine	means an intermediate floor within a room.
minimum flow requirement	means the minimum flow rate as defined in a price and service plan that is in effect and made in accordance with the <i>Water and Sewerage Industry Act 2008.</i>
mining lease	means as defined in the Mineral Resources Development Act 1995.
minor utilities	means use of land for utilities for local distribution or reticulation of services and associated infrastructure such as a footpath, cycle path, stormwater channel, water and sewer pipes, retention basin, telecommunication lines, gas pipelines or electricity substations and power lines up to but not exceeding 110kV.
motel	means use of land to provide accommodation in serviced rooms for persons away from their normal place of residence, if provision is made for parking of guests' vehicles near to their rooms.
motor repairs	means use of land for the business of repairing or servicing motor vehicles, motors and includes the fitting of motor accessories.
motor vehicle, boat or caravan sales	means use of land to sell or hire motor vehicles, boats, or caravans. It includes the minor repair or servicing of motor vehicles, boats, or caravans, and the sale or fitting of accessories for motor vehicles, boats or caravans.
multiple dwellings	means 2 or more dwellings on a site.
museum	means use of land to display archaeological, biological, cultural, geographical, geological, historical, scientific, or other similar works or artefacts.

Term	Definition
native vegetation	means plants that are indigenous to Tasmania including trees, shrubs, herbs and grasses that have not been planted for domestic or commercial purposes.
neighbourhood centre	means the use of land for a facility providing community and social services for the surrounding area.
office	means use of land for administration, clerical, technical, professional, business or other similar activities.
outbuilding	means a non-habitable detached building of Class 10a of the <i>Building Code of Australia</i> and includes a garage, carport or shed.
outdoor recreation facility	means use of land for outdoor leisure, recreation, or sport.
overnight camping area	means the use of land which is open to public use for holiday and recreational purposes, involving primarily the setting up and use of tents for overnight accommodation.
panel beating	means use of land for the business of repairing or replacing damaged motor vehicle bodies and panels, and carrying out any associated mechanical work or spray painting.
permit	means as defined in the Act.
planning authority	means the council responsible for administering this planning scheme in its municipal area.
plantation forestry	means the use of land for planting, management and harvesting of trees for commercial wood production, but does not include the milling or processing of timber, or the planting or management of areas of a farm for shelter belts, firewood, erosion or salinity control or other environmental management purposes, or other activity directly associated with and subservient to another form of agricultural use.
potable water supply	means a water supply that meets the requirements of the <i>Public Health Act 1997</i> , including any delegated legislation or guidelines.
primary frontage	 means: (a) if there is only a single frontage, the frontage; or (b) if there are 2 or more frontages, the frontage with the shortest dimensions measured parallel to the road irrespective of minor deviations and corner truncations.

Term	Definition
primary produce sales	means use of land to sell unprocessed primary produce grown on the land or adjacent land.
prime agricultural land	means agricultural land classified as class 1, 2 or 3 land using the class definitions and methodology from the <i>Land Capability Handbook, Guidelines for Classification of Agricultural Land in Tasmania, 2nd edition, 1999.</i>
private garden	means land adjacent to a dwelling that has been modified with landscaping or vegetation, including ornamental or edible plants, or the like.
private open space	means an outdoor area of the land or dwelling for the exclusive use of the occupants of the land or dwelling, excluding areas proposed or approved for vehicle access or vehicle parking.
proclaimed wharf area	means as defined in the Act.
protrusion	means a protrusion from a building such as awnings, steps, porches, eaves, fascias, gutters, masonry chimneys, flues, pipes, domestic fuel or water tanks, and heating or cooling equipment or other services.
public art gallery	means use of land to display works of art including ceramics, furniture, glass, paintings, sculptures and textiles, which land is maintained at the public expense, under public control and open to the public generally.
public holiday	means a statutory holiday as defined in the Statutory Holidays Act 2000.
public land	means land owned or managed by the Crown, a State authority or a council.
public open space	means land for public recreation or public gardens or for similar purposes.
public stormwater system	means as defined in the Urban Drainage Act 2013.
rail authority	means the agency, authority or business enterprise which has responsibility for rail infrastructure in Tasmania.
railway	means as defined in the Rail Infrastructure Act 2007.
refuse disposal	means use of land to dispose of refuse.
regional land use strategy	means as defined in the Act.
regulated entity	means as defined in the Water and Sewerage Industry Act 2008.

Term	Definition
remand centre	means use of land for an institution to which accused persons are sent for detention while awaiting appearance before a court.
reserve management plan	means a management plan prepared under the National Parks and Reserves Management Act 2002, the Wellington Park Act 1993 or the Living Marine Resources Act 1995, or any management plan approved under the Crown Lands Act 1976.
residential care facility	means use of land for accommodation and personal or nursing care. It includes recreational, health or laundry facilities and services for residents of the facility.
residential support service	means a centre, where services are provided by government or other community organisations, in the provision of residential accommodation.
respite centre	means use of land for respite care for the sick, aged or persons with disabilities.
retirement village	means use of land to provide permanent accommodation for retired people or the aged and includes communal recreational or medical facilities for residents of the village.
road	means land over which the general public has permanent right of passage, including the whole width between abutting property boundaries, all footpaths and the like, and all bridges over which such a road passes.
road authority	means for State highways or subsidiary roads, within the meaning of the <i>Roads</i> and Jetties Act 1935, and bridges declared under section 23 of the <i>Local</i> <i>Government (Highways) Act 1982</i> , the Minister administering those Acts and in relation to all other roads, the council having the control of such roads pursuant to the <i>Local Government (Highways) Act 1982</i> .
scrap yard	means use of land where disused vehicles, materials and machinery or parts are collected and either sold or prepared for being used again, and includes the use or onselling of scrap materials.
sealed plan	means as defined in the Local Government (Building and Miscellaneous Provisions) Act 1993.
secondary residence	 means an additional residence which is self-contained and: (a) has a gross floor area not more than 60m²; (b) is appurtenant to a single dwelling; (c) shares with the single dwelling access and parking, and water, sewerage, gas, electricity and telecommunications connections and meters; and (d) may include laundry facilities.
self storage	means use of land to store goods in individual enclosed compartments.

Term	Definition	
sensitive use	means a residential use or a use involving the presence of people for extended periods except in the course of their employment such as a caravan park, childcare centre, dwelling, hospital or school.	
service station	 means use of land to sell motor vehicle fuel from bowsers, and vehicle lubricants and if such use is made of the land, includes: (a) selling or installing motor vehicle accessories or parts; (b) selling of food, drinks and other convenience items; (c) hiring of trailers; and (d) servicing or washing motor vehicles. 	
setback	means the distance from any lot boundary to a building on the lot.	
shipping container storage	means use of land to store shipping containers and if such use is made of the land, includes the cleaning, repair, servicing, painting or fumigation of the shipping containers.	
sign	means a device, structure, depiction, or the like, that is intended to give information, advertise or attract attention to a place, product, service or event.	
single dwelling	means a dwelling on a lot on which no other dwelling, other than a secondary residence, is situated.	
site	means the lot or lots on which a use or development is located or proposed to be located.	
site area per dwelling	means the area of a site, excluding any access strip, divided by the number of dwellings on that site.	
site coverage	means the proportion of a site, excluding any access strip, covered by roofed buildings.	
skyline	means a line along the top of a hill or mountain that forms an outline against the sky.	
solar energy installation	means a solar panel, evacuated tube solar collectors, or the like.	
solid fuel depot	means use of land to sell solid fuel, such as briquettes, coal, and firewood.	
standard	means, in any zone, code or specific area plan, the objective for a particular planning issue and the means for satisfying that objective through either an acceptable solution or performance criterion presented as the tests to meet the objective.	

Term	Definition	
State authority	means as defined in the Act.	
State-reserved land	 means: (a) land owned by the Crown or a State authority and reserved for any purpose under the <i>Nature Conservation Act 2002</i>, or the <i>Crown Lands Act 1976</i>; or (b) fee simple land reserved for any purpose under the <i>Nature Conservation Act 2002</i> where the Director of Parks and Wildlife is the managing authority. 	
State waters	means as defined in section 5 of the Living Marine Resources Management Act 1995.	
storey	means that part of a building between floor levels, excluding a mezzanine level. If there is no floor above, it is the part between the floor level and the ceiling.	
strata lot	means a lot as defined in the Strata Titles Act 1998.	
strata scheme	means as defined in the Strata Titles Act 1998.	
streetscape	means the visual quality of a street depicted by road width, street planting, characteristics and features, public utilities constructed within the road reserve, the setback of buildings and structures from the property boundaries, the quality, scale, bulk and design of buildings and structures fronting the road reserve. For the purposes of determining streetscape for a particular site, the above matters are relevant when viewed from either side of the same street within 100m of each side boundary of the site, unless for a local heritage precinct or local historic landscape precinct listed in the relevant Local Provisions Schedule, where the extent of the streetscape may be determined by the relevant precinct provisions.	
subdivide	 means to divide the surface of a lot by creating estates or interests giving separate rights of occupation otherwise than by: (a) a lease of a building or of the land belonging to and contiguous to a building between the occupiers of that building; (b) a lease of airspace around or above a building; (c) a lease of a term not exceeding 10 years or for a term not capable of exceeding 10 years; (d) the creation of a lot on a strata scheme or a staged development scheme under the <i>Strata Titles Act 1998</i>; or (e) an order adhering existing parcels of land. 	
subdivision	means the act of subdividing or the lot subject to an act of subdividing.	
suitably qualified person	means a person who can adequately demonstrate relevant tertiary qualifications (or equivalent) and experience in a recognised field of knowledge, expertise or practice with direct relevance to the matter under consideration.	

Term	Definition		
take away food premises	means use of land to prepare and sell food and drink primarily for immediate consumption off the premises.		
temporary housing	means residential use or development for a period of not more than 12 months commencing from the date on which an occupancy permit or temporary occupancy permit is issued in accordance with Part 17 of the <i>Building Act 2016</i> .		
threatened native vegetation community	means as defined under the Nature Conservation Act 2002.		
tolerable risk	 means the lowest level of likely risk from the relevant hazard: (a) to secure the benefits of a use or development in a relevant hazard area; and (b) which can be managed through: (i) routine regulatory measures; or (ii) by specific hazard management measures for the intended life of each use or development. 		
turf growing	means use of land for growing grass which is cut into sods or rolls containing the roots and some soil for direct transplanting.		
use	means as defined in the Act.		
vehicle crossing	means a driveway for vehicular traffic to enter or leave a road carriageway from land adjoining a road.		
vehicular access	means land over which a vehicle enters or leaves a road from land adjoining a road.		
veterinary centre	 means land used to: (a) diagnose animal diseases or disorders; (b) surgically or medically treat animals; or (c) prevent animal diseases or disorders, and includes keeping animals on the premises for those purposes. 		
visitor centre	means land used for the principal purpose of providing information to tourists and may include incidental retail sales and supplementary services to tourism.		
wall height	means the vertical distance from existing ground level immediately below the wall to the uppermost part of the wall excluding any roof element.		
waste transfer station	means use of land to receive and temporarily store waste before it is removed elsewhere.		
watercourse	means a defined channel with a natural or modified bed and banks that carries surface water flows.		

Term	Definition	
wetland	means a depression in the land, or an area of poor drainage, that holds water derived from ground water and surface water runoff and supports plants adapted to partial or full inundation and includes an artificial wetland.	
winery	means use of land for the manufacture of vineyard products and if land is so used includes the display and sale of vineyard products, and the preparation and sale of food and drink for consumption on the premises.	
works	means as defined in the Act.	

4.0 Exemptions

- 4.0.1 Use or development listed in Tables 4.1 4.6 is exempt from requiring a permit provided it meets the corresponding requirements.
- 4.0.2 Use or development which, under the provisions of the Act, including sections 12(1) (4), a planning scheme is not to prevent, does not require a permit.
- 4.0.3 Excluding the exemption for emergency works at 4.3.1, in the coastal zone, no development listed in Tables 4.2 4.6 is exempt from this planning scheme if it is to be undertaken on actively mobile landforms as referred to in clause 1.4 of the Tasmanian *State Coastal Policy 1996.* Any development on actively mobile landforms in the coastal zone must comply with the requirements of the Coastal Erosion Hazard Code.

	Use	Req	uirements
4.1.1	bee keeping	The use of land for bee keeping.	
4.1.2	occasional use	If for	r infrequent or irregular sporting, social or cultural events.
4.1.3	home-based child care	lf: (a) (b)	the person conducting the home-based child care normally uses the dwelling as their principal place of residence; it does not involve employment of persons other than a resident; and
		(c)	there are no more than 6 non-resident children for child care per day.
4.1.4	home occupation	lf:	
		(a)	not more than 40m ² of gross floor area of the dwelling is used for non-residential purposes;
		(b)	the person conducting the home occupation normally uses the dwelling as their principal place of residence;
		(c)	it does not involve employment of persons other than a resident;
		(d)	any load on a utility is no more than for a domestic use;
		(e)	there is no activity that causes electrical interference to other land;
		(f)	it does not involve display of goods for sale that are visible from any road or public open space adjoining the site;
		(g)	it involves no more than 1 advertising sign (that must be non-illuminated) and not more than 0.2m ² in area;
		(h)	it does not involve refuelling, servicing, detailing or repair of vehicles not owned by the resident on the site;
		(i)	no more than 1 commercial vehicle is on the site at any one time and no commercial vehicle on the site exceeds 2 tonnes; and

Table 4.1 Exempt uses

	Use	Requirements		
		(j) any vehicle used solely for non-residential purposes must be parked on the site.		
4.1.5	markets	If on public land.		
4.1.6	Visitor Accommodation in a dwelling (including a secondary residence)	 If: (a) the dwelling is used by the owner or occupier as their main place of residence, and only let while the owner or occupier is on vacation; or (b) the dwelling is used by the owner or occupier as their main place of residence, and visitors are accommodated in not more than 4 bedrooms. 		

	Use or development	Requirements	
4.2.1	dam construction works	Works that are directly associated with construction of a dam approved under the <i>Water Management Act 1999</i> , including the construction of vehicular access, vegetation removal and bulk soil excavations, are exempt if contained on the same site as the dam.	
4.2.2	stormwater infrastructure	Provision, removal, maintenance and repair of pipes, open drains and pump stations for the reticulation or removal of stormwater by, or on behalf of, the Crown, a council or a State authority unless the Landslip Hazard Code applies and requires a permit for the use or development.	
4.2.3	irrigation pipes	If for the laying or installation of irrigation pipes in the Rural Zone or Agriculture Zone that are directly associated with an agricultural use, provided no pipes are located within a wetland, unless the Landslip Hazard Code applies and requires a permit for the use or development.	
4.2.4	road works	Maintenance and repair of roads and upgrading by or on behalf of the road authority which may extend up to 3m outside the road reserve including:	
		(a) widening or narrowing of existing carriageways;	
		(b) making, placing or upgrading kerbs, gutters, footpaths, shoulders, roadsides, traffic control devices, line markings, street lighting, safety barriers, signs, fencing and landscaping, unless the Local Historic Heritage Code applies and requires a permit for the use or development; or	
		(c) repair of bridges, or replacement of bridges of similar size in the same or adjacent location.	
4.2.5	vehicle crossings,	lf:	
	junctions and level crossings	(a) development of a vehicle crossing, junction or level crossing:	
		(i) by the road or rail authority; or	
		(ii) in accordance with the written consent of the relevant	

	Use	Requirements
		road or rail authority; or (b) use of a vehicle crossing, junction or level crossing by a road or railway authority.
	Use or development	Requirements
4.2.6	minor communications infrastructure	 If: (a) development of low impact facilities as defined in Parts 2 and 3 of the <i>Telecommunications (Low-Impact Facilities)</i> <i>Determination 2018</i>; (b) works involved in the inspection of land to identify suitability for telecommunications infrastructure; (c) development of a facility that has been granted a facility installation permit by the Australian Communications and Media Authority; (d) works involved in the maintenance of telecommunication infrastructure; (e) works meeting the transitional arrangements as defined in Part 2 of Schedule 3 of the <i>Telecommunications Act 1997</i>; (f) feeder and distribution optical fibre cables not exceeding 18mm in diameter and with attached messenger wires on existing poles; (g) the connection of a line forming part of a telecommunications network to a building, caravan or mobile home including drop cabling of optic fibre networks; or (h) works involved in the installation, for purposes in connection with the installation of the National Broadband Network, of a: (i) galvanised steel service pole, no more than 6.6m in height above existing ground level, and 0.2m in diameter, or (ii) timber service pole, no more than 10.2m in height above existing ground level, and 0.42m in diameter,
4.2.7	minor infrastructure	unless the Safeguarding of Airports Code applies and requires a permit for the use or development. Provision, maintenance and modification of footpaths, cycle paths, playground equipment, seating, shelters, bus stops and bus shelters, street lighting, telephone booths, public toilets, post boxes, cycle racks, fire hydrants, drinking fountains, waste or recycling bins, public art, and the like by, or on behalf of, the Crown, a council or a State authority.
4.2.8	navigation aids	Provision, maintenance and modification of any sort of marker which aids in navigation of nautical or aviation craft such as lighthouses, buoys, fog signals, landing lights, beacons, and the like, unless the Safeguarding of Airports Code applies and requires a permit for the use or development.
4.2.9	electric car rechargers	Provision and maintenance if in a car park.

	Use or development	Requirements
4.3.1	emergency works	Urgent works to protect property, public safety or the environment in an emergency situation, that are required or authorised by or on behalf of the Crown, a council or a State authority.
4.3.2	internal building and works	All internal building and works. ¹
4.3.3	maintenance and repair	If for maintenance and repair of buildings. ²
4.3.4	minor alterations	If for minor alterations of buildings, such as re-cladding, re-roofing and replacing windows and doors without enlargement or extension, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.3.5	temporary buildings or works	 If: (a) to facilitate development for which a permit has been granted or for which no permit is required or for an occasional use that is exempt under this clause; (b) not occupied for Residential use; and (c) removed within 14 days of completion of development or occasional use.
4.3.6	unroofed decks	 If: (a) not attached to or abutting a habitable building; and (b) the floor level is less than 1m above existing ground level, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.3.7	outbuildings	 Construction or placement of an outbuilding if: (a) it is not between a frontage and the building line, or if on a lot with no buildings, the setback from the frontage is not less than the relevant Acceptable Solution requirement; and (b) the area of the new outbuilding that is roofed is not more than: (i) 10m² if: a. there is not more than one other outbuilding on the lot; b. the total area of all outbuildings on the lot that are roofed will not be more than 20m²; c. no side of the new outbuilding is longer than 3.2m; and d. the building height of the new outbuilding is not more than 2.4m; or

Table 4.3 Exempt building and works

¹ Internal building and works to places entered on the Tasmanian Heritage Register may still require heritage approval under the *Historic Cultural Heritage Act 1995*.

² Section 12(1)(b) of the Act also applies.

		(ii) 18m² if:
		a. there is no other outbuilding on the lot;
		b. the roof span of the new outbuilding is not more than 3m;
		 the building height of the new outbuilding is not more than 2.4m;
		d. the new outbuilding is not less than 0.9m from an existing building on the lot;
		e. the new outbuilding has a setback of not less than 0.9m from any boundary; and
		f. the change in existing ground level as a result of cut or fill is not more than 0.5m,
		unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.3.8	outbuildings in Rural Living Zone, Rural	Outbuildings located in the Rural Living Zone, Rural Zone or Agriculture Zone if:
	Zone or Agriculture Zone	(a) an outbuilding exempt under clause 4.3.7; or
		(b) the outbuilding is associated with an existing dwelling and the:
		 total gross floor area of all outbuildings on the lot is not more 108m²;
		 setback is no less than the relevant Acceptable Solution requirement, or located no closer to a property boundary than an existing dwelling or any outbuilding on the site whichever is the lesser; and
		(iii) building height is not more than 6m and wall height is not more than 4m,
		unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.3.9	agricultural buildings	Located in the Rural Zone or Agriculture Zone, if:
	and works in the Rural Zone or Agriculture Zone	 (a) buildings or works, excluding a dwelling or land filling, are directly associated with, and a subservient part of, an agricultural use;
		 (b) on prime agricultural land only if not for plantation forestry and:
		 (i) it is directly associated with an agricultural use dependent on the soils as a growth medium; or
		 (ii) it is conducted in a manner which does not alter, disturb or damage the existing soil profile or preclude it from future use as a growth medium;
		 (c) individual buildings are not more than 200m² in gross floor area;
		(d) building height does not exceed 12m; and
		 buildings have a setback of not less than 5m from all property boundaries,
		unless the Local Historic Heritage Code, or the Scenic Protection Code, applies and requires a permit for the use or development.
4.3.10	demolition of exempt	Demolition of buildings for which the construction would be exempt under Tables 4.2 – 4.6, unless the Local Historic Heritage

	buildings	Code applies and requires a permit for the use or development.
4.3.11	garden structures	Garden structures, such as a pergola, garden arch, trellis or frame, if:
		(a) the total area is no greater than 20m ² ;
		(b) the height is no more than 3m above ground level; and
		 (c) it is uncovered or covered by an open-weave permeable material that allows water through,
		unless the Local Historic Heritage Code applies and requires a permit for the use or development.

Table 4.4Vegetation exemptions

	Use or development	Requirements
4.4.1	vegetation removal for safety or in accordance with other Acts	If for:
		 (a) clearance and conversion of a threatened native vegetation community, or the disturbance of a vegetation community, in accordance with a forest practices plan certified under the <i>Forest Practices Act 1985</i>, unless for the construction of a building or the carrying out of any associated development;
		(b) harvesting of timber or the clearing of trees, or the clearance and conversion of a threatened native vegetation community, on any land to enable the construction and maintenance of electricity infrastructure in accordance with the <i>Forest Practices Regulations 2017</i> ;
		 (c) fire hazard management in accordance with a bushfire hazard management plan approved as part of a use or development;
		 (d) fire hazard reduction required in accordance with the Fire Service Act 1979 or an abatement notice issued under the Local Government Act 1993;
		(e) fire hazard management works necessary to protect existing assets and ensure public safety in accordance with a plan for fire hazard management endorsed by the Tasmania Fire Service, Sustainable Timbers Tasmania, the Parks and Wildlife Service, or council;
		 (f) clearance within 2m of lawfully constructed buildings or infrastructure including roads, tracks, footpaths, cycle paths, drains, sewers, power lines, pipelines and telecommunications facilities, for maintenance, repair and protection;
		(g) safety reasons where the work is required for the removal of dead wood, or treatment of disease, or required to remove an unacceptable risk to public or private safety, or where the vegetation is causing or threatening to cause damage to a substantial structure or building; or
		(h) within 1.5m of a lot boundary for the purpose of erecting or maintaining a boundary fence, or within 3m of a lot boundary in the Rural Zone and Agriculture Zone.
4.4.2	landscaping and vegetation management	Landscaping and vegetation management within a private garden, public garden or park, or within State-reserved land or a council reserve, if:

 (a) the vegetation is not protected by legislation, a permit condition, an agreement made under section 71 of the Act, or a covenant; or
(b) the vegetation is not specifically listed and described as part of a Local Heritage Place or a significant tree in the relevant Local Provisions Schedule,
unless the management is incidental to the general maintenance.

	Use or development	Requirements
4.4.3	vegetation rehabilitation	The planting, clearing or modification of vegetation for:
	works	 soil conservation or rehabilitation works including Landcare activities and the like, provided that ground cover is maintained and erosion is managed;
		 (b) the removal or destruction of declared weeds or environmental weeds listed under a strategy or management plan approved by a council;
		 (c) water quality protection or stream bank stabilisation works approved by the relevant State authority or a council;
	(d) the implementation of a vegetation management agreement or a natural resource, catchment, coastal, reserve or property management plan or the like, provided the agreement or plan has been endorsed or approved by the relevant State authority or a council; or	
		(e) the implementation of a mining and rehabilitation plan approved under the terms of a permit, an Environment Protection Notice, or rehabilitation works approved under the <i>Mineral Resources Development Act 1995</i> .

Table 4.5 Renewable energy exemptions

	Use or development	Requirements
4.5.1	ground mounted solar energy installations	If covering an area of not more than 18m ² , unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.5.2	roof mounted solar energy installations	Unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.5.3	wind turbines	lf:
		(a) one wind turbine per lot;
		(b) no part of the structure is closer to a frontage than any other existing building, excluding a fence, on the lot;
		 (c) no part of the structure is within 15m of a side or rear boundary;
		(d) the height of the structure excluding blades above existing ground level is no higher than:
		 20m in the Light Industrial Zone, General Industrial Zone, Rural Zone, Agriculture Zone, Port and Marine Zone or Utilities Zone; or
		(ii) 12m in any other zone; and
		(e) if adjoining a sensitive use, no part of the structure is closer to a boundary of a sensitive use on another lot than:
		 60m if the wind turbine has an energy generation potential of 10kW or less; or
		 (ii) 250m if the wind turbine has an energy generation potential of more than 10kW,
		unless the Electricity Transmission Infrastructure Protection Code, Local Historic Heritage Code, Attenuation Code, Landslip Hazard Code, or Safeguarding of Airports Code applies and requires a permit for the use or development.

Table 4.6 Miscellaneous exemptions

signs	If listed in, and meeting the requirements of, clause C1.4 in the Signs Code.
use or development in a road reserve or on public land	 If: (a) for outdoor dining facilities, signboards, roadside vendors and stalls on a road that is managed by a relevant council; or (b) a community garden on public land used for growing vegetables, fruit or ornamentals.
fences within 4.5m of a frontage	 Fences (including free-standing walls) within 4.5m of a frontage, if located in: (a) the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Village Zone, Urban Mixed Use Zone, Local Business Zone, General Business Zone, Central Business Zone, Commercial Zone or any particular purpose zone, and if not more than a height of: (i) 1.2m above existing ground level if the fence is solid; or (ii) 1.8m above existing ground level, if the fence has openings above the height of 1.2m which provide a uniform transparency of at least 30% (excluding any posts or uprights); (b) the Utilities Zone and adjoining a property in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Village Zone and if not more than a height of: (i) 1.2m above existing ground level if the fence is solid; or (b) the Utilities Zone and adjoining a property in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Village Zone and if not more than a height of: (i) 1.2m above existing ground level if the fence is solid; or (ii) 1.8m above existing ground level if the fence has openings above the height of 1.2m which provide a uniform transparency of at least 30% (excluding any posts or uprights); or (c) any other zone, or if located in the Utilities Zone and not adjoining a property in the General Residential Zone, or if located in the Utilities Zone and not adjoining a property in the General Residenting a property in the General Residenting and property in the fence has openings above the height of 1.2m which provide a uniform transparency of at least 30% (excluding any posts or uprights); or
	 adjoining a property in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Village Zone and if not more than a height of: (i) 1.8m above existing ground level if adjoining public land; or (ii) 2.1m above existing ground level if not adjoining public land, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
	a road reserve or on public land fences within 4.5m of a

	Use or development	Requirements
4.6.4	fences not within 4.5m of a frontage	Fences not within 4.5m of a frontage, if located in:
		 (a) the Urban Mixed Use Zone, Local Business Zone, General Business Zone, Central Business Zone, or Commercial Zone and:
		 (i) it is not more than a height of 1.8m above existing ground level if adjoining public land; or
		 (ii) it is not more than a height of 2.1m above existing ground level if not adjoining public land;
		and it does not contain barbed wire if on a common boundary with a property in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone; or
		(b) any other zone and it is
		 not more than a height of 1.8m above existing ground level if adjoining public land; or
		 (ii) not more than a height of 2.1m above existing ground level if not adjoining public land,
		unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.5	fences for security purposes	Fences for security purposes, if it is located:
		 (a) within the Light Industrial Zone, General Industrial Zone, Port and Marine Zone or Utilities Zone or at an airport and is not more than a height of 2.8m above existing ground level; or
		(b) within the Light Industrial Zone or Utilities Zone and a common boundary fence with a property in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Village Zone and:
		(i) is not more than a height of 2.1m above existing ground level; and
		(ii) does not contain barbed wire,
		unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.6	fences in the Rural Zone or Agriculture Zone	Fences within the Rural Zone or Agriculture Zone, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.7	temporary fencing	If for public safety, construction works or occasional sporting, social or cultural events.
4.6.8	retaining walls	Retaining walls, excluding any land filling, if:
		 (a) it has a setback of not less than 1.5m from any boundary; and
		 (b) it retains a difference in ground level of less than 1m, unless the Local Historic Heritage Code or the Landslip Hazard Code applies, and requires a permit for the use or development.

4.6.9	land filling	Land filling to a depth of not more than 1m above existing ground level from that existing at the effective date, unless the:
		(a) Natural Assets Code;
		(b) Coastal Erosion Hazard Code;
		(c) Coastal Inundation Hazard Code;
		(d) Flood-Prone Areas Hazard Code; or
		(e) Landslip Hazard Code,
		applies and requires a permit for the use or development.

	Use or development	Requirements
4.6.10	antennas, masts, flagpoles, and satellite dishes	 If for: (a) minor communications infrastructure exempt under clause 4.2.6; or (b) all other antennas, masts, flagpoles and satellite dishes, unless : (i) the Electricity Transmission Infrastructure Protection Code, Local Historic Heritage Code, or Safeguarding of Airports Code applies and requires a permit for the use or development; or (ii) for facilities as defined under the Telecommunications Code.
4.6.11	heat pumps and air- conditioners	 If: (a) attached, or located, to the side or rear of building; (b) not within 10m of a boundary of a property containing a sensitive use if for a non-residential use located in a General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Village Zone; or (c) not within 10m of the boundary of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Inner Residential Zone, Low Density Residential Zone, Inner Residential Zone, Low Density Residential Zone, Inner Residential Zone, Local Business Zone, General Business Zone, Central Business Zone, Commercial Zone, Light Industrial, Major Tourism Zone, Utilities Zone, Community Purpose Zone, Recreation Zone or Open Space Zone, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.12	hot water cylinders	If attached, or located, to the side or rear of a building, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.13	rain-water tanks	 If: (a) attached, or located, to the side or rear of a building; (b) not more than 45kL in capacity; (c) not on a stand with a height of more than 1.2m above existing ground level; and (d) has a setback not less than the Acceptable Solution for the relevant zone, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.14	rain-water tanks in Rural Living Zone, Rural Zone, Agriculture Zone or Landscape Conservation Zone	 If: (a) attached, or located, to the side or rear of a building; and (b) has a setback not less than the Acceptable Solution for the relevant zone, unless the Local Historic Heritage Code applies and requires a permit for the use or development.

	Use or development	Requirements
4.6.15	fuel tanks in the Light Industrial Zone, General Industrial Zone, Rural Zone, Agriculture Zone or Port and Marine Zone	 If: (a) it is located in the Light Industrial Zone, General Industrial Zone, Rural Zone, Agriculture Zone or Port and Marine Zone; and (b) it has a setback not less than the Acceptable Solution for the relevant zone, unless: (iii) the Local Historic Heritage Code applies and requires a permit for the use or development; or (iv) for the storage of a hazardous chemical of a manifest quantity and the Coastal Erosion Hazard Code, Coastal Inundation Hazard Code, Flood-Prone Areas Hazard Code, Bushfire-Prone Areas Code or Landslip Hazard Code, applies and requires a permit for the use or development.
4.6.16	fuel tanks in other zones	 If: (a) in a zone excluding the Light Industrial Zone, General Industrial Zone, Rural Zone, Agriculture Zone or Port and Marine Zone; (b) attached, or located, to the side or rear of a building; (c) not more than 1kL in capacity; (d) not on a stand with a height of more than 1.2m above existing ground level; and (e) has a setback not less than the Acceptable Solution for the relevant zone, unless the Local Historic Heritage Code applies and requires a permit for the use or development.
4.6.17	anemometers	All anemometers.
4.6.18	strata division	Division by strata titles of lawfully constructed or approved buildings for a use that has been granted a permit under this planning scheme or previously lawfully approved.

5.0 Planning Scheme Operation

5.1 General Provisions

- 5.1.1 Clause 7.0 of this planning scheme sets out provisions, for certain types of use or development that are not specific to any zone, specific area plan, or area to which a code applies.
- 5.1.2 Where there is an inconsistency between a provision in a zone, specific area plan or code and a general provision in clause 7.0 of this planning scheme, the general provision in clause 7.0 prevails.

5.2 Operation of Zones

- 5.2.1 The primary controls for the use or development of land are set out in the zones.
- 5.2.2 The zones include use and development standards specific to each zone.
- 5.2.3 Maps included in the Local Provisions Schedules show how land is zoned.
- 5.2.4 The requirements for zones, including particular purpose zones, in the Local Provisions Schedules are set out in clause LP1.0 and Appendix A.
- 5.2.5 Each Local Provisions Schedule is permitted to include a particular purpose zone that is particular to an area of land.
- 5.2.6 After the effective date, a particular purpose zone is not permitted to override the:
 - (a) administration provisions in clauses 3.0 6.0;
 - (b) general provisions in clause 7.0; or
 - (c) provisions in a code, unless specifically provided for in that code.

5.3 Operation of Specific Area Plans

- 5.3.1 Each Local Provisions Schedule is permitted to include a specific area plan that is in addition to, modifies, or is in substitution for, a provision in a zone Use Table or a use or development standard in a zone or code.
- 5.3.2 The requirements and structure for specific area plans in the Local Provisions Schedules are set out in clause LP1.0 and Appendix A.
- 5.3.3 After the effective date, a specific area plan is not permitted to override the administration provisions in clauses 3.0 6.0 or general provisions in clause 7.0.

5.4 Operation of Site-specific Qualifications

- 5.4.1 Each LPS is permitted to include a site-specific qualification that is in addition to, modifies, or is in substitution for, a zone Use Table or a use or development standard in a zone or a code.
- 5.4.2 The requirements and structure for a site-specific qualification in the LPS are set out in clause LP1.0 and Appendix A.

- 5.4.3 After the effective date, a site-specific qualification is permitted to override a general provision in clause 7.0, or any provision in a zone, code, or specific area plan.
- 5.4.4 A site-specific qualification is not permitted to override the administration provisions in clauses 3.0 –
 6.0.

5.5 Operation of Codes

- 5.5.1 The codes identify areas of land or planning issues which require compliance with additional provisions.
- 5.5.2 Codes set out provisions for:
 - (a) particular types of use or development that may apply to land in one or more zones; and
 - (b) matters that affect land that are not appropriately described by zone boundaries.
- 5.5.3 Where there is an inconsistency between a provision in a code and a provision in a zone, the code provision prevails.
- 5.5.4 An inconsistency between a provision of a code and a provision of a zone does not exist if a code requires compliance with standards additional to those that apply within a zone.
- 5.5.5 The requirements and structure for code overlay maps and lists in the Local Provisions Schedules are set out in clause LP1.0 and Appendix A.

5.6 Compliance with Applicable Standards

- 5.6.1 A use or development must comply with each applicable standard in the State Planning Provisions and the Local Provisions Schedules.
- 5.6.2 A standard is an applicable standard if:
 - (a) the proposed use or development will be on a site within:
 - (i) a zone;
 - (ii) an area to which a specific area plan relates; or
 - (iii) an area to which a site-specific qualification applies; or
 - (b) the proposed use or development is a use or development to which a relevant code applies; and
 - (c) the standard deals with a matter that could affect, or could be affected by, the proposed use or development.
- 5.6.3 Compliance for the purposes of sub-clause 5.6.1 of this planning scheme consists of complying with the Acceptable Solution or satisfying the Performance Criterion for that standard.
- 5.6.4 The planning authority may consider the relevant objective in an applicable standard to determine whether a use or development satisfies the Performance Criterion for that standard.

6.0 Assessment of an Application for Use or Development

6.1 Application Requirements

- 6.1.1 An application must be made for any use or development for which a permit is required under this planning scheme.
- 6.1.2 An application must include:
 - (a) a signed application form;
 - (b) any written permission and declaration of notification required under s.52 of the Act and, if any document is signed by the delegate, a copy of the delegation;
 - (c) details of the location of the proposed use or development;
 - (d) a copy of the current certificate of title for all land to which the permit sought is to relate, including the title plan; and
 - (e) a full description of the proposed use or development.
- 6.1.3 In addition to the information that is required by clause 6.1.2, a planning authority may, in order to enable it to consider an application, require such further or additional information as the planning authority considers necessary to satisfy it that the proposed use or development will comply with any relevant standards and purpose statements in the zone, codes or a specific area plan, applicable to the use or development including:
 - (a) any schedule of easements if listed in the folio of the title and appear on the plan, where applicable;
 - (b) a site analysis and site plan at a scale acceptable to the planning authority showing, where applicable:
 - (i) the existing and proposed use(s) on the site;
 - (ii) the boundaries and dimensions of the site;
 - (iii) topography including contours showing AHD levels and major site features;
 - (iv) natural drainage lines, watercourses and wetlands on or adjacent to the site;
 - (v) soil type;
 - (vi) vegetation types and distribution including any known threatened species, and trees and vegetation to be removed;
 - (vii) the location and capacity and connection point of any existing services and proposed services;
 - (viii) the location of easements on the site or connected to the site;
 - (ix) existing pedestrian and vehicle access to the site;
 - (x) the location of existing and proposed buildings on the site;
 - (xi) the location of existing adjoining properties, adjacent buildings and their uses;

- (xii) any natural hazards that may affect use or development on the site;
- (xiii) proposed roads, driveways, parking areas and footpaths within the site;
- (xiv) any proposed open space, common space, or facilities on the site; and
- (xv) proposed subdivision lot boundaries;
- (c) where it is proposed to erect buildings, a detailed layout plan of the proposed buildings with dimensions at a scale of 1:100 or 1:200 as required by the planning authority showing, where applicable:
 - (i) the internal layout of each building on the site;
 - (ii) the private open space for each dwelling;
 - (iii) external storage spaces;
 - (iv) parking space location and layout;
 - (v) major elevations of every building to be erected;
 - (vi) the relationship of the elevations to existing ground level, showing any proposed cut or fill;
 - (vii) shadow diagrams of the proposed buildings and adjacent structures demonstrating the extent of shading of adjacent private open spaces and external windows of buildings on adjacent sites; and
 - (viii) materials and colours to be used on roofs and external walls.

6.2 Categorising Use or Development

- 6.2.1 Each proposed use or development must be categorised into one of the Use Classes in Table 6.2.
- 6.2.2 A use or development that is directly associated with and a subservient part of another use on the same site must be categorised into the same Use Class as that other use.
- 6.2.3 If a use or development fits a description of more than one Use Class, the Use Class most specifically describing the use applies.
- 6.2.4 If a use or development does not readily fit any Use Class, it must be categorised into the most similar Use Class.
- 6.2.5 If more than one use or development is proposed, each use that is not directly associated with and subservient to another use on the same site must be individually categorised into a Use Class.
- 6.2.6 Notwithstanding sub-clause 6.2.1 of this planning scheme, development which is for subdivision, a sign, land filling, retaining walls or coastal protection works does not need to be categorised into one of the Use Classes.

Table 6.2 Use Classes

Use Class	Description		
Bulky Goods Sales	use of land for the sale of heavy or bulky goods which require a large area for handling, storage and display. Examples include garden and landscaping materials suppliers, rural suppliers, timber yards, trade suppliers, showrooms for furniture, electrical goods and floor coverings, and motor vehicle, boat or caravan sales.		
Business and Professional Services	use of land for administration, clerical, technical, professional or similar activities. Examples include a bank, call centre, consulting room, funeral parlour, medical centre, office, post office, real estate agency, residential support services, travel agency and veterinary centre.		
Community Meeting and Entertainment	use of land for social, religious and cultural activities, entertainment and meetings Examples include an art and craft centre, place of worship, cinema, civic centre, function centre, library, museum, public art gallery, public hall and theatre, community centre and neighbourhood centre.		
Crematoria and Cemeteries	use of land for the burial or cremation of human or animal remains, and if land is so used, the use includes a funeral chapel.		
Custodial Facility	use of land, other than psychiatric facilities, for detaining or reforming persons committed by the courts or for the purpose of court proceedings or police investigations. Examples include a prison, remand centre and any other type of detention facility.		
Domestic Animal Breeding, Boarding or Training	use of land for breeding, boarding or training domestic animals. Examples include an animal pound, cattery and kennel.		
Educational and Occasional Care	use of land for educational or short-term care purposes. Examples include a childcare centre, day respite centre, employment training centre, kindergarten, primary school, secondary school and tertiary institution.		
Emergency Services use of land for police, fire, ambulance and other emergency services storage and deployment of emergency vehicles and equipment. Examination ambulance station, fire station and police station.			
Equipment and Machinery Sales and Hire	use of land for displaying, selling, hiring or leasing plant, equipment or machinery, associated with, but not limited to, cargo-handling, construction, earth-moving, farming, industry and mining.		
Extractive Industry	ctive Industry use of land for extracting or removing material from the ground, other than Reso Development, and includes the treatment or processing of those materials by crushing, grinding, milling or screening on, or adjoining the land from which it is extracted. Examples include mining, quarrying, and sand mining.		

Use Class	Description use of land for selling food or drink, which may be prepared on the premises, for consumption on or off the premises. Examples include a cafe, restaurant and take away food premises.			
Food Services				
General Retail and Hire	use of land for selling goods or services, or hiring goods. Examples include an ad sex product shop, amusement parlour, beauty salon, betting agency, bottle shop, cellar door sales, commercial art gallery, department store, hairdresser, market, primary produce sales, local shop, shop, shop front dry cleaner and supermarket.			
Hospital Services	use of land to provide health care (including preventative care, diagnosis, medical and surgical treatment, rehabilitation, psychiatric care and counselling) to persons admitted as inpatients. If the land is so used, the use includes the care or treatme of outpatients.			
Hotel Industry	use of land to sell liquor for consumption on or off the premises. If the land is so used, the use may include accommodation, food for consumption on the premises, entertainment, dancing, amusement machines and gambling. Examples include a hotel, bar, nightclub, adult entertainment venue and tavern.			
Manufacturing and Processing	use of land for manufacturing, assembling or processing products other than Resource Processing. Examples include boat building, brick making, cement works furniture making, glass manufacturing, metal and wood fabrication, mineral processing and textile manufacturing.			
Motor Racing Facility	use of land (other than public roads) to race, rally, scramble or test vehicles, including go-karts, motor boats, and motorcycles, and includes other competitive motor sports.			
Natural and Cultural Values Management				
Passive Recreation	use of land for informal leisure and recreation activities principally conducted in the open. Examples include public parks, gardens and playgrounds, and foreshore and riparian reserves.			
Pleasure Boat Facility	ty use of land to provide facilities for boats operated primarily for pleasure or recreation, including boats operated commercially for pleasure or recreation. Examples include a marina, boat ramp and jetty.			

Use Class	Description	
Port and Shipping	 use of land for: (a) berthing, navigation aid, servicing and maintenance of marine vessels which may include loading, unloading and storage of cargo or other goods, and transition of passengers and crew; or (b) maintenance dredging. Examples include berthing and shipping facilities, shipping container storage, hardstand loading and unloading areas, passenger terminals, roll-on roll-off facilities and associated platforms, stevedore and receipt offices, and a wharf. 	
Recycling and Waste Disposal	use of land to collect, dismantle, store, dispose of, recycle or sell used or scrap material. Examples include a recycling depot, refuse disposal site, scrap yard, vehicle wrecking yard and waste transfer station.	
Research and Development	use of land for electronic technology, biotechnology, or any other research and development purposes, other than as part of an educational use.	
Residential	use of land for self-contained or shared accommodation. Examples include a secondary residence, boarding house, communal residence, home-based business, home-based child care, residential care facility, residential college, respite centre, assisted housing, retirement village and single or multiple dwellings.	
Resource Development	use of land for propagating, cultivating or harvesting plants or for keeping and breeding of livestock or fishstock. If the land is so used, the use may include the handling, packing or storing of produce for dispatch to processors. Examples include agricultural use, aquaculture, controlled environment agriculture, crop production, horse stud, intensive animal husbandry, plantation forestry, forest operations, turf growing and marine farming shore facility.	
Resource Processing	use of land for treating, processing or packing plant or animal resources. Examples include an abattoir, animal saleyard, cheese factory, fish processing, milk processing, winery, brewery, cidery, distillery, and sawmilling.	
Service Industry	use of land for cleaning, washing, servicing or repairing articles, machinery, household appliances or vehicles. Examples include a car wash, commercial laundry, electrical repairs, motor repairs and panel beating.	
Sports and Recreation	use of land for organised or competitive recreation or sporting purposes including associated clubrooms. Examples include a bowling alley, fitness centre, firing range, golf course or driving range, gymnasium, outdoor recreation facility, children's play centre, swimming pool, race course, sports ground, and major sporting facility.	

Use Class	Description			
Storage	use of land for storage or wholesale of goods, and may incorporate distribution. Examples include boat and caravan storage, self storage, contractors yard, freezing and cool storage, liquid fuel depot, solid fuel depot, vehicle storage, warehouse and woodyard.			
Tourist Operation	use of land specifically to attract tourists, other than for accommodation. Example include a theme park, visitor centre or interpretation centre, wildlife park and zoo			
Transport Depot and Distribution	use of land for distributing goods or passengers, or to park or garage vehicles associated with those activities, other than Port and Shipping. Examples include a airport, bus terminal, council depot, heliport, mail centre, railway station, road or ra freight terminal and taxi depot.			
Utilities	 use of land for utilities and infrastructure including: (a) telecommunications; (b) electricity generation; (c) transmitting or distributing gas, oil, or electricity; (d) transport networks; (e) collecting, treating, transmitting, storing or distributing water; or (f) collecting, treating, or disposing of storm or floodwater, sewage, or sullage. Examples include an electrical sub-station or powerline, gas, water or sewerage main, optic fibre main or distribution hub, pumping station, railway line, retention basin, road, sewage treatment plant, storm or flood water drain, water storage dam and weir. 			
Vehicle Fuel Sales and Service	use of land primarily for the sale of motor vehicle fuel and lubricants, and if the land is so used, the use may include the routine maintenance of vehicles. An example is a service station.			
Vehicle Parking	use of land for the parking of motor vehicles. Examples include single and multi- storey car parks.			
Visitor Accommodation	use of land for providing short or medium-term accommodation for persons away from their normal place of residence on a commercial basis or otherwise available to the general public at no cost. Examples include a backpackers hostel, camping and caravan park, holiday cabin, motel, overnight camping area, residential hotel and serviced apartment complex.			

6.3 Qualification of Use

6.3.1 A Use Class may be subject to qualification in a Use Table which provides for conditions or limitations on the Use Class.

6.4 Requirement for a Permit

- 6.4.1 Except as provided in sub-clauses 6.5 and 6.6 of this planning scheme, use or development of land must not be commenced or carried out:
 - (a) without a permit granted and in effect in accordance with the Act and the provisions of this planning scheme; or
 - (b) in a manner contrary to the conditions and restrictions of a permit.
- 6.4.2 A change from an individual use to another individual use, whether within the same Use Class or not, requires a permit unless the planning scheme specifies otherwise.

6.5 Exempt Use or Development

6.5.1 A permit is not required to commence or carry out a use or development if it is exempt from requiring a permit under clause 4.0 of this planning scheme.

6.6 No Permit Required Use or Development

- 6.6.1 A permit is not required to commence or carry out a use or development if:
 - the use is within a Use Class specified in the applicable Use Table as being a use for which no permit is required;
 - (b) the use or development complies with each applicable standard and does not rely on any Performance Criteria to comply with each applicable standard;
 - (c) the use or development is not Discretionary under any other provision of this planning scheme;
 - (d) the use or development is not Prohibited under any other provision of this planning scheme; and
 - (e) a permit for such use and development is not required by a code.
- 6.6.2 A permit is not required to commence or carry out a use or development if it is No Permit Required under any other provision of this planning scheme.

6.7 Permitted Use or Development

- 6.7.1 A use or development must be granted a permit if:
 - (a) the use is within a Use Class specified in the applicable Use Table as being a use which is Permitted;
 - (b) the use or development complies with each applicable standard and does not rely on any Performance Criteria to comply with each applicable standard;
 - (c) the use or development is not Discretionary under any other provision of this planning scheme; and
 - (d) the use or development is not Prohibited under any other provision of this planning scheme.
- 6.7.2 A development that is not required to be categorised under sub-clause 6.2.6 of this planning scheme and must be granted a permit if:
 - (a) there are applicable standards that apply to the development;
 - (b) the development complies with each applicable standard and does not rely on any Performance Criteria to comply with each applicable standard; and
 - (c) the development is not Discretionary or Prohibited under any other provision of this planning scheme.

6.8 Discretionary Use or Development

- 6.8.1 The planning authority has a discretion to refuse or permit a use or development if:
 - (a) the use is within a Use Class specified in the applicable Use Table as being a use which is Discretionary;
 - (b) the use or development relies on a Performance Criterion to demonstrate compliance with an applicable standard; or
 - (c) it is Discretionary under any other provision of this planning scheme.
- 6.8.2 The planning authority has a discretion under clause 7.10 to refuse or permit a development that is not required to be categorised under sub-clause 6.2.6 of this planning scheme if:
 - (a) there are no applicable standards that apply to the development; or
 - (b) the use or development relies on any Performance Criteria to demonstrate compliance with an applicable standard; and
 - (c) the development is not Prohibited under any other provision of this planning scheme.

6.9 Prohibited Use or Development

- 6.9.1 A use or development is Prohibited and must not be granted a permit if:
 - the use is not specified as being No Permit Required, Permitted or Discretionary within a Use Class in the applicable Use Table;
 - (b) the use or development does not comply with an Acceptable Solution for an applicable standard and there is no corresponding Performance Criterion; or
 - (c) it is Prohibited under any other provision of this planning scheme.

6.10 Determining Applications

- 6.10.1 In determining an application for any permit for use or development the planning authority must, in addition to the matters required by section 51(2) of the Act, take into consideration:
 - (a) all applicable standards and requirements in this planning scheme; and
 - (b) any representations received pursuant to and in conformity with section 57(5) of the Act,

but in the case of the exercise of discretion, only insofar as each such matter is relevant to the particular discretion being exercised.

- 6.10.2 In determining an application for a permit for a Discretionary use the planning authority must, in addition to the matters referred to in sub-clause 6.10.1 of this planning scheme, have regard to:
 - (a) the purpose of the applicable zone;
 - (b) any relevant local area objective for the applicable zone;
 - (c) the purpose of any applicable code;
 - (d) the purpose of any applicable specific area plan;
 - (e) any relevant local area objective for any applicable specific area plan; and
 - (f) the requirements of any site-specific qualification,

but in the case of the exercise of discretion, only insofar as each such matter is relevant to the particular discretion being exercised.

6.11 Conditions and Restrictions on a Permit

- 6.11.1 When deciding whether to include conditions in a permit, the planning authority may consider the matters contained in sub-clauses 6.10.1 and 6.10.2 of this planning scheme.
- 6.11.2 Conditions and restrictions imposed by the planning authority on a permit may include:
 - (a) requirements that specific acts be done to the satisfaction of the planning authority;
 - (b) staging of a use or development, including timetables for commencing and completing stages;
 - (c) the order in which parts of the use or development can be commenced;
 - (d) limitations on the life of the permit;
 - requirements to modify the development in accordance with predetermined triggers, criteria or events;
 - (f) construction or traffic management; and
 - (g) erosion, and stormwater volume and quality controls.
- 6.11.3 Conditions or restrictions imposed by the planning authority on a permit for use or development in relation to the management of contaminated land subject to the *Macquarie Point Development Corporation Act 2012*:

- (a) must not be inconsistent with, or impose any additional requirements to, a certificate from an accredited environmental auditor given under section 39F of the *Macquarie Point* Development Corporation Act 2012; and
- (b) may include a requirement for a certificate of an accredited environmental auditor to be granted.

General Provisions

7.0 General Provisions

7.1 Changes to an Existing Non-conforming Use

- 7.1.1 Notwithstanding clause 6.9.1 of this planning scheme, the planning authority may at its discretion, approve an application:
 - to bring an existing use of land that does not conform to the planning scheme into conformity, or greater conformity, with the planning scheme;
 - (b) to extend or transfer an existing non-conforming use and any associated development, from one part of a site to another part of that site; or
 - (c) for a minor development to an existing non-conforming use.
- 7.1.2 An application must only be approved under sub-clause 7.1.1 of this planning scheme where there is:
 - (a) no unreasonable detrimental impact on adjoining uses or the amenity of the surrounding area; and
 - (b) no substantial intensification of the use.
- 7.1.3 In exercising its discretion under sub-clauses 7.1.1 and 7.1.2 of this planning scheme, the planning authority must have regard to the purpose and provisions of the zone, any relevant local area objectives and any applicable codes.

7.2 Development for Existing Discretionary Uses

7.2.1 Notwithstanding clause 6.8.1 of this planning scheme, proposals for development (excluding subdivision), associated with a Use Class specified in an applicable Use Table, as a Discretionary use, must be considered as if that Use Class had Permitted status in that Use Table, where the proposal for development does not establish a new use, or substantially intensify the existing use.

7.3 Adjustment of a Boundary

- 7.3.1 An application for a boundary adjustment is Permitted and a permit must be granted if:
 - (a) no additional lots are created;
 - (b) there is only minor change to the relative size, shape and orientation of the existing lots;
 - (c) no setback from an existing building will be reduced below the relevant Acceptable Solution setback requirement;
 - (d) no frontage is reduced below the relevant Acceptable Solution minimum frontage requirement;
 - (e) no lot is reduced below the relevant Acceptable Solution minimum lot size unless already below the minimum lot size; and
 - (f) no lot boundary that aligns with a zone boundary will be changed.

7.4 Change of Use of a Place listed on the Tasmanian Heritage Register or a Local Heritage Place

- 7.4.1 An application for a use of a place listed on the Tasmanian Heritage Register or as a Local Heritage Place subject to the Local Historic Heritage Code that would otherwise be Prohibited is Discretionary.
- 7.4.2 The planning authority may approve such an application if it would facilitate the restoration, conservation and future maintenance of:
 - (a) the local historic heritage significance of the local heritage place; or
 - (b) the historic cultural heritage significance of the place as described in the Tasmanian Heritage Register.
- 7.4.3 In determining an application the planning authority must have regard to:
 - (a) any statement of historic cultural heritage significance for the place, as described in the Tasmanian Heritage Register;
 - (b) any statement of local historic heritage significance and historic heritage values, as described in the Local Historic Heritage Code;
 - (c) any heritage impact statement prepared by a suitably qualified person setting out the effect of the proposed use and any associated development on:
 - (i) the local historic heritage significance of the local heritage place or local heritage precinct; and
 - (ii) the historic cultural heritage significance of the place as described in the Tasmanian Heritage Register;
 - (d) any conservation plan prepared by a suitably qualified person in accordance with *The* Conservation Plan: A guide to the preparation of conservation plans for places of European cultural significance 7th edition, 2013;
 - (e) the degree to which the restoration, conservation and future maintenance of the heritage significance of the place is dependent upon the establishment of the proposed use;
 - (f) the likely impact of the proposed use on the amenity, or operation, of surrounding uses;
 - (g) any Heritage Agreement that may be in place, in accordance with the provisions contained in the *Historic Cultural Heritage Act 1995*;
 - (h) the purpose and provisions of the applicable zone; and
 - (i) the purpose and provisions of any applicable code.

7.5 Change of Use

- 7.5.1 A permit is not required for a change of use from an existing lawful use to another use in the same Use Class if:
 - the use is not otherwise Prohibited or Discretionary under any provision of the planning scheme;
 - (b) the use complies with all applicable standards and does not rely on any Performance Criteria to do so; and
 - (c) there is no:

- (i) increase in the gross floor area of the use;
- (ii) increase in the requirement for parking spaces under the Parking and Sustainable Transport Code;
- (iii) change in the arrangements for site access, parking, or for the loading and servicing of vehicles on the site;
- (iv) change in arrangements for the use of external areas of the site for display, operational activity or storage;
- (v) increase in emissions or change in the nature of emissions;
- (vi) increase in the required capacity of utility services; and
- (vii) increase in the existing hours of operation if outside the hours of 8.00am to 6.00pm Monday to Sunday inclusive.

7.6 Access and Provision of Infrastructure Across Land in Another Zone

- 7.6.1 If an application for use or development includes access or provision of infrastructure across land that is in a different zone to that in which the main part of the use or development is located, and the access or infrastructure is prohibited by the provisions of the different zone, the planning authority may at its discretion approve an application for access or provision of infrastructure over the land in the other zone, having regard to:
 - (a) whether there is no practical and reasonable alternative for providing the access or infrastructure to the site;
 - (b) the purpose and provisions of the zone and any applicable code for the land over which the access or provision of infrastructure is to occur; and
 - (c) the potential for land use conflict with the use or development permissible under the planning scheme for any adjoining properties and for the land over which the access or provision of infrastructure is to occur.

7.7 Buildings Projecting onto Land in a Different Zone

7.7.1 If an application for use or development includes a building that projects over land in a different zone, the status of the use for the projecting portion of the building is to be determined in accordance with the provisions of the zone in which the main part of the building is located.

7.8 Port and Shipping in Proclaimed Wharf Areas

7.8.1 Notwithstanding any other provision in this planning scheme, an application for a use or development for Port and Shipping within a proclaimed wharf area must be considered as No Permit Required.

7.9 Demolition

7.9.1 Unless approved as part of another development or Prohibited by another provision in this planning scheme, or the Local Historic Heritage Code applies, an application for demolition is Permitted and a permit must be granted subject to any conditions and restrictions specified in clause 6.11.2 of this planning scheme.

7.10 Development Not Required to be Categorised into a Use Class

- 7.10.1 An application for development that is not required to be categorised into one of the Use Classes under sub-clause 6.2.6 of this planning scheme and to which 6.8.2 applies, excluding adjustment of a boundary under sub-clause 7.3.1, may be approved at the discretion of the planning authority.
- 7.10.2 An application must only be approved under sub-clause 7.10.1 if there is no unreasonable detrimental impact on adjoining uses or the amenity of the surrounding area.
- 7.10.3 In exercising its discretion under sub-clauses 7.10.1 and 7.10.2 of this planning scheme, the planning authority must have regard to:
 - (a) the purpose of the applicable zone;
 - (b) the purpose of any applicable code;
 - (c) any relevant local area objectives; and
 - (d) the purpose of any applicable specific area plan.

7.11 Use or Development Seaward of the Municipal District

- 7.11.1 Use or development of a type referred to in section 7(a) to (d) of the Act that is unzoned in the zoning maps in the relevant Local Provisions Schedules must be considered in accordance with:
 - (a) the provisions of the zone that is closest to the site; or
 - (b) in the case of a use or development that extends from land that is zoned, the provisions of the zone from which the use or development extends.

7.12 Sheds on Vacant Sites

- 7.12.1 An application for a shed on a vacant site in the Low Density Residential Zone, Rural Living Zone and Landscape Conservation Zone is Permitted and a permit must be granted if:
 - (a) there is not more than 1 shed on the lot;
 - (b) the frontage, side and rear setbacks are not less than the Acceptable Solution setbacks for the relevant zone;
 - (c) it is located on the site so that a future dwelling can be built between the shed and the frontage setback;
 - (d) the building height is not greater than 6m and the height of any wall is not greater than 4m;
 - (e) the gross floor area is not greater than 54 m²; and
 - (f) it complies with the Acceptable Solution of each applicable standard of any code that applies to the land.

7.13 Temporary Housing

- 7.13.1 Unless No Permit Required under any other provision of this planning scheme, use and development for temporary housing of eligible persons within an existing building is Permitted, and a permit must be granted, if:
 - (a) on land within:

- the General Residential Zone, Inner Residential Zone, Urban Mixed Use Zone, Central Business Zone, General Business Zone, Local Business Zone, Community Purpose Zone, Recreation Zone, or Open Space Zone; or
- (ii) the Commercial Zone in the Hobart Local Provisions Schedule;
- (b) funded or operated by, or on behalf of, the Director of Housing or a housing support provider;
- (c) the development is limited to minor building works or structures necessary for the use of the existing building for temporary housing; and
- (d) the following does not apply:
 - (i) Bushfire-Prone Areas Code;
 - (ii) Flood-Prone Areas Hazard Code;
 - (iii) Coastal Inundation Hazard Code;
 - (iv) Landslip Hazard Code;
 - (v) Potentially Contaminated Land Code; or
 - (vi) Local Historic Heritage Code.
- 7.13.2 Unless No Permit Required under any other provisions of this planning scheme, use and development for temporary housing of eligible persons within demountable, relocatable, or other forms of non-permanent buildings is Permitted, and a permit must be granted, if:
 - (a) on land within:
 - a General Residential Zone, Inner Residential Zone, Urban Mixed Use Zone, Central Business Zone, General Business Zone, Local Business Zone, Community Purpose Zone, Recreation Zone, or Open Space Zone under an interim planning scheme, or
 - (ii) the Commercial Zone in the Hobart Local Provisions Schedule;
 - (b) funded or operated by, or on behalf of, the Director of Housing or a housing support provider;
 - (c) located on the same site, or a site adjoining, an existing residential facility that is funded or operated by, or on behalf of, the Director of Housing or a housing support provider;
 - (d) the building height is not more than 8m above existing ground level; and
 - (e) the buildings have a setback from an adjoining property of not less than half the wall height of the building if the adjoining property is within a General Residential Zone, Low Density Residential Zone, or Inner Residential Zone, excluding:
 - (i) an adjoining property to which sub-clause 7.13.2)(c) applies; and
 - (ii) the portion of the wall that is not more than 3m above existing ground level; and
 - (f) the following does not apply:
 - (i) Bushfire-Prone Areas Code;
 - (ii) Flood-Prone Areas Hazard Code;
 - (iii) Coastal Inundation Hazard Code;
 - (iv) Landslip Hazard Code;
 - (v) Potentially Contaminated Land Code;
 - (vi) Local Historic Heritage Code; or

- (vii) buildings are located on land within an inner protection area, or registered electricity easement, as defined in an Electricity Transmission Infrastructure Protection Code.
- 7.13.3 Unless sub-clause 7.13.1 or 7.13.2 applies, use or development for temporary housing of eligible persons within an existing building, or in a demountable, relocatable or other non-permanent building that would otherwise be Prohibited under any other provisions of this planning scheme, is Discretionary, if funded or operated by, or on behalf of, the Director of Housing or a housing support provider.
- 7.13.4 In determining an application under sub-clause 7.13.3, a planning authority must have regard to:
 - (a) the proximity of the temporary housing to existing residential facilities and social support services that are funded or operated by, or on behalf of, the Director of Housing or a housing support provider;
 - (b) the availability of public transport and capacity of road infrastructure and utility services to the site;
 - (c) the purpose and provisions of the applicable zone and any applicable codes; and
 - (d) the potential for land use conflict with other use or development on adjoining properties and any measures available to manage or mitigate such conflict.
- 7.13.5 Temporary housing must only be located in a bushfire-prone area, as defined under the Bushfire-Prone Areas Code, if accompanied by an emergency management strategy, endorsed by the Tasmania Fire Service or accredited person, as defined under the Bushfire-Prone Areas Code, that provides for mitigation measures to achieve and maintain a level of tolerable risk that is specifically developed to address the characteristics, nature and scale of the use considering:
 - (a) the nature of the bushfire-prone vegetation, as defined under the Bushfire-Prone Areas Code, including the type, fuel load, structure and flammability;
 - (b) the ability of occupants of the temporary housing to:
 - (i) protect themselves and defend property from bushfire attack;
 - (ii) evacuate in an emergency;
 - (iii) understand and respond to instructions in the event of a bushfire; and
 - (c) any bushfire protection measures, as defined under the Bushfire-Prone Areas Code, available to reduce risk to emergency service personnel.
- 7.13.6 A permit granted under sub-clauses 7.13.1 or 7.13.2 must be subject to a condition to require that not more than 6 months after the date on which the permit lapses, all traces of any works, buildings, plant or materials introduced and used for the purposes temporary housing must be removed from the site to the satisfaction of the planning authority, unless:
 - (a) a new permit for temporary housing has been granted; or
 - (b) such works, buildings, plant or materials are to be used for a use or development for which a permit has been granted, or are exempt from requiring a permit.
- 7.13.7 Additional permits for temporary housing issued under sub-clauses 7.13.1 or 7.13.2 must not cause the approval of temporary housing for a period longer than 3 years commencing from the date on which the initial occupancy permit, or temporary occupancy permit, is issued in accordance with Part 17 of the Building Act 2016.
- 7.13.8 No other provisions in this planning scheme apply to a use or development in accordance with subclauses 7.13.1 or 7.13.2.

8.0 General Residential Zone

8.1 Zone Purpose

The purpose of the General Residential Zone is:

- 8.1.1 To provide for residential use or development that accommodates a range of dwelling types where full infrastructure services are available or can be provided.
- 8.1.2 To provide for the efficient utilisation of available social, transport and other service infrastructure.
- 8.1.3 To provide for non-residential use that:
 - (a) primarily serves the local community; and
 - (b) does not cause an unreasonable loss of amenity through scale, intensity, noise, activity outside of business hours, traffic generation and movement, or other off site impacts.
- 8.1.4 To provide for Visitor Accommodation that is compatible with residential character.

Use Class	Qualification		
No Permit Required			
Natural and Cultural Values Management			
Passive Recreation			
Residential	If for a single dwelling.		
Utilities	If for minor utilities.		
Permitted			
Residential	If not listed as No Permit Required.		
Visitor Accommodation			
Discretionary			
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic, or for the provision of residential support services.		
Community Meeting and Entertainment	If for a place of worship, art and craft centre, public hall, community centre or neighbourhood centre.		
Educational and Occasional Care	If not for a tertiary institution.		
Emergency Services			

8.2 Use Table

Use Class	Qualification
Food Services	If not for a take away food premises with a drive through facility.
General Retail and Hire	If for a local shop.
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

8.3 Use Standards

8.3.1 Discretionary uses

Objective:	That Discretionary uses do not cause an unreasonable loss of amenity to adjacent sensitive uses.			
Acceptable Solutions		Performance Criteria		
A1 Hours of operation of a use listed as Discretionary, excluding Emergency Services, must be within the hours of 8.00am to 6.00pm.		 P1 Hours of operation of a use listed as Discretionary, excluding Emergency Services, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions. 		
A2		P2		
 External lighting for a use listed as Discretionary: (a) must not operate within the hours of 7.00pm to 7.00am, excluding any security lighting; and (b) security lighting must be baffled to ensure direct light does not extend into the adjoining property. 		 External lighting for a use listed as Discretionary, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the number of proposed light sources and their intensity; (b) the location of the proposed light sources; (c) the topography of the site; and (d) any existing light sources. 		

ſ

A3	P3		
Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must be within the hours of: (a) 7:00am to 7:00pm Monday to Friday; (b) 9:00am to 12 noon Saturday; and (c) nil on Sunday and public holidays.	 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements; (c) the size of commercial vehicles involved; (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise; (e) any existing or proposed noise mitigation measures between the vehicle movement areas and sensitive use; (f) potential conflicts with other traffic; and 		
A4	P4		
No Acceptable Solution.	 A use listed as Discretionary must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the intensity and scale of the use; (b) the emissions generated by the use; (c) the type and intensity of traffic generated by the use; (d) the impact on the character of the area; and (e) the need for the use in that location. 		

٦

Objective:	 That Visitor Accommodation: (a) is compatible with the character and use of the area; (b) does not cause an unreasonable loss of residential amenity; and (c) does not impact the safety and efficiency of local roads or rights of way. 			
Acceptable Solutions		Performance Criteria		
A1		P1		
Visitor Accommodation must: (a) accommodate guests in existing habitable buildings; and		Visitor Accommodation must be compatible with the character and use of the area and not cause an unreasonable loss of residential amenity, having regard to:		
	ross floor area of not more than er lot	(a) the privacy of adjoining properties;		
200m ² per lot.		 (b) any likely increase in noise to adjoining properties; 		
		 (c) the scale of the use and its compatibility with the surrounding character and uses within the area; 		
		(d) retaining the primary residential function of an area;		
		(e) the impact on the safety and efficiency of the local road network; and		
		(f) any impact on the owners and users rights of way.		
A2		P2		
Visitor Accommodation is not for a strata lot that is part of a strata scheme where another strata lot within that strata scheme is used for a residential use.		Visitor Accommodation within a strata scheme must not cause an unreasonable loss of residential amenity to long term residents occupying other strata lots within the strata scheme, having regard to:		
		(a) the privacy of residents;		
		(b) any likely increase in noise;		
		(c) the residential function of the strata scheme;		
		(d) the location and layout of the strata lots;		
		(e) the extent and nature of any other non-residential uses; and		
		(f) any impact on shared access and common property.		

8.4 Development Standards for Dwellings

8.4.1	Residential	density for	multiple	dwellinas
0.1.1	rtooraornaar	aonony ion	manapio	anomigo

Objective:	 That the density of multiple dwellings: (a) makes efficient use of land for housing; and (b) optimises the use of infrastructure and community services. 				
Acceptable S	Solutions	Performance Criteria			
-	lings must have a site area per ot less than 325m ² .	 P1 Multiple dwellings must only have a site area per dwelling that is less than 325m², if the development will not exceed the capacity of infrastructure services and: (a) is compatible with the density of existing development on established properties in the area; or (b) provides for a significant social or community benefit and is: (i) wholly or partly within 400m walking distance of a public transport stop; or (ii) wholly or partly within 400m walking distance of an Inner Residential Zone, Village Zone, Urban Mixed Use Zone, Local Business Zone, General Business Zone or Commercial Zone. 			

8.4.2 Setbacks and building envelope for all dwellings

Objective:	 Dbjective: The siting and scale of dwellings: (a) provides reasonably consistent separation between dwellings and their frontage within a street; (b) provides consistency in the apparent scale, bulk, massing and proportion of dwellings (c) provides separation between dwellings on adjoining properties to allow reasonable opportunity for daylight and sunlight to enter habitable rooms and private open space; and (d) provides reasonable access to sunlight for existing solar energy installations. 	
Acceptable Sol	utions	Performance Criteria
A1		P1
Unless within a building area on a sealed plan, a dwelling, excluding garages, carports and protrusions that extend not more than 0.9m into the frontage		A dwelling must have a setback from a frontage that is compatible with the streetscape, having regard to any topographical constraints.

setb	ack, must have a setback from a frontage that is:			
(a)	if the frontage is a primary frontage, not less than 4.5m, or, if the setback from the primary frontage is less than 4.5m, not less than the setback, from the primary frontage, of any existing dwelling on the site;			
(b)	if the frontage is not a primary frontage, not less than 3m, or, if the setback from the frontage is less than 3m, not less than the setback, from a frontage that is not a primary frontage, of any existing dwelling on the site;			
(c)	if for a vacant site and there are existing dwellings on adjoining properties on the same street, not more than the greater, or less than the lesser, setback for the equivalent frontage of the dwellings on the adjoining sites on the same street; or			
(d)	if located above a non-residential use at ground floor level, not less than the setback from the frontage of the ground floor level.			
A2		P2		
-	rage or carport for a dwelling must have a setback a primary frontage of not less than:	A garage or carport for a dwelling must have a setback from a primary frontage that is compatible with the setbacks of existing garages or carports in the street, having regard to any topographical constraints.		
(a)	5.5m, or alternatively 1m behind the building line;			
(b)	the same as the building line, if a portion of the dwelling gross floor area is located above the garage or carport; or			
(c)	1m, if the existing ground level slopes up or down at a gradient steeper than 1 in 5 for a distance of 10m from the frontage.			
A3		Р3		
heig exte	velling, excluding outbuildings with a building ht of not more than 2.4m and protrusions that nd not more than 0.9m horizontally beyond the ling envelope, must:	The siting and scale of a dwelling must:(a) not cause an unreasonable loss of amenity to adjoining properties, having regard to:		
(a)	be contained within a building envelope (refer to Figures 8.1, 8.2 and 8.3) determined by:	 (i) reduction in sunlight to a habitable room (other than a bedroom) of a dwelling on an adjoining property; 		
	 a distance equal to the frontage setback or, for an internal lot, a distance of 4.5m from the rear boundary of a property with 	(ii) overshadowing the private open space of a dwelling on an adjoining property;		
	an adjoining frontage; and	(iii) overshadowing of an adjoining vacant		
	(ii) projecting a line at an angle of 45 degrees	property; and		

from the horizontal at a height of 3m above existing ground level at the side and rear boundaries to a building height of not more than 8.5m above existing ground level; and

- (b) only have a setback of less than 1.5m from a side or rear boundary if the dwelling:
 - does not extend beyond an existing building built on or within 0.2m of the boundary of the adjoining property; or
 - does not exceed a total length of 9m or one third the length of the side boundary (whichever is the lesser).

- (iv) visual impacts caused by the apparent scale, bulk or proportions of the dwelling when viewed from an adjoining property;
- (b) provide separation between dwellings on adjoining properties that is consistent with that existing on established properties in the area; and
- (c) not cause an unreasonable reduction in sunlight to an existing solar energy installation on:
 - (i) an adjoining property; or
 - (ii) another dwelling on the same site.

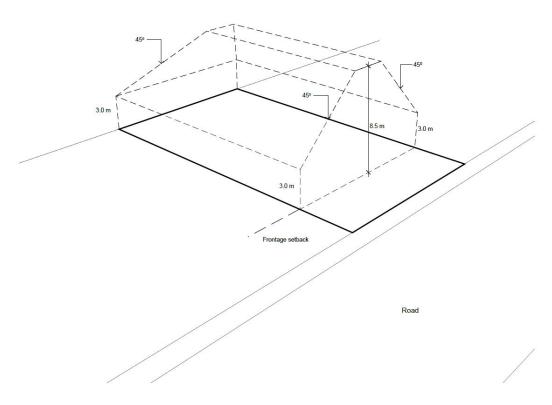

Figure 8.1 Building envelope as required by clause 8.4.2 A3(a) and clause 8.5.1 A2(a)

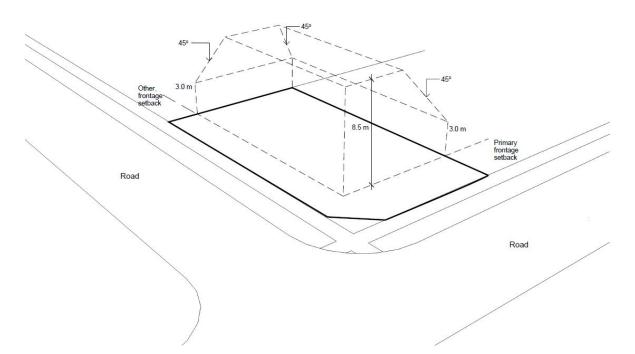

Figure 8.2 Building envelope for corner lots as required by clause 8.4.2 A3(a) and clause 8.5.1 A2(a)

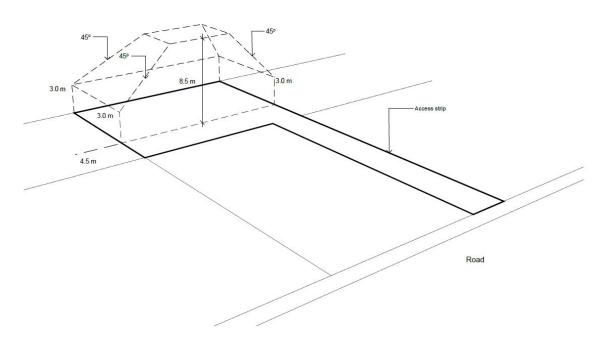

Figure 8.3 Building envelope for internal lots as required by clause 8.4.2 A3(a) and clause 8.5.1 A2(a)

8.4.3 Site coverage and private open space for all dwellings

Objective:That dwellings are compatible with the amenity and characteristic(a)for outdoor recreation and the operational needs of (b)(b)opportunities for the planting of gardens and landse					
(c) private open space that is con-		(c) private open space that is con	veniently located and has access to sunlight.		
Acc	eptabl	e Solutions	Performance Criteria		
A1			P1		
Dwe	ellings ı	must have:	Dwellings must have:		
(a)		coverage of not more than 50% uding eaves up to 0.6m wide); and	 (a) site coverage consistent with that existing on established properties in the area; 		
(b)	for multiple dwellings, a total area of private open space of not less than 60m ² associated with each dwelling, unless the dwelling has a finished floor level that is entirely more than 1.8m above the finished ground level (excluding a garage, carport or entry foyer).		(b) private open space that is of a size and with dimensions that are appropriate for the size of the dwelling and is able to accommodate:		
			 (i) outdoor recreational space consistent with the projected requirements of the occupants and, for multiple dwellings, take into account any common open space provided for this purpose within the development; and 		
			(ii) operational needs, such as clothes drying and storage; and		
			(c) reasonable space for the planting of gardens and landscaping.		
A2			P2		
A dv	welling	must have private open space that:	A dwelling must have private open space that		
(a)		one location and is not less than: 24m²; or	includes an area capable of serving as an extension of the dwelling for outdoor relaxation, dining,		
		12m ² , if the dwelling is a multiple	entertaining and children's play and is:		
		dwelling with a finished floor level that is	 (a) conveniently located in relation to a living area of the dwelling; and 		
		entirely more than 1.8m above the finished ground level (excluding a garage, carport or entry foyer);	(b) orientated to take advantage of sunlight.		
(b)	has a less t	minimum horizontal dimension of not han:			
	(i)	4m; or			
		2m, if the dwelling is a multiple dwelling with a finished floor level that is entirely more than 1.8m above the finished ground level (excluding a garage, carport or entry foyer);			
(c)		ated between the dwelling and the age only if the frontage is orientated			

	between 30 degrees west of true north and 30 degrees east of true north; and
(d)	has a gradient not steeper than 1 in 10.

8.4.4 Sunlight to private open space of multiple dwellings

Obje	ective	tive: That the separation between multiple dwellings provides reasonable opportunity for sunlight to private open space for dwellings on the same site.		
Acceptable Solutions		ble Solutions	Performance Criteria	
A1			P1	
 A multiple dwelling, that is to the north of the private open space of another dwelling on the same site, required to satisfy A2 or P2 of clause 8.4.3, must satisfy (a) or (b), unless excluded by (c): (a) the multiple dwelling is contained within a line projecting (see Figure 8.4): 		to satisfy A2 or P2 of clause 8.4.3, must) or (b), unless excluded by (c): multiple dwelling is contained within a line	A multiple dwelling must be designed and sited to not cause an unreasonable loss of amenity by overshadowing the private open space, of another dwelling on the same site, which is required to satisfy A2 or P2 of clause 8.4.3 of this planning scheme.	
	 (i) at a distance of 3m from the northern edge of the private open space; and 			
	(ii)	vertically to a height of 3m above existing ground level and then at an angle of 45 degrees from the horizontal;		
(b)	the hou	multiple dwelling does not cause 50% of private open space to receive less than 3 rs of sunlight between 9.00am and 3.00pm 21 st June; and		
(c)		Acceptable Solution excludes that part of a iple dwelling consisting of:		
	(i)	an outbuilding with a building height not more than 2.4m; or		
	(ii)	protrusions that extend not more than 0.9m horizontally from the multiple dwelling.		

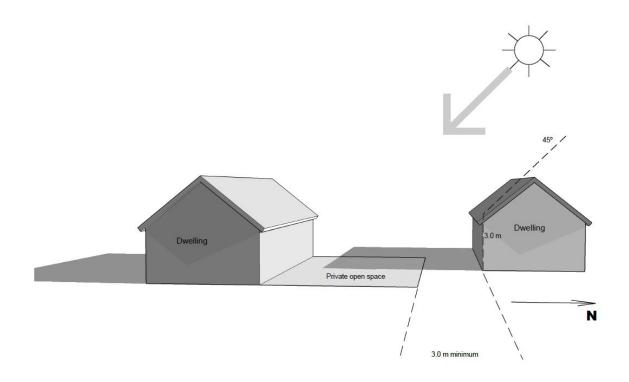

Figure 8.4 Separation from the private open space of another dwelling on the same site as required by clause 8.4.4 A1(a)

8.4.5 Width of openings for garages and carports for all dwellings

Objective: To reduce the potential for garage or carport openings to dominate the primary frontage.

Acceptable Solutions	Performance Criteria	
A1	P1	
A garage or carport for a dwelling within 12m of a primary frontage, whether the garage or carport is free-standing or part of the dwelling, must have a total width of openings facing the primary frontage of not more than 6m or half the width of the frontage (whichever is the lesser).	A garage or carport for a dwelling must be designed to minimise the width of its openings that are visible from the street, so as to reduce the potential for the openings of a garage or carport to dominate the primary frontage.	

8.4.6 Privacy for all dwellings

Obje	ective:	To provide a reasonable opportunity for privacy for dwellings.		
Acceptable Solutions		Solutions	Performance Criteria	
A1			P1	
A balcony, deck, roof terrace, parking space, or carport for a dwelling (whether freestanding or part of the dwelling), that has a finished surface or floor level more than 1m above existing ground level must have a permanently fixed screen to a height of not less than 1.7m above the finished surface or floor level, with a uniform transparency of not more than 25%, along the sides facing a:		dwelling (whether freestanding or part ng), that has a finished surface or floor an 1m above existing ground level permanently fixed screen to a height of 1.7m above the finished surface or ith a uniform transparency of not more	 A balcony, deck, roof terrace, parking space or carport for a dwelling (whether freestanding or part of the dwelling) that has a finished surface or floor level more than 1m above existing ground level, must be screened, or otherwise designed, to minimise overlooking of: (a) a dwelling on an adjoining property or its private open space; or 	
(a)	terrace	oundary, unless the balcony, deck, roof , parking space, or carport has a k of not less than 3m from the side ary;	(b) another dwelling on the same site or its private open space.	
 (b) rear boundary, unless the balcony, deck, roof terrace, parking space, or carport has a setback of not less than 4m from the rear boundary; and 		, parking space, or carport has a k of not less than 4m from the rear		
(c)	 (c) dwelling on the same site, unless the balcony, deck, roof terrace, parking space, or carport is not less than 6m: 			
	h	om a window or glazed door, to a abitable room of the other dwelling on le same site; or		
	р	om a balcony, deck, roof terrace or the rivate open space of the other dwelling n the same site.		

A2

A window or glazed door to a habitable room of a dwelling, that has a floor level more than 1m above existing ground level, must satisfy (a), unless it satisfies (b):

- (a) the window or glazed door:
 - (i) is to have a setback of not less than 3m from a side boundary;
 - (ii) is to have a setback of not less than 4m from a rear boundary;
 - (iii) if the dwelling is a multiple dwelling, is to be not less than 6m from a window or glazed door, to a habitable room, of another dwelling on the same site; and
 - (iv) if the dwelling is a multiple dwelling, is to be not less than 6m from the private open space of another dwelling on the same site.
- (b) the window or glazed door:
 - (i) is to be offset, in the horizontal plane, not less than 1.5m from the edge of a window or glazed door, to a habitable room of another dwelling;
 - (ii) is to have a sill height of not less than
 1.7m above the floor level or have fixed
 obscure glazing extending to a height of
 not less than 1.7m above the floor level;
 or
 - (iii) is to have a permanently fixed external screen for the full length of the window or glazed door, to a height of not less than 1.7m above floor level, with a uniform transparency of not more than 25%.

P2

A window or glazed door to a habitable room of a dwelling that has a floor level more than 1m above existing ground level, must be screened, or otherwise located or designed, to minimise direct views to:

- (a) a window or glazed door, to a habitable room of another dwelling; and
- (b) the private open space of another dwelling.

A3

A shared driveway or parking space (excluding a parking space allocated to that dwelling) must be separated from a window, or glazed door, to a habitable room of a multiple dwelling by a horizontal distance of not less than:

- (a) 2.5m; or
- (b) 1m if:
 - (i) it is separated by a screen of not less than 1.7m in height; or
 - (ii) the window, or glazed door, to a habitable room has a sill height of not less than 1.7m above the shared driveway or parking space, or has fixed obscure glazing extending to a height of not less than 1.7m above the floor level.

8.4.7 Frontage fences for all dwellings

 Objective:
 The height and transparency of frontage fences:

 (a)
 provides adequate privacy and security for residents;

 (b)
 allows the potential for mutual passive surveillance between the road and the dwelling; and

 (c)
 is reasonably consistent with that on adjoining properties.

P3

dwelling.

A shared driveway or parking space (excluding a

parking space allocated to that dwelling), must be

minimise unreasonable impact of vehicle noise or

vehicle light intrusion to a habitable room of a multiple

screened, or otherwise located or designed, to

Acceptable Solutions	Performance Criteria		
A1	P1		
No Acceptable Solution. ¹	A fence (including a free-standing wall) for a dwelling within 4.5m of a frontage must:		
	 (a) provide for security and privacy while allowing for passive surveillance of the road; and 		
	(b) be compatible with the height and transparency of fences in the street, having regard to:		
	(i) the topography of the site; and		
	(ii) traffic volumes on the adjoining road.		

¹ An exemption applies for fences in this zone – see Table 4.6

8.4.8 Waste storage for multiple dwellings

Objective: To provide for the storage of waste an		nd recycling bins for multiple dwellings.		
Acceptable Solutions		Performance Criteria		
A1		P1		
waste and rect per dwelling an locations: (a) an area t excluding (b) a commo surface t (i) has a fr (ii) is n and (iii) is s dwo tha	s a setback of not less than 4.5m from ontage; not less than 5.5m from any dwelling;		ultiple dwelling must have storage for waste and cling bins that is: capable of storing the number of bins required for the site; screened from the frontage and any dwellings; and if the storage area is a common storage area, separated from any dwellings to minimise impacts caused by odours and noise.	

8.5 Development Standards for Non-dwellings

8.5.1 Non-dwelling development

Objecti	 Dbjective: That all non-dwelling development: (a) is compatible with the character, siting, apparent scale, bulk, massing and proportion of residential development; and (b) does not cause an unreasonable loss of amenity on adjoining residential properties. 		
Acceptable Solutions		Performance Criteria	
A1		P1	
A building that is not a dwelling, excluding for Food Services, local shop, garage or carport, and protrusions that extend not more than 0.9m into the frontage setback, must have a setback from a frontage that is:		A building that is not a dwelling, excluding for Food Services and local shop, must have a setback from a frontage that is compatible with the streetscape, having regard to any topographical constraints.	
 (a) if the frontage is a primary frontage, not less than 4.5m, or if the setback from the primary frontage is less than 4.5m, not less than the setback, from the primary frontage, of any 			

(b) (c)	if th less prin than any if fo dwe stre	eting dwelling on the site; e frontage is not a primary frontage, not a than 3.0m, or if the setback from the hary frontage is less than 3.0m, not less in the setback, from the primary frontage, of existing dwelling on the site; or r a vacant site and there are existing ellings on adjoining properties on the same set, not more than the greater, or less than lesser, setback for the equivalent frontage		
	of th	ne dwellings on the adjoining properties on same street.		
A2			P2	
outb 2.4m	uildin and hori	g that is not a dwelling, excluding ngs with a building height of not more than protrusions that extend not more than zontally beyond the building envelope,	The mus (a)	siting and scale of a building that is not a dwelling t: not cause an unreasonable loss of amenity, having regard to:
(a)	be d	contained within a building envelope (refer igures 8.1, 8.2 and 8.3) determined by:		 reduction in sunlight to a habitable room, excluding a bedroom, of a dwelling on an adjoining property;
	(i)	a distance equal to the frontage setback or, for an internal lot, a distance of 4.5m from the rear boundary of a property with an adjoining frontage; and		(ii) overshadowing the private open space of a dwelling on an adjoining property;(iii) overshadowing of an adjoining vacant
(b)	(ii) only	projecting a line at an angle of 45 degrees from the horizontal at a height of 3m above existing ground level at the side or rear boundaries to a building height of not more than 8.5m above existing ground level; and have a setback less than 1.5m from a	(b)	 property; and (iv) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from an adjoining property; and provide separation between buildings on adjoining properties that is consistent with that
. /	-	e or rear boundary if the building: does not extend beyond an existing building built on or within 0.2m of the boundary of the adjoining property; or		existing on established properties in the area.
	(ii)	does not exceed a total length of 9m or one-third of the length of the side or rear boundary (whichever is lesser).		
A3			P3	
A bu	ilding	that is not a dwelling, must have:	A bı	ilding that is not a dwelling, must have:
(a)	a si	te coverage of not more than 50%	(a)	site coverage consistent with that existing on

(excluding eaves up to 0.6m); and	established properties in the area; and		
(b) a site area of which not less than 35% is free from impervious surfaces.	(b) reasonable space for the planting of gardens and landscaping.		
A4	P4		
No Acceptable Solution. ²	A fence (including a free-standing wall) for a building that is not a dwelling within 4.5m of a frontage must:		
	 (a) provide for security and privacy while allowing for passive surveillance of the road; and 		
	(b) be compatible with the height and transparency of fences in the street, having regard to:		
	(i) the topography of the site; and		
	(ii) traffic volumes on the adjoining road.		
A5	Р5		
Outdoor storage areas, for a building that is not a dwelling, including waste storage, must not: (a) be visible from any road or public open space	Outdoor storage areas, for a building that is not a dwelling, must be located or screened to minimise their impact on views into the site from any roads or public open space adjoining the site, having regard to:		
adjoining the site; and	(a) the nature of the use;		
(b) encroach upon parking areas, driveways or landscaped areas.	 (b) the type of goods, materials or waste to be stored; 		
	(c) the topography of the site; and		
	(d) any screening proposed.		
A6	P6		
Air extraction, pumping, refrigeration systems or compressors, for a building that is not a dwelling, must have a setback from the boundary of a property containing a sensitive use not less than 10m. ³	Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors, for a building that is not a dwelling, within 10m of the boundary of a property containing a sensitive use must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity, having regard to:		
	 (a) the characteristics and frequency of any emissions generated; 		
	(b) the nature of the proposed use;		
	(c) the topography of the site and location of the		

 2 An exemption applies for fences in this zone – see Table 4.6.

³ An exemption applies for heat pumps and air conditioners in this zone – see Table 4.6.

sensitive use; and
(d) any mitigation measures proposed.

8.5.2 Non-residential garages and carports

Obje	ctive:	To maintain frontage setbacks compatible with the streetscape and reduce the potential for garage and carport openings to dominate the primary frontage.		
Acceptable Solutions		olutions	Performance Criteria	
A1			P1	
 A garage or carport not forming part of a dwelling, must have a setback from a primary frontage of not less than: (a) 5.5m, or alternatively 1m behind the building line; 		etback from a primary frontage of not	A garage or carport not forming part of a dwelling, must have a setback from a primary frontage that is compatible with the setbacks of garages or carports in the street, having regard to any topographical constraints.	
 (b) the same as the building line, if a portion of the building gross floor area is located above the garage or carport; or 		ing gross floor area is located above

A2			P2	
withir garag width more	n 12m of a ge or carp of openir than 6m	arport not forming part of a dwelling, a primary frontage (whether the port is free-standing) must have a total ngs facing the primary frontage of not or half the width of the frontage he lesser).	A garage or carport not forming part of a dwelling, must be designed to minimise the width of its openings that are visible from the street, so as to reduce the potential for the openings of a garage or carport to dominate the primary frontage.	

8.6 Development Standards for Subdivision

8.6.1	Lot design
-------	------------

Obje	ective	:	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; (b) is provided with appropriate access to a road; (c) contains areas which are suitable for development appropriate to the zone purpose, located to avoid natural hazards; and (d) is orientated to provide solar access for future dwellings. 		
Acc	eptak	ole S	olutions	Performance Criteria	
A1	h lot, t:	or a l e an be a 10r tha a. b. exis	ot proposed in a plan of subdivision, area of not less than 450m ² and: able to contain a minimum area of n x 15m with a gradient not steeper n 1 in 5, clear of: all setbacks required by clause 8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; and easements or other title restrictions that limit or restrict development; and sting buildings are consistent with the back required by clause 8.4.2 A1, A2 d A3, and 8.5.1 A1 and A2;	mus	h lot, or a lot proposed in a plan of subdivision, t have sufficient useable area and dimensions able for its intended use, having regard to: the relevant requirements for development of buildings on the lots; the intended location of buildings on the lots; the topography of the site; the presence of any natural hazards; adequate provision of private open space; and the pattern of development existing on established properties in the area.
(b) (c) (d)	(b) be required for public use by the Crown, a council or a State authority;(c) be required for the provision of Utilities; or				

A2	P2		
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a frontage not less than 12m.	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:		
	(a) the width of frontage proposed, if any;		
	 (b) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; 		
	(c) the topography of the site;		
	(d) the functionality and useability of the frontage;		
	 (e) the ability to manoeuvre vehicles on the site; and 		
	(f) the pattern of development existing on established properties in the area,		
	and is not less than 3.6m wide.		
A3	P3		
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:		
requirements of the load autionty.	(a) the topography of the site;		
	 (b) the distance between the lot or building area and the carriageway; 		
	(c) the nature of the road and the traffic;		
	 (d) the anticipated nature of vehicles likely to access the site; and 		
	 (e) the ability for emergency services to access the site. 		

A4	P4	
Any lot in a subdivision with a new road, must have the long axis of the lot between 30 degrees west of true north and 30 degrees east of true north.	Subdivision must provide for solar orientation of lots adequate to provide solar access for future dwellings, having regard to:	
	(a) the size, shape and orientation of the lots;	
	(b) the topography of the site;	
	 (c) the extent of overshadowing from adjoining properties; 	
	(d) any development on the site;	
	(e) the location of roads and access to lots; and	
	(f) the existing pattern of subdivision in the area.	

8.6.2 Roads

Objective:	 That the arrangement of new roads within a subdivision provides for: (a) safe, convenient and efficient connections to assist accessibility and mobility of the community; (b) the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic; and (c) the efficient ultimate subdivision of the entirety of the land and of surrounding land. 	
Acceptable S	olutions	Performance Criteria
A1		P1
The subdivisio	n includes no new roads.	 The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to: (a) any road network plan adopted by the council; (b) the existing and proposed road hierarchy; (c) the need for connecting roads and pedestrian and cycling paths, to common boundaries with adjoining land, to facilitate future subdivision potential;
		 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks;
		 (e) minimising the travel distance between key destinations such as shops and services and public transport routes;
		(f) access to public transport;

(g) the efficient and safe movement of pedestrians, cyclists and public transport;
 (h) the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the <i>Guide to Road Design Part 6A: Paths</i> for Walking and Cycling 2016;
(i) the topography of the site; and
 the future subdivision potential of any balance lots on adjoining or adjacent land.

т

8.6.3 Services

Г

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable Solutions		Performance Criteria
excluding for p	ot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must have a connection to a full ervice.	 P1 A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to: (a) flow rates; (b) the quality of potable water; (c) any existing or proposed infrastructure to provide the water service and its location; (d) the topography of the site; and (e) any advice from a regulated entity.
excluding for p reserve or Util	ot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must have a connection to a verage system.	P2 No Performance Criterion.
excluding for p reserve or Util	ot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must be capable of connecting rmwater system.	 P3 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot;

(b) topography of the site;
(c) soil conditions;
(d) any existing buildings on the site;
(e) any area of the site covered by impervious surfaces; and
(f) any watercourse on the land.

9.0 Inner Residential Zone

9.1 Zone Purpose

The purpose of the Inner Residential Zone is:

- 9.1.1 To provide for a variety of residential use or development that accommodates a range of dwelling types at higher densities.
- 9.1.2 To provide for the efficient utilisation of available social, transport and other service infrastructure.
- 9.1.3 To provide for non-residential use that:
 - (a) primarily serves the local community; and
 - (b) does not cause an unreasonable loss of amenity, through scale, intensity, noise, activity outside of business hours, traffic generation and movement, or other off site impacts.
- 9.1.4 To provide for Visitor Accommodation that is compatible with residential character.

9.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for a single dwelling.
Utilities	If for minor utilities.
Permitted	
Residential	If not listed as No Permit Required.
Visitor Accommodation	
Discretionary	
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic, or for the provision of residential support services.
Community Meeting and Entertainment	If for a place of worship, art and craft centre, public hall, community centre or neighbourhood centre.
Educational and Occasional Care	If not for a tertiary institution.
Emergency Services	
Food Services	If not for a take away food premises with a drive through facility.

Use Class	Qualification	
General Retail and Hire		
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.	
Utilities	If not listed as No Permit Required.	
Prohibited		
All other uses		

9.3 Use Standards

9.3.1 Discretionary u	uses
-----------------------	------

Obje	ective:	That Discretionary uses do not cause an unreasonable loss of amenity to adjacent sensitive uses.	
Acc	eptable Sol	utions	Performance Criteria
A1			P1
	uding Emerg rs of: 7.00am to	on of a use listed as Discretionary, gency Services, must be within the 7.00pm Monday to Friday; and 6.00pm Saturday and Sunday.	 Hours of operation of a use listed as Discretionary, excluding Emergency Services, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions.
A2			P2
Exte	External lighting for a use listed as Discretionary:		External lighting for a use listed as Discretionary,
(a)		perate within the hours of 8.00pm to cluding any security lighting; and	must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to:
(b)		hting must be baffled so that direct not extend into the adjoining	 (a) the number of proposed light sources and their intensity;
	property.		(b) the location of the proposed light sources;
			(c) the topography of the site; and
			(d) any existing light sources.

A3	Р3	
 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must be within the hours of: (a) 7:00am to 8:00pm Monday to Friday; (b) 9:00am to 12 noon Saturday; and (c) nil on Sunday and public holidays. 	Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the extent and timing of traffic generation; (b) the dispatch of goods and materials; and (c) existing levels of amenity.	
A4	P4	
No Acceptable Solution.	A use listed as Discretionary must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to:	
	(a) the intensity and scale of the use;	
	(b) the emissions generated by the use;	
	(c) the type and intensity of traffic generated by the use;	
	(d) the impact on the character of the area; and	
	(e) the need for the use in that location.	

9.3.2 Visitor Accommodation

Acceptable S	olutions	Performance Criteria	
	(c) does not impact the safety and efficiency of local roads or rights of way.		
	(b) does not cause an unreasonable loss of residential amenity; and		
	(a) is compatible with the character and use of the area;		
Objective:	That Visitor Accommodation:		

Acceptable Solutions	Performance Criteria	
A1	P1	
 Visitor Accommodation must: (a) accommodate guests in existing habitable buildings; and (b) have a gross floor area of not more than 200m² per lot. 	 Visitor Accommodation must be compatible with the character and use of the area and not cause an unreasonable loss of residential amenity, having regard to: (a) the privacy of adjoining properties; (b) any likely increase in noise to adjoining properties; (c) the scale of the use and its compatibility with the surrounding character and uses within the area; (d) retaining the primary residential function of an 	

	 area; (e) the impact on the safety and efficiency of the local road network; and (f) any impact on the owners and users rights of way.
A2	P2
Visitor Accommodation is not for a strata lot that is part of a strata scheme where another strata lot within that strata scheme is used for a residential use.	 Visitor Accommodation within a strata scheme must not cause an unreasonable loss of residential amenity to long term residents occupying other strata lots within the strata scheme, having regard to: (a) the privacy of residents; (b) any likely increase in noise; (c) the residential function of the strata scheme; (d) the location and layout of the strata lots; (e) the extent and nature of any other non-residential uses; and (f) any impact on shared access and common property.

9.4 Development Standards for Dwellings

9.4.1 Residential density for multiple dwellings

Objective:	 That the density of multiple dwellings: (a) makes efficient use of land for housing; and (b) optimises the use of infrastructure and community services. 		
Acceptable	Solutions	Performance Criteria	
A1		P1	
Multiple dwellings must have a site area per dwelling of not less than 200m ² .		Multiple dwellings must only have a site area per dwelling less than 200m ² if:	
		 (a) the development contributes to a range of dwelling types and sizes appropriate to the surrounding area; or 	
		 (b) the development provides for a specific accommodation need with significant social or community benefit. 	

 within a street; (b) provides consistency in the a dwellings; and (c) provides separation between 		s: ent separation between dwellings and their frontage apparent scale, bulk, massing and proportion of n dwellings on adjoining properties to allow a aylight and sunlight to enter habitable rooms and

Ohia	otivo:	That dwellings are compatible with the		nity and character of the area and provide:		
Objeo	suve.	That dwellings are compatible with the amenity and character of the area and provide:(a) for outdoor recreation and the operational needs of the residents;				
		(b) opportunities for the planting of g	-			
		(c) private open space that is conve	nientl	y located and has access to sunlight.		
Acc	eptab	le Solutions	Perf	ormance Criteria		
A1			P1			
Dwe	ellings	must have:	Dwe	llings must have:		
(a)		e coverage of not more than 65% uding eaves up to 0.6m wide); and	(a)	site coverage consistent with that existing on established properties in the area;		
(b)	for multiple dwellings, a total area of private open space of not less than 40m ² associated with each dwelling, unless the dwelling has a		(b)	private open space that is of a size and with dimensions appropriate for the size of the dwelling and is able to accommodate:		
	1.8m	hed floor level that is entirely more than n above the finished ground level (excluding arage, carport or entry foyer).		 (i) outdoor recreational space consistent with the projected requirements of the occupants and, for multiple dwellings, take into account any common open space provided for this purpose within the development; and 		
				(ii) operational needs, such as clothes drying and storage; and		
			(c)	reasonable space for the planting of gardens and landscaping.		
A2			P2			
A dv	velling	must have private open space that:	A dwelling must have private open space that			
(a)	is in	one location and is not less than:	includes an area capable of serving as an extension of the dwelling for outdoor relaxation, dining,			
	(i)	24m ² ; or		rtaining and children's play and is:		
	(ii)	12m ² , if the dwelling is a multiple dwelling with a finished floor level that is	(a)	conveniently located in relation to a living area of the dwelling; and		
		entirely more than 1.8m above the finished ground level (excluding a garage, carport or entry foyer);	(b)	orientated to take advantage of sunlight.		
(b)	has	a minimum horizontal dimension of:				
	(i)	4m; or				
	(ii)	2m, if the dwelling is a multiple dwelling with a finished floor level that is entirely more than 1.8m above the finished ground level (excluding a garage, carport or entry foyer);				

9.4.3 Site coverage and private open space for all dwellings

(c)	is located between the dwelling and the
	frontage only if the frontage is orientated
	between 30 degrees west of true north and 30
	degrees east of true north; and
(d)	has a gradient not steeper than 1 in 10.

9.4.4 Sunlight to private open space of multiple dwellings

Obje	ective		That the separation between multiple dwellings provides reasonable opportunity for sunlight to enter private open space for dwellings on the same site.	
Acc	eptab	ble Solutions	Performance Criteria	
A1			P1	
A multiple dwelling that is to the north of the private open space of another dwelling on the same site, required to satisfy A2 or P2 of clause 9.4.3, must satisfy (a) or (b), unless excluded by (c): (a) the multiple dwelling is contained within a line		ce of another dwelling on the same site, to satisfy A2 or P2 of clause 9.4.3, must) or (b), unless excluded by (c):	A multiple dwelling must be designed and sited to no cause an unreasonable loss of amenity by overshadowing the private open space, of another dwelling on the same site, which is required to satisfy A2 or P2 of clause 9.4.3 of this planning scheme.	
		ecting (see Figure 9.4):		
	(i)	at a distance of 3m from the northern edge of the private open space; and		
	(ii)	vertically to a height of 3m above existing ground level and then at an angle of 45 degrees from the horizontal.		
(b)	the hou	multiple dwelling does not cause 50% of private open space to receive less than 3 rs of sunlight within the hours of 9.00am to 0pm on 21 st June.		
(c)		Acceptable Solution excludes that part of ultiple dwelling consisting of:		
	(i)	an outbuilding with a building height not more than 2.4m; or		
	(ii)	protrusions that extend not more than 0.9m horizontally from the multiple dwelling.		

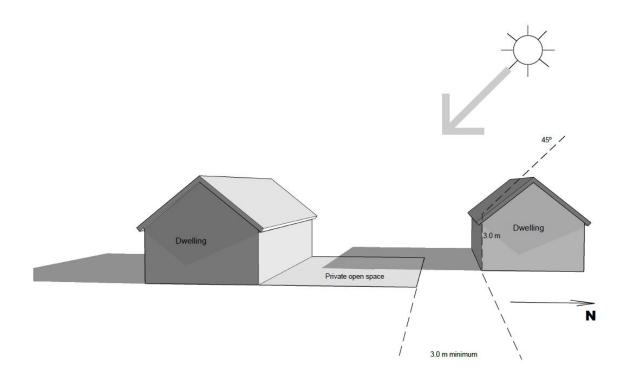

Figure 9.4 Separation from the private open space of another dwelling on the same site as required by clause 9.4.4 A1(a)

9.4.5 Width of openings for garages and carports for all dwellings

Objective: To reduce the potential for garage or carport openings to dominate the primary frontage.		
Acceptable S	Solutions	Performance Criteria
A1		P1
primary fronta free-standing total width of o	arport for a dwelling within 12m of a age, whether the garage or carport is or part of the dwelling, must have a openings facing the primary frontage an 6m or half the width of the frontage the lesser).	A garage or carport for a dwelling must be designed to minimise the width of its openings that are visible from the street, so as to reduce the potential for the openings of a garage or carport to dominate the primary frontage.

9.4.6	Privacy for all dwellings
-------	---------------------------

Obje	ective:	To provide a reasonable opportunity	or privacy for dwellings.	
Acc	Acceptable Solutions		Performance Criteria	
A1			P1	
carp of th level mus not l floor	ort for e dwel I more t have ess tha	deck, roof terrace, parking space, or a dwelling (whether freestanding or part ling), that has a finished surface or floor than 1m above existing ground level a permanently fixed screen to a height of an 1.7m above the finished surface or with a uniform transparency of not more along the sides facing a:	 A balcony, deck, roof terrace, parking space or carport for a dwelling (whether freestanding or part of the dwelling) that has a finished surface or floor level more than 1m above existing ground level, must be screened, or otherwise designed, to minimise overlooking of: (a) a dwelling on an adjoining property or its private open space; or 	
(a)	terrad	boundary, unless the balcony, deck, roof ce, parking space, or carport has a lick of not less than 3m from the side dary;	(b) another dwelling on the same site or its private open space.	
 (b) rear boundary, unless the balcony, deck, roof terrace, parking space, or carport has a setback of not less than 4m from the rear boundary; and 		ce, parking space, or carport has a lick of not less than 4m from the rear		
(c)	deck,	ing on the same site, unless the balcony, roof terrace, parking space, or carport is ess than 6m:		
		from a window or glazed door, to a habitable room of the other dwelling on the same site; or		
		from a balcony, deck, roof terrace or the private open space, of the other dwelling on the same site.		

A2

P2

A window or glazed door, to a habitable room of a dwelling that has a floor level more than 1m above existing ground level, must satisfy (a), unless it satisfies (b):

- (a) The window or glazed door:
 - (i) is to have a setback of not less than 3m from a side boundary;
 - (ii) is to have a setback of not less than 4m from a rear boundary;
 - (iii) if the dwelling is a multiple dwelling, is to be not less than 6m from a window or glazed door, to a habitable room, of another dwelling on the same site; and
 - (iv) if the dwelling is a multiple dwelling, is to be not less than 6m from the private open space of another dwelling on the same site.
- (b) The window or glazed door:
 - (i) is to be offset, in the horizontal plane, not less than 1.5m from the edge of a window or glazed door, to a habitable room of another dwelling;
 - (ii) is to have a sill height of not less than
 1.7m above the floor level or have fixed
 obscure glazing extending to a height of
 at least 1.7m above the floor level; or
 - (iii) is to have a permanently fixed external screen for the full length of the window or glazed door, to a height of not less than 1.7m above floor level, with a uniform transparency of not more than 25%.

A window or glazed door, to a habitable room of dwelling, that has a floor level more than 1m above existing ground level, must be screened, or otherwise located or designed, to minimise direct views to:

- (a) window or glazed door, to a habitable room of another dwelling; and
- (b) the private open space of another dwelling.

A3

A shared driveway or parking space (excluding a parking space allocated to that dwelling) must be separated from a window, or glazed door, to a habitable room of a multiple dwelling by a horizontal distance of not less than:

- (a) 2.5m; or
- (b) 1m if:
 - (i) it is separated by a screen of not less than 1.7m in height; or
 - (ii) the window, or glazed door, to a habitable room has a sill height of not less than 1.7m above the shared driveway or parking space, or has fixed obscure glazing extending to a height of not less than 1.7m above the floor level.

9.4.7 Frontage fences for all dwellings

 Objective:
 That the height and transparency of frontage fences:

 (a)
 provides adequate privacy and security for residents;

 (b)
 allows the potential for mutual passive surveillance between the road and the dwelling; and

 (c)
 are reasonably consistent with that on adjoining properties.

P3

dwelling.

A shared driveway or parking space (excluding a

parking space allocated to that dwelling), must be

minimise unreasonable impact of vehicle noise or

vehicle light intrusion to a habitable room of a multiple

screened, or otherwise located or designed, to

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution. ¹	A fence (including a free-standing wall) within 4.5m of a frontage for a dwelling must:
	 (a) provide for security and privacy, while allowing for passive surveillance of the road; and
	(b) be compatible with the height and transparency of fences in the street, having regard to:
	(i) the topography of the site; and(ii) traffic volumes on the adjoining road.
	(i) tanto volunios on the adjoining road.

¹ An exemption applies for fences in this zone – see Table 4.6.

9.4.8 Waste storage for multiple dwellings

Obje	ective:	To provide for the storage of waste and recycling bins for multiple dwellings.			
Acceptable Solutions		le Solutions	Performance Criteria		
A 1			P1		
A multiple dwelling must have a storage area, for waste and recycling bins, that is an area of not less than 1.5m ² per dwelling and is within one of the		recycling bins, that is an area of not less	A multiple dwelling must have storage for waste an recycling bins that is: (a) capable of storing the number of bins required		
follo	wing l	ocations:	for the site;		
(a)	dwe	n area for the exclusive use of each lling, excluding the area in front of the lling; or	(b) screened from the frontage and any dwellings and

	(i)	has a setback of not less than 4.5m from a frontage;			
	(ii)	is not less than 5.5m from any dwelling; and			
	(iii)	is screened from the frontage and any dwelling by a wall to a height of not less than 1.2m above the finished surface level of the storage area.			

9.5 Development Standards for Non-dwellings

9.5.1 Non-dwelling development

Objective:	That all non-dwelling development:		
	 (a) is compatible with the character, siting, apparent form, scale, bulk, massing and proportion of residential development; and 		
	(b) does not cause an unreasonable loss of amenity on adjoining residential properties.		
Acceptable Solutions		Performance Criteria	
A1		P1	
A building that is not a dwelling, excluding for General Retail and Hire, Food Services, garages,		A building that is not a dwelling, excluding for General Retail and Hire, or Food Services, must have a	

constraints.

General Retail and Hire, Food Services, garages, carports and protrusions that extend not more than 0.9m into the frontage setback, must have a setback from a frontage that is:

(a) if the frontage is a primary frontage, not less than 3m, or if the setback from the primary

setback from a frontage that is compatible with the

streetscape, having regard to any topographical

frontage is less than 3.0m, not less than the setback, from the primary frontage, of any existing dwelling on the site;

- (b) if the frontage is not a primary frontage, not less than 2m, or if the setback from the primary frontage is less than 2.0m, not less than the setback, from the primary frontage, of any existing dwelling on the site; or
- (c) if for a vacant site and there are existing dwellings on adjoining properties on the same street, not more than the greater, or less than the lesser, setback for the equivalent frontage of the dwellings on the adjoining properties on the same street.

A2

A building that is not a dwelling, excluding outbuildings with a building height of not more than 2.4m and protrusions that extend not more than 0.9m horizontally beyond the building envelope, must:

- (a) be contained within a building envelope (refer to Figures 9.1, 9.2 and 9.3) determined by:
 - a distance equal to the frontage setback of 3m, or, for an internal lot, a distance of 4.5m from the rear boundary of a property with an adjoining frontage; and
 - (ii) projecting a line at an angle of 45 degrees from the horizontal at a height of 3m above existing ground level at the side or rear boundaries to a building height of not more than 9.5m above existing ground level; and
- (b) only have a setback within 1.5m of a side or rear boundary if the building:
 - does not extend beyond an existing building built on or within 0.2m of the boundary of the adjoining property; or
 - does not exceed a total length of 9m or one-third of the length of the side or rear boundary (whichever is lesser).

P2

The siting and scale of a building must:

- (a) not cause an unreasonable loss of amenity having regard to:
 - (i) reduction in sunlight to a habitable room
 (other than a bedroom) of a dwelling on an adjoining property;
 - (ii) overshadowing the private open space of a dwelling on an adjoining property;
 - (iii) overshadowing of an adjoining vacant property; and
 - (iv) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from an adjoining property; and
- (b) provide separation between buildings on adjoining properties that is consistent with that existing on established properties in the area.

A3	Р3
A building that is not a dwelling, must have:	A building that is not a dwelling must have:
(a) a site coverage of not more than 65%(excluding eaves up to 0.6m); and	 (a) site coverage consistent with that on established properties in the area; and
(b) a site area of which not less than 15% is free from impervious surfaces.	(b) a reasonable space for the planting of gardens and landscaping.
A4	P4
No Acceptable Solution. ²	A fence (including a free-standing wall) for a building that is not a dwelling within 4.5m of a frontage must:
	(a) provide for security and privacy, while allowing for passive surveillance of the road; and
	(b) be compatible with the height and transparency of fences in the street, having regard to:
	(i) the topography of the site; and
	(ii) traffic volumes on the adjoining road.
A5	Р5
Outdoor storage areas, for a building that is not a dwelling including waste storage must not: (a) be visible from any road or public open space	Outdoor storage areas, for a building that is not a dwelling, must be located or screened to minimise their impact on views into the site from any roads or public open space adjoining the site, having regard to:
adjoining the site; and(b) encroach upon parking areas, driveways or	(a) the nature of the use;
landscaped areas.	(b) the type of goods, materials or waste to be stored;
	(c) the topography of the site; and
	(d) any screening proposed.
A6	P6
Air extraction, pumping, refrigeration systems or compressors, for a building that is not a dwelling, must have a setback not less than 10m from a property containing a sensitive use. ³	 Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors, for a building that is not a dwelling, within 10m of the boundary of a property containing a sensitive use must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity, having regard to: (a) the characteristics and frequency of any emissions generated;

 2 An exemption applies for fences in this zone – see Table 4.6.

 $^{^{3}}$ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6.

(b) the nature of the proposed use;
(c) the topography of the site and location of the sensitive use; and
(d) any mitigation measures proposed.

9.5.2 Non-residential garages and carports

Obje	ctive:	To maintain frontage setbacks compa garage and carport openings to domi	atible with the streetscape and reduce the potential for nate the primary frontage.	
Acce	eptable S	olutions	Performance Criteria	
A 1			P1	
 A garage or carport not forming part of a dwelling, must have a setback from a primary frontage of not less than: (a) 4m, or alternatively 1m behind the building line; 		etback from a primary frontage of not	A garage or carport not forming part of a dwelling, must have a setback from a primary frontage that is compatible with the setbacks of existing garages or carports in the street, having regard to any topographical constraints.

(c)	(c) 1m, if the existing ground level slopes up or down at a gradient steeper than 1 in 5 for a distance of 10m from the frontage.			
A2			P2	
A garage or carport not forming part of a dwelling within 12m of a primary frontage (whether the garage or carport is free-standing) must have a total width of openings facing the primary frontage of not more than 6m or half the width of the frontage (whichever is the lesser).		a primary frontage (whether the bort is free-standing) must have a total ngs facing the primary frontage of not or half the width of the frontage	A garage or carport not forming part of a dwelling must be designed to minimise the width of its openings that are visible from the street, so as to reduce the potential for the openings of a garage or carport to dominate the primary frontage.	

9.6 Development Standards for Subdivision

9.6.1 Lot design

Obje	ective	:	That each lot:			
(b) is provided with appropriate acce						
			()		le for development appropriate to the zone purpose,	
		Perf	iormance Criteria			
A1				P1		
Eacl mus (a)	st:		ot proposed in a plan of subdivision, area of not less than 200m ² and:	mus	h lot, or a lot proposed in a plan of subdivision, It have sufficient useable area and dimensions able for its intended use, having regard to:	
()	(i)	10r	able to contain a minimum area of n x 12m with a gradient not steeper	(a)	the relevant requirements for development of buildings on the lots;	
	tha	tha	n 1 in 5, clear of:	(b)	the intended location of buildings on the lots;	
		a.	all setbacks required by clause 9.4.2 A1, A2 and A3, and 9.5.1 A1 and A2; and	(c) (d)	the topography of the site; the presence of any natural hazards;	
		b.	easements or other title restrictions that limit or restrict development; and	(e) (f)	adequate provision of private open space; and the pattern of development existing on established properties in the area.	
	(ii)	set	ting buildings are consistent with the back required by clause 9.4.2 A1, A2 I A3, and 9.5.1 A1 and A2;			
(b)) be required for public use by the Crown, a council or a State authority;					
(c)	be required for the provision of Utilities; or					
(d)			e consolidation of a lot with another led each lot is within the same zone.			

P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
(a) the width of frontage proposed, if any;
 (b) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
(c) the topography of the site;
(d) the functionality and useability of the frontage;
(e) the ability to manoeuvre vehicles on the site; and
 (f) the pattern of development existing on established properties in the area.
P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
(a) the topography of the site;
 (b) the distance between the lot or building area and the carriageway;
(c) the nature of the road and the traffic;
(d) the anticipated nature of vehicles likely to access the site; and
(e) the ability for emergency services to access the site.

9.6.2 Roads

Objective:	That the arrangement of new roads within a subdivision provides for:	
	(a) safe, convenient and efficient connections to assist accessibility and mobility of the	
	community;	
	(b) the adequate accommodation of vehicular, pedestrian, cycling and public transport	
	traffic; and	
	(c) the efficient ultimate subdivision of the entirety of the land and of surrounding land.	

Acceptable Solutions	Performance Criteria
A1	P1
The subdivision includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety, convenience and legibility for vehicles, pedestrians and cyclists, having regard to:
	(a) any relevant road network plan adopted by the council;
	(b) the existing and proposed road hierarchy;
	 (c) the need for connecting roads and pedestrian paths to common boundaries with adjoining land, to facilitate future subdivision potential;
	 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks;
	 (e) minimising the travel distance between key destinations such as shops and services and public transport routes;
	(f) access to public transport;
	 (g) the efficient and safe movement of pedestrians, cyclists and public transport;
	 (h) the need to provide for bicycle infrastructure on new arterial and collector roads in accordance with <i>Guide to Road Design Part</i> 6A: Paths for Walking and Cycling 2016;
	(i) the topography of the site; and
	(j) the future subdivision potential of any balance lots on adjoining or adjacent land.

9.6.3 Services

Objective:	That the subdivision of land provides services for future use and development of the land.	
Acceptable Solutions		Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a full water supply service.		 A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to: (a) flow rates; (b) the quality of potable water; (c) any existing or proposed infrastructure to provide the water service and its location; (d) the topography of the site; and (e) any advice from a regulated entity.
excluding for p reserve or Utili	ot proposed in a plan of subdivision, public open space, a riparian or littoral ties, must have a connection to a verage system.	P2 No Performance Criterion.
excluding for p reserve or Utili	ot proposed in a plan of subdivision, public open space, a riparian or littoral ties, must be capable of connecting mwater system.	P3 No Performance Criterion.

10.0 Low Density Residential Zone

10.1 Zone Purpose

The purpose of the Low Density Residential Zone is:

- 10.1.1 To provide for residential use and development in residential areas where there are infrastructure or environmental constraints that limit the density, location or form of development.
- 10.1.2 To provide for non-residential use that does not cause an unreasonable loss of amenity, through scale, intensity, noise, traffic generation and movement, or other off site impacts.
- 10.1.3 To provide for Visitor Accommodation that is compatible with residential character.

10.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for a single dwelling.
Utilities	If for minor utilities.
Permitted	
Visitor Accommodation	
Residential	If for a home-based business.
Discretionary	
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic or for the provision of residential support services.
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.
Educational and Occasional Care	If not for a tertiary institution.
Emergency Services	
Food Services	If not for a take away food premises with a drive through facility.
General Retail and Hire	If for a local shop.
Residential	If not listed as No Permit Required or Permitted.

Use Class	Qualification
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

10.3 Use Standards

10.3.1	Discretionary uses
--------	--------------------

Objective:	That Discretionary uses do not cause an unreasonable loss of amenity to adjacent sensitive uses.	
Acceptable So	lutions	Performance Criteria
A1		P1
 Hours of operation for a use listed as Discretionary, excluding Emergency Services or Residential use, must be within: (a) 8.00am to 6.00pm Monday to Friday; (b) 9.00am to 12.00 noon Saturday; and (c) nil on Sunday and public holidays. 		 Hours of operation for a use listed as Discretionary, excluding Emergency Services or Residential use, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise or other emissions.
A2		P2
 Az External lighting for a use listed as Discretionary, excluding Residential use: (a) must be within the hours of 7.00pm to 7.00am, excluding any security lighting; and (b) security lighting must be baffled so that direct light does not extend into the adjoining property. 		 External lighting for a use listed as Discretionary, excluding Residential use, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the number of proposed light sources and their intensity; (b) the location of the proposed light sources; (c) the topography of the site; and (d) any existing light sources.

A3	P3
Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services or Residential use, must be within the hours of: (a) 7:00am to 5:00pm Monday to Friday; (b) 9:00am to 12 noon Saturday; and (c) nil on Sunday and public holidays.	 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services or Residential use, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements; (c) the size of commercial vehicles involved; (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise; (e) any existing or proposed noise mitigation measures between the vehicle movement areas and sensitive use; (f) potential conflicts with other traffic; and (g) existing levels of amenity.
A4	P4
No Acceptable Solution.	A use listed as Discretionary must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to:
	(a) the intensity and scale of the use;
	(b) the emissions generated by the use;
	(c) the type and intensity of traffic generated by the use;
	(d) the impact on the character of the area; and
	(e) the need for the use in that location.

Objective:	Objective:That Visitor Accommodation:(a) is compatible with the character and use of the area;(b) does not cause an unreasonable loss of residential amenity; and(c) does not impact the safety and efficiency of local roads or rights of way.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Visitor Accommodation must: (a) accommodate guests in existing habitable buildings; and		Visitor Accommodation must be compatible with the character and use of the area and not cause an unreasonable loss of residential amenity, having regard to:	
.,	ross floor area of not more than	(a) the privacy of adjoining properties;	
200m² pe	er lot.	 (b) any likely increase in noise to adjoining properties; 	
		 (c) the scale of the use and its compatibility with the surrounding character and uses within the area; 	
		 (d) retaining the primary residential function of an area; 	
		(e) the impact on the safety and efficiency of the local road network; and	
		 (f) any impact on the owners and users rights of way. 	
A1		P2	
part of a strata	nodation is not for a strata lot that is scheme where another strata lot ta scheme is used for a residential	Visitor Accommodation within a strata scheme must not cause an unreasonable loss of residential amenity to long term residents occupying other strata lots within the strata scheme, having regard to:	
		(a) the privacy of residents;	
		(b) any likely increase in noise;	
		(c) the residential function of the strata scheme;	
		(d) the location and layout of the strata lots;	
		 (e) the extent and nature of any other non-residential uses; and 	
		(f) any impact on shared access and common property.	

10.4 Development Standards for Dwellings

10.4.1	Residential	density for	multiple	dwellings

Objective:	That the density of multiple dwellings:	
	 (a) is appropriate for the low density nature of the zone; and (b) is consistent with the availability of infrastructure services and any constraints to development. 	
1		

Acceptable Solutions		Performance Criteria	
A1		P1.1	
 Multiple dwellings must have a site area per dwelling of not less than: (a) 1500m² if it has a connection or is capable of being connected to a full water supply service, a reticulated sewerage system and the public stormwater system; or 		conr sewe mult dwe	a site that has a connection or is capable of being nected to a full water supply service, a reticulated erage system and the public stormwater system, iple dwellings must only have a site area per lling that is less than 1500m ² if the number of llings:
(b)	2500m ² otherwise.	(a)	is not out of character with the pattern of development existing on established properties in the area;
		(b)	does not exceed the capacity of the current or intended infrastructure services in the area; and
		(c)	the site area per dwelling is not less than 1200m ² ,
		havi	ng regard to any constraints to development.
		P1.2	
		full w syste dwel	a site that is not capable of being connected to a vater supply service, a reticulated sewerage em and the public stormwater system, multiple lings must only have a site area per dwelling that as than 2500m ² if the number of dwellings:
		(a)	is not out of character with the pattern of development existing on established properties in the area;
		(b)	can be provided with adequate on-site wastewater disposal and water supply; and
		(c)	the site area per dwelling is not less than 2000m ² ; and
		(d)	a regulated entity has provided written advice stating that the site is unable to be connected to a full water supply service or a reticulated sewerage system,
		havi	ng regard to any constraints to development.

Tasmanian Planning Scheme – State Planning Provisions

10.4.2 Building height

Objective:	That the height of dwellings is compatible with the streetscape and do not cause an unreasonable loss of amenity for adjoining properties.	
Acceptable Sol	lutions	Performance Criteria
A1		P1
A dwelling must than 8.5m.	have a building height not more	The height of dwellings must be compatible with the streetscape and not cause an unreasonable loss of amenity to adjoining properties having regard to:
		(a) the topography of the site;
		 (b) the height of buildings on the site and adjacent properties;
		 (c) the bulk and form of existing and proposed buildings;
		(d) sunlight to habitable rooms and private open space of dwellings; and
		(e) any overshadowing of adjoining properties.

10.4.3 S	etback
----------	--------

Objective:	That the siting of dwellings is compatible with the streetscape and does not cause an unreasonable loss of amenity for adjoining properties.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Dwellings, excluding protrusions that extend not more than 0.9m into the frontage setback, must have a setback from a frontage not less than 8m.		 The siting of a dwelling must be compatible with the streetscape and character of development existing o established properties in the area, having regard to: (a) the topography of the site; (b) the setbacks of surrounding buildings; (c) the height, bulk and form of existing and proposed buildings; (d) the appearance when viewed from roads and 	
		public open space adjacent to the site; and(e) the safety of road users.	
A2		P2	
Dwellings, excluding outbuildings with a building height of not more than 2.4m and protrusions that extend not more than 0.9m horizontally from the		The siting of a dwelling must not cause an unreasonable loss of amenity to adjoining properties, having regard to:	
-	have a setback from side and rear not less than 5m.	(a) the topography of the site;	
boundaries of		(b) the size, shape and orientation of the site;	
		(c) the setbacks of surrounding buildings;	
		(d) the height, bulk and form of existing and proposed buildings;	
		 (e) the existing buildings and private open space areas on the site; 	
		(f) sunlight to private open space and windows of habitable rooms on adjoining properties; and	
		(g) the character of development existing on established properties in the area.	

10.4.4 Site coverage

Objective:	 That site coverage: (a) is consistent with the character of existing development in the area; (b) provides sufficient area for private open space and landscaping; and (c) assists with the management of stormwater runoff. 		
Acceptable Solutions		Performance Criteria	
A1		P1	
Dwellings mu than 30%.	st have a site coverage of not more	The site coverage of dwellings must be consistent with that existing on established properties in the area, having regard to:	
		(a) the topography of the site;	
		(b) the capacity of the site to absorb runoff;	
		(c) the size and shape of the site;	
		 (d) the existing buildings and any constraints imposed by existing development; 	
		(e) the provision for landscaping and private open space;	
		(f) the need to remove vegetation; and	
		(g) the site coverage of adjacent properties.	

10.4.5 Frontage fences for all dwellings

Objective:	 That the height and transparency of frontage fences: (a) provides adequate privacy and security for residents; (b) allows the potential for mutual passive surveillance between the road and the dwelling; and (c) is reasonably consistent with fences in the street. 	
Acceptable Solutions Performance Criteria		Performance Criteria
A1 No Acceptabl	e Solution. ¹	P1 A fence (including a free-standing wall) for a dwelling within 4.5m of a frontage must:
		 (a) provide for security and privacy, while allowing for passive surveillance of the road; and

 $^{^{1}}$ An exemption applies for fences in this zone – see Table 4.6.

(b) be consistent with the height and transparency of fences in the street, having regard to:
(i) the topography of the site; and
(ii) traffic volumes on the adjoining road.

10.5 Development Standards for Non-dwellings

10.5.1	Non-dwelling development
--------	--------------------------

Objective:	 That all non-dwelling development: (a) is compatible with the streetscape; (b) is compatible with the form and scale of existing residential development; and (c) does not cause an unreasonable loss of amenity to adjoining properties. 	
Acceptable	Solutions	Performance Criteria
A1		P1
A building that is not a dwelling must have a building height not more than 8.5m.		The height of a building that is not a dwelling must be compatible with the streetscape and not cause an unreasonable loss of amenity to adjoining properties, having regard to:
		(a) the topography of the site;
		 (b) the height of buildings on the site and adjacent properties;
		 (c) the bulk and form of existing and proposed buildings;
		 (d) sunlight to habitable rooms of dwellings and private open space; and
		(e) any overshadowing of adjoining properties.
A2		P2
A building that is not a dwelling, excluding protrusions that extend not more than 0.9m into the frontage setback, must have a setback from a frontage not less than 8m.		The siting of a building that is not a dwelling must be compatible with the streetscape and character of development existing on established properties in the area, having regard to:
	(a) the topography of the site;	
	(b) the setbacks of surrounding buildings;	
	(c) the height, bulk and form of existing and proposed buildings;	
	(d) the appearance when viewed from roads and public open space adjacent to the site; and	
		(e) the safety of road users.

A3	P3
A building that is not a dwelling excluding outbuildings with a building height of not more than 2.4m and protrusions that extend not more than 0.9m horizontally from the building, must have a setback from side and rear boundaries of not less	The siting of a building that is not a dwelling, must not cause unreasonable loss of amenity to adjoining properties, having regard to:
	(a) the topography of the site;
than 5m.	(b) the size, shape and orientation of the site;
	(c) the setbacks of surrounding buildings;
	 (d) the height, bulk and form of existing and proposed buildings;
	 (e) the existing buildings and private open space areas on the site;
	(f) sunlight to private open space and windows of habitable rooms on adjoining properties; and
	(g) the character of development existing on established properties in the area.
A4	P4
A building that is not a dwelling must have a site coverage of not more than 30%.	The site coverage of a building that is not a dwelling must be consistent with that existing on established properties in the area, having regard to:
	(a) the topography of the site;
	(b) the capacity of the site to absorb runoff;
	(c) the size and shape of the site;
	 (d) the existing buildings and any constraints imposed by existing development;
	(e) the provision for landscaping and private open space;
	(f) the need to remove vegetation; and
	(g) the site coverage of adjacent properties.
A5	P5
No Acceptable Solution. ²	A fence (including a free-standing wall) for a building that is not a dwelling within 4.5m of a frontage must:
	 (a) provide for security and privacy, while allowing for passive surveillance of the road; and
	(b) be consistent with the height and transparency of fences in the street, having regard to:

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

	(i) the topography of the site; and(ii) traffic volumes on the adjoining road.
A6	P6
 Outdoor storage areas, for a building that is not a dwelling, including waste storage, must not: (a) be visible from any road or public open space adjoining the site; and (b) encroach upon parking areas, driveways or landscaped areas. 	 Outdoor storage areas, for a building that is not a dwelling, must be located or screened to minimise its impact on views into the site from any roads or public open space adjoining the site, having regard to: (a) the nature of the use; (b) the type of goods, materials or waste to be stored; (c) the topography of the site; and (d) any screening proposed.
A7	P7
Air extraction, pumping, refrigeration systems or compressors, for a building that is not a dwelling, must have a setback from the boundary of a property containing a sensitive use of not less than 10m. ³	Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors, for a building that is not a dwelling, within 10m of a the boundary of a property containing a sensitive use must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity, having regard to:
	 (a) the characteristics and frequency of any emissions generated;
	(b) the nature of the proposed use;
	 (c) the topography of the site and location of the sensitive use; and
	(d) any mitigation measures proposed.

 $^{^{3}}$ An exemption applies for heat pumps and air conditioners in this zone – see Table 4.6.

10.6 Development Standards for Subdivision

10.6.1 Lot design

Objective: That each lot: (a) has an area and dimensions app (b) is provided with appropriate acc (c) contains areas which are suitab		(a) has an area and dimensions ap(b) is provided with appropriate acc		
Acc	Acceptable Solutions			Performance Criteria
A1				P1
Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 1500m ² and:				Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:
	(i)	be a 10r	able to contain a minimum area of n x 15m with a gradient not steeper n 1 in 5, clear of:	(a) the relevant requirements for development of buildings on the lots;(b) the intended location of buildings on the lots;
		a. b.	all setbacks required by clause 10.4.3 A1 and A2; and easements or other title restrictions that limit or restrict development; and	 (c) the topography of the site; (d) adequate provision of private open space; (e) the pattern of development existing on established properties in the area; and
	(ii)	set	ting buildings are consistent with the back required by clause 10.4.3 A1 I A2;	 (f) any constraints to development, and must have an area not less than 1200m².
 (b) be required for public use by the Crown, a council or a State authority; 		• •		
(c) be required for the provision of Utilities; or			ed for the provision of Utilities; or	
(d)	(d) be for the consolidation of a lot with another lot provided each lot is within the same zone.			

A2	P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a frontage not less than 20m.	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	(a) the width of frontage proposed, if any;
	 (b) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(c) the topography of the site;
	(d) the functionality and useability of the frontage;
	 (e) the ability to manoeuvre vehicles on the site; and
	(f) the pattern of development existing on established properties in the area,
	and is not less than 3.6m wide.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	(c) the nature of the road and the traffic;
	(d) the anticipated nature of vehicles likely to access the site; and
	(e) the ability for emergency services to access the site.

10.6.2 Roads

Objective:	That the arrangement of new roads within a subdivision provides: (a) the provision of safe, convenient and efficient connections to assist accessibility and
	 mobility of the community; (b) the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic; and (c) the efficient ultimate subdivision of the entirety of the land and of surrounding land.

Acceptable Solutions	Performance Criteria
A1	P1
The subdivision includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety, convenience and legibility for vehicles, pedestrians and cyclists, having regard to:
	 (a) any relevant road network plan adopted by council;
	(b) the existing and proposed road hierarchy;
	 (c) the need for connecting roads and pedestrian paths, to common boundaries with adjoining land, to facilitate future subdivision potential;
	 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks;
	 (e) minimising the travel distance between key destinations such as shops and services and public transport routes;
	(f) access to public transport;
	(g) the efficient and safe movement of pedestrians, cyclists and public transport;
	 (h) the need to provide for bicycle infrastructure on new arterial and collector roads in accordance with the <i>Guide to Road Design Part 6A: Paths</i> for Walking and Cycling 2016;
	(i) the topography of the site; and
	 (j) the future subdivision potential of any balance lots on adjoining or adjacent land.

10.6.3	Services
10.6.3	Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable S	olutions	Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must:		No Performance Criterion.
 (a) be connected to a full water supply service if the frontage of the lot is within 30m of a full water supply service; or 		
if the from	ected to a limited water supply service stage of the lot is within 30m of a ater supply service,	
	lated entity advises that the lot is connected to the relevant water	
A2		P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a reticulated sewerage system.		Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.
A3		P3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.		Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to:
		(a) the size of the lot;
		(b) topography of the site;
		(c) soil conditions;
		(d) any existing buildings on the site;
		 (e) any area of the site covered by impervious surfaces; and
		(f) any watercourse on the land.

11.0 Rural Living Zone

11.1 Zone Purpose

The purpose of the Rural Living Zone is:

- 11.1.1 To provide for residential use or development in a rural setting where:
 - (a) services are limited; or
 - (b) existing natural and landscape values are to be retained.
- 11.1.2 To provide for compatible agricultural use and development that does not adversely impact on residential amenity.
- 11.1.3 To provide for other use or development that does not cause an unreasonable loss of amenity, through noise, scale, intensity, traffic generation and movement, or other off site impacts.
- 11.1.4 To provide for Visitor Accommodation that is compatible with residential character.

Use Class	Qualification		
No Permit Required			
Natural and Cultural Values Management			
Passive Recreation			
Residential	If for a single dwelling.		
Resource Development	If for grazing.		
Utilities	If for minor utilities.		
Permitted			
Residential	If for a home-based business.		
Visitor Accommodation			
Discretionary			
Business and Professional Services	If for a veterinary centre.		
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.		
Domestic Animal Breeding, Boarding or Training			

Use Class	Qualification	
Education and Occasional Care	If for: (a) a childcare centre or primary school; or (b) an existing respite centre.	
Emergency Services		
Food Services	If for a gross floor area of not more than 200m ² .	
General Retail and Hire	 If for: (a) primary produce sales; (b) sales related to Resource Development; or (c) a local shop. 	
Manufacturing and Processing	If for alterations or extensions to existing Manufacturing and Processing.	
Resource Development	If:(a) not for intensive animal husbandry or plantation forestry; or(b) not listed as No Permit Required.	
Resource Processing	If not for an abattoir, animal saleyards or sawmilling.	
Sports and Recreation	If for an outdoor recreation facility.	
Utilities	If not listed as No Permit Required.	
Vehicle Fuel Sales and Service		
Prohibited		
All other uses		

11.3 Use Standards

11.3.1 Discretionary uses

Objective:	That Discretionary uses do not cause an unreasonable loss of amenity to adjacent sensitive uses.	
Acceptable Sol	utions	Performance Criteria
A1		P1
 Hours of operation for a use listed as Discretionary, excluding Emergency Services or Resource Development, must be within the hours of: (a) 8.00am to 6.00pm Monday to Friday; (b) 9.00am to 12.00 noon Saturday; and (c) nil on Sunday and public holidays. 		 Hours of operation for a use listed as Discretionary, excluding Emergency Services or Resource Development, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the timing, duration or extent of vehicle movements; and

	(b) noise, lighting or other emissions.
A2	P2
External lighting for a use listed as Discretionary:	External lighting for a use listed as Discretionary,
(a) must be within the hours of 7.00pm to 7.00am, excluding any security lighting; and	must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to:
(b) security lighting must be baffled so that direct light does not extend into the adjoining	 (a) the number of proposed light sources and their intensity;
property.	(b) the location of the proposed light sources;
	(c) the topography of the site; and
	(d) any existing light sources.
A3	Р3
 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must be within the hours of: (a) 7.00am to 5.00pm Monday to Friday; (b) 9.00am to 12 noon Saturday; and (c) nil on Sunday and public holidays. 	 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use listed as Discretionary, excluding Emergency Services, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the extent and timing of traffic generation; (b) the dispatch of goods and materials; and (c) the existing levels of amenity.

11.3.2 Visitor Accommodation

Objective:	That Visitor Accommodation: (a) is compatible with the character a (b) does not cause an unreasonable (c) does not impact the safety and e	
Acceptable Solutions		Performance Criteria

Acceptable Solutions	Performance Criteria
A1	P1
Visitor Accommodation must: (a) accommodate guests in existing habitable buildings; and	Visitor Accommodation must be compatible with the character and use of the area and not cause an unreasonable loss of residential amenity, having regard to:
(b) have a gross floor area of not more than 200m ² per lot.	 (a) the privacy of adjoining properties; (b) any likely increase in noise to adjoining properties; (c) the scale of the use and its compatibility with the surrounding character and uses within the

	 area; (d) retaining the primary residential function of an area; (e) the impact on the safety and efficiency of the local road network; and (f) any impact on the owners and users rights of way.
A1 Visitor Accommodation is not for a strata lot that is part of a strata scheme where another strata lot within that strata scheme is used for a residential use.	 P2 Visitor Accommodation within a strata scheme must not cause an unreasonable loss of residential amenity to long term residents occupying other strata lots within the strata scheme, having regard to: (a) the privacy of residents; (b) any likely increase in noise; (c) the residential function of the strata scheme; (d) the location and layout of the strata lots; (e) the extent and nature of any other non-residential uses; and (f) any impact on shared access and common property.

11.4 Development Standards for Buildings and Works

11.4.1 Site coverage

Objective:	That the site coverage:(a) is compatible with the character of existing development in the area; and(b) assists with the management of stormwater runoff.	
Acceptable S	olutions	Performance Criteria
A1		P1
The site cover	rage must be not more than 400m ² .	The site coverage must be consistent with that existing on established properties in the area, having regard to:
		(a) the topography of the site;
		(b) the capacity of the site to absorb runoff;
		(c) the size and shape of the site;
		 (d) the existing buildings and any constraints imposed by existing development;

(e) the need to remove vegetation; and
(f) the character of development existing on established properties in the area.

11.4.2 Building height, setback and siting

Objective:	That height, setback and siting of built	dings:
(a) is compatible with the character(b) does not cause an unreasonable(c) minimises the impact on the nat		of the area;
		e loss of amenity;
		ural values of the area; and
	(d) minimises the impact on adjace	nt uses.
Acceptable S	Solutions	Performance Criteria
A1		P1
Building heigl	ht must be not more than 8.5m.	Building height must be compatible with the character of the area and not cause an unreasonable loss of amenity to adjoining properties having regard to:
		(a) the topography of the site;
		(b) the height, bulk and form of existing buildings on the site and adjoining properties;
		(c) the bulk and form of proposed buildings;
		 (d) sunlight to habitable rooms and private open space in adjoining properties; and
		 (e) any overshadowing of adjoining properties or public places.
A2		P2
Buildings mus less than 20m	st have a setback from a frontage of not n.	Buildings must be sited to be compatible with the character of the area, having regard to:
		(a) the topography of the site;
		(b) the setbacks of adjacent buildings;
		 (c) the height, bulk and form of existing and proposed buildings;
		(d) the appearance when viewed from roads and public places; and
		(e) the retention of vegetation.
A3		P3
	st have a setback from side and rear f not less than 10m.	Buildings must be sited to not cause an unreasonable loss of amenity to adjoining properties, having regard to:
		(a) the topography of the site;

	(b) the size, shape and orientation of the site;
	(c) the setbacks of surrounding buildings;
	 (d) the height bulk and form of existing and proposed buildings;
	 (e) the character of the development existing on established properties in the area; and
	 (f) any overshadowing of adjoining properties or public places.
A4	P4
 Buildings for a sensitive use must be separated from an Agriculture Zone or Rural Zone a distance of: (a) not less than 200m; or (b) if the setback of an existing building is within 200m, not less than the existing building. 	 Buildings for a sensitive use must be sited so as to not conflict or interfere with uses in the Agriculture Zone or Rural Zone, having regard to: (a) the size, shape and topography of the site; (b) the separation of any existing buildings for sensitive uses on adjoining properties; (c) the existing and potential use of adjoining properties; (d) any proposed attenuation measures; and (e) any buffers created by natural or other features.

11.5 Development Standards for Subdivision

Objective:	 (a) has an area and dimensions appropriate for use and development in the zone; (b) is provided with appropriate access to a road; and 	
Acceptable	(c) contains areas which are suitab	Performance Criteria
A1		P1
Each lot, or a must:	a lot proposed in a plan of subdivision,	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral
	n area not loss than analified in Table	reserve or Utilities, must have sufficient useable area

regard to:

(c)

(e)

(f)

P2

- (a) have an area not less than specified in Table 11.1 and:
 - (i) be able to contain a minimum area of 15m x 20m clear of:
 - a. all setbacks required by clause 11.4.2 A2 and A3; and
 - easements or other title restrictions that limit or restrict development; and
 - existing buildings are consistent with the setback required by clause 11.4.2 A2 and A3;
- (b) be required for public use by the Crown, a council or a State authority;
- (c) be required for the provision of Utilities; or

A2

(d) be for the consolidation of a lot with another lot provided each lot is within the same zone.

Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a frontage not less than 40m.

Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:

and dimensions suitable for its intended use, having

(a) the relevant requirements for development of

(b) the intended location of buildings on the lots;

the pattern of development existing on

and must be no more than 20% smaller than the

applicable lot size required by clause 11.5.1 A1.

established properties in the area,

adequate provision of private open space; and

existing buildings on the lots;

the topography of the site;

(d) any natural or landscape values;

- (a) the width of frontage proposed, if any;
- (b) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
- (c) the topography of the site;
- (d) the functionality and useability of the frontage;

	 (e) the ability to manoeuvre vehicles on the site; and (f) the pattern of development existing on established properties in the area, and is not less than 3.6m wide.
A3	Р3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to: (a) the topography of the site;
	(b) the length of the access;
	 (c) the distance between the lot or building area and the carriageway;
	(d) the nature of the road and the traffic;
	 (e) the anticipated nature of vehicles likely to access the site; and
	 (f) the ability for emergency services to access the site.

Table 11.1 Rural Living Zone minimum lot sizes

Rural Living Zone A	1ha
Rural Living Zone B	2ha
Rural Living Zone C	5ha
Rural Living Zone D	10ha

11.5.2 Roads

Objective:	 That the arrangement of new roads with a subdivision provides: (a) safe, convenient and efficient connections to assist accessibility and mobility of the community; (b) adequate accommodation of vehicular, pedestrian, cycling and public transport traffic; and (c) the efficient ultimate subdivision of the entirety of the land and of surrounding land. 	
Acceptable S	olutions	Performance Criteria
A1		P1
The subdivisio	n includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of

subdivision must provide an appropriate level of
access, connectivity, safety, convenience and
legibility for vehicles, having regard to:
(a) any relevant road network plan adopted by the

(b) the existing and proposed road hierarchy;

(e) access for pedestrians and cyclists.

maximising connectivity with the surrounding

appropriate access to public transport; and

council;

road network;

(c)

(d)

11.5.3 Services

Objective:	Objective: That the subdivision of land provides services for the future use and development of the land.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must:		No Performance Criterion.	
 (a) be connected to a full water supply service if the frontage of the lot is within 30m of a full water supply service; or 			
(b) be connected to a limited water supply service if the frontage of the lot is within 30m of a limited water supply service,			
unless a regulated entity advises that the lot is unable to be connected to the relevant water supply service.			
A2		P2	
 Each lot, or a lot proposed in a plan of subdivision, excluding within Rural Living Zone C or Rural Living Zone D or for public open space, a riparian or littoral reserve or Utilities, must: (a) be connected to a reticulated sewerage system; or 		Each lot, or a lot proposed in a plan of subdivision, excluding within Rural Living Zone C or Rural Living Zone D or for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.	
system if 30m of a	ected to a reticulated sewerage the frontage of each lot is within reticulated sewerage system and onnected by gravity feed.		

12.0 Village Zone

12.1 Zone Purpose

The purpose of the Village Zone is:

- 12.1.1 To provide for small rural centres with a mix of residential, community services and commercial activities.
- 12.1.2 To provide amenity for residents appropriate to the mixed use characteristics of the zone.

12.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for a single dwelling or home-based business.
Utilities	If for minor utilities.
Permitted	
Business and Professional Services	
Community Meeting and Entertainment	
Educational and Occasional Care	
Emergency Services	
Food Services	
General Retail and Hire	
Residential	If not listed as No Permit Required.
Service Industry	If not for motor repairs or panel beating.
Sports and Recreation	
Storage	If not for liquid fuel depot or solid fuel depot.
Visitor Accommodation	

Use Class	Qualification
Discretionary	
Bulky Goods Sales	
Crematoria and Cemeteries	If for a cemetery.
Custodial Facility	If for a remand centre.
Domestic Animal Breeding, Boarding or Training	
Equipment and Machinery Sales and Hire	
Hotel Industry	
Manufacturing and Processing	If for: (a) a craft industry or an artist's studio; or (b) alterations or extensions to existing Manufacturing and Processing.
Pleasure Boat Facility	
Research and Development	
Resource Processing	If not for an abattoir, animal saleyards or sawmilling.
Service Industry	If not listed as Permitted.
Tourist Operation	
Transport Depot and Distribution	
Utilities	If not listed as No Permit Required.
Vehicle Fuel Sales and Service	
Vehicle Parking	
Prohibited	
All other uses	

12.3 Use Standards

Objective:	 That non-residential use: (a) is compatible with the mixed use characteristics of a village; and (b) does not cause unreasonable loss of amenity to adjacent sensitive uses. 	
Acceptable Solutions		Performance Criteria
A1		P1

A1	P1	
 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, must be within the hours of: (a) 7.00am to 9.00pm Monday to Friday; (b) 8.00am to 6.00pm Saturday; and (c) 9.00am to 5.00pm Sunday and public holidays. 	 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions. 	
A2	P2	
 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, must: (a) be baffled so that it does not cause emission of light onto adjoining residential properties; and (b) not include permanent fixed floodlighting if the site adjoins a General Residential Zone, Low Density Residential Zone or Rural Living Zone. 	 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, used on the site must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the number of proposed light sources and their intensity; (b) the location of the proposed light sources; (c) the topography of the site; (d) the degree of screening between the light source and the sensitive use; and (e) existing light sources. 	

A3	P3		
 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, must be within the hours of: (a) 7.00am to 7.00pm Monday to Friday; and (b) 8.00am to 6.00pm Saturday, Sunday and public holidays. 	 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Utilities or Visitor Accommodation, must not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the extent and timing of traffic generation; (b) the dispatch of goods and materials; (c) the size of commercial vehicles involved; (d) noise reducing structures between vehicle movement areas and dwellings; and 		
	(e) existing levels of amenity.		
A4	Р4		
The gross floor area of a non-residential use, excluding Visitor Accommodation, must be not more than 250m ² .	 A non-residential use, excluding Visitor Accommodation, must be at a scale and intensity consistent with the character of the area, having regard to: (a) the nature and scale of the use; (b) the number of employees; (c) the hours of operation; (d) the emissions generated by the use; (e) the type and intensity of traffic generated by the use; 		
	(f) the impact on the character of the surrounding area; and(g) the impact on the amenity of any adjoining		
	residential properties.		

12.3.2 Visitor Accommodation			
Objective:That Visitor Accommodation: (a) is compatible with the character and use of the area; (b) does not cause an unreasonable loss of residential amenity; and (c) does not impact the safety and efficiency of local roads or rights of way.			
Acceptable Solutions	Performance Criteria		
A1	P1		
Visitor Accommodation must:(a) accommodate guests in existing habitable buildings; and	Visitor Accommodation must be compatible with the character and use of the area and not cause an unreasonable loss of residential amenity, having regard to:		
 (b) have a gross floor area of not more than 200m² per lot. 	(a) the privacy of adjoining properties;		
	 (b) any likely increase in noise to adjoining properties; 		
	 (c) the scale of the use and its compatibility with the surrounding character and uses within the area; 		
	(d) retaining the primary residential function of an area;		
	 (e) the impact on the safety and efficiency of the local road network; and 		
	 (f) any impact on the owners and users rights of way. 		
A2 Visitor Accommodation is not for a strata lot that is part of a strata scheme where another strata lot within that strata scheme is used for a residential use.	 P2 Visitor Accommodation within a strata scheme must not cause an unreasonable loss of residential amenity to long term residents occupying other strata lots within the strata scheme, having regard to: (a) the privacy of residents (b) any likely increase in noise; (c) the residential function of the strata scheme; (d) the location and layout of the strata lots; (e) the extent and nature of any other non-residential uses; and (f) any impact on shared access and common property. 		

12.4 Development Standards for Buildings and Works

12.4.1	Posidontial	donsity	ande	onvicina	for multi	inla (dwallings
12.4.1	Residential	uensity	anu s	ervicing	101 muit	ipie (uwenniya

Objective:	 ctive: That the density of multiple dwellings: (a) makes efficient use of land for housing; and (b) optimises the use of infrastructure and community services. 			
Acceptable Sol	utions	Performance Criteria		
600m²; an (b) have a cor	e area per dwelling of not less than	 P1.1 For a site that has a connection to or is capable of being connected to, a reticulated sewerage, stormwater and full water supply service, multiple dwellings must only have a site area per dwelling that is less than 600m² if the number of dwellings: (a) have a site area per dwelling that does not exceed the capacity of the reticulated infrastructure services; and (b) are consistent with the density existing on established properties in the area; or (c) the development provides a specific accommodation need with significant social or community benefit. P1.2 For a site that is not capable of being connected to a reticulated sewerage, stormwater and full water supply service, multiple dwellings must have a site area that: (a) is sufficient for on-site wastewater and stormwater disposal and water supply; and (b) a regulated entity has provided written advice stating that the site is unable to be connected to a full water supply service or a reticulated sewerage system. 		

12.4.2 Building height

Objective:	That building height is compatible with the streetscape and does not cause an unreasonable loss of amenity for adjoining properties.			
Acceptable Sol	utions	Performance Criteria		
A1		P1		
Building height n	nust be not more than 8.5m.	Building height must be compatible with the streetscape and not cause an unreasonable loss of amenity to adjoining properties, having regard to:		
		(a) the topography of the site;		
		 (b) the height, bulk and form of existing buildings on the site and adjoining properties; 		
		(c) the bulk and form of proposed buildings;		
		 (d) sunlight to habitable rooms and private open space in adjoining properties; and 		
		 (e) any overshadowing of adjoining properties or public places. 		

12.4.3 Setback

Objective:	That building setback is compatible with the streetscape and does not result in an unreasonable impact on amenity of adjoining properties.		
Acceptable So	lutions	Performance Criteria	
A1 Buildings must h (a) not less tha (b) not less tha (c) not more or	nave a setback from a frontage of:	 P1 Buildings must be sited to be compatible with the streetscape and character of development existing on established properties in the area, having regard to: (a) the topography of the site; (b) the setbacks of buildings on adjoining properties; (c) the height, bulk and form of existing and proposed buildings; (d) the appearance of proposed buildings when 	
		 (d) the appearance of proposed buildings when viewed from roads and public places adjoining the site; and (e) the safety of road users. 	

A2	P2	
Buildings must have a setback from side and rear boundaries of not less than:	Buildings must be sited so that there is no unreasonable loss of amenity to adjoining properties having regard to:	
(a) 3m; or(b) half the wall height of the building,	(a) the topography of the site;	
whichever is the greater.	(b) the size, shape and orientation of the site;	
	(c) the setbacks of surrounding buildings;	
	 (d) the height, bulk and form of existing and proposed buildings; 	
	 (e) the existing buildings and private open space areas on the site; 	
	 (f) sunlight to private open space and windows of habitable rooms on adjoining properties; and 	
	(g) the character of development existing on established properties in the area.	
A3	Р3	
Air extraction, pumping, refrigeration systems, compressors or generators, excluding Residential, Visitor Accommodation, Natural and Cultural Values Management, Passive Recreation and Utilities, must have a setback from a property containing a sensitive use of not less than 10m. ¹	Air conditioning, air extraction, pumping, heating or refrigeration systems, compressors or generators, excluding Residential, Visitor Accommodation, Natural and Cultural Values Management, Passive Recreation and Utilities, within 10m of a property containing a sensitive use must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity, having regard to:	
	 (a) the characteristics and frequency of any emissions generated; 	
	(b) the nature of the proposed use;	
	(c) the topography of the site and location of the sensitive use; and	
	(d) any mitigation measures proposed.	

¹ An exemption for air conditioners and heat pumps applies in this zone – see Table 4.6.

12.4.4 Site coverage

Objective:	That site coverage:(a) is compatible with the character of the development existing in the area; and(b) provides sufficient area for private open space and landscaping.	
Acceptable So	lutions	Performance Criteria
A1		P1
Site coverage m	nust be not more than 50%.	 Site coverage must be consistent with that existing on established properties in the area, having regard to: (a) the topography of the site; (b) the size and shape of the site; (c) the existing buildings and any constraints imposed by existing development; (d) the provision for landscaping and private open space; and (e) the character of development existing on established properties in the area.

12.4.5 Fencing

 That the height and transparency of frontage fences: (a) allows the potential for mutual passive surveillance between the road and the dwelling; and (b) provides reasonably consistent height and transparency. 	
lutions	Performance Criteria
	P1
Solution. ²	A fence (including a free-standing wall) within 4.5m of a frontage must:
	 (a) provide for security and privacy, while allowing for passive surveillance of the road; and
	(b) be consistent with the height and transparency of fences in the street, having regard to:
	(i) topography of the site; and(ii) traffic volumes on the adjoining road.
	 (a) allows the potential for mutual dwelling; and (b) provides reasonably consister

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

12.4.6 Outdoor storage areas

Objective:	That outdoor storage areas for non-residential use do not detract from the appearance of the site or surrounding area.		
Acceptable So	lutions	Performance Criteria	
A1		P1	
excluding for the	e areas for non-residential uses, e display of goods for sale, must not any road or public open space e.	 Outdoor storage areas for non-residential uses, excluding any goods for sale, must be located, treated or screened to not cause an unreasonable loss of the visual amenity of the area, having regard to: (a) the nature of the use; (b) the type of goods, materials or waste to be stored; (c) the topography of the site; and (d) any screening proposed. 	

12.5 Development Standards for Subdivision

12.5.1 Lot design

Objective	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 		
Acceptable	e Solutions	Performance Criteria	
must: (a) have a (i) b t t	 a lot proposed in a plan of subdivision, an area of not less than 600m² and: be able to contain a minimum area of 10m x 15m, with a gradient of not more than 1 in 5, clear of: a. all setbacks required by clause 12.4.3 A1 and A2; and b. easements or other title restrictions that limit or restrict development; and 	 P1 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) the relevant requirements for development of existing buildings on the lots; (b) the intended location of buildings on the lots; (c) the topography of the site; (d) the presence of any natural hazards; 	
5	existing buildings are consistent with the setback required by clause 12.4.3 A1 and A2; quired for public use by the Crown, a	 (e) adequate provision of private open space; and (f) the pattern of development existing on established properties in the area. 	

council or a State authority;	
(c) be required for the provision of Utilities; or	
(d) be for the consolidation of a lot with another lot provided each lot is within the same zone.	
A2	P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a frontage not less than 10m.	Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(b) the topography of the site;
	(c) the functionality and useability of the frontage;
	 (d) the anticipated nature of vehicles likely to access the site;
	(e) the ability to manoeuvre vehicles on the site;
	(f) the ability for emergency services to access the site; and
	 (g) the pattern of development existing on established properties in the area,
	and is not less than 3.6m wide.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
requirements of the road autionty.	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	(c) the nature of the road and the traffic; and
	 (d) the pattern of development existing on established properties in the area.

12.5.2 Roads

Objective:	 That the arrangement of new roads within a subdivision provides: (a) safe, convenient and efficient connections to assist accessibility and mobility of the community; (b) adequate accommodation of vehicular, pedestrian, cycling and public transport traffic; and (c) the efficient ultimate subdivision of the entirety of the land and of surrounding land. 		
Acceptable Sol	ptable Solutions Performance Criteria		
A1		P1	
The subdivision	includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety, convenience and legibility for vehicles, pedestrians and cyclists, having regard to: (a) any relevant road network plan adopted by	
		council; (b) the existing and proposed road hierarchy;	
		 (c) the need for connecting roads and pedestrian paths to common boundaries with adjoining land to facilitate future subdivision potential; 	
		 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks; 	
		(e) access to public transport;	
		(f) the topography of the site; and	
		(g) the future subdivision potential of any balance lots on adjoining or adjacent land.	

12.5.3 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable Sol	utions	Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must		No Performance Criterion.
(a) be connect	ed to a full water supply service if	

 the frontage of the lot is within 30m of a full water supply service; or (b) be connected to a limited water supply service if the frontage of the lot is within 30m of a connection to a limited water supply service, unless a regulated entity advises that the lot is unable to be connected to the relevant water supply service. 	
A2 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a reticulated sewerage system.	P2 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to:
	(a) the size of the lot;
	(b) topography of the site;
	(c) soil conditions;
	(c) soil conditions;(d) any existing buildings on the site;

13.0 Urban Mixed Use Zone

13.1 Zone Purpose

The purpose of the Urban Mixed Use Zone is:

- 13.1.1 To provide for a mix of residential, retail, community services and commercial activities in urban locations.
- 13.1.2 To provide for a diverse range of use or development that are of a type and scale that support and do not compromise or distort the role of surrounding activity centres in the activity centre hierarchy.

13.2 Use Table

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Residential	If for home-based business.	
Utilities	If for minor utilities.	
Permitted		
Bulky Goods Sales		
Business and Professional Services		
Community Meeting and Entertainment		
Food Services		
General Retail and Hire		
Hotel Industry		
Research and Development		
Residential	 If: (a) located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises; and (b) not listed as No Permit Required. 	

Use Class	Qualification
Service Industry	If not for motor repairs or panel beating.
Tourist Operation	
Visitor Accommodation	 If: (a) not a camping and caravan park or overnight camping area; and (b) located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises.
Discretionary	
Custodial Facility	If for a remand centre.
Educational and Occasional Care	
Emergency Services	
Hospital Services	
Manufacturing and Processing	If for alterations or extensions to existing Manufacturing and Processing.
Residential	If not listed as No Permit Required or Permitted.
Resource Processing	If for food or beverage production.
Sports and Recreation	
Storage	
Transport Depot and Distribution	If for public transport facilities.
Utilities	If not listed as No Permit Required.
Vehicle Fuel Sales and Service	
Vehicle Parking	
Visitor Accommodation	If:(a) not a camping and caravan park or overnight camping area; and(b) not listed as Permitted.
Prohibited	
All other uses	

13.3 Use Standards

13.3.1 All	uses
------------	------

Obje	ective:	That uses do not cause unreasonable loss of amenity to residential zones.		
Acce	eptable Sol	utions	Performance Criteria	
A1			P1	
 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays. 		al and Cultural Values Management, tion, Residential, Utilities or Visitor , on a site within 50m of a General e or Inner Residential Zone, must be of: 9.00pm Monday to Saturday; and	 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions. 	
A2			P2	
 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must: (a) not operate within the hours of 11.00pm to 6.00am, excluding any security lighting; and (b) if for security lighting, be baffled to ensure direct light does not extend into the adjoining property in those zones. 		Management, Passive Recreation, sistor Accommodation, on a site General Residential Zone or Inner e, must: e within the hours of 11.00pm to kcluding any security lighting; and ity lighting, be baffled to ensure does not extend into the adjoining	 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the level of illumination and duration of lighting; and (b) the distance to habitable rooms of an adjacent dwelling. 	

A3	P3	
Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays.	 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements; (c) the size of commercial vehicles involved; (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise; (e) any noise mitigation measures between the vehicle movement areas and the residential area; and (f) potential conflicts with other traffic. 	

13.3.2 Discretionary uses

Objective:	That uses listed as Discretionary do not compromise or distort the activity centre hierarchy.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable Solution.		A use listed as Discretionary must not compromise or distort the activity centre hierarchy, having regard to:	
		(a) the characteristics of the site;	
		(b) the size and scale of the proposed use;	
		 (c) the function of the activity centre and the surrounding activity centres; and 	
		(d) the extent that the proposed use impacts on the other activity centres.	

13.3.3 Retail impact

Objective:	That retail uses do not compromise or distort the activity centre hierarchy.	
Acceptable S	olutions	Performance Criteria
A1		P1
The gross floor area for Bulky Goods Sales and General Retail and Hire must be not more than 300m ² per tenancy.		Bulky Goods Sales and General Retail and Hire must not compromise or distort the activity centre hierarchy, having regard to:
		 (a) the degree to which the proposed use improves and broadens the commercial or retail choice with the area;
		(b) the extent that the proposed use impacts on other activity centres of a higher order; and
		(c) any relevant local area objectives contained within the relevant Local Provisions Schedule.

13.4 Development Standards for Building and Works

Objective:	 That building height: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of amenity to adjoining residential zones. 	
Acceptable S	olutions	Performance Criteria
A1		P1
Building heigh	t must be not more than 10m.	 Building height must be compatible with the streetscape and character of development existing on established properties in the area, having regard to: (a) the topography of the site; (b) the height, bulk and form of existing buildings on the site and adjacent properties; (c) the bulk and form of proposed buildings; (d) the apparent height when viewed from adjoining road and public places; and (e) any overshadowing of public places.

A2	P2	
 Building height: (a) within 10m of a General Residential Zone must not be more than 8.5m; or (b) within 10m of an Inner Residential Zone must not be more than 9.5m. 	 Building height within 10m of a General Residential Zone or Inner Residential Zone, must be consistent with building height on adjoining properties and not cause an unreasonable loss of residential amenity, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy; and (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 	

13.4.2 Setback

Objective:That building setback:(a)is compatible with the streetscap(b)does not cause an unreasonable		pe; and e loss of amenity to adjoining residential zones.	
Acceptable S	olutions	Performance Criteria	
A1 Buildings must	have a setback from a frontage of:	P1 Buildings must have a setback from a frontage that is	
 (a) not less than 3m; (b) not less than existing buildings on the site; or 		compatible with the streetscape, having regard to:(a) the topography of the site;	
minimum	e or less than the maximum and n setbacks of the buildings on g properties.	(b) the setback of buildings on adjacent properties;(c) the height, bulk and form of existing and proposed buildings; and	
		(d) the safety or road users.	
A2		P2	
Buildings must have a setback from an adjoining property within a General Residential Zone or Inner Residential Zone of not less than: (a) 3m; or		Buildings must be sited so there is no unreasonable loss of residential amenity to adjoining properties within a General Residential Zone or Inner Residential Zone, having regard to:	
	wall height of the building, ne greater.	 (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; 	
		(b) overlooking and reduction of privacy; or	
		 visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 	

A3	P3
Air extraction, pumping, refrigeration systems or compressors must be separated a distance of not less than 10m from a General Residential Zone or Inner Residential Zone. ¹	 Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors within 10m of a General Residential Zone or Inner Residential Zone must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to the adjoining residential zones, having regard to: (a) the characteristics and frequency of emissions generated; (b) the nature of the proposed use; (c) the topography of the site and location of the sensitive use; and (d) any proposed mitigation measures.

13.4.3 Design

Obje	Objective: That building design and façades promo amenity, and safety and are compatible			and maintain high levels of pedestrian interaction, n the streetscape.
Acce	Acceptable Solutions			ormance Criteria
A1			P1	
New buildings must be designed to satisfy all of the following:		New buildings must be designed to be compatible with the streetscape, having regard to:		
(a)	 mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, must be screened from the street and other public places; 		(a)	minimising the visual impact of mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, when viewed from the street or other public places;
(b)	roof-top mechanical plant and service infrastructure, including lift structures, must be contained within the roof;		(b)	minimising the visual impact of security shutters or grilles and roof-top service infrastructure, including lift structures; and
(c)	windows	de security shutters or grilles over or doors on a façade facing a or other public places; and	(c)	providing suitable lighting to vehicle parking areas and pathways for the safety and security of users.
(d)	 provide external lighting to illuminate external vehicle parking areas and pathways. 			

¹ An exemption for air conditioners and heat pumps applies in this zone – see Table 4.6.

A2

New buildings or alterations to an existing façade must be designed to satisfy all of the following:

- (a) provide a pedestrian entrance to the building that is visible from the road or publicly accessible areas of the site;
- (b) excluding for Residential, if for a ground floor level façade facing a frontage:
 - have not less than 40% of the total surface area consisting of windows or doorways; or
 - (ii) not reduce the surface area of windows or doorways of an existing building, if the surface area is already less than 40%;
- (c) excluding for Residential, if for a ground floor level façade facing a frontage, must:
 - not include a single length of blank wall greater than 30% of the length of façade on that frontage; or
 - (ii) not increase the length of an existing blank wall, if already greater than 30% of the length of the façade on that frontage; and
- (d) excluding for Residential, provide awnings over a public footpath if existing on the site or on adjoining properties.

P2

New buildings or alterations to an existing façade must be designed to be compatible with the streetscape, having regard to:

- (a) how the main pedestrian access to the building will address the street or other public places;
- (b) excluding for Residential, windows on the façade facing the frontage for visual interest and passive surveillance of public spaces;
- (c) excluding for Residential, providing architectural detail or public art on large expanses of blank walls on the façade facing the frontage and other public spaces so as to contribute positively to the streetscape and public spaces;
- (d) installing security shutters or grilles over windows or doors on a façade facing the frontage or other public spaces only if essential for the security of the premises and any other alternatives are not practical; and
- (e) excluding for Residential, the need for provision of awnings over a public footpath.

13.4.4 Fencing

Objective:	 That fencing: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones. 		
Acceptable S	olutions	Performance Criteria	
A1		P1	
No Acceptable Solution. ²		A fence (including a free-standing wall) within 4.5m of a frontage must be compatible with the streetscape, having regard to:	
		 (a) the height, design, location and extent of the fence; 	
		(b) the degree of transparency; and	
		(c) the proposed materials and construction.	
A2		P2	
 Common boundary fences with a property in a General Residential Zone or Inner Residential Zone, if not within 4.5m of a frontage, must: (a) have a height above existing ground level of not more than 2.1m; and (b) not contain barbed wire.² 		 Common boundary fences with a property in a General Residential Zone or Inner Residential Zone, if not within 4.5m of a frontage, must not cause an unreasonable loss of residential amenity, having regard to: (a) the height, design, location and extent of the fence; and 	
		(b) the proposed materials and construction.	

13.4.5 Outdoor storage areas

Objective:	That outdoor storage areas for non-residential use do not detract from the appearance of the site or surrounding area.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Outdoor storage areas, excluding for Residential use or for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		Outdoor storage areas, excluding for Residential use or for the display of goods for sale, must be located, treated or screened to not cause an unreasonable loss of visual amenity.	

 $^{^{\}rm 2}$ An exemption applies for fences in this zone – see Table 4.6.

13.4.6 Dwellings

Obje	ctive:	To provide adequate and useable private open space and storage for the needs of residents.		
Acce	Acceptable Solutions		Performance Criteria	
A1			P1	
	A dwelling must have private open space that is not less than:		A dwelling must be provided with sufficient private open space that includes an area capable of serving	
(a)		h a minimum horizontal dimension of han 4m; or	as an extension of the dwelling for outdoor relaxation dining and entertainment.	
(b)	less than	a minimum horizontal dimension not 1.5m, if the dwelling is located wholly ound floor level.		
A2			P2	
	Each dwelling must be provided with a dedicated and secure storage space of no less than 6m ³ .		Each dwelling must be provided with adequate storage space.	

13.5 Development Standards for Subdivision

13.5.1 Lot design

Objective:	That each lot:		
	(a) has an area and dimensions appropriate for us	se and development in the zone; and	
	(b) is provided with appropriate access to a road.		

Acceptable Solutions		Per	formance Criteria		
A1	A1			P1	
	Each lot, or a lot proposed in a plan of subdivision, must:		mus	h lot, or a lot proposed in a plan of subdivision, It have sufficient useable area and dimensions	
(a)	hav	e an a	area of not less than 300m ² and:	Sulta	able for its intended use, having regard to:
	(i)		able to contain a minimum area of n x 15m clear of:	(a)	the relevant requirements for development of buildings on the lot;
		a.	all setbacks required by clause 13.4.2 A1 and A2; and	(b)	existing buildings and the likely location of intended buildings on the lot;
		b.	easements or other title restrictions	(c)	the topography of the site;
			that limit or restrict development;	(d)	the presence of any natural hazards; and
			and	(e)	the pattern of development existing on
	(ii)	sett	ting buildings are consistent with the back required by clause 13.4.2 A1 A2;		established properties in the area.
(b)	 (b) be required for public use by the Crown, a council or a State authority; 				

 (c) be required for the provision of Utilities; or (d) be for the consolidation of a lot with another lot provided each lot is within the same zone. 	
A2	P2
Each lot, or a lot proposed in a plan of subdivision, must have a frontage, or legal connection to a road by a right of carriageway, of not less than 3.6m.	Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(b) the topography of the site;
	(c) the functionality and useability of the frontage;
	(d) the anticipated nature of vehicles likely to access the site;
	(e) the ability to manoeuvre vehicles on the site;
	(f) the ability for emergency services to access the site; and
	 (g) the pattern of development existing on established properties in the area.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	(c) the nature of the road and the traffic; and
	 (d) the pattern of development existing on established properties in the area.

13.5.2 Services

Objective:	That the subdivision of land provides	services for the future use and development of the land.
Acceptable S	olutions	Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a full water supply service.		A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to:
		(a) flow rates;
		(b) the quality of potable water;
		 (c) any existing or proposed infrastructure to provide the water service and its location;
		(d) the topography of the site; and
		(e) any advice from a regulated entity.
A2		P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have connection to a reticulated sewerage system.		Each lot, or lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.
A3		P3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.		Each lot, or lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to:
		(a) the size of the lot;
		(b) topography of the site;
		(c) soil conditions;
		(d) any existing buildings on the site;
		 (e) any area of the site covered by impervious surfaces; and
		(f) any watercourse on the land.

14.0 Local Business Zone

14.1 Zone Purpose

The purpose of the Local Business Zone is:

- 14.1.1 To provide for business, retail, administrative, professional, community and entertainment functions which meet the needs of a local area.
- 14.1.2 To ensure that the type and scale of use and development does not compromise or distort the activity centre hierarchy.
- 14.1.3 To encourage activity at pedestrian levels with active frontages and shop windows offering interest and engagement to shoppers.
- 14.1.4 To encourage Residential and Visitor Accommodation use if it supports the viability of the activity centre and an active street frontage is maintained.

14.2 Use Table

Use Class	Qualification
No Permit Required	
Business and Professional Services	
Food Services	
General Retail and Hire	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for home-based business.
Utilities	If for minor utilities.
Permitted	
Bulky Goods Sales	
Community Meeting and Entertainment	
Educational and Occasional Care	
Emergency Services	
Hotel Industry	

Use Class	Qualification
Pleasure Boat Facility	If for a boat ramp.
Research and Development	
Residential	 If: (a) located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises; and (b) not listed as No Permit Required.
Visitor Accommodation	If located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises.
Discretionary	
Equipment and Machinery Sales and Hire	
Manufacturing and Processing	
Residential	If not listed as No Permit Required or Permitted.
Resource Processing	If for food or beverage production.
Service Industry	
Sports and Recreation	
Storage	
Tourist Operation	
Transport Depot and Distribution	If for: (a) a public transport facility; or (b) distribution of goods to or from land within the zone.
Utilities	If not listed as No Permit Required.
Vehicle Fuel Sales and Service	
Vehicle Parking	
Visitor Accommodation	If not listed as Permitted.
Prohibited	
All other uses	

14.3 Use Standards

14.3.1 All uses

Objective:	That uses do not cause unreasonab	ble loss of amenity to residential zones.
Acceptable Solutions		Performance Criteria
A1		P1
 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays. 		 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions.
A2		P2
 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must: (a) not operate within the hours of 11.00pm to 6.00am, excluding any security lighting; and (b) if for security lighting, be baffled so that direct light does not extend into the adjoining property in those zones. 		 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the level of illumination and duration of lighting; and (b) the distance to habitable rooms of an adjacent dwelling.
A3		P3
 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public 		 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding for Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the time and duration of commercial vehicle movements;

holidays.	 (b) the number and frequency of commercial vehicle movements;
	(c) the size of commercial vehicles involved;
	 (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise;
	 (e) any noise mitigation measures between the vehicle movement areas and the residential zone; and
	(f) potential conflicts with other traffic.

14.3.2 Discretionary uses

Objective:	That uses listed as Discretionary do not:(a) cause unreasonable loss of amenity to adjoining residential zones; and(b) compromise or distort the activity centre hierarchy.	
Acceptable S	olutions	Performance Criteria
A1		P1
No Acceptable	e Solution.	A use listed as Discretionary must:
		 (a) not cause an unreasonable loss of amenity to properties in adjoining residential zones; and
		(b) be of an intensity that respects the character of the area.
A2		P2
No Acceptable Solution.		A use listed as Discretionary must not compromise or distort the activity centre hierarchy, having regard to:
		(a) the characteristics of the site;
		 (b) the need to encourage activity at pedestrian levels;
		(c) the size and scale of the proposed use;
		 (d) the functions of the activity centre and the surrounding activity centres; and
		 (e) the extent that the proposed use impacts on other activity centres.

14.3.3 Retail impact

Objective:	That retail uses do not compromise or distort the activity centre hierarchy.		
Acceptable S	olutions	Performance Criteria	
A1		P1	
The gross floor area for Bulky Goods Sales and General Retail and Hire uses must be not more than 250m ² per tenancy.		Bulky Goods Sales and General Retail and Hire uses must not compromise or distort the activity centre hierarchy, having regard to:	
		 (a) the degree to which the proposed use improves and broadens the commercial or retail choice with the area; 	
		 (b) the extent that the proposed use impacts on other activity centres; and 	
		(c) any relevant local area objectives contained within the relevant Local Provisions Schedule.	

14.4 Development Standards for Buildings and Works

14.4.1	Building height
--------	-----------------

Objective:	 That building height: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of amenity to adjoining residential zones. 		
Acceptable S	olutions	Performance Criteria	
A1		P1	
Building heigh	t must be not more than 9m.	 Building height must be compatible with the streetscape and character of development existing on established properties in the area, having regard to: (a) the topography of the site; (b) the height, bulk and form of existing buildings on the site and adjacent properties; (c) the bulk and form of proposed buildings; (d) the apparent height when viewed from the adjoining road and public places; and (e) any overshadowing of adjoining properties and public places. 	

14.4.2 Setbacks

Objective:	That building setback: (a) is compatible with the streetscape;		
		e loss of amenity to adjoining residential zones; and e and anti-social behaviour through setback of	
Acceptable S	Solutions	Performance Criteria	
A1		P1	
Buildings mus	st be:	Buildings must have a setback from a frontage that is	
	he frontage at ground level; or setback of not more or less than the	compatible with the streetscape and minimises opportunities for crime and anti-social behaviour, having regard to:	
maximu	m and minimum setbacks of the s on adjoining properties.	 (a) providing small variations in building alignment to break up long building façades; 	
		 (b) providing variations in building alignment to provide a forecourt space for public use, such as outdoor dining or landscaping; 	
		(c) the avoidance of concealment spaces;	
		(d) the ability to achieve passive surveillance; and	
		(e) the availability of lighting.	
A2		P2	
Buildings must have a setback from an adjoining property within a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, of not less than:		Buildings must be sited to not cause an unreasonable loss of amenity to adjoining properties within a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, having regard to:	
(a) 4m; or		(a) overshadowing and reduction in sunlight to	
(b) half the	wall height of the building,	habitable rooms and private open space of dwellings;	
whichever is t	he greater.	 (b) overlooking and reduction of privacy to the adjoining properties; or 	
		 (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 	

A3	Р3
Air extraction, pumping, refrigeration systems or compressors must be separated a distance of not less than 10m from a General Residential Zone, Inner Residential Zone or Low Density Residential Zone. ¹	 Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors within 10m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to the adjoining residential zones, having regard to: (a) the characteristics and frequency of emissions generated; (b) the nature of the proposed use; (c) the topography of the site and location of the sensitive use; and (d) any proposed mitigation measures.

14.4.3 Design

Objective: That building façades promote and mai and safety, and are compatible with the			aintain high levels of pedestrian interaction, amenity, ne streetscape.		
Acc	eptable S	olutions	Per	formance Criteria	
A1			P1		
	v buildings wing:	must be designed to satisfy all the		New buildings must be designed to be compatible with the streetscape, having regard to:	
 (a) mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, must be screened from the street and other public places; 		(a)	minimising the visual impact of mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, when viewed from the street or other public places;		
(b)	infrastruc	mechanical plant and service cture, including lift structures, must be d within the roof;	(b)	minimising the visual impact of security shutters or grilles and roof-top service infrastructure, including lift structures; and	
(c)	windows	de security shutters or grilles over or doors on a façade facing the or other public places; and	(c)	providing suitable lighting to vehicle parking areas and pathways for the safety and security of users.	
(d)	•	external lighting to illuminate external parking areas and pathways.			
A2	A2		P2		
	New buildings or alterations to an existing façade must be designed to satisfy all of the following:			v buildings or alterations to an existing façade at be designed to be compatible with the	

¹ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6.

(a)	provide a pedestrian entrance to the building that is visible from the road or publicly accessible areas of the site;	 streetscape, having regard to: (a) how the main pedestrian access to the building addresses the street or other public places;
(b)	if for a ground floor level façade facing a frontage: (i) have not less than 40% of the total	 (b) windows on the façade facing the frontage for visual interest and passive surveillance of public spaces;
	surface area consisting of windows or doorways; or	(c) providing architectural detail or public art on large expanses of blank walls on the façade
	 (ii) not reduce the surface area of windows or doorways of an existing building, if the surface area is already less than 40%; 	facing the frontage and other public spaces so as to contribute positively to the streetscape and public spaces;
(c)	if for a ground floor level façade facing a frontage must:	 (d) installing security shutters or grilles over windows or doors on a façade facing the
	 (i) not include a single length of blank wall greater than 30% of the length of façade on that frontage; or 	frontage or other public spaces only if essential for the security of the premises and any other alternatives are not practical; and
	 (ii) not increase the length of an existing blank wall, if already greater than 30% of the length of the façade on that frontage; and 	 (e) the need for provision of awnings over a public footpath.
(d)	provide awnings over a public footpath if existing on the site or on adjoining properties.	

14.4.4 Fencing

Objective:	 That fencing: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones. 		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable Solution. ²		A fence (including a free-standing wall) within 4.5m of a frontage must contribute positively to the streetscape, having regard to:	
		(a) its height, design, location and extent;	
		(b) its degree of transparency; and	
		(c) the proposed materials and construction.	

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

A2	P2	
Common boundary fences with a property in a General Residential Zone, Inner Residential Zone or	Common boundary fences with a property in a General Residential Zone, Inner Residential Zone or	
Low Density Zone, if not within 4.5m of a frontage,	Low Density Residential Zone, if not within 4.5m of a	
must:(a) have a height above existing ground level of	frontage, must not cause an unreasonable loss of residential amenity, having regard to:	
not more than 2.1m; and	(a) their height, design, location and extent; and	
(b) not contain barbed wire. ²	(b) the proposed materials and construction.	

14.4.5 Outdoor storage areas

Objective:	That outdoor storage areas for non-residential use do not detract from the appearance of the site or surrounding area.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		Outdoor storage areas, excluding for the display of goods for sale, must be located, treated or screened to not cause an unreasonable loss of visual amenity.	

14.4.6 Dwellings

Obje	ective:	ive: To provide adequate and useable private open space and storage for the needs of residents.			
Acceptable Solutions		olutions	Performance Criteria		
A1			P1		
A dwelling must have private open space that has an area not less than:			A dwelling must be provided with sufficient private open space that includes an area capable of serving as an extension of the dwelling for outdoor relaxation, dining and entertainment.		
(a)	 (a) 24m² with a minimum horizontal dimension of not less than 4m; or 				
(b) 8m ² with a minimum horizontal dimension not less than 1.5m, if the dwelling is located wholly above ground floor level.		1.5m, if the dwelling is located wholly			
A2			P2		
Each dwelling must be provided with a dedicated and secure storage space of not less than 6m ³ .		· .	Each dwelling must be provided with adequate storage space.		

14.5 Development Standards for Subdivision

14.5.1	Lot design
--------	------------

Objective:That each lot:(a)has an area and dimensions app(b)is provided with appropriate access		propriate for use and development in the zone; and ess to a road.			
Acce	eptab	ole So	olutions	Per	formance Criteria
A1				P1	
Each must (a)	t:		ot proposed in a plan of subdivision, area of not less than 200m ² and:	Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:	
(u)	(i)	be a	able to contain a minimum area of n x 12m clear of:	(a)	the relevant requirements for development of buildings on the lot;
		a.	all setbacks required by clause 14.4.2 A1 and A2; and	(b)	existing buildings and the location of intended buildings on the lot;
		b.	easements or other title restrictions	(c)	the topography of the site;
			that limit or restrict development;	(d)	the presence of any natural hazards; and
	(ii)	set	and sting buildings are consistent with the back required by clause 14.4.2 A1 I A2;	(e)	the pattern of development existing on established properties in the area.
(b) be required for public use by the Crown, a council or a State authority;					
(c) be required for the provision of Utilities; or					
(d) be for the consolidation of a lot with another lot provided each lot is within the same zone.					
A2				P2	
Each lot, or a lot proposed in a plan of subdivision, must have a frontage, or legal connection to a road by a right of carriageway, of not less than 3.6m.		mus to a	h lot, or a lot proposed in a plan of subdivision, t be provided with a frontage or legal connection road by a right of carriageway, that is sufficient he intended use, having regard to:		
				(a)	the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
				(b)	the topography of the site;
				(c)	the functionality and useability of the frontage;
				(d)	the anticipated nature of vehicles likely to access the site;
				(e)	the ability to manoeuvre vehicles on the site;

	(f) the ability for emergency services to access the site; and
	(g) the pattern of development existing on
	established properties in the area.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	(c) the nature of the road and the traffic; and
	(d) the pattern of development existing on established properties in the area.

14.5.2 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable Se	olutions	Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must:		No Performance Criterion.
 (a) be connected to a full water supply service if the frontage of the lot is within 30m of a full water supply service; or 		
 (b) be connected to a limited water supply service if the frontage of the lot, is within 30m of a connection to a limited water supply service, 		
unless a regulated entity advises that the lot is unable to be connected to the relevant water supply service.		

A2	P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a reticulated sewerage system.	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.
A3	Р3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.	Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot;
	(b) topography of the site;(c) soil conditions;
	(d) any existing buildings on the site;
	(e) any area of the site covered by impervious surfaces; and
	(f) any watercourse on the land.

15.0 General Business Zone

15.1 Zone Purpose

The purpose of the General Business Zone is:

- 15.1.1 To provide for business, retail, administrative, professional, community, and entertainment functions within Tasmania's main suburban and rural centres.
- 15.1.2 To ensure that the type and scale of use and development does not compromise or distort the activity centre hierarchy.
- 15.1.3 To encourage activity at pedestrian levels with active frontages and shop windows offering interest and engagement to shoppers.
- 15.1.4 To encourage Residential and Visitor Accommodation use if it supports the viability of the activity centre and an active street frontage is maintained.

15.2 Use Table

Use Class	Qualification
No Permit Required	
Business and Professional Services	
Food Services	
General Retail and Hire	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for a home-based business.
Utilities	If for minor utilities.
Permitted	
Bulky Goods Sales	
Community Meeting and Entertainment	
Educational and Occasional Care	
Emergency Services	
Hotel Industry	
Pleasure Boat Facility	If for a boat ramp.

Use Class	Qualification	
Research and Development		
Residential	 If: (a) located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises; and (b) not listed as No Permit Required. 	
Visitor Accommodation	 If: (a) located above ground floor level (excluding pedestrian or vehicular access) or to the rear of a premises; and (b) not a camping and caravan park or overnight camping area. 	
Discretionary		
Custodial Facility	If for a remand centre.	
Equipment and Machinery Sales and Hire		
Hospital Services		
Manufacturing and Processing		
Residential If not listed as No Permit Required or Permitted.		
Resource Processing	If for food or beverage production.	
Service Industry		
Sports and Recreation		
Storage		
Tourist Operation		
Transport Depot and Distribution	If for: (a) a public transport facility; or (b) distribution of goods to or from land within the zone.	
Utilities	If not listed as No Permit Required.	
Vehicle Fuel Sales and Service		
Vehicle Parking		
Visitor Accommodation	If not listed as Permitted	
Prohibited		
All other uses		

15.3 Use Standards

15.3.1 All uses

Objective: That uses do not cause an unreasona		That uses do not cause an unreaso	nable loss of amenity to residential zones.
Acceptable Solutions		utions	Performance Criteria
A1			P1
 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays. 		al and Cultural Values Management, tion, Residential, Utilities or Visitor , on a site within 50m of a General e or Inner Residential Zone, must be of: 9.00pm Monday to Saturday; and	 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation, Residential, Utilities or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions.
 A2 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must: (a) not operate within the hours of 11.00pm to 6.00am, excluding any security lighting; and (b) if for security lighting, must be baffled so that direct light does not extend into the adjoining property in those zones. 		Management, Passive Recreation, isitor Accommodation, on a site General Residential Zone or Inner e, must: e within the hours of 11.00pm to xcluding any security lighting; and ity lighting, must be baffled so that does not extend into the adjoining	 P2 External lighting for a use, excluding Natural and Cultural Values Management, Passive Recreation, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the level of illumination and duration of lighting; and (b) the distance to habitable rooms of an adjacent dwelling.
and exc Visi Ger	loading of c luding Emer tor Accomm neral Reside le, must be v 7.00am to	nicle movements and the unloading commercial vehicles for a use, gency Services, Residential or odation, on a site within 50m of a ntial Zone or Inner Residential vithin the hours of: 9.00pm Monday to Saturday; and 9.00pm Sunday and public	 P3 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone or Inner Residential Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements;

	(c)	the size of commercial vehicles involved;	
	(d)	manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise;	
	(e)	any noise mitigation measures between the vehicle movement areas and the residential zone; and	
	(f)	potential conflicts with other traffic.	

15.3.2 Discretionary uses

Objective:	That uses listed as Discretionary do not compromise or distort the activity centre hierarchy.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable	Solution.	A use listed as Discretionary must:
		 (a) not cause an unreasonable loss of amenity to properties in adjoining residential zones; and
		(b) be of an intensity that respects the character of the area.
A2		P2
No Acceptable	e Solution.	A use listed as Discretionary must not compromise or distort the activity centre hierarchy, having regard to:
		(a) the characteristics of the site;
		 (b) the need to encourage activity at pedestrian levels;
		(c) the size and scale of the proposed use;
		 (d) the functions of the activity centre and the surrounding activity centres; and
		(e) the extent that the proposed use impacts on other activity centres.

Tasmanian Planning Scheme – State Planning Provisions

15.3.3 Retail impact

Objective:	That retail uses do not compromise or distort the activity centre hierarchy.	
Acceptable S	olutions	Performance Criteria
A1		P1
The gross floor area for Bulky Goods Sales and General Retail and Hire uses must be not more than 3500m ² per tenancy.		Bulky Goods Sales and General Retail and Hire uses must not compromise or distort the activity centre hierarchy, having regard to:
		 (a) the extent that the proposed use improves and broadens the commercial or retail choice with the area;
		 (b) the extent that the proposed use impacts on other activity centres; and
		 (c) any relevant local area objectives contained within the relevant Local Provisions Schedule.

15.4 Development Standards for Buildings and Works

Objective:	That building height:(a) is compatible with the streetscape; and(b) does not cause an unreasonable loss of amenity to adjoining residential zones.	
Acceptable S	olutions	Performance Criteria
A1		P1
Building heigh	t must be not more than 12m.	 Building height must be compatible with the streetscape and character of development existing on established properties in the area, having regard to: (a) the topography of the site; (b) the height, bulk and form of existing buildings on the site and adjacent properties; (c) the bulk and form of existing buildings; (d) the apparent height when viewed from the adjoining road and public places; and (e) any overshadowing of public places.

Tasmanian Planning Scheme – State Planning Provisions

A2	P2
 Building height: (a) within 10m of a General Residential Zone must not be more than 8.5m; or (b) within 10m of an Inner Residential Zone must not be more than 9.5m. 	 Building height within 10m of a General Residential Zone or Inner Residential Zone must be consistent with building height on the adjoining properties and not cause an unreasonable loss of residential amenity, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy to adjoining properties; or (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property.

15.4.2 Setbacks

Objective:	 ective: That building setback: (a) is compatible with the streetscape; (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones; and (c) minimises opportunities for crime and anti-social behaviour through setback of buildings. 	
Acceptable S	Solutions	Performance Criteria
(b) have a maximu	st be: the frontage at ground level; or setback of not more or less than the im and minimum setbacks of the is on adjoining properties.	 P1 Buildings must have a setback from a frontage that is compatible with the streetscape and minimises opportunities for crime and anti-social behaviour, having regard to: (a) providing small variations in building alignment to break up long façades; (b) providing variations in building alignment appropriate to provide a forecourt or space for public use, such as outdoor dining or landscaping; (c) the avoidance of concealment spaces; (d) the ability to achieve passive surveillance; and (e) the availability of lighting.

A2	P2	
 Building must have a setback from an adjoining property within a General Residential Zone or Inner Residential Zone of not less than: (a) 5m; or (b) half the wall height of the building, whichever is the greater. 	Buildings must be sited to not cause an unreasonable loss of residential amenity to adjoining properties within a General Residential Zone or Inner Residential Zone, having regard to:	
	 (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; 	
	 (b) overlooking and reduction of privacy to the adjoining property; or 	
	(c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property.	
A3	Р3	
Air extraction, pumping, refrigeration systems or compressors must be separated a distance of not less than 10m from a General Residential Zone or Inner Residential Zone. ¹	Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors within 10m of a General Residential Zone or Inner Residential Zone, must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to the adjoining residential zones, having regard to:	
	 (a) the characteristics and frequency of emissions generated; 	
	(b) the nature of the proposed use;	
	 (c) the topography of the site and location of the sensitive use; and 	
	(d) any proposed mitigation measures.	

 $^{^{\}rm 1}$ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6

15.4.3 Design

Objective: That building façades promote and m and safety and are compatible with th			aintain high levels of pedestrian interaction, amenity, e streetscape.	
Acceptable Solutions		e Solutions	Performance Criteria	
A1			P1	
	buildir wing:	ngs must be designed to satisfy all of the	New buildings must be designed to be compatible with the streetscape, having regard to:	
(a)	infras condi units	anical plant and other service tructure, such as heat pumps, air tioning units, switchboards, hot water and the like, must be screened from the and other public places;	 (a) minimising the visual impact of mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, when viewed from the street or other public places; 	
(b)	infras	op mechanical plant and service tructure, including lift structures, must be ined within the roof;	 (b) minimising the visual impact of security shutters or grilles and roof-top service infrastructure, including lift structures; and 	
(c)	windo	clude security shutters or grilles over ows or doors on a façade facing the age or other public places; and	 (c) providing suitable lighting to vehicle parking areas and pathways for the safety and security of users. 	
(d)		de external lighting to illuminate external le parking areas and pathways.		
A2			P2	
New buildings or alterations to an existing façade must be designed to satisfy all of the following:			New buildings or alterations to an existing façade must be designed to be compatible with the streetscape, having regard to:	
(a)	that is	s visible from the road or publicly sible areas of the site;	 (a) how the main pedestrian access to the building addresses the street or other public places; 	
(b)	fronta	-	 (b) windows on the façade facing the frontage for visual interest and passive surveillance of public spaces; 	
	()	nave not less than 40% of the total surface area consisting of windows or doorways; or	 (c) architectural detail or public art on large expanses of blank walls on the façade facing the 	
		not reduce the surface area of windows or doorways of an existing building, if the surface area is already less than 40%;	frontage and other public spaces so as to contribute positively to the streetscape and public spaces;	
(c)		a ground floor level façade facing a ge must:	 (d) installing security shutters or grilles over windows or doors on a façade facing the frontage or other public spaces only if essential 	
	(not include a single length of blank wall greater than 30% of the length of façade on that frontage; or	for the security of the premises and any other alternatives are not practical; and	
		not increase the length of an existing	(e) the need for provision of awnings over a public footpath.	

blank wall, if already grea the length of the façade o and	
(d) provide awnings over a public f existing on the site or on adjoin	•

15.4.4	Fencing
15.4.4	renuing

Objective:	 That fencing : (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones. 	
Acceptable S	olutions	Performance Criteria
A1		P1
No Acceptable	e Solution. ²	 A fence (including a free-standing wall) within 4.5m of a frontage must contribute positively to the streetscape, having regard to: (a) its height, design, location and extent; (b) its degree of transparency; and (c) the proposed materials and construction.
A2		P2
General Resid if not within 4.5 (a) have a h not more	ndary fences with a property in a ential Zone or Inner Residential Zone, 5m of a frontage, must: eight above existing ground level of e than 2.1m; and ain barbed wire. ²	 Common boundary fences with a property in a General Residential Zone or Inner Residential Zone, if not within 4.5m of a frontage, must not cause an unreasonable loss of residential amenity, having regard to: (a) their height, design, location and extent; and (b) the proposed materials and construction.

15.4.5 Outdoor storage areas

Objective:	That outdoor storage areas for non-residential use do not detract from the appearance of the site or surrounding area.	
Acceptable Solutions		Performance Criteria
A1		P1
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or		Outdoor storage areas, excluding for the display of goods for sale, must be located, treated or screened

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

Tasmanian Planning Scheme – State Planning Provisions

public open space adjoining the site.	to not cause an unreasonable loss of visual amenity.
---------------------------------------	--

15.4.6 Dwellings

Obje	ctive: To provide adequate and useable private open space and storage for the needs of residents.		
Acc	eptable S	olutions	Performance Criteria
A1			P1
A dwelling must have private open space that is not less than:		st have private open space that is not	A dwelling must be provided with sufficient private open space that includes an area capable of serving
(a)		h a minimum horizontal dimension of than 4m; or	as an extension of the dwelling for outdoor relaxation, dining and entertainment.
(b) 8m ² with a minimum dimension of not less than 1.5m, if the dwelling is located wholly above ground floor level.		n, if the dwelling is located wholly	
A2			P2
	Each dwelling must be provided with a dedicated and secure storage space of no less than 6m ³ .		Each dwelling must be provided with adequate storage space.

15.5 Development Standards for Subdivision

15.5.1 Lot design

Accontable S	Solutions Porformance Criteria	
	(b) is provided with appropriate frontage to a road.	
	(a) has an area and dimensions appropriate for use and development in the zone; and	
Objective:	That each lot:	

Acc	eptable Solutions	Performance Criteria	
A1		P1	
Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 100m ² and		Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:	
(a)	existing buildings are consistent with the setback required by clause 15.4.2 A1 and A2;	 (a) the relevant requirements for development of buildings on the lot; 	
(b)	be required for public use by the Crown, a council or a State authority;	 (b) existing buildings and the location of intended buildings on the lot; 	
(c)	be required for the provision of Utilities; or	(c) the topography of the site; and	
(d)	be for the consolidation of a lot with another lot provided each lot is within the same zone.	 (d) the pattern of development existing on established properties in the area. 	
A2		P2	
Each lot, or a lot proposed in a plan of subdivision, must have a frontage, or legal connection to a road by a right of carriageway, of not less than 3.6m.		Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:	

	 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; 	
	(b) the topography of the site;	
	(c) the functionality and useability of the frontage ;	
	 (d) the anticipated nature of vehicles likely to access the site; 	
	(e) the ability to manoeuvre vehicles on the site;	
	 (f) the ability for emergency services to access the site; and 	
	(g) the pattern of development existing on established properties in the area.	
A3	P3	
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:	
	(a) the topography of the site;	
	 (b) the distance between the lot or building area and the carriageway; 	
	 (c) the nature of the road and the traffic, including pedestrians; and 	

15.5.2 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable So	blutions	Performance Criteria
A1		P1
excluding for p	ot proposed in a plan of subdivision, ublic open space, a riparian or littoral ties, must have a connection to a full ervice.	 A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to: (a) flow rates; (b) the quality of potable water; (c) any existing or proposed infrastructure to provide the water service and its location; (d) the topography of the site; and (e) any advice from a regulated entity.

A2	P2	
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have connection to a reticulated sewerage system.	No Performance Criterion.	
A3	P3	
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.	 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot; (b) topography of the site; (c) soil conditions; (d) any existing buildings on the site; (e) any area of the site covered by impervious surfaces; and (f) any watercourse on the land. 	

16.0 Central Business Zone

16.1 Zone Purpose

The purpose of the Central Business Zone is:

- 16.1.1 To provide for the concentration of the higher order business, retail, administrative, professional, community, and entertainment functions within Tasmania's primary centres.
- 16.1.2 To provide for a type and scale of use and development supports and does not compromise or distort the activity centre hierarchy.
- 16.1.3 To encourage activity at pedestrian levels with active frontages and shop windows offering interest and engagement to shoppers.
- 16.1.4 To encourage Residential and Visitor Accommodation use above ground floor level if it supports the viability of the activity centre and an active street frontage is maintained.

(a)	7.00am to 9.00pm Monday to Saturday; and	residential zones, having regard to:	
(b)	8.00am to 9.00pm Sunday and public holidays.	(a)	the time and duration of commercial vehicle movements;
		(b)	the number and frequency of commercial vehicle movements;
		(c)	the size of commercial vehicles involved;
		(d)	manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise;
		(e)	any noise mitigation measures between the vehicle movement areas and the residential zone; and
		(f)	potential conflicts with other traffic.

Т

16.3.2 Discretionary uses

Γ

Objective:	 That uses listed as Discretionary: (a) encourage activity at pedestrian levels with active frontages; and (b) do not compromise or distort the activity centre hierarchy. 	
Acceptable S	olutions	Performance Criteria
A1		P1
No Acceptable	e Solution.	A use listed as Discretionary must:
		 (a) not cause an unreasonable loss of amenity to properties in adjoining residential zones; and
		(b) be of an intensity that respects the character of the area.
A2		P2
No Acceptable	e Solution.	A use listed as Discretionary must not compromise or distort the activity centre hierarchy, having regard to:
		(a) the characteristics of the site;
		 (b) the need to encourage activity at pedestrian levels;
		(c) the size and scale of the proposed use;
		 (d) the functions of the activity centre and the surrounding activity centres; and
		 (e) the extent that the proposed use impacts on other activity centres.

16.4 Development Standards for Buildings and Works

16.4.1 Building height

Objective:	That building height:(a) is compatible with the streetscape; and(b) does not cause an unreasonable loss of amenity to adjoining residential zones.	
Acceptable S	olutions	Performance Criteria
A1		P1
Building height must be not more than 20m.		Building height must be compatible with the streetscape and character of development existing on established properties in the area, having regard to:
		(a) the topography of the site;
		(b) the height, bulk and form of existing buildings on the site and adjacent properties;
		(c) the bulk and form of proposed buildings;
		(d) the apparent height when viewed from the adjoining road and public places; and
		(e) any overshadowing of public places.
A2		P2
Building heigh	t:	Building height within 10m of the General Residential
	n of the General Residential Zone be more than 8.5m; or	Zone or Inner Residential Zone must be consistent with building height on adjoining properties and not cause an unreasonable loss of residential amenity
(b) within 10r	n of an Inner Residential Zone must	having regard to:
not be mo	pre than 9.5m.	 (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings;
		(b) overlooking and reduction of privacy; or
		 (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from adjoining properties.

16.4.2 Set	backs
------------	-------

Objective:	That building setback:
	(a) is compatible with the streetscape;
	(b) does not cause an unreasonable loss of amenity to adjoining residential zones; and
	(c) minimises opportunities for crime and anti-social behaviour through setback of buildings.

Acceptable Solutions	Performance Criteria
A1	P1
 Buildings must be: (a) built to the frontage at ground level; or (b) have a setback of not more or less than the maximum and minimum setbacks of the buildings on adjoining properties. 	 Buildings must have a setback from a frontage that is compatible with the streetscape and minimises opportunities for crime or anti-social behaviour, having regard to: (a) providing small variations in building alignment to break up long building façades; (b) providing variations in building alignment appropriate to provide a forecourt space for public use, such as outdoor dining or landscaping; (c) the avoidance of concealment spaces; (d) the ability to achieve passive surveillance; and
	(e) the availability of lighting.
 A2 Buildings must have a setback from an adjoining property within a General Residential Zone or Inner Residential Zone of not less than: (a) 6m; or (b) half the wall height of the building, whichever is the greater. 	 P2 Buildings must be sited to not cause an unreasonable loss of amenity to adjoining properties within a General Residential Zone or Inner Residential Zone, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy to the adjoining property; or (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property.

A3	P3
Air extraction, pumping, refrigeration systems or compressors must be separated a distance of not less than 10m from a General Residential Zone or Inner Residential Zone. ¹	 Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors within 10m of a General Residential Zone or Inner Residential Zone, must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to the adjoining residential zones, having regard to: (a) the characteristics and frequency of emissions generated; (b) the nature of the proposed use; (c) the topography of the site and location of the sensitive use; and (d) any proposed mitigation measures.

Т

16.4.3 Design

Г

Obje	ective:	That building façades promote and maintain high levels of pedestrian interaction, amenity, and safety and are compatible with the streetscape.		
Acceptable Solutions		Performance Criteria		
A1	A1		P1	
New buildings must be designed to satisfy all of the following:		New buildings must be designed to be compatible with the streetscape having regard to:		
(a)	infrastruc condition units and	cal plant and other service ture, such as heat pumps, air ing units, switchboards, hot water the like, must be screened from the d other public places;	(a)	minimising the visual impact of mechanical plant and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, when viewed from the street or other public places;
(b)	infrastruc	nechanical plant and service ture, including lift structures, must be d within the roof;	(b)	minimising the visual impact of security grilles and shutters and roof-top service infrastructure, including lift structures; and
(c)	windows	le security shutters or grilles over or doors on a façade facing the or other public places; and	(c)	providing suitable lighting to vehicle parking areas and pathways for the safety and security of users.
(d)	•	xternal lighting to illuminate external arking areas and pathways.		

¹ An exemption applies to air conditioners and heat pumps in this zone – see Table 4.6.

A2	P2		
 New buildings or alterations to an existing façade must be designed to satisfy all of the following: (a) provide a pedestrian entrance to the building that is visible from the road or publicly accessible areas of the site; 	 New buildings or alterations to an existing façade must be designed to be compatible with the streetscape having regard to: (a) how the main pedestrian access to the building addresses the street or other public places; 		
 (b) if for a ground floor level façade facing a frontage: (i) have not less than 40% of the total surface area consisting of windows or doorways; or (ii) not reduce the surface area of windows or doorways of an existing building, if the surface area is already less than 40%; (c) if for a ground floor level façade facing a frontage must: (i) not include a single length of blank wall greater than 30% of the length of façade on that frontage; or (ii) not increase the length of an existing blank wall, if already greater than 30% of the length of the length of the length of the surface area in the surface on that frontage; and 	 (b) windows on the façade facing the frontage for visual interest and passive surveillance of public spaces; (c) providing architectural detail or public art on large expanses of blank walls on the façade facing the frontage and other public spaces so as to contribute positively to the streetscape and public spaces; (d) installing security shutters or grilles over windows or doors on a façade facing the frontage or other public spaces only if it is essential for the security of the premises and any other alternatives are not practical; and (e) providing awnings over a public footpath. 		

16.4.4 Fencing

(That fencing: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones. 	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution. ²		A fence (including a free-standing wall) within 4.5m of a frontage must be compatible with the streetscape, having regard to:
		(a) its height, design, location and extent;
		(b) its degree of transparency; and
		(c) the proposed materials and construction.
A2		P2
 Common boundary fences with a property in a General Residential Zone or Inner Residential Zone, if not within 4.5m of a frontage, must: (a) have a height above existing ground level of not more than 2.1m; and (b) not contain barbed wire.² 		 Common boundary fences with a property in a General Residential Zone or Inner Residential Zone, if not within 4.5m of a frontage, must not cause an unreasonable loss of residential amenity, having regard to: (a) their height, design, location and extent; and (b) the proposed materials and construction.

16.4.5 Outdoor storage areas

Objective:	That outdoor storage areas do not detract from the appearance of the site or locality.	
Acceptable Solutions		Performance Criteria
A1		P1
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		Outdoor storage areas, excluding for the display of goods for sale, must be located, treated or screened to not cause an unreasonable loss of visual amenity.

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

16.4.6 Dwellings

Objective:	Objective: To provide adequate and useable private open space and storage for the needs of residents.		
Acceptable Solutions		Performance Criteria	
A1		P1	
A dwelling must have private open space that is not less than:		A dwelling must be provided with sufficient private open space that includes an area capable of serving	
 (a) 24m² with a minimum horizontal dimension of not less than 4m; or 		as an extension of the dwelling for outdoor relaxation dining and entertainment.	
not less	a minimum horizontal dimension of than 1.5m, if the dwelling is located bove ground floor level.		
A2		P2	
Each dwelling must be provided with a dedicated and secure storage space of not less than 6m ³ .		Each dwelling must be provided with adequate storage space.	

16.5 Development Standards for Subdivision

	5
Objective:	That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road.

Acceptable Solutions		Performance Criteria		
A1	A1		P1	
	 Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 45m² and existing buildings are consistent with the 		n lot, or a lot proposed in a plan of subdivision, t have sufficient useable area and dimensions able for its intended use, having regard to: the relevant requirements for development of	
(b)	setback required by clause 16.4.2 A1 and A2; be required for public use by the Crown, a council or a State authority;	(b)	buildings on the lot; existing buildings and the location of intended buildings on the lot;	
(c)	be required for the provision of Utilities; or	(c)	the topography of the site; and	
(d)	be for the consolidation of a lot with another lot provided each lot is within the same zone.	(d)	the pattern of development existing on established properties in the area.	

A2	P2
Each lot, or a lot proposed in a plan of subdivision, must have a frontage, or legal connection to a road by a right of carriageway, of not less than 3.6m.	Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(b) the topography of the site;
	 (c) the functionality and useability of the frontage or access;
	 (d) the anticipated nature of vehicles likely to access the site;
	(e) the ability to manoeuvre vehicles on the site;
	(f) the ability for emergency services to access the site; and
	(g) the pattern of development existing on established properties in the area.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	 (c) the nature of the road and the traffic, including pedestrians; and
	(d) the pattern of development existing on established properties in the area.

16.5.2 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable Solutions		Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a full water supply service.		 A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to: (a) flow rates; (b) the quality of potable water; (c) any existing or proposed infrastructure to provide the water service and its location; (d) the topography of the site; and
A2		(e) any advice from a regulated entity.P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a reticulated sewerage system.		No Performance Criterion.
A3		Р3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.		No Performance Criterion.

17.0 Commercial Zone

17.1 Zone Purpose

The purpose of the Commercial Zone is:

- 17.1.1 To provide for retailing, service industries, storage and warehousing that require:
 - (a) large floor or outdoor areas for the sale of goods or operational requirements; and
 - (b) high levels of vehicle access and parking for customers.
- 17.1.2 To provide for a mix of use and development that supports and does not compromise or distort the role of other activity centres in the activity centre hierarchy.

17.2 Use Table

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values management		
Passive Recreation		
Utilities	If for minor utilities.	
Permitted		
Bulky Goods Sales		
Emergency Services		
Equipment and Machinery Sales and Hire		
Service Industry		
Storage		
Discretionary		
Business and Professional Services		
Community Meeting and Entertainment		
Educational and Occasional Care		
Food Services		

Use Class	Qualification	
General Retail and Hire		
Hotel Industry	If for alterations or extensions to an existing Hotel Industry.	
Manufacturing and Processing		
Research and Development		
Resource Processing	If for food or beverage production.	
Sports and Recreation		
Transport Depot and Distribution		
Tourist Operation		
Utilities		
Vehicle Fuel Sales and Service		
Vehicle Parking		
Visitor Accommodation	If for alterations or extensions to existing Visitor Accommodation.	
Prohibited		
All other uses		

17.3 Use Standards

17.3.1 All uses

Objective:	That uses do not cause an unreasonable loss of residential amenity to residential zones.		
Acceptable Solutions		Performance Criteria	
A1		P1	
 A1 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation or Utilities, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays. 		 Hours of operation of a use, excluding Emergency Services, Natural and Cultural Values Management, Passive Recreation or Utilities, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the timing, duration or extent of vehicle movements; and (b) noise, lighting or other emissions. 	

A2	P2
 External lighting for a use, excluding Natural and Cultural Values Management or Passive Recreation, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must: (a) not operate within the hours of 11.00pm to 6.00am, excluding any security lighting; and (b) if for security lighting, be baffled so that direct light does not extend into the adjoining property in those zones. 	 External lighting for a use, excluding Natural and Cultural Values Management or Passive Recreation, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the level of illumination and duration of lighting; and (b) the distance to habitable rooms of an adjacent dwelling.
 A3 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 9.00pm Sunday and public holidays. 	 P3 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements; (c) the size of commercial vehicles involved; (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise; (e) any noise mitigation measures between the vehicle movement areas and the adjoining residential area; and
	(f) potential conflicts with other traffic.

17.3.2 Discretionary uses

Objective:	That uses listed as Discretionary do not compromise or distort the activity centre hierarchy.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable Solution.		A use listed as Discretionary must not compromise or distort the activity centre hierarchy, having regard to:	
		(a) the characteristics of the site;	
		(b) the size and scale of the proposed use;	
		(c) the functions of the activity centre and the surrounding activity centres; and	
		(d) the extent that the proposed use impacts on other activity centres.	

17.3.3 Retail impact

Objective:	That Bulky Goods Sales do not compromise or distort the activity centre hierarchy.		
Acceptable Solutions		Performance Criteria	
A1		P1	
not less than 2	r area for Bulky Goods Sales must be 250m ² per tenancy, unless the use than 50% of the site area for outdoor ds for sale.	 Bulky Goods Sales must not compromise or distort the activity centre hierarchy, having regard to: (a) the extent that the proposed use improves and broadens the commercial or retail choice within the area; (b) the extent that the proposed use impacts on surrounding activity centres; and (c) any relevant local area objectives contained within the relevant Local Provisions Schedule. 	

17.4 Development Standards for Buildings and Works

17.4.1 Building height

17.4.	i Duit			
Objec	ctive:	 That building height: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of amenity to adjoining residential zones. 		
Acce	ptable Sc	lutions	Perf	ormance Criteria
A1			P1	
Building height must be not more than 12m.		stree	ding height must be compatible with the etscape and character of development existing or blished properties in the area, having regard to:	
			(a)	the topography of the site;
		(b)	the height, bulk and form of existing building on the site and adjacent properties;	
			(c)	the bulk and form of proposed buildings;
			(d)	the apparent height when viewed from the adjoining road and public places; and
			(e)	any overshadowing of public places.
A2			P2	
(a) v C	 Building height: (a) within 10m of a General Residential Zone, Low Density Residential Zone or Rural Living Zone must be not more than 8.5m; or 		Zone Resi cons	ding height within 10m of a General Residential e, Inner Residential Zone, Low Density idential Zone, or Rural Living Zone must be sistent with building height on adjoining properties
(b) within 10m of an Inner Residential Zone must be not more than 9.5m.	of an Inner Residential Zone must		not cause an unreasonable loss of residential nity, having regard to:	
	re than 9.5m.	(a)	overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings;	
			(b)	overlooking and reduction of privacy; and
			1	

 visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property.

17.4.2 Setbacks

Objective:	jective: That building setback: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of amenity to adjoining residential zones.		
Acceptable	Solutions	Performance Criteria	
A1		P1	
 Buildings must have a setback from a frontage of: (a) not less than 5.5m; (b) not less than existing buildings on the site; or 		Buildings must have a setback from a frontage that provides adequate space for vehicle access, parking and landscaping, having regard to:	
(-)	e or less than the maximum and m setbacks of the buildings on	(a) the topography of the site;(b) the setback of buildings on adjacent properties; and	
adjoinir	g properties.	(c) the safety of road users.	
A2		P2	
property with Residential Z	st have setback from an adjoining n a General Residential Zone, Inner one, Low Density Residential Zone, or Zone of not less than:	Buildings must be sited to not cause an unreasonable loss of residential amenity to adjoining properties within a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, having regard to:	
(a) 4m, or(b) half the wall height of the building,whichever is the greater.		 (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; 	
		 (b) overlooking and reduction of privacy to the adjoining property; or 	
		 (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 	
A3		P3	
Air extraction, pumping, refrigeration systems or compressors must be separated a distance of not less than 10m from the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone. ¹		Air conditioning, air extraction, pumping, heating or refrigeration systems or compressors within 10m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to the adjoining residential zones, having regard to:	
		 (a) the characteristics and frequency of emissions generated; 	
		(b) the nature of the proposed use;	
		(c) the topography of the site and location of the	

¹ An exemption for air conditioners and heat pumps applies in this zone – see clause 4.6.

sensitive use; and
(d) any proposed mitigation measures.

17.4.3 Design

Objective: That building design is compatible with		h the	streetscape.	
Acc	Acceptable Solutions		Performance Criteria	
A1			P1	
	Buildings must be designed to satisfy all the following:		Buildings must be designed to be compatible with the streetscape, having regard to:	
(a)	that is vis	a pedestrian entrance to the building sible from the road or publicly le areas of the site;	(a) (b)	how the main pedestrian access to the building addresses the street or other public places; minimising the visual impact of mechanical plant
(b)	infrastruc condition units and	cal plant and other service cture, such as heat pumps, air ning units, switchboards, hot water d the like, must be screened from the		and other service infrastructure, such as heat pumps, air conditioning units, switchboards, hot water units and the like, when viewed from the street or other public places;
(c)		d other public places; mechanical plant and service	(c)	minimising the visual impact of roof-top service infrastructure, excluding lift structures;
	containe	cture, excluding lift structures, must be d within the roof or screened from baces and adjoining properties;	(d)	installing security shutters or grilles over windows or doors on a façade facing the frontage or other public spaces only if essential
(d)		de security shutters or grilles over or doors on a façade facing the		for the security of the premises and other alternatives are not practical;
(0)	-	or other public places;	(e)	the need for provision of awnings over a public
(e)		awnings over a public footpath if on the site or on adjoining properties;	(f)	footpath; and providing suitable lighting to vehicle parking areas and pathways for the safety and security
(f)		external lighting to illuminate external parking areas and pathways.		of users.

17.4.4 Fencing

Objective:	 That fencing: (a) is compatible with the streetscape; and (b) does not cause an unreasonable loss of residential amenity to adjoining residential zones. 	
Acceptable S	olutions	Performance Criteria
A1		P1
No Acceptable	e Solution. ²	A fence (including a free-standing wall) within 4.5m of a frontage must be compatible with the streetscape, having regard to:
		(a) its height, design, location and extent;
		(b) its degree of transparency; and
		(c) the proposed materials and construction.
A2		P2
General Resid Low Density R if not within 4. (a) have a h not more	ndary fences with a property in a lential Zone, Inner Residential Zone, lesidential Zone, or Rural Living Zone, 5m of a frontage, must: leight above existing ground level of than 2.1m; and ain barbed wire. ²	 Common boundary fences with a property in a General Residential Zone, Inner Residential Zone, Low Density Residential Zone, or Rural Living Zone, if not within 4.5m of a frontage, must not cause an unreasonable loss of residential amenity, having regard to: (a) their height, design, location and extent; and (b) the proposed materials and construction.

17.4.5 Outdoor storage areas

Objective:	That outdoor storage areas do not detract from the appearance of the site or surrounding area.	
Acceptable Solutions		Performance Criteria
A1		P1
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		Outdoor storage areas, excluding for the display of goods for sale, must be located, treated or screened to not cause an unreasonable loss of visual amenity.

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

17.4.6 Landscaping

Objective:	That landscaping enhances the amenity and appearance of the streetscape where buildings are setback from the frontage.		
Acceptable Solutions		Performance Criteria	
A1		P1	
If a building is set back from a road, landscaping treatment must be provided along the frontage of the site:		If a building is setback from a road, landscaping treatment must be provided along the frontage of the site, having regard to:	
(a) to a dept	h of not less than 5.5m; or	(a) the width of the setback;	
(b) not less t	han the frontage of an existing	(b) the width of the frontage;	
building i	f it is a lesser distance.	(c) the topography of the site;	
		(d) existing vegetation on the site;	
		 (e) the location, type and growth of the proposed vegetation; and 	
		(f) the character of the streetscape and surrounding area.	

17.5 Development Standards for Subdivision

17.5.1 Lot design

Objec	tive:	That each lot:		
		(a) has an area and dimensions ap	propriate for use and development in the zone; and	
(b) is provided with appropriate acce			cess to a road.	
Accep	ptable	Solutions	Performance Criteria	
A1			P1	
must:	Each lot, or a lot proposed in a plan of subdivision, must:		Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:	
(a) I	have a	n area of not less than 1000m ² and:		
	()	e able to contain a minimum area of 5m x 20m clear of:	 (a) the relevant requirements for development of buildings on the lot; 	
	a	all setbacks required by clause 17.4.2 A1 and A2; and	 (b) existing buildings and the location of intended buildings on the lot; 	
	b	easements or other title restrictions	(c) the topography of the site;	
		that limit or restrict development;	(d) the presence of any natural hazards; and	
		and	(e) the pattern of development existing on	
	S	xisting buildings are consistent with the etback required by clause 17.4.2 A1 nd A2;	established properties in the area.	
	-	uired for public use by the Crown, I or a State authority;		
(c) I	be req	uired for the provision of Utilities; or		
()		the consolidation of a lot with another vided each lot is within the same zone.		
A2			P2	
Each lot, or a lot proposed in a plan of subdivision, must have a frontage of not less than 20m.			Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:	
			 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; 	
			(b) the topography of the site;	
			(c) the functionality and useability of the frontage;	
			 (d) the anticipated nature of vehicles likely to access the site; 	
			(e) the ability to manoeuvre vehicles on the site;	
			(f) the ability for emergency services to access the	

	site; and (g) the pattern of development existing on established properties in the area.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	 (c) the nature of the road and the traffic, including pedestrians; and
	 (d) the pattern of development existing on established properties in the area.

17.5.2 Services

Objective:	The subdivision of land provides services for the future use and development of the land.		
Acceptable Solutions		Performance Criteria	
A1		P1	
excluding for p	ot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must have a connection to a full ervice.	 A lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have a connection to a limited water supply service, having regard to: (a) flow rates; (b) the quality of potable water; (c) any existing or proposed infrastructure to provide the water service and its location; (d) the topography of the site; and (e) any advice from a regulated entity. 	

A2	P2
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must have connection to a reticulated sewerage system.	No Performance Criterion.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.	 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot; (b) topography of the site; (c) soil conditions; (d) any existing buildings on the site; (e) any area of the site covered by impervious surfaces; and (f) any watercourse on the land.

18.0 Light Industrial Zone

18.1 Zone Purpose

The purpose of the Light Industrial Zone is:

- 18.1.1 To provide for manufacturing, processing, repair, storage and distribution of goods and materials where off site impacts are minimal or can be managed to minimise conflict with, or unreasonable loss of amenity to, any other uses.
- 18.1.2 To provide for use or development that supports and does not adversely impact on industrial activity.

18.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Emergency Services	
Equipment and Machinery Sales and Hire	
Manufacturing and Processing	
Port and Shipping	
Research and Development	
Service Industry	
Storage	
Transport Depot and Distribution	
Vehicle Fuel Sales and Service	

Use Class	Qualification
Discretionary	
Bulky Goods Sales	 If for: (a) a supplier for Extractive Industry, Resource Development or Resource Processing; (b) a garden and landscaping materials, trade or hardware supplier; or (c) a timber yard.
Community Meeting and Entertainment	
Crematoria and Cemeteries	
Domestic Animal Breeding, Boarding or Training	
Educational and Occasional Care	If for alterations or extensions to existing Educational and Occasional Care.
Food Services	
General Retail and Hire	If for alterations or extensions to existing General Retail and Hire.
Recycling and Waste Disposal	If for a scrap yard or waste transfer station.
Resource Processing	
Sports and Recreation	
Utilities	If not listed as No Permit Required.
Vehicle Parking	
Prohibited	
All other uses	

18.3 Use Standards

18.3.1 All uses

Obje	ective:	That uses do not cause an unreasonable loss of amenity to residential zones.

	vehicles, including the amount of reversing and	
	associated warning noise;	
	(e) any noise mitigation measures between the	
	vehicle movement areas and the residential	
	area; and	
	(f) potential conflicts with other traffic.	

18.3.2 Discretionary uses

Objective:	That uses listed as Discretionary do not compromise the use or development of the land for industrial activities with minimal or managed off site impacts.		
Acceptable S	Solutions	Performance Criteria	
A1		P1	
No Acceptable Solution.		A use listed as Discretionary must not compromise	
		the use or development of the surrounding properties	
		for industrial activities with minimal or managed off	
		site impacts, having regard to:	
		(a) the characteristics of the site;	
		(b) the size and scale of the proposed use; and	
		(c) the function of the industrial area.	

18.4 Development Standards for Buildings and Works

18.4.1 Building height

Obje	Objective:To provide for a building height that: (a) is necessary for the operation of the use; and (b) minimises adverse impacts on adjoining properties.		
Acc	eptable S	olutions	Performance Criteria
A1 Build	ding heigh	t must be not more than 10m.	 P1 Building height must be necessary for the operation of the use and not cause an unreasonable impact on adjoining properties, having regard to: (a) the bulk and form of the building; (b) separation from existing uses on adjoining properties; and (c) any buffers created by natural or other features.
A2			P2
(a)	Density R	t: n of a General Residential Zone, Low esidential Zone or Rural Living Zone ot more than 8.5m; or	Building height within 10m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Rural Living Zone must be consistent with building height on adjoining properties
(b) within 10m of an Inner Residential Zone must be not more than 9.5m.		n of an Inner Residential Zone must be	 in those zones and not cause an unreasonable loss of residential amenity, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy; or (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining properties.

18.4.2 Setbacks

Objective:	 ective: That building setbacks: (a) are appropriate for the site; and (b) do not cause an unreasonable loss of residential amenity to adjoining residential zones 			
Acceptable S	olutions	Performance Criteria		
 (a) not less (b) not less (c) not more minimum 	t have a setback from a frontage of: than 5.5m; than existing buildings on the site; or e or less than the maximum and n setbacks of the buildings on g properties.	 P1 Buildings must have a setback from a frontage that provides adequate space for vehicle access, parking and landscaping, having regard to: (a) the topography of the site; (b) the setback of buildings on adjacent properties; and (c) the safety of road users. 		
A2 Buildings must have a setback from an adjoining property within a General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Rural Living Zone of not less than: (a) 4m; or (b) half the wall height of the building, whichever is the greater.		 P2 Buildings must be sited to not cause an unreasonable loss of residential amenity to adjoining properties within a General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Rural Living Zone, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy; and (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 		

A3	P3		
Air extraction, pumping, refrigeration systems,	Air conditioning, air extraction, pumping, heating or		
compressors or generators must be separated a	refrigeration systems, compressors or generators		
distance of not less than 10m from a General	within 10m of a General Residential Zone, Inner		
Residential Zone, Inner Residential Zone, Low	Residential Zone, Low Density Residential Zone or		
Density Residential Zone or Rural Living Zone. ¹	Rural Living Zone must be designed, located, baffled		
	or insulated to not cause an unreasonable loss of		
	residential amenity to the adjoining residential zones,		
	having regard to:		
	(a) the characteristics and frequency of		
	emissions generated;		
	(b) the nature of the proposed use;		
	(c) the topography of the site and location of the		
	sensitive use; and		
	(d) any proposed mitigation measures.		

18.4.3 Fencing

Objective:	That fencing does not cause an unreasonable loss of residential amenity to adjoining residential zones.			
Acceptable S	olutions	Performance Criteria		
A1		P1		
No Acceptable Solution. ²		Common boundary fences with a property in a		
		General Residential Zone, Inner Residential Zone,		
		Low Density Residential Zone or Village Zone must		
		not cause an unreasonable loss of residential		
		amenity, having regard to:		
		(a) their height, design, location and extent; and		
		(b) the proposed materials and construction.		

 $^{^{1}}$ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6.

 $^{^{2}}$ An exemption applies for fences in this zone – see Table 4.6.

18.4.4 Outdoor storage areas

Objective:	Outdoor storage areas do not detract from the appearance of the site or surrounding area.		
Acceptable S	Solutions Performance Criteria		
A1		P1	
Outdoor storage areas, excluding for the display of		Outdoor storage areas, excluding for the display of	
goods for sale, must not be visible from any road or		goods for sale, must be located, treated or screened	
public open sp	ace adjoining the site.	to not cause an unreasonable loss of visual amenity.	

18.4.5 Landscaping

Obje	bjective: That landscaping enhances the amenity and appearance of the streetscape where buildings are setback from the frontage.			
Acceptable Solutions		Performance Criteria		
A1			P1	
If a building is set back from a road, landscaping		lf a	building is setback from a road, landscaping	
treatment must be provided along the frontage of		trea	treatment must be provided along the frontage of the	
the site:		site, having regard to:		
(a) to a depth of not less than 5.5m; or		(a)	the width of the setback;	
(b)	not less t	han the frontage of an existing	(b)	the width of the frontage;
	building if it is a lesser distance.		(c)	the topography of the site;
			(d)	existing vegetation on the site;
			(e)	the location, type and growth of the proposed
				vegetation; and
			(f)	any relevant local area objectives contained
				within the relevant Local Provisions Schedule.

18.5 Development Standards for Subdivision

18.5.1	Lot design
10.5.1	LULUESIGI

Objective:	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 		
Acceptabl	le Solutions	Performance Criteria	
must:	or a lot proposed in a plan of subdivision, e an area of not less than 1000m ² and: be able to contain a minimum area of 15m x 20m clear of: a. all setbacks required by Clause	 P1 Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) the relevant requirements for development of buildings on the lot; (b) existing buildings and the location of intended

	system adequate for the future use and development
	of the land, having regard to:
	(a) the size of the lot;
	(b) topography of the site;
	(c) soil conditions;
	(d) any existing buildings on the site;
	(e) any area of the site covered by impervious
	surfaces; and
	(f) any watercourse on the land.

19.0 General Industrial Zone

19.1 Zone Purpose

The purpose of the General Industrial Zone is:

- 19.1.1 To provide for manufacturing, processing, repair, storage and distribution of goods and materials where there may be impacts on adjacent uses.
- 19.1.2 To provide for use or development that supports and does not adversely impact on industrial activity.

19.2 Use Table

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Utilities	If for minor utilities.	
Permitted		
Emergency Services		
Equipment and Machinery Sales and Hire		
Manufacturing and Processing		
Port and Shipping		
Recycling and Waste Disposal		
Research and Development		
Resource Processing		
Service Industry		
Storage		
Transport Depot and Distribution		
Utilities	If not listed as No Permit Required.	
Vehicle Fuel Sales and Service		

Use Class	Qualification	
Discretionary		
Bulky Goods Sales	 If for: (a) a supplier for Resource Development, Extractive Industry or Resource Processing; (b) a garden and landscape, trade or hardware supplier; or (c) a timber yard. 	
Crematoria and Cemeteries	If for a crematorium.	
Educational and Occasional Care	If for an employment training centre.	
Food Services		
Motor Racing Facility		
Sports and Recreation		
Vehicle Parking		
Prohibited		
All other uses		

19.3 Use Standards

Objective:	That uses listed as Discretionary do not compromise the use or development of the land for industrial activities that may have impacts on adjacent uses.	
Acceptable So	olutions	Performance Criteria
A1		P1
No Acceptable	Solution.	A use listed as Discretionary must not compromise
		the use or development of surrounding properties for
		industrial activities that may have impacts on adjacent
		uses, having regard to:
		(a) the characteristics of the site;
		(b) the size and scale of the proposed use; and
		(c) the functions of the industrial area.

19.4 Development Standards for Buildings and Works

19.4.1 Building height

Objective:	To provide for a building height that: (a) is necessary for the operation of the use; and (b) minimises adverse impacts on adjoining properties.	
Acceptable S	cceptable Solutions Performance Criteria	
A1		P1
Building heigh	t must be not more than 20m.	Building height must be necessary for the operation of the use and not cause an unreasonable impact on adjoining properties, having regard to:(a) the bulk and form of the building;(b) separation from existing use on adjoining
		properties; and (c) any buffers created by natural or other features.

19.4.2 Setback

Obje	ective:	That the building setback is appropriate for the site.		
Acceptable Solutions		Perf	ormance Criteria	
A1		P1		
Buildings must have setback from a frontage of:		Buildings must have a setback from a frontage that		
(a) not less than 10m;		provides adequate space for vehicle access, parking		
(b) not less than existing buildings on the site; or		and	landscaping, having regard to:	
(c) not more or less than the maximum and		(a)	the topography of the site;	
	minimum	setbacks of the buildings on	(b)	the setback of buildings on adjacent properties;
	adjoining	properties.		and
			(c)	the safety of road users.

19.4.3 Landscaping

Objective:	That landscaping enhances the amenity and appearance of the streetscape where buildings are setback from the frontage.		
A1		P1	
If a building is set back from a road, landscaping		If a building is setback from a road, landscaping	
treatment mus	t be provided along the frontage of	treatment must be provided along the frontage of the	
the site:		site, having regard to:	
(a) to a dept	h of not less than 6m; or	(a) the width of the setback;	
(b) not less t	han the frontage of an existing	(b) the width of the frontage;	
building if it is a lesser distance.		(c) the topography of the site;	
		(d) existing vegetation on the site;	
		(e) the location, type and growth of the proposed	
		vegetation; and	
		(f) any relevant local area objectives contained	
		within the relevant Local Provisions Schedule.	

19.5 Development Standards for Subdivision

19.5.1 Lot design

Obje	ctive	:	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 				
Acce	Acceptable Solutions			Per	formance Criteria		
A1							
	Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 2000m ² and:			mus	th lot, or a lot proposed in a plan of subdivision, at have sufficient useable area and dimensions able for its intended use, having regard to:		
	(i)		able to contain a minimum area of n x 40m clear of:	(a)	the relevant requirements for development of buildings on the lot;		
		a.	all setbacks required by clause 19.4.2 A1; and	(b)	existing buildings and the intended location of new buildings on the lot;		
		b.	easements or other title restrictions that limit or restrict development; and	(c) (d) (e)	the topography of the site; the presence of any natural hazards; and the pattern of development existing on		
	(ii)		sting buildings are consistent with the back required by clause 19.4.2 A1;		established properties in the area.		
 (b) be required for public use by the Crown, a council or a State authority; 							

(c) be required for the provision of Utilities; or	
(d) be for the consolidation of a lot with another	
lot provided each lot is within the same zone.	
A2	P2
Each lot, or a lot proposed in a plan of subdivision, must have a frontage of not less than 20m.	Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(b) the topography of the site;
	(c) the functionality and useability of the frontage;
	 (d) the anticipated nature of vehicles likely to access the site;
	(e) the ability to manoeuvre vehicles on the site;
	(f) the ability for emergency services to access the site; and
	(g) the pattern of development existing on established properties in the area.
A3	P3
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	 (c) the nature of the road and the traffic, including pedestrians; and
	 (d) the pattern of development existing on established properties in the area.

19.5.2 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.		
Acceptable S	olutions	Performance Criteria	
excluding for p reserve or Util (a) be conne the fronta water su (b) be conne if the fron connection unless a regul	lot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must: ected to a full water supply service if age of the lot is within 30m of a full pply service; or ected to a limited water supply service htage of the lot is within 30m of a on to a limited water supply service, ated entity advises that the lot is connected to the relevant water supply	P1 No Performance Criterion.	
excluding for p reserve or Util	lot proposed in a plan of subdivision, public open space, a riparian or littoral ities, must have a connection to a werage system.	P2 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site waste-water treatment system adequate for the future use and development of the land.	
A3 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.		 P3 Each lot, or a lot proposed in a plan of subdivision, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot; (b) topography of the site; (c) soil conditions; (d) any existing buildings on the site; (e) any area of the site covered by impervious surfaces; and (f) any watercourse on the land. 	

20.0 Rural Zone

20.1 Zone Purpose

The purpose of the Rural Zone is:

- 20.1.1 To provide for a range of use or development in a rural location:
 - (a) where agricultural use is limited or marginal due to topographical, environmental or other site or regional characteristics;
 - (b) that requires a rural location for operational reasons;
 - (c) is compatible with agricultural use if occurring on agricultural land;
 - (d) minimises adverse impacts on surrounding uses.
- 20.1.2 To minimise conversion of agricultural land for non-agricultural use.
- 20.1.3 To ensure that use or development is of a scale and intensity that is appropriate for a rural location and does not compromise the function of surrounding settlements.

20.2 Use Table

Use Class	Qualification				
No Permit Required					
Natural and Cultural Values Management					
Passive Recreation					
Resource Development					
Utilities	If for minor utilities.				
Permitted					
Business and Professional Services	If for: (a) a veterinary centre; or (b) an agribusiness consultant or agricultural consultant.				
Domestic Animal Breeding, Boarding or Training					
Educational and Occasional Care	If associated with Resource Development or Resource Processing.				
Emergency Services					

Use Class	Qualification		
Extractive Industry			
Food Services	If associated with Resource Development or Resource Processing.		
General Retail and Hire	If associated with Resource Development or Resource Processing.		
Manufacturing and Processing	If for the processing of materials from Extractive Industry.		
Pleasure Boat Facility	If for a boat ramp.		
Research and Development	If associated with Resource Development or Resource Processing.		
Residential	If for: (a) a home-based business in an existing dwelling; or (b) alterations or extensions to an existing dwelling.		
Resource Processing			
Storage	 If for: (a) a contractors yard; (b) freezing and cooling storage; (c) grain storage; (d) a liquid, solid or gas fuel depot; or (e) a woodyard. 		
Utilities	If not listed as No Permit Required.		
Visitor Accommodation	If for guests accommodated within an existing building.		
Discretionary			
Bulky Goods Sales	 If for: (a) a supplier for Extractive Industry, Resource Development or Resource Processing; (b) a garden and landscaping materials supplier; (c) a timber yard; or (d) rural supplies. 		
Business and Professional Services	If not listed as Permitted.		
Community Meeting and Entertainment			
Crematoria and Cemeteries			

Use Class	Qualification			
Custodial Facility				
Educational and Occasional Care	If not listed as Permitted.			
Food Services	If not listed as Permitted.			
General Retail and Hire	If not listed as Permitted.			
Manufacturing and Processing	If not listed as Permitted.			
Motor Racing Facility				
Pleasure Boat Facility	If not listed as Permitted.			
Recycling and Waste Disposal				
Research and Development	If not listed as Permitted.			
Residential	If for a single dwelling and not restricted by an existing agreement under section 71 of the Act.			
Service Industry	If associated with Extractive Industry, Resource Development or Resource Processing.			
Sports and Recreation				
Storage	If not listed as Permitted.			
Tourist Operation				
Transport Depot and Distribution				
Visitor Accommodation	If not listed as Permitted.			
Prohibited				
All other uses				

20.3.1 Discretionary use

Objective:	 That the location, scale and intensity of a use listed as Discretionary: (a) is required for operational reasons; (b) does not unreasonably confine or restrain the operation of uses on adjoining properties; (c) is compatible with agricultural use and sited to minimise conversion of agricultural land; and (d) is appropriate for a rural location and does not compromise the function of surrounding settlements. 			
Acceptable Solutions		Performance Criteria		
 A1 A use listed as Discretionary, excluding Residential, is for an alteration or extension to an existing use, if: (a) the gross floor area does not increase by more than 30% from that existing at the effective date; and (b) the development area does not increase by more than 30% from that existing at the effective date. 		 P1 A use listed as Discretionary, excluding Residential, must require a rural location for operational reasons, having regard to: (a) the nature, scale and intensity of the use; (b) the importance or significance of the proposed use for the local community; (c) whether the use supports an existing agricultural use; (d) whether the use requires close proximity to infrastructure or natural resources; and (e) whether the use requires separation from other uses to minimise impacts. 		
A2 No Acceptable	Solution.	 P2 A use listed as Discretionary must not confine or restrain existing use on adjoining properties, having regard to: (a) the location of the proposed use; (b) the nature, scale and intensity of the use; (c) the likelihood and nature of any adverse impacts on adjoining uses; (d) whether the proposed use is required to support a use for security or operational reasons; and (e) any off site impacts from adjoining uses. 		
A3 No Acceptable Solution.		P3 A use listed as Discretionary, located on agricultural land, must minimise conversion of agricultural land to non-agricultural use and be compatible with		

	 agricultural use, having regard to: (a) the nature, scale and intensity of the use; (b) the local or regional significance of the agricultural land; and (c) whether agricultural use on adjoining properties will be confined or restrained.
A4	P4
No Acceptable Solution.	 A use listed as Discretionary, excluding Residential, must be appropriate for a rural location, having regard to: (a) the nature, scale and intensity of the proposed use; (b) whether the use will compromise or distort the activity centre hierarchy; (c) whether the use could reasonably be located on land zoned for that purpose; (d) the capacity of the local road network to accommodate the traffic generated by the use; and (e) whether the use requires a rural location to minimise impacts from the use, such as noise, dust and lighting.

20.4 Development Standards for Buildings and Works

Objective:	 To provide for a building height that: (a) is necessary for the operation of the use; and (b) minimises adverse impacts on adjoining properties. 	
Acceptable	Solutions	Performance Criteria
A1		P1
Building heig	ht must be not more than 12m.	 Building height must be necessary for the operation of the use and not cause an unreasonable impact on adjoining properties, having regard to: (a) the proposed height of the building; (b) the bulk and form of the building; (c) the separation from existing uses on adjoining properties; and
		(d) any buffers created by natural or other features.

20.4.2	Setbacks

Objective:	That the siting of buildings minimises potential conflict with use on adjoining sites.				
Acceptable Solutions		Performance Criteria			
A1 Buildings must have a setback from all boundaries		P1 Buildings must be sited to provide adequate vehicle			
(b) if the se	access and not cause an unreasonable impact existing sor e setback of an existing building is within not less than the existing building.access and not cause an unreasonable impact existing use on adjoining properties, having re (a) the bulk and form of the building; (b) the nature of existing use on the adjoining 				
 A2 Buildings for a sensitive use must be separated from an Agriculture Zone a distance of: (a) not less than 200m; or (b) if an existing building for a sensitive use on the site is within 200m of that boundary, not less than the existing building. 		 P2 Buildings for a sensitive use must be sited so as not to conflict or interfere with an agricultural use within the Agriculture Zone, having regard to: (a) the size, shape and topography of the site; (b) the prevailing setbacks of any existing buildings for sensitive uses on adjoining properties; (c) the location of existing buildings on the site; (d) the existing and potential use of adjoining properties; (e) any proposed attenuation measures; and (f) any buffers created by natural or other features. 			

Objective:	That new dwellings have appropriate vehicular access to a road maintained by a road authority.			
Acceptable Solutions		Performance Criteria		
A1		P1		
New dwellings must be located on lots that have		New dwellings must have legal access, by right of		
frontage with access to a road maintained by a road		carriageway, to a road maintained by a road authority		
authority.		that is appropriate, having regard to:		
		(a) the number of users of the access;		
		(b) the length of the access;		
		(c) the suitability of the access for use by the		
		occupants of the dwelling;		
		(d) the suitability of the access for emergency		
		services vehicles;		
		(e) the topography of the site;		
		(f) the construction and maintenance of the acc	ess;	
		(g) the construction, maintenance and usage of	the	
		road; and		
		(h) any advice from a road authority.		

20.4.3 Access for new dwellings

20.5 Development Standards for Subdivision

 (a) relates to public use, irrigation or Utilities; or (b) facilitates use and development for allowable uses in the zone.

Acceptable Solutions		Performance Criteria			
A1	A1		P1		
	Each lot, or a lot proposed in a plan of subdivision, must:		Each lot, or a lot proposed in a plan of subdivision, must:		
(a) (b) (c) (d)	 be required for public use by the Crown, a council or a State authority; be required for the provision of Utilities or irrigation infrastructure; be for the consolidation of a lot with another lot provided each lot is within the same zone; or be not less than 40ha with a frontage of no less than 25m and existing buildings are consistent with the setback and separation distance required by clause 20.4.2 A1 and A2. 	(a) (b)	suit Res (i) (ii) (iii) (iv) be f Visi	 e sufficient useable area and dimensions able for the intended purpose, excluding sidential or Visitor Accommodation, that: requires the rural location for operational reasons; minimises the conversion of agricultural land for a non-agricultural use; minimises adverse impacts on nonsensitive uses on adjoining properties; and is appropriate for a rural location; or for the excision of an existing dwelling or tor Accommodation that satisfies all of the powing: the balance lot provides for the sustainable operation of a Resource Development use, having regard to: a. not materially diminishing the agricultural productivity of the land; b. the capacity of the balance lot for productive agricultural use; and c. any topographical constraints to agricultural use; an agreement under section 71 of the Act is entered into and registered on the title preventing future Residential use if there is no dwelling on the balance lot; 	

	 (iii) the existing dwelling or Visitor Accommodation must meet the setbacks required by subclause 20.4.2 A2 or P2 in relation to setbacks to new boundaries; (iv) it is demonstrated that the new lot will not unreasonably confine or restrain the operation of any adjoining site used for agricultural use; and (c) be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:
	 the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
	(ii) the topography of the site;
	(iii) the functionality and useability of the frontage;
	(iv) the anticipated nature of vehicles likely to access the site;
	(v) the ability to manoeuvre vehicles on the site;
	(vi) the ability for emergency services to access the site; and
	(vii) the pattern of development existing on established properties in the area.
A2 Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	P2 Each lot, or a lot proposed in a plan of subdivision, is provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:
	(a) the topography of the site;
	 (b) the distance between the lot or building area and the carriageway;
	 (c) the nature of the road and the traffic, including pedestrians; and
	 (d) the pattern of development existing on established properties in the area.

21.0 Agriculture Zone

21.1 Zone Purpose

The purpose of the Agriculture Zone is:

- 21.1.1 To provide for the use or development of land for agricultural use.
- 21.1.2 To protect land for the use or development of agricultural use by minimising:
 - (a) conflict with or interference from non-agricultural uses;
 - (b) non-agricultural use or development that precludes the return of the land to agricultural use; and
 - (c) use of land for non-agricultural use in irrigation districts.
- 21.1.3 To provide for use or development that supports the use of the land for agricultural use.

21.2 Use Table

Use Class	Qualification	
No Permit Required	·	
Natural and Cultural Values Management		
Passive Recreation		
Resource Development	 If: (a) on land other than prime agricultural land; or (b) an agricultural use, excluding plantation forestry, on prime agricultural land if it is dependent on the soil as the growth medium or conducted in a manner which does not alter, disturb or damage the existing soil profile or preclude it from future use as a growth medium. 	
Utilities	If for minor utilities.	
Permitted		
Food Services	If associated with Resource Development or Resource Processing.	
General Retail and Hire	If associated with Resource Development or Resource Processing.	
Pleasure Boat Facility	If for a boat ramp.	
Residential	If for:	

Use Class	Qualification	
	(a) a home-based business in an existing dwelling; or(b) alterations or extensions to an existing dwelling.	
Discretionary		
Bulky Goods Sales	 If: (a) a supplier for Extractive Industry, Resource Development or Resource Processing; (b) a garden and landscape supplier; or (c) a timber yard. 	
Domestic Animal Breeding, Boarding or Training		
Educational and Occasional Care		
Emergency Services		
Extractive Industry		
Food Services	If not listed as Permitted.	
General Retail and Hire	If not listed as Permitted.	
Manufacturing and Processing	If for: (a) the manufacturing of agricultural equipment; or (b) the processing of materials from Extractive Industry.	
Research and Development		
Residential	 If: (a) not restricted by an existing agreement under section 71 of the Act; and (b) not listed as Permitted. 	
Resource Development	If not listed as No Permit Required.	
Resource Processing		
Storage	If for: (a) a contractors yard; (b) freezing and cooling storage; (c) grain storage; (d) a liquid, solid or gas fuel depot; or (e) a woodyard.	

Use Class	Qualification
Tourist Operation	
Transport Depot and Distribution	If for the transport and distribution of agricultural produce and equipment.
Utilities	If not listed as No Permit Required.
Visitor Accommodation	
Prohibited	
All other uses	

21.3.1 Discretionary uses

Objective:	That uses listed as Discretionary:(a) support agricultural use; and(b) protect land for agricultural use by minimising the conversion of land to non-agricultural use.	
Acceptable So	lutions	Performance Criteria
A1		P1
No Acceptable	Solution.	 A use listed as Discretionary, excluding Residential or Resource Development, must be required to locate on the site, for operational or security reasons or the need to contain or minimise impacts arising from the operation such as noise, dust, hours of operation or traffic movements, having regard to: (a) access to a specific naturally occurring resource on the site or on land in the vicinity of the site; (b) access to infrastructure only available on the site or on land in the vicinity of the site; (c) access to a product or material related to an agricultural use; (d) service or support for an agricultural use on the site or on land in the vicinity of the site; (e) the diversification or value adding of an agricultural use on the site or in the vicinity of the site; and (f) provision of essential Emergency Services or

	Utilities.
A2 No Acceptable Solution.	 P2 A use listed as Discretionary, excluding Residential, must minimise the conversion of agricultural land to non-agricultural use, having regard to: (a) the area of land being converted to non-agricultural use; (b) whether the use precludes the land from being returned to an agricultural use; (c) whether the use confines or restrains existing or potential agricultural use on the site or adjoining sites.
A3 No Acceptable Solution.	 P3 A use listed as Discretionary, excluding Residential, located on prime agricultural land must: (a) be for Extractive Industry, Resource Development or Utilities, provided that: (i) the area of land converted to the use is minimised; (ii) adverse impacts on the surrounding agricultural use are minimised; and (iii) the site is reasonably required for operational efficiency; or (b) be for a use that demonstrates a significant benefit to the region, having regard to the social, environmental and economic costs and benefits of the proposed use.

A4	P4
No Acceptable Solution.	A Residential use listed as Discretionary must:
	(a) be required as part of an agricultural use,
	having regard to:
	(i) the scale of the agricultural use;
	(ii) the complexity of the agricultural use;
	(iii) the operational requirements of the
	agricultural use;
	(iv) the requirement for the occupier of the
	dwelling to attend to the agricultural use;
	and
	(v) proximity of the dwelling to the agricultural
	use; or
	(b) be located on a site that:
	(i) is not capable of supporting an agricultural
	use;
	(ii) is not capable of being included with other
	agricultural land (regardless of ownership)
	for agricultural use; and
	(iii) does not confine or restrain agricultural use
	on adjoining properties.

21.4 Development Standards for Buildings and Works

21.4.1 Building height

Objective:	To provide for a building height that: (a) is necessary for the operation of the use; and (b) minimises adverse impacts on adjoining properties.	
Acceptable S	olutions	Performance Criteria
A1		P1
Building heigh	nt must be not more than 12m.	Building height must be necessary for the operation of
		the use and not cause an unreasonable impact on
		adjoining properties, having regard to:
		(a) the proposed height of the building;
		(b) the topography of the site;
		(c) the bulk and form of the building;
		 (d) separation from existing use on adjoining properties;
		 (e) the nature of the existing uses on adjoining properties; and
		(f) any buffers created by natural or other features.

21.4.2 Setbacks

Objective:	That the siting of buildings minimises potential conflict with use on adjoining properties.	
Acceptable Solutions		Performance Criteria
A1		P1
Buildings must	have a setback from all boundaries	Buildings must be sited to provide adequate vehicle
of:		access and not cause an unreasonable impact on
(a) not less t	than 5m; or	existing use on adjoining properties, having regard to:
(b) if the set	back of an existing building is within	(a) the bulk and form of the building;
5m, not l	ess than the existing building.	(b) the nature of existing use on the adjoining
		properties;
		(c) separation from existing use on the adjoining
		properties; and
		(d) any buffers created by natural or other features.

A2	A2		
Build	Buildings for a sensitive use must have a setback		dings for a sensitive use must be sited so as not
from	all boundaries of:	to co	onflict or interfere with an agricultural use, having
(a)	not less than 200m; or	rega	rd to:
(b)	if the setback of an existing building for a	(a)	the size, shape and topography of the site;
	sensitive use on the site is within 200m of that	(b)	the prevailing setbacks of any existing buildings
	boundary, not less than the existing building.		for sensitive uses on adjoining properties;
			the location of existing buildings on the site;
		(d)	the existing and potential use of adjoining
			properties;
		(e)	any proposed attenuation measures; and
		(f)	any buffers created by natural or other features.

21.4.3 Access for new dwellings

Objective:	That new dwellings have appropriate vehicular access to a road maintained by a road authority.	
Acceptable S	olutions	Performance Criteria
A1		P1
Ŭ	s must be located on lots that have access to a road maintained by a road	 New dwellings must have legal access, by right of carriageway, to a road maintained by a road authority, that is appropriate having regard to: (a) the number of users of the access; (b) the length of the access; (c) the suitability of the access for use by the occupants of the dwelling; (d) the suitability of the access for emergency services vehicles; (e) the topography of the site; (f) the construction and maintenance of the access; (g) the construction, maintenance and usage of the road; and (h) any advice from the road authority.

21.5 Development Standards for Subdivision

Objective:	To provide for subdivision that:

	established properties in the area.

22.0 Landscape Conservation Zone

22.1 Zone Purpose

The purpose of the Landscape Conservation Zone is:

- 22.1.1 To provide for the protection, conservation and management of landscape values.
- 22.1.2 To provide for compatible use or development that does not adversely impact on the protection, conservation and management of the landscape values.

22.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Permitted	
Residential	 If for a: (a) home-based business; or (b) single dwelling located within a building area, if shown on a sealed plan.
Utilities	If for minor utilities.
Discretionary	
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.
Domestic Animal Breeding, Boarding or Training	
Emergency Services	
Food Services	If for a gross floor area of not more than 200m ² .
General Retail and Hire	If associated with a Tourist Operation.
Residential	If for a single dwelling.
Resource Development	If not for intensive animal husbandry or plantation forestry.

Use Class	Qualification
Sports and Recreation	If for an outdoor recreation facility.
Tourist Operation	
Utilities	If not listed as Permitted.
Visitor Accommodation	
Prohibited	
All other uses	

22.3.1 Community Meeting and Entertainment, Food Services, and General Retail and Hire uses.

Objective:	That Community Meeting and Entertainment, Food Services, and General Retail and Hire uses operate at a scale and in a manner that does not cause an unreasonable impact on landscape values.	
Acceptable Sol	utions	Performance Criteria
A1		P1
Entertainment, F	on for Community Meeting and Food Services, and General Retail e within the hours of 8.00am to	 Hours of operation for Community Meeting and Entertainment, Food Services, and General Retail and Hire must not cause an unreasonable impact on the landscape values having regard to: (a) the duration or extent of vehicle movements; and (b) noise, lighting or other emissions.

22.3.2 Visitor Accommodation

Object	tive:	 That Visitor Accommodation is of a scale that is: (a) compatible with the landscape values of the site and surrounding area; and (b) does not impact the safety and efficiency of local roads or private rights of way. 		
Acceptable Solutions		Performance Criteria		
A1			P1	
Visitor	r Accomr	nodation:	Visit	or Accommodation must:
. , .	guests a buildings	re accommodated in existing ; and	(a)	be of a scale that respects the character of use in the area;
(b) I	has a gro	oss floor area of no more than 300m ² .	(b)	not cause an unreasonable impact on the landscape values of the site; and
			(c)	not adversely impact the safety and efficiency of the local road network or unreasonably disadvantage owners and users of rights of carriageway.

22.3.3 Discretionary use

Objective:	That the location, scale and extent of a use listed as Discretionary is compatible with landscape values.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	Use listed as Discretionary must be compatible with landscape values, having regard to:
		(a) the nature, scale and extent of the use;
		(b) the characteristics and type of the use;
		(c) the landscape values of the site;
		 (d) the landscape value of the surrounding area; and
		(e) measures to minimise or mitigate impacts.

22.4 Development Standards for Buildings and Works

22.4.1 Site coverage

Objective:	That the site coverage is compatible with the protection, conservation and management of the landscape values of the site and surrounding area.	
Acceptable	Solutions	Performance Criteria
A1		P1
		 values of the site and surrounding area, having regard to: (a) the topography of the site; (b) the capacity of the site to absorb run-off; (c) the size and shape of the site; (d) the existing buildings and any constraints imposed by existing development;
		 (e) the need to remove vegetation; (f) the location of development in relation to cleared areas; and (g) the location of development in relation to natural hazards.

22.4.2 Building height, siting and exterior finishes

Acceptable S	Solutions Performance Criteria	
	(c) minimises the impact on adjoining agricultural uses.	
	(b) minimises the impact on the landscape values of the area; and	
	(a) protects the amenity of adjoining properties;	
Objective:	That building height, siting and exterior finishes:	

Acceptable Solutions	Performance Criteria
A1	P1
Building height must be not more than 6m.	Building height must be compatible with the
	landscape values of the site, having regard to:
	(a) the height, bulk and form of proposed buildings;
	(b) the height, bulk and form of existing buildings;
	(c) the topography of the site;
	(d) the visual impact of the buildings when viewed
	from roads and public places; and
	(e) the landscape values of the surrounding area.

		(f) any screening vegetation.
		P2.2
		If the building and works are less than 10m in
		elevation below a skyline or ridgeline, there are no
		other suitable building areas.

22.5 Development Standards for Subdivision

Objective:	Dbjective: That each lot: (a) has an area and dimensions appropriate for use and development in the zone; (b) contain areas which are suitable for development, located to protect and conserve landscape values; and (c) is provided with appropriate access to a road.		
Acceptable S	olutions	Performance Criteria	
 Acceptable Solutions A1 Each lot, or a proposed lot in a plan of subdivision, must: (a) have an area of not less than 50ha and: (i) be able to contain a minimum area of 25m x 25m, where native vegetation cover has been removed, with a gradient not steeper than 1 in 5, clear of: a. all setbacks required by clause 22.4.2 A2, A3 and A4; and b. easements or other title restrictions that limit or restrict development; and (ii) existing buildings are consistent with the setback required by clause 22.4.2 A2, A3 and A4; (b) be required for public use by the Crown, a council or a State authority; (c) be required for the provision of Utilities; or (d) be for the consolidation of a lot with another lot provided each lot is within the same zone. 		 P1 Each lot, or a proposed lot in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) the relevant Acceptable Solutions for development of buildings on the lots; (b) existing buildings and the location of intended buildings on the lot; (c) the ability to retain vegetation and protect landscape values on each lot; (d) the topography of the site; and (e) the pattern of development existing on established properties in the area, and must have an area not less than 20ha. 	
A2 Each lot, or a proposed lot in a plan of subdivision, excluding those for public open space, a riparian or littoral reserve or Utilities must have a frontage of not less than 40m.		 P2 Each lot, or a proposed lot in a plan of subdivision, must be provided with a frontage, or legal connection to a road by a right of carriageway that is sufficient for the intended use, having regard to: (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; (b) the topography of the site; (c) the functionality and useability of the frontage; 	

	 (d) the anticipated nature of vehicles likely to access the site; (e) the ability to manoeuvre vehicles on the site; (f) the ability for emergency services to access the site; and (g) the pattern of development existing on established properties in the area, and is not less than 3.6m wide.
A3 Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	 P3 Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot, if any, having regard to: (a) the topography of the site; (b) the length of the access; (c) the distance between the lot or building area and the carriageway; (d) the nature of the road and the traffic; and (e) the anticipated nature of vehicles likely to access the site.
A4 No Acceptable Solution.	P4 Each lot, or a lot proposed in a plan of subdivision, must be capable of accommodating an on-site wastewater management system adequate for the intended use and development of the land, which minimises any environmental impacts.

23.0 Environmental Management Zone

23.1 Zone Purpose

The purpose of the Environmental Management Zone is:

- 23.1.1 To provide for the protection, conservation and management of land with significant ecological, scientific, cultural or scenic value.
- 23.1.2 To allow for compatible use or development where it is consistent with:
 - (a) the protection, conservation and management of the values of the land; and
 - (b) applicable reserved land management objectives and objectives of reserve management plans.

23.2 Use Table

Use Class	Qualification		
No Permit Required			
Natural and Cultural Values Management			
Passive Recreation			
Permitted			
Community Meeting and Entertainment	If an authority under the <i>National Parks and Reserve Management</i> <i>Regulations 2019</i> is granted by the Managing Authority, or approved by the Director-General of Lands under the <i>Crown Lands Act 1976</i> .		
Educational and Occasional Care	If an authority under the <i>National Parks and Reserve Management</i> <i>Regulations 2019</i> is granted by the Managing Authority, or approved by the Director-General of Lands under the <i>Crown Lands Act 1976</i> .		
Emergency Services	If an authority under the <i>National Parks and Reserve Management</i> <i>Regulations 2019</i> is granted by the Managing Authority, or approved by the Director-General of Lands under the <i>Crown Lands Act 1976</i> .		
Food Services	If an authority under the <i>National Parks and Reserve Management</i> <i>Regulations 2019</i> is granted by the Managing Authority, or approved by the Director-General of Lands under the <i>Crown Lands Act 1976</i> .		
General Retail and Hire	If an authority under the <i>National Parks and Reserve Management</i> <i>Regulations 2019</i> is granted by the Managing Authority, or approved by the Director-General of Lands under the <i>Crown Lands Act 1976</i> .

23.3.1 Discretionary Uses

Objective:	That uses listed as Discretionary recognise and reflect the relevant values of the reserved land.		
Acceptable Sol	utions	Performance Criteria	
A1		P1	
No Acceptable S	Solution.	A use listed as Discretionary must be consistent with	
		the values of the land, having regard to:	
		(a) the significance of the ecological, scientific,	
		cultural or scenic values;	
		(b) the protection, conservation, and management	
		of the values;	
		(c) the specific requirements of the use to operate;	
		(d) the location, intensity and scale of the use;	
		(e) the characteristics and type of the use;	
		(f) traffic and parking generation;	
		(g) any emissions and waste produced by the use;	
		(h) the measures to minimise or mitigate impacts;	
		(i) the storage and handling of goods, materials	
		and waste; and	
		(j) the proximity of any sensitive uses.	

23.4 Development Standards for Buildings and Works

23.4.1 Development area

Obje	ective:	 That the development area is: (a) compatible with the values of the site and surrounding area; and (b) minimises disturbance of the site. 		
Acc	Acceptable Solutions		ormance Criteria	
A1		P1		
The	developm	ent area must: The	development area must not cause an	
(a)	be not mo	ore than 500m ² ; unre	unreasonable impact on the values of the site and	
(b)	be in acc	cordance with an authority under the surro	ounding area, having regard to:	
	National	Parks and Reserve Management (a)	the design, siting, scale and type of development;	
	Regulatio	ons 2019 granted by the Managing (b)	the operation of the use;	
	Authority	or the Nature Conservation Act 2002; (c)	the impact of the development on the values of	
	or		the site and surrounding area;	
(c)	be in acc	cordance with an approval of the (d)	the need for the development to be located on	
	Director-0	General of Lands under the Crown	the site;	
	Lands Ac	ct 1976. (e)	how any significant values are managed; and	
		(f)	any protection, conservation, remediation or	
			mitigation works.	

23.4.2 Building height, setback and siting

Obje	ective:	That the design and siting of buildings responds appropriately to the values of the site and surrounding area.		
Acceptable Solutions		olutions	Performance Criteria	
A1			P1	
Build	ding height	t must:	Building height must be compatible with the values of	
(a) be not more than 6m;		ore than 6m;	the site and surrounding area, having regard to:	
(b)	be in acc	ordance with an authority under the	(a) the bulk and form of proposed buildings;	
	National	Parks and Reserve Management	(b) the height, bulk and form of existing buildings;	
	Regulatio	ons 2019 granted by the Managing	(c) the topography of the site;	
	Authority	or Nature Conservation Act 2002; or	(d) the appearance when viewed from roads and	
(c)	be in accordance with an approval of the		public places; and	
	Director-0 Lands Ad	General of Lands under the <i>Crown</i> at 1976.	(e) the character of the surrounding area.	

A2		P2			
Buil	Buildings must have a setback from all boundaries:		Buildings must be sited to be compatible with the		
(a)	(a) not less than 10m;		es of the site and surrounding area, having regard

	Lands Ad	<i>t</i> 1970.	(g)	the character of the surrounding area.

23.4.4 Vegetation management

Objective:	That the site contributes to the values of the surrounding area by restricting vegetation removal.		
Acceptable S	olutions	Performance Criteria	
cover ha (b) be in acc National Regulati	vorks must: ed on land where the native vegetation as been lawfully removed; or cordance with an authority under <i>Parks and Reserve Management</i> <i>fons 2019</i> granted by the Managing <i>y</i> or the <i>Nature Conservation Act</i>	 P1 Building and works must be located to minimise native vegetation removal and the impact on values of the site and surrounding area, having regard to: (a) the extent of native vegetation to be removed; (b) any proposed remedial, mitigation or revegetation measures; (c) provision for native habitat for native fauna; (d) the management and treatment of the balance of the site or native vegetation areas; and (e) the type, size and design of development. 	

23.5 Development Standards for Subdivision

23.5.1 Lot design

Objective:	That each lot:		
	(a) has an area and dimensions appropriate for use and development in the zone; and(b) is provided with appropriate access to a road.		

Acceptable Solutions		Performance Criteria		
A1	A1		P1	
Each	lot, or a lot proposed in a plan of subdivision,	Each lot, or a lot proposed in a plan of subdivision,		
must	be:	must have sufficient useable area and dimensions		
(a)	(a) required for public use by the Crown, a		able for its intended use, having regard to:	
	council, or a State authority;	(a)	the relevant Acceptable Solutions for	
(b)	required for the provision of Utilities;		development of buildings on the lots;	
(c)	for the consolidation of a lot with another lot,	(b)	existing buildings and the location of intended	
	provided each lot is within the same zone;		buildings on the lot;	
(d)	in accordance with an authority under the	(c)	the ability to retain vegetation and protect the	
	National Parks and Reserve Management		values of the land on each lot;	
	Regulations 2019 granted by the Managing	(d)	the topography of the site;	
	Authority or Nature Conservation Act 2002; or	(e)	the presence of any natural hazards;	
(e)	in accordance with an approval of the Director-	(f)	the need for the subdivision; and	

General of Lands under the <i>Crown Lands Act</i> 1976.	(g) any advice of the managing authority.
A2 No Acceptable Solution.	 P2 Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended purpose, having regard to: (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; (b) the anticipated nature of vehicles likely to access the site; (c) the topography of the site; (d) the pattern of development in the area; and (e) the ability for emergency services to access the site, and must have a frontage of not less than 3.6 m.
A3 Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	 P3 Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot, or building area on the lot, if any, having regard to: (a) the topography of the site; (b) the length of the access; (c) the distance between the lot or building area and the carriageway; (d) the nature of the road and the traffic; (e) any vegetation removal; and (f) the protection of values on the site.

23.5.2 Services

Objective:	That each lot provides for appropriate wastewater disposal.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		Each lot, or a lot proposed in a plan of subdivision,
		must be capable of accommodating an on-site
		wastewater management system adequate for the
		intended use and development of the land, which
		minimises any environmental impacts.

24.0 Major Tourism Zone

24.1 Zone Purpose

The purpose of the Major Tourism Zone is:

- 24.1.1 To provide for large scale tourist facilities which include a range of use and development.
- 24.1.2 To provide for compatible use and development that complements or enhances the tourist facilities on the site.
- 24.1.3 To provide for development that does not unreasonably impact on surrounding areas.
- 24.1.4 To ensure that any commercial uses support the tourist purpose of the site and do not compromise or distort the role of existing activity centres.

24.2 Use Table

P3 Commercial vehicle movements and the unloading and loading of commercial vehicles for a use, excluding Emergency Services, Residential or Visitor Accommodation, on a site within 50m of a General Residential Zone, Inner Residential Zone, Low Density Residential Zone or Rural Living Zone, must not cause an unreasonable loss of amenity to the residential zones, having regard to: (a) the time and duration of commercial vehicle movements; (b) the number and frequency of commercial vehicle movements; (c) the size of commercial vehicles involved; (d) manoeuvring required by the commercial vehicles, including the amount of reversing and associated warning noise; (e) any noise mitigation measures between the vehicle movement areas and the residential area; and (f) potential conflicts with other traffic.

Objective:	That uses listed as Discretionary complement the tourism use of the site and do not compromise or distort the role of existing activity centres.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		A use listed as Discretionary must:
		(a) complement or support the tourism related uses on the site;
		 (b) not compromise the operational efficiency of any Permitted use operating within the zone;
		(c) not be the dominant use on the site;
		(d) excluding for Emergency Services, Residential
		or Utilities, cater primarily for demand from
		customers or visitors from outside the local
		area; and
		(e) not compromise the role of existing activity
		centres, having regard to:
		(i) the size and scale of the proposed use;
		(ii) the functions of the surrounding activity
		centres; and
		(iii) the extent that the proposed use impacts
		on surrounding activity centres.

24.3.2 Discretionary uses

24.4 Development Standards for Buildings and Works

24.4.1 Building height

Objective:	To provide for a building height that d properties and the visual character of	loes not cause an unreasonable impact on adjoining f the area.		
Acceptable Solutions		Performance Criteria		
A1 Building heig	ht must be not more than 10m.	 P1 Building height must: (a) not cause an unreasonable loss of amenity from overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings on adjoining properties, having regard to: (i) the height, bulk and form of the building; (ii) separation from existing buildings on adjoining properties; and (iii) any buffers created by natural or other features; and (b) minimise the impact on the visual character of the area, having regard to: (i) the topography of the site; (ii) any existing vegetation; and (iii) visibility from adjoining roads and public open spaces. 		
Density I must be (b) within 10	ht: Om of a General Residential Zone, Low Residential Zone or Rural Living Zone not more than 8.5m; or Om of an Inner Residential Zone must be than 9.5m.	 P2 Building height, within 10m of a General Residential Zone, Inner Residential Zone, Low Density Residential or Rural Living Zone, must be consistent with buildings existing on established properties in the adjoining zone and not cause an unreasonable loss of residential amenity, having regard to: (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings; (b) overlooking and reduction of privacy to adjoining properties; and (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property. 		

24.4.2 Setbacks

Objective: That the building setback: (a) is compatible with the character of the surrounding area; (b) does not cause an unreasonable loss of amenity to adjoining residential areas; and (c) minimises potential conflicts with adjoining properties.					
Acceptable Solutions		Performance Criteria			
(a) not less(b) not less(c) not more	t have a setback from a frontage of: than 10m; than existing buildings on the site; or e or less than the maximum and n setbacks of the buildings on g lots.	 P1 Buildings must have a setback from a frontage that is compatible with the character of the surrounding area, having regard to: (a) the setbacks of buildings existing on established adjacent properties; and (b) provision of adequate vehicle access, parking and landscaping. 			
property within Residential Zo Rural Living Zo (a) 5m; or	t have a setback from an adjoining a a General Residential Zone, Inner ine, Low Density Residential Zone or one of not less than: wall height of the building, ne greater.	 P2 Buildings must be sited to not cause an unreasonable loss of residential amenity to adjoining properties within a General Residential Zone, Inner Residential Zone, Low Density Residential or Rural Living Zone, having regard to: (a) the topography of the site; (b) the size, shape and orientation of the site; (c) the setback of existing buildings on the site and adjoining properties; (d) the bulk and form of proposed buildings; (e) overlooking and reduction of privacy of dwellings on adjoining properties; (f) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings on adjoining properties; and (g) any existing screening or the ability to implement screening.

	(d) any existing buildings on the site;		
	(e) any area of the site covered by impervious		
	surfaces; and		
	(f) any watercourse on the land.		

25.0 Port and Marine Zone

25.1 Zone Purpose

The purpose of the Port and Marine Zone is:

- 25.1.1 To provide for major port and marine activity related to shipping and other associated transport facilities and supply and storage.
- 25.1.2 To provide for use or development that supports and does not adversely impact on port and marine activities.

25.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Port and Shipping	
Utilities	If for minor utilities.
Permitted	
Bulky Goods Sales	If for boat sales, shipping supplies or other maritime purposes.
Business and Professional Services	If for marine, port, shipping and transport purposes.
Educational and Occasional Care	If for training in marine, port, shipping and transport purposes.
Emergency Services	
Equipment and Machinery Sales and Hire	If for marine, port, shipping and transport equipment.
General Retail and Hire	If for chandlers and other shipping and transport related goods.
Manufacturing and Processing	If associated with maritime purposes.
Passive Recreation	
Pleasure Boat Facility	
Research and Development	If associated with Port and Shipping or marine and transport purposes.

Use Class	Qualification			
Service Industry	If for marine, port, shipping and transport purposes.			
Storage	If for marine, port, shipping and transport purposes.			
Transport Depot and Distribution				
Utilities	If not listed as No Permit Required.			
Vehicle Fuel Sales and Service				
Discretionary				
Food Services				
Resource Processing	If for: (a) marine, port, shipping and transport purposes; or (b) aquaculture or fish processing.			
Sports and Recreation	If for marine or aquatic based activities.			
Storage	If not listed as Permitted.			
Tourist Operation				
Vehicle Parking				
Visitor Accommodation				
Prohibited				
All other uses				

25.3 Use Standards

25.3.1 There are no Use Standards in this zone.

25.4 Development Standards for Buildings and Works

25.4.1 Building height

Objective:	To provide for a building height that: (a) is necessary for the operation of the use; and (b) does not cause unreasonable loss of amenity on adjoining properties.				
Acceptable Solutions		Performance Criteria			
A1		P1			
Building height, excluding for Port and Shipping, and		Building height, excluding for Port and Shipping, and			
structures such as towers, poles, gantries, cranes or		structures such as towers, poles, gantries, cranes or			
similar, must be not more than 20m.		similar, must:			
			(a) be necessary for the operation of the use; and		
			(b) not cause unreasonable loss of amenity to		
			adjoir	ning properties, having regard to:	
			(i)	the bulk and form of the building;	
			(ii)	separation from existing use on adjoining	
				sites; and	
			(iii)	any buffers created by natural or other	
				features.	

25.5 Development Standards for Subdivision

25.5.1 Lot design

Obje	ective:	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 				
Acc	eptable S	olutions	Perf	formance Criteria		
A1			P1			
Each lot, or a lot proposed in a plan of subdivision, must: (a) be required for Port and Shipping;		Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:				
(b)	have an able to c clear of a	area of not less than 1000m ² and be ontain a minimum area of 15m x 20m all of easements or other title ns that limit or restrict development;	(a) (b) (c)	the existing buildings and the location of intended buildings on the lot; the topography of the site; the presence of any natural hazards; and		
(c)	council c	red for public use by the Crown, a or a State authority;	(d)	the pattern of development existing on established properties in the area.		
(d) (e)	be for the	red for the provision of Utilities; or e consolidation of a lot with another ded each lot is within the same zone.				

A2	P2		
Each lot, or a lot proposed in a plan of subdivision,	Each lot, or a lot proposed in a plan of subdivision,		
must have a frontage of not less than 6m.	must be provided with a frontage or legal connection		
	to a road by a right of carriageway suitable for its		
	intended use, having regard to:		
	(a) the number of other lots which have the land		
	subject to the right of carriageway as their sole		
	or principal means of access;		
	(b) the topography of the site;		
	(c) the functionality and useability of the frontage;		
	(d) the anticipated nature of vehicles likely to		
	access the site;		
	(e) the ability to manoeuvre vehicles on the site;		
	(f) the ability for emergency services to access the		
	site; and		
	(g) the pattern of development existing on		
	established properties in the area.		
A3	P3		
Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the	Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to:		
requirements of the road authority.	(a) the topography of the site;		
	(b) the length of the access;		
	(c) the distance between the lot or building area and the carriageway;		
	(d) the nature of the road and the traffic; and		
	(e) the anticipated nature of vehicles likely to access the site.		

25.5.2 Services

Objec	Objective: That the subdivision of land provides services for the future use and development of the land.		
Acceptable Solutions		olutions	Performance Criteria
A1			P1
Each lot, or a lot proposed in a plan of subdivision,		ot proposed in a plan of subdivision,	No Performance Criterion.
excluding for public open space, a riparian or littoral		public open space, a riparian or littoral	
reser	reserve or Utilities, must:		
 (a) be connected to a full water supply service if the frontage of the lot is within 30m of a full 		cted to a full water supply service if	
		ge of the lot is within 30m of a full	
	water sup	oply service; or	
(b)	be conne	cted to a limited water supply service	

if the frontage of the lot is within 30m of a			
connection to a limited water supply service,			
unless a regulated entity advises that the lot is			
unable to be connected to the relevant water supply			
service.

	vehicles, including the amount of reversing and	
	associated warning noise;	
	(e) any noise mitigation measures between the	
	vehicle movement areas and sensitive use; and	
	(f) potential conflicts with other traffic.	

Objective:	That uses listed as Discretionary do not compromise the use of land for Utilities.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable S	Solution.	 A use listed as Discretionary must not compromise or restrict the operations of an existing or proposed utility, having regard to: (a) the compatibility of the utility and the proposed use; (b) the location of the proposed use in relation to the utility, or any proposed utility; (c) existing land uses on the site; and (d) any proposed or existing buffers or mitigation measures. 	

26.3.2 Discretionary uses

26.4 Development Standards for Buildings and Works

26.4.1 Building height

Objective:	To provide for a building height that:		
	(a) is necessary for the operation of the use; and		
	(b) minimises adverse impacts on adjoining properties and the visual character of the area.		
	·		

Acceptable Solutions		Performance Criteria		
A1		P1		
Building height must be not more than:		Build	ling height must:	
(a) 10m; or		(a)	be necessary for the operation of the use and	
(b)	15m if for a structure, such as a tower, pole or		not cause unreasonable impact on adjoining	
	similar.		properties, having regard to:	
			(i) the bulk and form of the building;	
			(ii) separation from existing buildings on	
			adjoining properties; and	
			(iii) any buffers created by natural or other	
			features; and	
		(b)	not unreasonably impact on the visual character	
			of the area, having regard to:	
			(i) the topography of the site;	
			(ii) any existing vegetation; and	
			(iii) visibility from adjoining roads and public	
			open space.	
A2		P2		
Building height, excluding a structure such as a		Building height, within 10m of an adjoining property in		
tow	er, pole or similar:	a General Residential Zone, Inner Residential Zone,		
(a)	within 10m of an adjoining property in a General	Low Density Residential Zone or Rural Living Zone,

excluding tho	se for public open space, a riparian or	excluding those for public open space, a riparian or	
littoral reserve	e or Utilities, must be capable of	littoral reserve or Utilities, must be capable of	
connecting to	a public stormwater system.	providing an on-site stormwater management system	
		adequate for the future use and development of the	
		land, having regard to:	
		(a) the size of the lot;	
		(b) topography of the site;	
		(c) soil conditions;	
		(d) any existing buildings on the site;	
		(e) any area of the site covered by impervious	
		surfaces; and	
		(f) any watercourse on the land.	

27.0 Community Purpose Zone

27.1 Zone Purpose

The purpose of the Community Purpose Zone is:

- 27.1.1 To provide for key community facilities and services including health, educational, government, cultural and social facilities.
- 27.1.2 To encourage multi-purpose, flexible and adaptable social infrastructure.

27.2 Use Table

Use Class	Qualification		
No Permit Required			
Natural and Cultural Values Management			
Passive Recreation			
Utilities	If for minor utilities.		
Permitted			
Business and Professional Services	If for: (a) medical centre; (b) a community-based organisation; (c) government offices; or (d) funeral parlour.		
Community Meeting and Entertainment			
Crematoria and Cemeteries	If for a cemetery.		
Educational and Occasional Care			
Emergency Services			
Hospital Services			
Residential	 If for: (a) a residential care facility, respite centre, retirement village or assisted housing; or (b) accommodation for staff or students of a use on the site. 		

Use Class	Qualification
Tourist Operation	If for a visitor centre.
Discretionary	
Business and Professional Services	If not listed as Permitted.
Custodial Facility	If for alterations or extensions to an existing Custodial Facility.
Food Services	
General Retail and Hire	If for a market.
Recycling and Waste Depot	If for alterations or extension to an existing Recycling and Waste Depot.
Sports and Recreation	
Tourist Operation	If not listed as Permitted.
Utilities	If not listed as No Permit Required.
Vehicle Parking	
Prohibited	
All other uses

	and the carriageway;		
	(d) the nature of the road and the traffic; and		
	(e) the pattern of development existing on		
	established properties in the area.		

27.5.2 Services

Objective:	That the subdivision of land provides	services for the future use and development of the land.	
Acceptable Solutions		Performance Criteria	
 A1 Each lot, or a lot proposed in a plan of subdivision, excluding for public open space, a riparian or littoral reserve or Utilities, must: (a) be connected to a full water supply service if the frontage of the lot is within 30m of a full water supply service: or (b) be connected to a limited water supply service if the frontage of the lot is within 30m of a limited water supply service, unless a regulated entity advises that the lot is unable to be connected to the relevant water supply service. 		P1 No Performance Criterion.	
excluding thos littoral reserve	lot proposed in a plan of subdivision, se for public open space, a riparian or e or Utilities, must have a connection to sewerage system.	P2 Each lot, or lot proposed in a plan of subdivision, excluding those for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site wastewater treatment system adequate for the future use and development of the land.	
A3 Each lot, or a lot proposed in a plan of subdivision, excluding those for public open space, a riparian or littoral reserve or Utilities, must be capable of connecting to a public stormwater system.		 P3 Each lot, or a lot proposed in a plan of subdivision, excluding those for public open space, a riparian or littoral reserve or Utilities, must be capable of accommodating an on-site stormwater management system adequate for the future use and development of the land, having regard to: (a) the size of the lot; (b) topography of the site; (c) soil conditions; (d) any existing buildings on the site; (e) any area of the site covered by impervious surfaces; and (f) any watercourse on the land. 	

28.0 Recreation Zone

28.1 Zone Purpose

The purpose of the Recreation Zone is:

- 28.1.1 To provide for active and organised recreational use and development ranging from small community facilities to major sporting facilities.
- 28.1.2 To provide for complementary uses that do not impact adversely on the recreational use of the land.
- 28.1.3 To ensure that new major sporting facilities do not cause unreasonable impacts on adjacent sensitive uses.

28.2 Use Table

Use Class	Qualification			
No Permit Required				
Natural and Cultural Values Management				
Passive Recreation				
Sports and Recreation	If not for a major sporting facility.			
Utilities	If for minor utilities.			
Permitted				
Sports and Recreation	Except if No Permit Required.			
Discretionary				
Community Meeting and Entertainment				
Crematoria and Cemeteries	If for alterations or extensions to an existing crematorium or cemetery.			
Domestic Animal Breeding, Boarding or Training	If for animal training.			
Educational and Occasional Care				
Emergency Services				
Food Services				

Use Class	Qualification
General Retail and Hire	If for: (a) clothing, equipment or souvenirs for a Sports and Recreation use; or (b) a market.
Motor Racing Facility	
Pleasure Boat Facility	
Tourist Operation	
Utilities	If not listed as No Permit Required.
Vehicle Parking	
Visitor Accommodation	If for a camping and caravan park or overnight camping area.
Prohibited	
All other uses	

28.3 Use Standards

28.3.1	Sports and Recreation and Discretionary uses
--------	--

Obj∉	Objective: That uses do not cause an unreasonable loss of amenity to residential zones.

hours of:	unreasonable loss of amenity to the residential zone,		
(a) 7.00 am to 6.00 pm Monday to Friday; and	having regard to:		
 (b) 8.00 am to 5.00 pm Saturday, Sunday or public holidays. 	 the time and duration of commercial vehicle movements; 		
	 (b) the number and frequency of commercial vehicle movements; 		
	(c) the size of commercial vehicles involved;		
	(d) manoeuvring by the commercial vehicles,		
	including the amount of reversing (including		
	associated warning noise);		
	(e) any noise mitigation measures between the		
	vehicle movement areas and the residential		
	zone; and		
	(f) the existing levels of amenity.		

Objective:	That major sporting facilities do not cause an unreasonable loss of amenity to residential zones.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Extensions to an existing major sporting facility within 100m of a General Residential Zone, Inner Residential Zone or Low Density Residential Zone, must not increase spectator capacity.		Resio Dens	jor sporting facility within 100m of a General dential Zone, Inner Residential Zone or Low ity Residential Zone, must not cause an asonable loss of residential amenity having rd to:
		(a)	the surrounding uses, their character and amenity;
		(b)	impacts associated with existing facilities;
		(c)	frequency and scale of events;
		(d)	traffic, parking and the availability of public transport;
		(e)	likely noise generation;
		(f)	the arrival and departure of crowds; and
		(g)	any proposed mitigation measures.

28.3.2 Sports and Recreation - major sporting facilities

28.4 Development Standards for Buildings and Works

28.4.1 Building height, setback and siting

Objective:	That building height, bulk, form and siting:	
	(a) does not cause unreasonable loss of amenity to adjacent properties; and	
	minimises opportunities for crime and anti-social behaviour through setback of	
	buildings.	

Acceptable Solutions	Performance Criteria		
A1	P1		
Building height must be not more than 10m.	 Building height must not cause unreasonable loss of amenity to adjacent properties, having regard to: (a) the topography of the site; (b) the height, bulk and form of existing buildings on the site and adjacent properties; (c) the bulk and form of proposed buildings; (d) the requirements of the proposed use; (e) sunlight to private open space and windows of habitable rooms of dwellings on adjoining properties; (f) the privacy of the private open space and windows of habitable rooms of dwellings on adjoining properties; (g) any overshadowing of adjacent public places; and (h) if an existing major sporting facility, the impact of the proposed height on existing development in the surrounding area. 		
A2	P2		
 Buildings must have a setback from a frontage of: (a) not less than 5m; or (b) not more or less than the maximum and minimum setbacks of the buildings on adjoining properties, whichever is the lesser. 	 Buildings must have a setback from a frontage that is compatible with the streetscape and minimises opportunities for crime and anti-social behavior, having regard to: (a) providing for small variations in building alignment to break up long building façades; (b) providing for variations in building alignment to provide for a forecourt or space for public use, such as outdoor dining or landscaping; (c) the avoidance of concealment spaces; (d) the ability to achieve passive surveillance; and (e) the availability of lighting. 		

A3	P3	
Buildings must have a setback from side and rear	Buildings must be sited to not cause an unreasonable	
boundaries adjoining a General Residential Zone,	loss of amenity to adjoining properties in a General	
Inner Residential Zone or Low Density Residential	Residential Zone, Inner Residential Zone or Low	
Zone not less than:	Density Residential Zone, having regard to:

	cause an unreasonable loss of amenity to sensitive	
	uses, having regard to:	
	(a) the characteristics and frequency of any	
	emissions generated;	
	(b) the nature of the proposed use;	
	(c) the topography of the site; and	
	(d) any mitigation measures proposed.	

28.4.2 Outdoor storage areas

Objective:	That outdoor storage areas do not detract from the appearance of the site or surrounding area.	
Acceptable Solutions		Performance Criteria
A1		P1
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		Outdoor storage areas, excluding for the display of goods for sale, must be located, treated or screened to not cause an unreasonable loss of visual amenity.

¹ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6.

28.5 Development Standards for Subdivision

Objective:	 ve: That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 		
Acceptable Solutions		Performance Criteria	
 A1 Each lot, or lot proposed in a plan of subdivision, must: (a) be required for public use by the Crown, a council or a State authority; (b) be required for the provision of Utilities; or (c) be for the consolidation of a lot with another lot, provided each lot is within the same zone. 		 P1 Each lot, or lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) the relevant requirements for development of buildings on the lots; (b) existing buildings and the location of intended buildings on the lot; (c) the topography of the site; (d) the presence of any natural hazards; and (e) the pattern of development existing on established properties in the area. 	
excluding thos	t proposed in a plan of subdivision, se for public open space, a riparian or or Utilities, must have a frontage not n.	 P2 Each lot, or lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, having regard to: (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; (b) the topography of the site; (c) the functionality and useability of the frontage; (d) the anticipated nature of vehicles likely to access the site; (e) the ability to manoeuvre vehicles on the site; (f) the ability for emergency services to access the site; and (g) the pattern of development existing on established properties in the area. 	

A3	P3

	(d) any existing buildings on the site;
	(e) any area of the site covered by impervious
	surfaces; and
	(f) any watercourse on the land.

29.0 Open Space Zone

29.1 Zone Purpose

The purpose of the Open Space Zone is:

- 29.1.1 To provide land for open space purposes including for passive recreation and natural or landscape amenity.
- 29.1.2 To provide for use and development that supports the use of the land for open space purposes or for other compatible uses.

29.2 Use Table

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Utilities	If for minor utilities and underground utilities.	
Permitted		
No Permitted uses.		
Discretionary		
Community Meeting and Entertainment		
Crematoria and Cemeteries	If for a cemetery.	
Emergency Services		
Food Services		
General Retail and Hire		
Pleasure Boat Facility		
Resource Development	 If for: (a) marine farming shore facility or other facility that relies upon a coastal location to fulfil its purpose; or (b) grazing. 	

Use Class	Qualification
Sports and Recreation	
Tourist Operation	
Transport Depot and Distribution	If associated with wharves, water taxis, or commuter or passenger ferry terminals.
Utilities	If not listed as No Permit Required.
Vehicle Parking	
Visitor Accommodation	If for camping and caravan park or overnight camping areas.
Prohibited	
All other uses	

29.3 Use Standards

29.3.1 Discretionary uses

Objective:	That a use listed as Discretionary, does not cause an unreasonable loss of amenity to adjacent sensitive uses.	
Acceptable S	olutions	Performance Criteria
A1		P1
Hours of operation for a use listed as Discretionary,		Hours of operation for a use listed as Discretionary,
excluding Emergency Services or Visitor		excluding Emergency Services or Visitor
Accommodation, must be within the hours of:		Accommodation, must not cause an unreasonable

	Recreation use;
	(b) the frequency of the Sports and Recreation
	event;
	(c) whether the event is of a special nature;
	(d) the duration of the event; and
	(e) any lighting required to set up and pack up for
	the event.

29.4 Development Standards for Buildings and Works

29.4.1 Building height, setback and siting

Objective:	That building bulk, height, form and siting:	
	(a) is compatible with the streetscape;	
	(b) does not cause unreasonable loss of amenity to adjacent properties;	
	(c) respects the natural and landscape values of the site; and	
	(d) minimises opportunities for crime and anti-social behaviour through setback of	
	buildings.	

Acceptable Solutions	Performance Criteria
A1	P1
Building height must be not more than 10m.	Building height must not cause an unreasonable loss
	of amenity to adjacent properties, having regard to:
	(a) the topography of the site;
	(b) the height, bulk and form of existing buildings
	on the site and adjacent properties;
	(c) the bulk and form of proposed buildings;
	(d) the requirements of the proposed use;
	(e) sunlight to private open space and windows of
	habitable rooms of dwellings on adjoining
	properties;
	(f) the privacy of the private open space and
	windows of habitable rooms of dwellings on
	adjoining properties; and
	(g) any overshadowing of adjacent public places.

A2	P2
Buildings must have a setback from a frontage of:	Buildings must have a setback from a frontage that is
(a) not less than 5m; or	compatible with the streetscape and minimises
(b) not more or less than the maximum and	opportunities for crime and anti-social behaviour,

	(c) the topography of the site; and
	(d) any mitigation measures proposed.
	(··, -··, ·····

¹ An exemption applies for air conditioners and heat pumps in this zone – see Table 4.6.

29.4.2 Outdoor storage areas

Objective:	That outdoor storage areas do not detract from the appearance of the site or surrounding area.	
Acceptable Solutions		Performance Criteria
A1		P1
Outdoor storage areas, excluding for the display of		Outdoor storage areas, excluding for the display of
goods for sale, must not be visible from any road or		goods for sale, must be located, treated or screened
public open space adjoining the site.		to not cause an unreasonable loss of visual amenity.

29.5 Development Standards for Subdivision

29.5.1 Lot design

Obje	ctive:	 That each lot: (a) has an area and dimensions appropriate for use and development in the zone; and (b) is provided with appropriate access to a road. 	
Acce	eptable S	olutions	Performance Criteria
A1			P1
Each must (a) (b) (c)	t: be requir council o be requir be for the	proposed in a plan of subdivision, ed for public use by the Crown, a r a State authority; ed for the provision of Utilities; or e consolidation of a lot with another ded each lot is within the same zone.	 Each lot, or lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) the relevant requirements for development of buildings on the lots; (b) existing buildings and the location of intended buildings on the lot; (c) the topography of the site; (d) the presence of any natural hazards; and (e) the pattern of development existing on established properties in the area.

A2	P2
Each lot, or lot proposed in a plan of subdivision, excluding a riparian or littoral reserve or Utilities, must have a frontage not less than 15m.	 Each lot, or lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway suitable for its intended use, having regard to: (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access; (b) the topography of the site; (c) the functionality and useability of the frontage; (d) the anticipated nature of vehicles likely to access the site; (e) the ability to manoeuvre vehicles on the site; (f) the ability for emergency services to access the site; and (g) the pattern of development existing on established properties in the area.
A3 Each lot, or a lot proposed in a plan of subdivision, must be provided with a vehicular access from the boundary of the lot to a road in accordance with the requirements of the road authority.	 P3 Each lot, or a lot proposed in a plan of subdivision, must be provided with reasonable vehicular access to a boundary of a lot or building area on the lot, if any, having regard to: (a) the topography of the site; (b) the length of the access; (c) the distance between the lot or building area and the carriageway; (d) the nature of the road and the traffic; and (e) the pattern of development existing on established properties in the area.

30.0 Future Urban Zone

30.1 Zone Purpose

The purpose of the Future Urban Zone is:

- 30.1.1 To identify land intended for future urban use and development.
- 30.1.2 To ensure that development does not compromise the potential for future urban use and development of the land.
- 30.1.3 To support the planned rezoning of land for urban use and development in sequence with the planned expansion of infrastructure.

30.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Permitted	
Residential	If for a single dwelling or home-based business.
Resource Development	If for agricultural use, excluding controlled environment agriculture.
Utilities	If for minor utilities.
Discretionary	
Utilities	If not listed as Permitted.
Prohibited	
All other uses	

30.3 Use Standards

30.3.1 There are no use standards in this zone.

30.4 Development Standards for Buildings and Works

30.4.1 Buildings and works

Obje	ective:	That buildings and works do not prejudice the efficient future utilisation of land for urban development.			
Acceptable Solutions		Performance Criteria			
A1	A1			P1	
Buil	Buildings and works must:		Buildings and works must not preclude or hinder the		
(a)) be for an addition to an existing dwelling, a		effective and efficient future subdivision and		
	secondary residence or a home-based		development of the land to urban densities, having		
	business;		regard to:		
(b)	be for a single dwelling and on a lot not more		(a)	the topography of the site;	
	than 1000m ² in size; or		(b)	any existing access arrangements;	
(c)	be of a temporary nature able to be readily		(c)	location of any services; and	
	removed	prior to the development of the land	(d)	the purpose, location and extent of any	
	for urban purposes.			building and works.	

30.4.2 Building height, setback and siting

Objective:	That height, setback and siting of buildings:	
	(a) is compatible with the future urban development of the area;	
	(b) does not cause an unreasonable loss of amenity; and	
	(c) minimises potential conflict with agricultural uses in an adjoining Agriculture Zone.	

Acceptable Solutions	Performance Criteria
A1	P1
Building height must be not more than 8.5m.	Building height must be compatible with the future
	urban development of the area and not cause an
	unreasonable loss of amenity to adjoining properties
	having regard to:
	(a) the height of the proposed building;
	(b) the topography of the site;
	(c) the height, bulk and form of existing buildings on
	the site and adjoining properties;
	(d) the bulk and form of proposed buildings;
	(e) sunlight to habitable rooms and private open
	space in adjoining buildings; and
	(f) any overshadowing of adjoining properties or

			public places.
A2		P 2	
Buildings must have a setback from all boundaries		Build	dings must be sited to be compatible with the
of:		futur	e urban development of the area and not cause
(a)	not less than 5m; or	an u	nreasonable loss of amenity to adjoining
(b)	where the setback of an existing building is	prop	erties, having regard to:
	within 5m, not less than the setbacks of the	(a)	the height of the proposed building;
	existing building.	(b)	the topography of the site;
		(c)	the size, shape and orientation of the site;
		(d)	the setbacks of adjacent buildings;
		(e)	the height, bulk and form of existing and
			proposed buildings;
		(f)	the appearance when viewed from roads and
			public places;
		(g)	the character of the development existing on
			established properties in the area; and
		(h)	any overshadowing of adjoining properties or
			public places.
A3		P 3	
Build	dings for a sensitive use must be separated from	Build	dings for a sensitive use must be sited so as to
a Ru	Iral Zone or Agriculture Zone a distance of:	not o	conflict or interfere with an agricultural use in the
(a)	not less than 200m; or	Rura	al Zone or Agriculture Zone, having regard to:
(b)	where the setback of an existing building is	(a)	the size, shape and topography of the site;

C1.0 Signs Code

C1.1 Code Purpose

The purpose of the Signs Code is:

- C1.1.1 To provide for appropriate advertising and display of information for business and community activity.
- C1.1.2 To provide for well-designed signs that are compatible with the visual amenity of the surrounding area.
- C1.1.3 To ensure that signage does not disrupt or compromise safety and efficiency of vehicular or pedestrian movement.

C1.2 Application of this Code

- C1.2.1 Unless otherwise stated in a particular purpose zone, this code applies to all development for signs, unless the following clauses apply:
 - (a) C1.4.2; or
 - (b) C1.4.3.
- C1.2.2 This code does not apply to use.

C1.3 Definition of Terms

C1.3.1	In this code, unless the contrary intention appears:
--------	--

Term	Definition
advertisement	means words, lettering, model, symbol, device, representation, banner, bunting, decorative flag or lights used for the purposes of advertising, announcement or display.
dwell time	means the length of time a message or image is displayed on a sign with the capacity to change the displayed message, using digital or other method.
illuminated sign	means a sign that uses a light source or sources to display or highlight the content. This includes internally illuminated signs such as neon signs, light boxes and LED (light emitting diode) screens or panels and signs lit by an external source such as a light bulb or floodlight.
third party sign	means a sign that does not relate to the goods or services available on the premises or land to which is it attached.

C1.3.2 Sign type definitions

C1.3.2.1 Each sign must be categorised into one of the defined sign types described below in Table C1.3. If a sign does not readily fit a defined sign type, it must be categorised into the most similar sign type.

C1.3.2.2 In Table C1.3, the text definitions are to be used to categorise the sign type, and the figures are illustrative only.

Sign Type	Definition	
above awning sign		means a sign attached to and supported above an awning, veranda or similar.
arcade sign	ARCADE SIGN	means a sign suspended from or attached to the ceiling of an outside public pedestrian area (but excluding other sign types) that is visible from outside of the building or site.
awning fascia sign	SIGN SIGN	means a sign attached to the face of an awning.
banner sign - horizontal	6	means a sign constructed of light weight non-rigid material, such as cloth, canvas or similar fabric, and where the horizontal dimension is greater than the vertical dimension.
banner sign - vertical	SIGN SIGN	means a sign constructed of a light-weight, non-rigid material such as cloth, canvas or similar fabric and where the vertical dimension is greater than the horizontal dimension.

Table C1.3 Sign Type Definitions

below awning sign	BELOW AWNING SIGN	means a sign attached to and suspended below an awning, verandah, ceiling or similar.
billboard	SIGN	means a structure either freestanding or attached to a building designed to accommodate standard billboards, the message of which may be changeable and variable.
blade sign	SIGN	means a sign that projects vertically from the ground by a single form in which the supports/structure of the sign are concealed within.
building fascia sign	SIGN	means a sign attached to the fascia of a building.
building site sign	FIGISIGN	means an impermanent sign which identifies architects, engineers, builders or contractors involved with construction on the premises, the name of the building or development, the intended purpose of the building or development or the expected completion date.
bunting (flag and decorative elements)		means a sign made up of small flags attached to a pole or rope.
business directory		means a sign for a building with multiple tenancies which, identifies the name of the business and its location within the same building and does not contain any product or other advertising content.

cabinet sign		means a lockable compartment with a transparent face for the display of notices and advertising attached to a wall of a building or structure for the display of information within, such as, menus outside a restaurant.
canopy sign	CANOPY SIGN	means a sign attached to the perimeter of a canopy on a building for the purpose of shielding from the elements such as, signs on the fascia of a canopy over a service station.
community information sign	means a sign erected b information.	y a statutory authority for the purpose of providing community
election sign	ELECTION SIGN	means an impermanent sign identifying candidates or promoting a political party for local, state or federal government elections.
flag		means a piece of cloth or similar material, typically rectangular or square and attached by one edge to a pole or rope.
ground base sign	SIGN	means a freestanding sign permanently attached to the ground on its own supportive structure, but not including a pole/pylon sign or a blade sign.
hanging sign	SIGN	means a sign suspended from a bracket which projects perpendicularly from the wall of a building.

horizontal projecting wall sign	SIGN	means a sign that projects from the street façade of a building and where the horizontal dimension is greater than the vertical dimension.
interpretive sign		means a sign designed to communicate information about the nature, origin and purpose of historical, natural or cultural resources, objects, sites and phenomena.
name plate	SA 533 533	means a single sign identifying one of the occupants of a property used for professional rooms, and attached to the building.
painted wall sign		means a sign painted on the wall of a building other than the transom of a doorway or building fascia.
pole / pylon sign	POLE SIGN	means a sign supported by one or more vertical supports, independent of any building or other structure.

portable sign	means a sign not permanently attached to the ground or to a building or other structure, and is removed on a daily basis. ¹	
real estate sign	means a sign erected for the purposes of advertising a parcel of land or building for sale, lease or let.	
regulatory sign	means a sign that provides notice of laws, regulations and warnings.	
roof sign	Roof Sign Hears a sign erected directly on a roof or above a parapet of a building.	
sky sign	Sky Sign means a sign erected directly on the top of the building structure and where the base of the sign is higher than the highest point of the building.	
sports ground sign	means a sign erected within a sports ground.	
statutory sign	means a sign that is required to be installed in buildings and is regulated by the Building Code of Australia.	
sun blind sign	means a sign on a canvas or other cloth or metal awning, erectable or fixed, projecting from the face of a building over a door or window.	

¹ Portable signs on public land may be controlled by licence under a council's By-Laws.

temporary sign	means an impormanent sign appounding an event of a religious, educational, cultural		
temporary sign	means an impermanent sign announcing an event of a religious, educational, cultural, social or recreational character erected for a specific period of time.		
transom sign	means a single faced sign erected above the entrance door or display window of a building.		
vertical projecting wall sign	means a sign that projects from the street façade of a building and where the vertical dimension is greater than the horizontal dimension.		
wall mural	means a graphic design that covers the wall of a building and does not convey a defined advertising message.		
wall sign	Wall Sign I want a sign attached to the wall of a building.		
window sign	means a sign attached to the inside or outside of a window including windows painted or covered in an opaque finish, for the display of advertisements relating to the goods or services available inside the premises.		

C1.4 Development Exempt from this Code

- C1.4.1 A sign listed in Table C1.4 is exempt from this code, provided it complies with the relevant requirements.
- C1.4.2 A sign within a building or site that cannot be, or is not intended to be, seen from outside of the building or site is exempt from requiring a permit.
- C1.4.3 Changes to the graphics of a sign that was lawfully displayed on or after the effective date, including text, graphic design and colour, is exempt provided that:
 - (a) the sign has not changed in dimension, proportion or location; and
 - (b) if an illuminated sign, the method of illumination has not changed.

Table C1.4 Exempt Signs

Sign Type	Requirements	
awning fascia sign	 Must: (a) have a maximum vertical dimension of 250mm and not project above or below the fascia of the awning to which it is attached; (b) not be closer than 450mm from a vertical projection of the kerb alignment of any road; (c) have a minimum height above ground level of 2.4m; (d) not be an illuminated sign or third party sign; and (e) not be located on a site that is a local heritage place, in a local heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code. 	
business directory	 Must: (a) not be placed on the exterior of a building but may be placed within a recessed entrance or doorway and must not project beyond the face of the building; (b) have a maximum vertical dimension of 2m; (c) have a maximum horizontal dimension of 600mm; (d) not be an illuminated sign or third party sign; and (e) not be located on a site that is a local heritage place, in a local heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code. 	
building site sign	Must only be displayed during construction works.	
bunting (flag and decorative elements)	Must not be located on a site that is a local heritage place, in a local heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code.	

Sign Type	Requirements	
community information sign	No requirements.	
election sign	Must: (a) not encroach on any road or other public land; (b) have a maximum area of 1.5m ² ; (c) not be erected more than 8 weeks before the polling date; and (d) be removed within 7 days after the polling date.	
flag	Must: (a) be limited to 2 flags per site; (b) have a minimum clearance above ground level of 2.4m; and (c) have a maximum area of 2m ² for each flag.	
interpretive sign	Must have a maximum area of 2m ² .	
name plate	 Must: (a) be located at the entrance to the building; (b) have a maximum area of 0.5m²; (c) not be an illuminated sign or third party sign; and (d) not be located on a site that is a local heritage place, in a local heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code. 	
portable sign	No requirements.	
real estate sign	Must:(a) be erected only on the land for which the property is for let, lease or for sale; and(b) be removed within 7 days of the property being sold, leased or let.	
regulatory sign	No requirements.	
sports ground sign	Must not be located on a site that is a local heritage place, in a local heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code.	
statutory sign	No requirements.	

Sign Type	Requirements	
temporary sign	Must:	
	(a) have permission from the landowner to erect the sign;	
	(b) have a maximum area of 2.0m ² ;	
	(c) be displayed for no longer than 30 days before the event;	
	(d) be removed within 7 days of the events completion;	
	(e) not be located within a road;	
	 (f) not be attached to a local heritage place listed in the Local Historic Heritage Code; 	
	(g) not be attached to trees or other similar vegetation; and	
	(h) be displayed for a maximum of four months.	
tourism information sign	Must have written approval from the relevant road authority.	
window sign	Must:	
	(a) not occupy an area of more than 10% of each window area;	
	(b) be on or behind a ground floor level window;	
	(c) not be an illuminated sign or third party sign; and	
	(d) not be located on a site that is a local heritage place, in a local	
	heritage precinct or local heritage landscape precinct listed under the Local Historic Heritage Code.	

C1.5 Use Standards

C1.5.1 There are no Use Standards in this code.

C1.6 Development Standards for Buildings and Works

C1.6.1	Design	and	sitina	of	sians
01.0.1	Doolgii	unu	oning	0.	orgino

Objective:	 That: (a) signage is well designed and sited; and (b) signs do not contribute to visual clutter or cause an unreasonable loss of visual amenity to the surrounding area. 				
Acceptable Sol	utions	Performance Criteria			
A1		P1.1			
A sign must:		A sign must:			
	vithin the applicable zone for the n type set out in Table C1.6; and	 (a) be located within an applicable zone for the relevant sign type as set out in Table C1.6; and 			
	n standards for the relevant sign in Table C1.6,	 (b) be compatible with the streetscape or landscape, having regard to: 			
excluding for the	following sign types, for which	(i) the size and dimensions of the sign;			
there is no Acce (i) roof sig		(ii) the size and scale of the building upon which the sign is proposed;			
(ii) sky sigi	n; and	(iii) the amenity of surrounding properties;			
(iii) billboar	d.	(iv) the repetition of messages or information;			
		 (v) the number and density of signs on the site and on adjacent properties; and 			
		(vi) the impact on the safe and efficient movement of vehicles and pedestrians.			
		P1.2			
		If a roof sign, sky sign or billboard, the sign must:			
		 (a) be located within the applicable zone for the relevant sign type set out in Table C1.6; 			
		(b) meet the sign standards for the relevant sign type in Table C1.6; and			
		 (c) not contribute to visual clutter or cause unreasonable loss of amenity to the surrounding area, having regard to: 			
		(i) the size and dimensions of the sign;			

 (ii) the size and scale of the building upon which the sign is proposed; (iii) the amenity of surrounding properties; (iv) the repetition of messages or information; (v) the number and density of signs on the site and on adjacent properties; and (vi) the impact on the safe and efficient movement of vehicles and pedestrians. A2 A sign must be not less than 2m from the boundary of any lot in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Rural Living Zone or Landscape Conservation Zone. P2 A sign must be not less than 2m from the boundary of any lot in the General Residential Zone, Inner Residential Zone, Conservation Zone. P2 A sign must not cause an unreasonable loss of amenity to adjoining residential properties, having regard to: (a) the topography of the site and the surrounding area; (b) the relative location of buildings, habitable rooms of dwellings and private open space; (c) any overshadowing; and (d) the nature and type of the sign. P3 The number of signs for each business or tenancy on a street frontage of a building must be no more than: (a) 1 of each sign type, unless otherwise stated in Table C1.6; (b) 1 window sign for each window; (c) 3 if the street frontage is less than 20m in length; and (b) not involve the repetition of messages or information. (c) any overshadowing; and (b) not involve the repetition of messages or information.		
 (iv) the repetition of messages or information; (iv) the number and density of signs on the site and on adjacent properties; and (vi) the impact on the safe and efficient movement of vehicles and pedestrians. A2 A sign must be not less than 2m from the boundary of any lot in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Inner Rural Living Zone or Landscape Conservation Zone. P2 A sign must not cause an unreasonable loss of amenity to adjoining residential properties, having regard to: (a) the topography of the site and the surrounding area; (b) the relative location of buildings, habitable rooms of dwellings and private open space; (c) any overshadowing; and (d) the nature and type of the sign. P3 The number of signs for each business or tenancy on a road frontage of a building must be no more than: (a) 1 of each sign type, unless otherwise stated in Table C1.6; (b) 1 window sign for each window; (c) 3 if the street frontage is less than 20m in lendth; and 		
 (v) the number and density of signs on the site and on adjacent properties; and (vi) the impact on the safe and efficient movement of vehicles and pedestrians. Acceptable S	Solutions	Performance Criteria				
A1		P1				
No Acceptabl	e Solution.	An illuminated sign must not cause an unreasonable loss of amenity to adjacent properties or have an unreasonable effect on the safety, appearance or efficiency of a road, and must be compatible with the streetscape, having regard to:				
		(a) the location of the sign;				
		(b) the size of the sign;				
		(c) the intensity of the lighting;				
		(d) the hours of operation of the sign;				
		(e) the purpose of the sign;				
		 (f) the sensitivity of the area in terms of view corridors, the natural environment and adjacent residential amenity; 				
		 (g) the intended purpose of the changing message of the sign; 				
		 (h) the percentage of the sign that is illuminated with changing messages; 				
		(i) proposed dwell time; and				
		 (j) whether the sign is visible from the road and if so the proximity to and impact on an electronic traffic control device. 				
A2		P2				
adjacent road flashing, anim	d sign visible from public places in Is must not create the effect of nation or movement, unless it is action or safety information.	No Performance Criterion.				

C1.6.3	Third party sign
--------	------------------

Objective:	То:
	 (a) provide for third party signs that are compatible with the streetscape and the character of the area in which it is proposed to be located;
	 (b) manage the cumulative impact of third party signs on the character of an area; and
	(c) minimise any potential impact of third party signs on road safety.

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	A third party sign must be compatible with the natural and built environment of the surrounding area, having regard to:
	(a) the content of the sign;
	(b) the necessity for the advertisement to be in the location;
	 (c) opportunities for alternative locations or other methods to achieve the intended purpose (e.g. eligibility for Tasmanian Visitor Information System (TVIS) signs); and
	(d) the likely impact on the operation and safety of a railway, road, footpath, or navigable water ; and
	(e) any advice from a State authority.

Т

Γ

C1.6.4 Signs on local heritage places and in local heritage precincts and local historic landscape precincts

Objective:	That the size, design and siting of signs is compatible with and does not have an unacceptable impact on the local historic heritage significance of a local heritage place, a local heritage precinct or a local historic landscape precinct as listed in the Local Historic Heritage Code.	
Acceptable Sol	utions	Performance Criteria
A1		P1
place, in a local landscape preci Heritage Code, (a) be not mor (b) not be an i	n a site that is a local heritage heritage precinct or local historic nct listed under the Local Historic must: e than 0.2m ² ; Iluminated sign; and be not more than 1 sign per site.	 A sign located on a site that is a local heritage place, in a local heritage precinct or local historic landscape precinct listed under the Local Historic Heritage Code must be located in a manner that does not have an unacceptable impact on the local historic heritage significance of the place or precinct, having regard to: (a) placement to allow the architectural details of the building to remain prominent;
	be not more than a sign per site.	 (b) the size and design not substantially diminishing the local historic heritage significance of the place or precinct;
		 (c) where relevant, placement in a location on the building that would traditionally have been used as an advertising area;
		 (d) any domination or obscuring of any historic signs forming an integral part of a building's architectural detailing or local historic heritage significance;
		 (e) using fixtures that do not and are not likely to damage building fabric;
		 (f) not projecting above a parapet or roof line if such a projection impacts on the local historic heritage significance of the building; and
		(g) not using internal illumination in a sign on a local heritage place unless it is demonstrated that such illumination will not detract from the local historic heritage significance of the place or precinct.

building fascia sign	Village Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Rural Environmental Management Major Tourism Port and Marine Utilities Community Purpose particular purpose	 Must: (a) not project above, or below, the fascia of the building; (b) not exceed two thirds the depth of the fascia and must not exceed 1m in vertical dimension; and (c) not project more than 200mm from the vertical face of the fascia.
business directory	All zones	 Must: (a) have a maximum of 1 sign for each building; (b) have a maximum vertical dimension of 2m; and (c) have a maximum horizontal dimension of 600mm.
cabinet sign	All zones	 Must: (a) not project more than 40mm from the wall if erected on a wall or structure; (b) not extend vertically or horizontally beyond the wall to which it is attached; and (c) have a maximum area of 2m².
canopy sign	Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Major Tourism Port and Marine particular purpose	 Must: (a) have a minimum clearance above ground level of 2.4m; and (b) not be closer than 450mm from a vertical projection of the kerb line of any road.

Sign Type	Applicable Zones	Sign Standards
ground base	All zones	Must:
sign		 (a) be limited to 1 ground base sign for each 20m of frontage or part thereof;
		(b) not be higher than 2.4m above the ground; and
		(c) have a supportive structure that does not project above the sign face, unless it forms a feature or is incorporated in the sign design.
hanging sign	All zones	Must:
		 (a) be limited to 1 hanging sign on each tenancy having frontage;
		(b) have a maximum vertical dimension of 800mm;
		(c) have a maximum distance of 200mm from the wall;
		(d) have a minimum clearance above ground level of 2.4m;
		(e) not be erected within 2.4m of any existing projecting sign; and
		(f) not be erected within 1.2m of any side boundary.
horizontal	Urban Mixed Use	Must:
projecting wall sign	Local Business General Business	(a) have a maximum horizontal dimension of 2.7m;
Central Business		(b) have a maximum vertical dimension of 500mm;
	Commercial Light Industrial	(c) have a maximum width of 300mm;
General Industrial Major Tourism Port and Marine particular purpose	General Industrial	 (d) not be closer than 450mm of a vertical projection of the kerb alignment of the road;
		(e) have a maximum height above ground level of 3m; and
		(f) have a minimum clearance above ground level of 2.4m.
name plate	All zones	Must:
		(a) be fixed directly to the building;
		(b) have a maximum area of 0.5m ² ; and
		(c) be no higher than 1.8m above the level of the pedestrian access to the building.

Sign Type	Applicable Zones	Sign Standards
painted wall sign	Village Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Rural Environmental Management Major Tourism Port and Marine Utilities Community Purpose particular purpose	Must: (a) be limited to 1 painted wall sign for each site; (b) not exceed 12m ² ; and (c) not occupy more than 25% of the wall area.
pole / pylon sign	Local Business General Business Central Business Commercial Light Industrial General Industrial Major Tourism Port and Marine Community Purpose Recreation Open Space particular purpose	 Must: (a) project not more than 1.2m beyond the boundary with the footpath or road reservation; (b) have no more than two faces; (c) have a maximum area of 5m² for each face; (d) have a maximum height above ground level of 5m; and (e) have a clearance from ground level to the sign not less than 2.4m.
roof sign	General Business Central Business Light Industrial General Industrial Port and Marine	 Must: (a) be not higher than 750mm measured from the top of the roof or parapet; (b) have a maximum vertical dimension of 750mm; (c) have a horizontal dimension of 4.5m; and (d) have no more than two faces.
sky sign	General Business Central Business Light Industrial General Industrial Port and Marine	 Must: (a) be not higher than 1.8m measured from the top of the roof or parapet; (b) have a maximum vertical dimension of 1.8m; (c) have a horizontal dimension of 4.5m; and (d) have no more than two faces.

Sign Type	Applicable Zones	Sign Standards
sun blind sign	All zones	Must:
		 (a) not be closer than 450mm of a vertical projection of the kerb alignment of the road; and
		(b) have a minimum clearance above ground level of 2.4m.
temporary sign	All zones	Must:
		 (a) be displayed for no longer than 30 days before the event;
		(b) be removed within 14 days of the events completion;
		 (c) not disrupt the safe movement of pedestrians or vehicles;
		 (d) not cause damage to the building fabric of a local heritage place listed under the Local Historic Heritage Code;
		(e) not be attached to trees or other similar vegetation; and
		(f) be displayed for a maximum of 4 months.
transom sign	All zones	Must:
		 (a) not extend more than 200mm beyond the wall or building alignment;
		 (b) not extend beyond or below the level of the head of the doorway or window above which it is attached;
		(c) have a maximum vertical dimension of 500mm; and
		(d) have a maximum height above ground level of 3.6m.

Sign Type	Applicable Zones	Sign Standards
vertical projecting wall sign	Village Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Rural Environmental Management Major Tourism Port and Marine Community Purpose Recreation particular purpose	 Must: (a) have a maximum projection of 1.2m from the wall; (b) have no part of the sign above the eaves or the parapet of the façade, and not be higher than 6m above the ground; (c) have a minimum distance of 1.2m from any side boundary; (d) have a maximum vertical dimension of 2.4m; (e) have a maximum width of 300mm; and (f) have a minimum clearance above ground level of 3.6m.
wall sign	Village Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Rural Environmental Management Major Tourism Port and Marine Utilities Community Purpose particular purpose	 Must: (a) must not extend beyond the wall or above the top of the wall to which it is attached; (b) have a maximum area of 4.5m²; and (c) must not occupy more than 25% of the wall area.

Sign Type	Applicable Zones	Sign Standards
wali murai	Village Urban Mixed Use Local Business General Business Central Business Commercial Light Industrial General Industrial Rural Environmental Management Major Tourism Port and Marine Utilities Community Purpose Recreation Open Space particular purpose	Must not extend beyond the wall or above the top of the wall to which it is attached.
window sign	All zones	Must not occupy more than 25% of each window area.

C2.0 Parking and Sustainable Transport Code

C2.1 Code Purpose

The purpose of the Parking and Sustainable Transport Code is:

- C2.1.1 To ensure that an appropriate level of parking facilities is provided to service use and development.
- C2.1.2 To ensure that cycling, walking and public transport are encouraged as a means of transport in urban areas.
- C2.1.3 To ensure that access for pedestrians, vehicles and cyclists is safe and adequate.
- C2.1.4 To ensure that parking does not cause an unreasonable loss of amenity to the surrounding area.
- C2.1.5 To ensure that parking spaces and accesses meet appropriate standards.
- C2.1.6 To provide for parking precincts and pedestrian priority streets.

C2.2 Application of this Code

- C2.2.1 Unless stated otherwise in a particular purpose zone, or sub-clause C2.2.2, C2.2.3 or C2.2.4, this code applies to all use and development.
- C2.2.2 Clause C2.5.3 only applies to use and development in the following Use Classes:
 - (a) Business and Professional Services;
 - (b) Community Meeting and Entertainment;
 - (c) Custodial Facility;
 - (d) Crematoria and Cemeteries;
 - (e) Educational and Occasional Care;
 - (f) Food Services;
 - (g) General Retail and Hire;
 - (h) Hospital Services;
 - (i) Hotel Industry;
 - (j) Pleasure Boat Facility;
 - (k) Residential if for a communal residence, multiple dwellings or hostel use;
 - (I) Sports and Recreation; and
 - (m) Tourist Operation.
- C2.2.3 Clause C2.5.4 only applies to use and development in the following Use Classes:
 - (a) Bulky Goods Sales;
 - (b) General Retail and Hire;
 - (c) Manufacturing and Processing; and
 - (d) Storage.

- C2.2.4 Clause C2.5.5 only applies to use and development in the following Use Classes:
 - (a) Business and Professional Services;
 - (b) Community Meeting and Entertainment;
 - (c) Educational and Occasional Care;
 - (d) Emergency Services;
 - (e) Food Services;
 - (f) General Retail and Hire;
 - (g) Sports and Recreation; and
 - (h) Utilities, if not for minor utilities.

C2.3 Definition of Terms

C2.3.1 In this code, unless the contrary intention appears:

Term	Definition
	means the gross floor area, excluding the area of stairs, loading bays,
floor area	access ways, or parking areas, of any area occupied by machinery required
	for air conditioning, heating, power supply, or lifts.
no no minero ent	means the use or development is not required to provide any on-site
no requirement	parking.
norting are signed alon	means a plan relating to on-site parking of cars within a defined area of land,
parking precinct plan	shown on an overlay map in the relevant Local Provisions Schedule.
	means a road shown on an overlay map in the relevant Local Provisions
pedestrian priority street	Schedule, as having active street frontages where pedestrian movement and
	activity take priority over siting of vehicle parking and access.

C2.4 Use or Development Exempt from this Code

C2.4.1 There are no exemptions to this code.

C2.5 **Use Standards**

C2.5.1

A1

Car parking numbers Objective: That an appropriate level of car parking spaces are provided to meet the needs of the use. **Acceptable Solutions Performance Criteria** P1.1 The number of on-site car parking spaces must be The number of on-site car parking spaces for uses, no less than the number specified in Table C2.1, excluding dwellings, must meet the reasonable needs excluding if: of the use, having regard to: (a) the site is subject to a parking plan for the (a) the availability of off-street public car parking area adopted by council, in which case spaces within reasonable walking distance of parking provision (spaces or cash-in-lieu) the site: must be in accordance with that plan; (b) the ability of multiple users to share spaces (b) the site is contained within a parking precinct because of: plan and subject to Clause C2.7; (i) variations in car parking demand over time; (c) the site is subject to Clause C2.5.5; or or (d) it relates to an intensification of an existing (ii) efficiencies gained by consolidation of car use or development or a change of use where: parking spaces; (i) the number of on-site car parking spaces (c) the availability and frequency of public transport for the existing use or development within reasonable walking distance of the site; specified in Table C2.1 is greater than the (d) the availability and frequency of other transport number of car parking spaces specified in alternatives; Table C2.1 for the proposed use or any site constraints such as existing buildings, (e) development, in which case no additional slope, drainage, vegetation and landscaping; on-site car parking is required; or (f) the availability, accessibility and safety of (ii) the number of on-site car parking spaces on-street parking, having regard to the nature of for the existing use or development the roads, traffic management and other uses in specified in Table C2.1 is less than the the vicinity; number of car parking spaces specified in (g) the effect on streetscape; and Table C2.1 for the proposed use or (h) any assessment by a suitably qualified person development, in which case on-site car

of the actual car parking demand determined having regard to the scale and nature of the use and development.

P1.2

The number of car parking spaces for dwellings must meet the reasonable needs of the use, having regard to:

- (a) the nature and intensity of the use and car parking required;
- (b) the size of the dwelling and the number of bedrooms; and
- (c) the pattern of parking in the surrounding area.

A = Number of existing on site car parking spaces B = Number of on-site car parking spaces

parking must be calculated as follows:

N = Number of on-site car parking spaces

N = A + (C - B)

required

required for the existing use or development specified in Table C2.1

C= Number of on-site car parking spaces required for the proposed use or development specified in Table C2.1.

C2.5.2 Bicycle parking numbers

Objective:	That an appropriate level of bicycle parking spaces are provided to meet the needs of the use.		
Acceptable S	olutions	Performance Criteria	
A1		P1	
Bicycle parking spaces must:(a) be provided on the site or within 50m of the site; and		Bicycle parking spaces must be provided to meet the reasonable needs of the use, having regard to: (a) the likely number of users of the site and their	
(b) be no les C2.1.	s than the number specified in Table	opportunities and likely need to travel by bicycle; and	
		(b) the availability and accessibility of existing and any planned parking facilities for bicycles in the surrounding area.	

C2.5.3 Motorcycle parking numbers

Objective:	That the appropriate level of motorcycle parking is provided to meet the needs of the use.		
Acceptable S	olutions	Performance Criteria	
A1		P1	
for all uses mu (a) be no les C2.4; and (b) if an exis or intens parking s proposed the existi	ss than the number specified in Table	 Motorcycle parking spaces for all uses must be provided to meet the reasonable needs of the use, having regard to: (a) the nature of the proposed use and development; (b) the topography of the site; (c) the location of existing buildings on the site; (d) any constraints imposed by existing development; and (e) the availability and accessibility of motorcycle parking spaces on the street or in the surrounding area. 	

C2.5.4 Loading Bays

Objective:	That adequate access for goods delivery and collection is provided, and to avoid unreasonable loss of amenity and adverse impacts on traffic flows.	
Acceptable S	olutions	Performance Criteria
A1		P1
0,	must be provided for uses with a floor han 1000m ² in a single occupancy.	Adequate space for loading and unloading of vehicles must be provided, having regard to:
		(a) the type of vehicles associated with the use;
		(b) the nature of the use;
		(c) the frequency of loading and unloading;
		(d) the location of the site;
		(e) the nature of traffic in the surrounding area;
		(f) the area and dimensions of the site; and
		(g) the topography of the site;
		(h) the location of existing buildings on the site; and
		 (i) any constraints imposed by existing development.

Objective:	To:	
	(a)	facilitate the reuse of existing non-residential buildings within the General Residential
		Zone and Inner Residential Zone; and
	(b)	to not cause an unreasonable impact on residential amenity by the car parking
		generated by that reuse.

C2.5.5 Number of car parking spaces within the General Residential Zone and Inner Residential Zone

Acceptable Solutions A1 Within existing non-residential buildings in the General Residential Zone and Inner Residential Zone, on-site car parking is not required for: (a) Each Operation of the 100 m ² floor operation	Performance Criteria P1 Within existing non-residential buildings in the General Residential Zone and Inner Residential Zone, the number of on-site car parking spaces must be sufficient to meet the reasonable needs of users and
Within existing non-residential buildings in the General Residential Zone and Inner Residential Zone, on-site car parking is not required for:	Within existing non-residential buildings in the General Residential Zone and Inner Residential Zone, the number of on-site car parking spaces must be
General Residential Zone and Inner Residential Zone, on-site car parking is not required for:	General Residential Zone and Inner Residential Zone, the number of on-site car parking spaces must be
 (a) Food Services uses up to 100m² floor area or 30 seats, whichever is the greater; and (b) General Retail and Hire uses up to 100m² floor area, provided the use complies with the hours of operation specified in the relevant Acceptable Solution for the relevant zone. 	 must not cause an unreasonable impact on residential amenity, having regard to: (a) car parking demand generated by the proposed use during its proposed hours of operation; (b) the availability of on-street and public car parking in the surrounding area; (c) the availability and frequency of public transport within a 400m walking distance of the site; (d) the availability and likely use of other modes of transport; (e) the availability and suitability of alternative arrangements for car parking provision; (f) any reduction in car parking demand due to the sharing of car parking spaces by multiple uses, either because of variation of car parking demand over time or because of efficiencies gained from the consolidation of shared car parking spaces; (g) any car parking deficiency or surplus associated with the existing use of the land; (h) any relevant parking plan for the area adopted by council; (i) any existing on-street car parking restrictions; and
	 (j) the proportion of residential properties without off-street parking within a 100m radius of the subject site.

C2.6 Development Standards for Buildings and Works

C2.6.1 Construction of parking areas

Objective: That parking areas are constructed to an appropriate standard.		
Acceptable Solutions		Performance Criteria
A1		P1
All parking, access ways, manoeuvring and circulation spaces must:(a) be constructed with a durable all weather pavement;		All parking, access ways, manoeuvring and circulation spaces must be readily identifiable and constructed so that they are useable in all weather conditions, having regard to: (a) the nature of the use;
 (b) be drained to the public stormwater system, or contain stormwater on the site; and 		(b) the topography of the land;
Agricultur Zone, En Recreatio surfaced pavers or	all uses in the Rural Zone, re Zone, Landscape Conservation vironmental Management Zone, on Zone and Open Space Zone, be by a spray seal, asphalt, concrete, equivalent material to restrict from traffic and minimise entry of	 (c) the drainage system available; (d) the likelihood of transporting sediment or debris from the site onto a road or public place; (e) the likelihood of generating dust; and (f) the nature of the proposed surfacing.
water to t	he pavement.	

C2.6.2 Design and layout of parking areas

Objective:	bjective: That parking areas are designed and laid out to provide convenient, safe and efficient parking.		
Acceptable Solutions		Performance Criteria	
A1.1		P1	
Parking, access ways, manoeuvring and circulation spaces must either: (a) comply with the following:		All parking, access ways, manoeuvring and circulation spaces must be designed and readily identifiable to provide convenient, safe and efficient parking, having regard to:	
 (i) have a gradient in accordance with Australian Standard AS 2890 - Parking facilities, Parts 1-6; 	(a) the characteristics of the site;(b) the proposed slope, dimensions and layout;		
site i for m (iii) have	de for vehicles to enter and exit the n a forward direction where providing hore than 4 parking spaces; an access width not less than the	 (c) useability in all weather conditions; (d) vehicle and pedestrian traffic safety; (e) the nature and use of the development; (f) the expected number and type of vehicles; 	
(iv) have satis	rements in Table C2.2; car parking space dimensions which fy the requirements in Table C2.3;	 (f) the expected number and type of vehicles; (g) the likely use of the parking areas by persons with a disability; (h) the state of the first state of the stat	
(v) have	a combined access and manoeuvring	(h) the nature of traffic in the surrounding area;	

	 width adjacent to parking spaces not less than the requirements in Table C2.3 where there are 3 or more car parking spaces; (vi) have a vertical clearance of not less than 2.1m above the parking surface level; and (vii) excluding a single dwelling, be delineated by line marking or other clear physical means; or 	(i) (j)	the proposed means of parking delineation; and the provisions of <i>Australian Standard AS</i> 2890.1:2004 - Parking facilities, Part 1: Off-street car parking and AS 2890.2 -2002 Parking facilities, Part 2: Off-street commercial vehicle facilities.
(b)	comply with Australian Standard AS 2890- Parking facilities, Parts 1-6.		
A1.:	A1.2		
	king spaces provided for use by persons with a bility must satisfy the following:		
(a)	be located as close as practicable to the main entry point to the building;		
(b)	be incorporated into the overall car park design; and		
(c)	be designed and constructed in accordance with Australian/New Zealand Standard AS/NZS 2890.6:2009 Parking facilities, Off-street parking for people with disabilities. ¹		

¹ Requirements for the number of accessible car parking spaces are specified in part D3 of the National Construction Code 2016.

Objective:	 That: (a) access to land is provided which is safe and efficient for users of the land and all road network users, including but not limited to drivers, passengers, pedestrians and cyclists by minimising the number of vehicle accesses; (b) accesses do not cause an unreasonable loss of amenity of adjoining uses; and (c) the number of accesses minimise impacts on the streetscape. 	
Acceptable Se	olutions	Performance Criteria
A1		P1
The number of must:	accesses provided for each frontage	The number of accesses for each frontage must be minimised, having regard to:
(a) be no mo	re than 1; or	(a) any loss of on-street parking; and
(b) no more than the existing number of accesses,		(b) pedestrian safety and amenity;
whichever is th	ne greater.	(c) traffic safety;
		(d) residential amenity on adjoining land; and
		(e) the impact on the streetscape.
A2		P2
Within the Central Business Zone or in a pedestrian		Within the Central Business Zone or in a pedestrian
priority street no new access is provided unless an existing access is removed.		priority street, any new accesses must:
existing access		(a) not have an adverse impact on:
		(i) pedestrian safety and amenity; or
		(ii) traffic safety; and
		(b) be compatible with the streetscape.

C2.6.3 Number of accesses for vehicles

C2.6.4 Lighting of parking areas within the General Business Zone and Central Business Zone

Objective:	That parking and vehicle circulation roads and pedestrian paths within the General Business	
	Zone and Central Business Zone, which are used outside daylight hours, are provided with	
	lighting to a standard which:	
	(a) enables easy and efficient use;	
	(b) promotes the safety of users;	
	(c) minimises opportunities for crime or anti-social behaviour; and	
	(d) prevents unreasonable light overspill impacts.	

Acceptable Solutions	Performance Criteria
A1	P1
In car parks within the General Business Zone and Central Business Zone, parking and vehicle circulation roads and pedestrian paths serving 5 or more car parking spaces, which are used outside daylight hours, must be provided with lighting in accordance with Clause 3.1 "Basis of Design" and Clause 3.6 "Car Parks" in <i>Australian Standard/New</i> <i>Zealand Standard AS/NZS 1158.3.1:2005 Lighting</i> <i>for roads and public spaces Part 3.1: Pedestrian</i> <i>area (Category P) lighting – Performance and</i> <i>design requirements.</i>	 In car parks within the General Business Zone and Central Business Zone, parking and vehicle circulation roadways and pedestrian paths, which are used outside daylight hours must be provided with lighting, having regard to: (a) enabling easy and efficient use of the area; (b) minimising potential for conflicts involving pedestrians, cyclists and vehicles; (c) minimising opportunities for crime or anti-social behaviour though the creation of concealment spaces; (d) any unreasonable impact on the amenity of adjoining properties through light overspill; and (e) the hours of operation of the use.

C2.6.5 F	Pedestrian access
----------	-------------------

Obje	Objective: That pedestrian access within parking areas is provided in a safe and convenient manner.			
Acc	Acceptable Solutions		Performance Criteria

Bicycle parking spaces must: (a) have dimensions not less than:		Bicycle parking spaces and access must be convenient, safe, secure and efficient to use, having regard to:	
(ii) 1.2m	n in length; n in height; and n in width at the handlebars;	(a) the characteristics of the site;(b) the space available;(c) the setate of available and	
less thar 5% from	obstructed access with a width of not a 2m and a gradient not steeper than a road, cycle path, bicycle lane, ath or access way; and	 (c) the safety of cyclists; and (d) the provisions of Australian Standard AS 2890.3- 2015 Parking facilities - Part 3: Bicycle parking. 	
satisfies	a rail or hoop to lock a bicycle that <i>Australian Standard AS 2890.3-2015</i> facilities - Part 3: Bicycle parking.		

C2.6.7 Bicycle parking and storage facilities within the General Business Zone and Central Business Zone

Objective:	That the siting of vehicle parking and access facilities in an Inner Residential Zone, Village Zone, Urban Mixed Use Zone, Local Business Zone, General Business Zone or Central Business Zone does not cause an unreasonable visual impact on streetscape character or loss of amenity to adjoining properties.			
Acceptable S	Acceptable Solutions Performance Criteria			
A1		P1		
Urban Mixed L General Busin turning areas, areas must be buildings, excl	r Residential Zone, Village Zone, Jse Zone, Local Business Zone or ess Zone, parking spaces and vehicle including garages or covered parking located behind the building line of uding if a parking area is already nt of the building line.	 Within an Inner Residential Zone, Village Zone, Urban Mixed Use Zone, Local Business Zone or General Business Zone, parking spaces and vehicle turning areas, including garages or covered parking areas, may be located in front of the building line where this is the only practical solution and does not cause an unreasonable loss of amenity to adjoining properties, having regard to: (a) topographical or other site constraints; (b) availability of space behind the building line; (c) availability of space for vehicle access to the side or rear of the property; (d) the gradient between the front and the rear of existing or proposed buildings; (e) the length of access or shared access required to service the car parking; (f) the location of the access driveway at least 2.5m from a window of a habitable room of a dwelling; (g) the visual impact of the vehicle parking and access on the site; (h) the streetscape character and amenity; (i) the nature of the zone in which the site is located and its preferred uses; and (j) opportunities for passive surveillance of the road. 		

C2.6.8 Siting of parking and turning areas

A2	P2
 Within the Central Business Zone, on-site parking at ground level adjacent to a frontage must: (a) have no new vehicle accesses, unless an existing access is removed; (b) retain an active street frontage; and (c) not result in parked cars being visible from public places in the adjacent roads. 	 Within the Central Business Zone, on-site parking at ground level adjacent to a frontage must be designed to screen the views of cars from public places in the adjacent roads, without blank walls facing onto a road, having regard to: (a) the streetscape; (b) any unreasonable loss of amenity of the occupants of adjoining properties; and (c) maintaining opportunities for active uses on a street frontage in a pedestrian priority street.

C2.7 Parking Precinct Plan

C2.7.1 Parking precinct plan

Objective: To minimise the amount of on-site car parking spaces within an area defined by a parking precinct plan, and that parking does not detract from the streetscape of the area.

Acceptable Solutions	Performance Criteria		
A1	P1		
Within a parking precinct plan, on-site car parking must:Within a parking precinct plan, on-site car p must be necessary for the operation of the p not detract from the streetscape, having reg			
(b) not be increased above existing parking numbers.	 (a) the availability of off-street public parking spaces within reasonable walking distance; 		
	(b) the ability of multiple users to share spaces because of:		
	(i) variations in parking demand over time; or		
	(ii) efficiencies gained by consolidation of parking spaces;		
	 (c) the availability and frequency of public transport within reasonable walking distance of the site; 		
	(d) the availability and frequency of other transport alternatives;		
	 (e) the availability, accessibility and safety of on-street parking, having regard to the nature of the roads, traffic management and other uses in the vicinity; 		
	(f) the streetscape;		
	(g) the topography of the site;		
	(h) the location of existing buildings on the site;		
	 (i) any constraints imposed by existing development; and 		
	 (j) any assessment by a suitably qualified person of the actual parking demand, determined having regard to the scale and nature of the use and development, and 		
	not exceed the number specified in Table C2.1.		

Table C2.1	Parking Space Requirements
------------	----------------------------

Use		Parking Space Requirements		
		Car	Bicycle	
Bulky Goods Sales	Motor vehicle, boat or caravan	1 space per 100m ² of display, storage and	1 space per 500m ²	
Sales	sales Retail plant nursery	workshop floor area 15 spaces or 0.5 spaces per 100m ² of site area, whichever is greater	of floor area No requirement	
	Bulky Goods Sales, excluding as otherwise specified in this Table	1 space per 50m ² of floor area	1 space per 500m ² of floor area	
Business and Professional	Bank, real estate agency, travel agent	1 space per 50m ² of floor area	1 space per 500m ² of floor area	
Services	Office	1 space per 40m ² of floor area	1 space per 500m ² of floor area	
	Doctors' surgery, clinic, consulting room	4 spaces per practitioner	2 spaces for each 8 practitioners	
	Veterinary centre	4 spaces per practitioner	No requirement	
	Funeral parlour	1 space per employee + 1 visitor space + 1 space per 4 chapel seats	1 space per 50 chape seats	
	Business and Professional Services, excluding as otherwise specified in this Table	1 space per 30m ² of floor area	1 space per 500m ² of floor area	
Community Meeting and Entertainment	Art and craft centre	1 space per 30m ² of floor area	1 space per 50m ² floor area or 1 space per 40 seats whichever is greater	
	Exhibition centre, library, museum or public art gallery	1 space per 20m ² of floor area	4 spaces plus 2 spaces for each 1500m ² of floor area	
	Cinema, place of worship, civic centre, function centre, public hall, theatre	1 space per 15m ² of floor area, or 1 space per 3 seats, whichever is greater	1 space per 50m ² floor area or 1 space per 40 seats whichever is greater	
	Community Meeting and Entertainment, excluding as otherwise specified in this Table	1 space per 15m ² of floor area or 1 space per 4 seats, whichever is greater	1 space per 50m ² floor area or 1 space per 40 seats whichever is greater	
Custodial Facilit		1 space per 2 employees + 1 space per 5 inmates	No requirement	
Crematoria and	Cemeteries	1 space per employee + 1 visitor space + 1 space per 4 chapel seats	1 space per 50 chape seats	
Domestic Anima Training	l Breeding, Boarding or	1 space per employee + 2 visitor spaces	No requirement	

Use		Parking Space Requirements	
		Car	Bicycle
Educational and Occasional Care		1 space per employee + 1 space per 6 tertiary education students	1 space per 5 employees and tertiary education students
Emergency	Fire/ambulance	1 space per employee	No requirement
Services	Emergency Services, excluding as otherwise specified in this Table	No requirement	No requirement
Equipment and I	Machinery Sales and Hire	1 space per 50m ² of floor area	No requirement
Extractive Indus		1 space per 2 employees	No requirement
Food Services	Restaurant	1 space per 15m ² of floor area (including any outdoor dining areas) + 6 queuing spaces for drive through (if applicable), unless subject to Clause C2.5.5	1 space per 75m ² floor area
	Take away food premises	1 space per 15m ² of floor area (including any outdoor dining areas) + 6 queuing spaces for drive through (if applicable), unless subject to Clause C2.5.5	1 space per 75m ² floor area
	Food Services, excluding as otherwise specified in this Table	15 for each 100m ² of floor area or 1 space per 3 seats, whichever is greater, unless subject to Clause C2.5.5	1 space per 75m² floor area
General Retail and Hire	Drive-in bottle shop, if associated with a Hotel Industry	6 spaces	No requirement
	General Retail and Hire, excluding as otherwise specified in this table	1 space per 30m ² of floor area, unless subject to Clause C2.5.5	1 space per 100m ² of floor area
Hospital Service		1 space per 4 beds + 1 space per doctor + 1 space per 2 other employees	1 space per 10 beds
Hotel Industry		1 space per 20m ² of floor area available to the public + 1 space per bedroom	1 space per 100m ² of floor area available to the public
Manufacturing and Processing		1 space per 200m ² of floor area or 2 spaces per 3 employees, whichever is greater	1 space per 5 employees
Motor Racing Facility Natural and Cultural Values Management		No requirement	No requirement
		No requirement	No requirement
Passive Recreation		No requirement	No requirement
Pleasure Boat Facility	Marina	0.6 spaces for each wet berth and 0.2 spaces for each dry storage berth and 0.5 spaces per marina employee	No requirement
	Boathouse	0.5 space for each boathouse	No requirement

Use		Parking Space Requirements		
		Car	Bicycle	
	Pleasure Boat Facility, excluding as otherwise specified in this Table	No requirement	No requirement	
Port and Shipp		No requirement	No requirement	
	Waste Disposal	1 space per 500m ² of site area + 1 space per employee	No requirement	
Research and	Development	1 space per 100m ² of floor area or 2 spaces per 3 employees, whichever is greater	No requirement	
Residential	If a 1 bedroom or studio dwelling in the General Residential Zone (including all rooms capable of being used as a bedroom)	1 space per dwelling	No requirement	
	If a 2 or more bedroom dwelling in the General Residential Zone (including all rooms capable of being used as a bedroom)	2 spaces per dwelling	No requirement	
	Visitor parking for multiple dwellings in the General Residential Zone	1 dedicated space per 4 dwellings (rounded up to the nearest whole number); or if on an internal lot or located at the head of a cul-de-sac, 1 dedicated space per 3 dwellings (rounded up to the nearest whole number)	No requirement	
	Other Residential use in the General Residential Zone	1 space per bedroom or 2 spaces per 3 bedrooms + 1 visitor space for every 10 bedrooms (rounded up to the nearest whole number)	No requirement for residential care facility, assisted housing and retirement village. All other uses require 1 space per 5 bedrooms in other forms of accommodation.	
	Any Residential use in any other zone	1 space per bedroom or 2 spaces per 3 bedrooms + 1 visitor space for every 5 multiple dwellings or every 10 bedrooms for a non-dwelling residential use (rounded up to the nearest whole number)	No requirement for single dwellings, multiple dwellings, residential care facility, assisted housing and retirement village. All other uses require 1 space per 5 bedrooms in other forms of accommodation.	

Use		Parking Space Requirements		
		Car	Bicycle	
Resource	Aquaculture	2 spaces per 3 employees	No requirement	
Development	Resource development, excluding as otherwise specified in this Table	No requirement	No requirement	
Resource Proce		2 spaces per 3 employees	1 space per 5 employees	
Service Industry	y	1 space per 80m ² of floor area or 2 spaces per 3 employees, whichever is greater	1 space per 5 employees	
Sports and	Bowling green	6 spaces per bowling rink	No requirement	
Recreation	Fitness centre	4.5 spaces per 100m ² of floor area	No requirement	
	Golf course	4 spaces per golf hole	No requirement	
	Swimming pool (other than in conjunction with a single dwelling)	5 spaces for each 100m ² of site area	1 space per 100m ² of site area	
	Tennis court or Squash court (other than in conjunction with a single dwelling)	3 spaces for each tennis or squash court + 1 space per 5 spectator places	No requirement	
	Major Sporting Facility	1 space per 5 seats	No requirement	
	Sports and Recreation, excluding as otherwise specified in this Table	50 spaces per facility	No requirement	
Storage		1 space per 200m ² of the site area or 1 space per 2 employees, whichever is greater	No requirement	
Tourist Operation		1 space per 200m ² of floor area or 1 space for each 500m ² of the site area, whichever is greater	1 space per 1000m ² of floor area or 1 space per 500m ² of site area, whichever is the greater	
Transport Depo	t and Distribution	3.5 spaces for each 100m ² of gross floor area	1 space per 5 employees	
Utilities		No requirement	No requirement	
Vehicle Fuel Sales and Service		4 spaces per service bay	1 space per 5 employees	
Vehicle Parking		No requirement	No requirement	
Visitor Accomm		1 space per self-contained accommodation unit, allocated tent or caravan space, or 1 space per 4 beds, whichever is the greater	No requirement	

Notes to Table C2.1:

- (1) The number of parking spaces required is to be calculated based on the proposed use or development.
- (2) Parking spaces must be individually accessible, excluding tandem parking spaces which may be used to serve a dwelling.
- (3) Excluding visitor parking for multiple dwellings in the General Residential Zone, fractions of a space are to be rounded to the nearest whole number, so that a full number of spaces is provided for any fraction of

a quota of floor area or number of employees.

- (4) Where a proposal contains multiple Use Classes, the car parking requirements must be calculated as the sum of the requirements for each individual use component.
- (5) Reference to an employee is equivalent to 1 full-time employee.

Number of parking spaces served	Internal access way widths	Passing bay dimensions for two-way traffic in addition to the access way width
1 to 5	A width not less than 3m.	2m wide by 5m long, plus entry and exit tapers, every 30m, unless on land within the Rural Zone, Agriculture Zone, Landscape Conservation Zone, Environmental Management Zone or Open Space Zone.
6 to 20	 (a) A width not less than 4.5m for the first 7m from the road carriageway and 3m thereafter, and (b) At changes of direction or intersections have: (i) an internal radius of not less than 4m, or (ii) a width more than 4.2m. 	2m wide by 5m long, plus entry and exit tapers, every 30m.
21 and over	A width not less than 5.5m.	Not applicable

Table C2.2 Internal Access Way Widths for Vehicles

Table C2.3Dimensions of Car Parking Spaces and Combined Access and
Manoeuvring Space Adjacent to Parking Spaces

Angle of car spaces to manoeuvring space	Combined access and manoeuvring width	Car park widths	Car park length
Parallel	3.6m	2.3m	6.7m
45 degrees	3.5m	2.6m	5.4m
60 degrees	4.9m	2.6m	5.4m
90 degrees	6.4m	2.6m	5.4m
90 degrees	5.8m	2.8m	5.4m
90 degrees	5.2m	3m	5.4m
90 degrees	4.8m	3.2m	5.4m

Notes to Table C2.3:

(1) If entry to the car space is from a road, the combined access and manoeuvring width may include the road.

Table C2.4 Motorcycle Parking Space Requirements

Number of car parking spaces required for a	Number of motorcycle parking spaces required for a		
use	use		
0-20	No requirement		
21-40	1 space		
41 or more	1 space for every additional 20 car parking spaces required		

C3.0 Road and Railway Assets Code

C3.1 Code Purpose

The purpose of the Road and Railway Assets Code is:

- C3.1.1 To protect the safety and efficiency of the road and railway networks; and
- C3.1.2 To reduce conflicts between sensitive uses and major roads and the rail network.

C3.2 Application of this Code

- C3.2.1 This code applies to a use or development that:
 - (a) will increase the amount of vehicular traffic or the number of movements of vehicles longer than
 5.5m using an existing vehicle crossing or private level crossing;
 - (b) will require a new vehicle crossing, junction or level crossing; or
 - (c) involves a subdivision or habitable building within a road or railway attenuation area if for a sensitive use.

C3.3 Definition of Terms

C3.3.1 In this code, unless the contrary intention appears:

Term	Definition
annual average daily traffic	means the number of vehicles per day averaged over all days in a calendar year.
category 1 road	means a category 1 road as defined in the State Road Hierarchy.
future major road	means land within which a major road is intended to be built shown as a future major road on an overlay map in the relevant Local Provisions Schedule.
future railway	means land on which an extension to the rail network is intended to be built shown as a future railway on an overlay map in the relevant Local Provisions Schedule.
limited access road	means a road declared to be a limited access road under s.52A of the <i>Roads and Jetties Act 1935</i> .
major road	means a category 1, 2 or 3 road as defined in the <i>State Road Hierarchy</i> , and any other road described in an other major roads list in the relevant Local Provisions Schedule.
private level crossing	means a level crossing across the rail network by a private road or vehicular right of way which does not service any public use.

Term	Definition
rail network	means as defined in the <i>Rail Infrastructure Act 2007</i> and corridors declared under the <i>Strategic Infrastructure Corridors (Strategic and Recreational Use) Act 2016.</i>
road or railway attenuation area	 means a road or railway attenuation area shown on an overlay map in the relevant Local Provisions Schedule or, if not shown, an area within 50m of the boundary of: (a) a major road with a speed limit above 60km/h; (b) the rail network; (c) a future major road; or (d) a future railway.
traffic impact assessment	means a study or a statement prepared in accordance with the <i>Guide to Traffic Management Part 12: Traffic Impacts of Development 2009</i> by a person with qualifications and a level of experience appropriate to the significance of the traffic impact.
vehicular traffic	means traffic composed of motor vehicles as motor vehicle is defined in section 3 of the <i>Vehicle and Traffic Act 1999</i> .

C3.4 Use or Development Exempt from this Code

C3.4.1 There are no exemptions from this code.

C3.5 Use Standards

Objective:			afety and efficiency of the road or rail network site at an existing or new vehicle crossing or
Acceptable Sol	Acceptable Solutions		rmance Criteria
A1.1		P1	
 For a category 1 road or a limited access road, vehicular traffic to and from the site will not require: (a) a new junction; (b) a new vehicle crossing; or 		Vehicular traffic to and from the site must minimise any adverse effects on the safety of a junction, vehicle crossing or level crossing or safety or efficiency of the road or rail network, having regard to:	
(c) a new leve	el crossing.	(a)	any increase in traffic caused by the use;
access road, wr vehicle crossing and developmen authority. A1.3 For the rail netw private level cro	uding a category 1 road or a limited itten consent for a new junction, , or level crossing to serve the use nt has been issued by the road fork, written consent for a new ssing to serve the use and s been issued by the rail authority.	 (b) (c) (d) (e) (f) (g) (h) 	the nature of the traffic generated by the use; the nature of the road; the speed limit and traffic flow of the road; any alternative access to a road; the need for the use; any traffic impact assessment; and any advice received from the rail or road authority.
 Vehicular traffic to and from the site, using an existing vehicle crossing or private level crossing, will not increase by more than: (a) the amounts in Table C3.1; or (b) allowed by a licence issued under Part IVA of the <i>Roads and Jetties Act 1935</i> in respect to a limited access road. 			
A1.5 Vehicular traffic must be able to enter and leave a major road in a forward direction.			

Table C3.1Acceptable increase in annual average daily traffic to and from the
site (total of ingress and egress)

Location of vehicular traffic	Amount of acceptable increase in and from the site (total of ingress	• •	
	Vehicles up to 5.5m long	Vehicles longer than 5.5m long	
Vehicle crossing on major roads and private level crossings	10% or 10 vehicle movements per day, whichever is the greater	10%	
Vehicle crossings on other roads	20% or 40 vehicle movements per day, whichever is the greater	20% or 5 vehicle movements per day, whichever is the greater	

C3.6 Development Standards for Buildings or Works

Obje	ective:	To minimise the effects of noise, vibration, light and air emissions on sensitive uses within a road or railway attenuation area, from existing and future major roads and the rail network.					
Acc	Acceptable Solutions		Performance Criteria				
A1			P1				
Unless within a building area on a sealed plan approved under this planning scheme, habitable buildings for a sensitive use within a road or railway attenuation area, must be:		Habitable buildings for sensitive uses within a road or railway attenuation area, must be sited, designed or screened to minimise adverse effects of noise, vibration, light and air emissions from the existing or					
(a) (b)	sensitive u future majo adjoining h an extensi existing or than: (i) the e	w of existing habitable buildings for uses and no closer to the existing or or road or rail network than the habitable building; on which extends no closer to the future major road or rail network xisting habitable building; or djoining habitable building for a	(a) (b) (c) (d)	e major road or rail network, having regard to: the topography of the site; the proposed setback; any buffers created by natural or other features; the location of existing or proposed buildings on the site; the frequency of use of the rail network;			
		ijoining nabitable building for a	(f)	the speed limit and traffic volume of the road;			
(c)	(c) located or designed so that external noise levels are not more than the level in Table C3.2 measured in accordance with Part D of the Noise Measurement Procedures Manual, 2 nd edition, July 2008.		(g) (h) (i) (j)	any noise, vibration, light and air emissions from the rail network or road; the nature of the road; the nature of the development; the need for the development;			

C3.6.1 Habitable buildings for sensitive uses within a road or railway attenuation area

(k) any traffic impact assessment;
(I) any mitigating measures proposed;
(m) any recommendations from a suitably qualified person for mitigation of noise; and
 (n) any advice received from the rail or road authority.

Table C3.2 Acceptable noise levels within a road or railway attenuation area

Roads	Railways
The arithmetic average of the A-weighted L10 sound pressure levels for each of the one-hour periods between 6:00am and midnight on any day [L10 (18-hour)] of 63 dB(A).	A 24-hour Leq and Lmax noise level of 65 dB(A) and 87dB(A) Lmax assessed as a single event maximum sound pressure level.

C3.7 Development Standards for Subdivision

Objective:	To minimise the effects of noise, vibration, light and air emissions on lots for sensitive uses within a road or railway attenuation area, from existing and future major roads and the rail network.			
Acceptable Sc	Acceptable Solutions		ormance Criteria	
A1		P1		
A lot, or a lot proposed in a plan of subdivision, intended for a sensitive use must have a building area for the sensitive use that is not within a road or railway attenuation area.		A lot, or a lot proposed in a plan of subdivision, intended for sensitive uses within a road or railway attenuation area, must be sited, designed or screened to minimise the effects of noise, vibration, light and air emissions from the existing or future major road or rail network, having regard to:		
		(a)	the topography of the site;	
		(b)	any buffers created by natural or other features;	
		(c)	the location of existing or proposed buildings on the site;	
		(d)	the frequency of use of the rail network;	
		(e)	the speed limit and traffic volume of the road;	
		(f)	any noise, vibration, light and air emissions from the rail network or road;	
		(g)	the nature of the road;	
		(h)	the nature of the intended uses;	
		(i)	the layout of the subdivision;	
		(j)	the need for the subdivision;	
		(k)	any traffic impact assessment;	
		(I)	any mitigating measures proposed;	
		(m)	any recommendations from a suitably qualified person for mitigation of noise; and	
		(n)	any advice received from the rail or road authority.	

C3.7.1 Subdivision for sensitive uses within a road or railway attenuation area

C4.0 Electricity Transmission Infrastructure Protection Code

C4.1 Code Purpose

The purpose of the Electricity Transmission Infrastructure Protection Code is:

- C4.1.1 To protect use and development against hazards associated with proximity to electricity transmission infrastructure.
- C4.1.2 To ensure that use and development near existing and future electricity transmission infrastructure does not adversely affect the safe and reliable operation of that infrastructure.
- C4.1.3 To maintain future opportunities for electricity transmission infrastructure.

C4.2 Application of this Code

- C4.2.1 This code applies to use or development of land within the following areas:
 - (a) electricity transmission corridor, and if for:
 - (i) buildings or works;
 - (ii) a sensitive use contained within a building;
 - (iii) use listed in Table C4.1; or
 - (iv) subdivision; and
 - (b) communications station buffer area, and if for:
 - (i) buildings or works; or
 - (ii) subdivision; and
 - (c) substation facility buffer area, and if for:
 - (i) a sensitive use contained within a building;
 - (ii) a use listed in Table C4.1;
 - (iii) buildings or works within 5m of a substation facility; or
 - (iv) subdivision.

C4.3 Definition of Terms

Term	Definition
communications station	 means an antenna and any supporting tower or pole that is: (a) used for carrying communications associated with the electricity entity; and (b) located on land within a communications station buffer area.
communications station buffer area	means land shown on an overlay map in the relevant Local Provisions Schedule, as within a communications station buffer area.
electricity entity	means as defined in the <i>Electricity Supply Industry Act 1995</i> that is licenced to carry on operations in the electricity supply industry under that Act, with respect to transmission of electricity.
electricity transmission corridor	means land shown on an overlay map in the relevant Local Provisions Schedule, as within an electricity transmission corridor, and may include an inner protection area or a registered electricity easement.
electricity transmission infrastructure	means infrastructure for or associated with the transmission of electricity. It includes overhead lines, underground electricity and communication cables, substations, communications station, buildings, structures and access tracks for or associated with the transmission of electricity, and the like.
inner protection area	means land shown on an overlay map in the relevant Local Provisions Schedule, as within an inner protection area.
registered electricity easement	 means: (a) an easement registered under the <i>Land Titles Act 1980</i> that relates to electricity transmission infrastructure; or (b) a registered wayleave as defined in the <i>Electricity Wayleaves and Easement Act 2000</i>.
substation facility	means land shown on an overlay map in the relevant Local Provisions Schedule, as containing a substation facility.
substation facility buffer area	means land shown on an overlay map in the relevant Local Provisions Schedule, as within a substation facility buffer area.

C4.3.1 In this code, unless the contrary intention appears:

C4.4 Use or Development Exempt from this Code

- C4.4.1 The following use or development is exempt from this code:
 - (a) buildings or works, or a sensitive use within an electricity transmission corridor, but not within an inner protection area or registered electricity easement for:
 - alterations or extensions to an existing building provided it does not increase the site coverage by more than 150m² from that existing at the effective date;
 - (ii) a non-habitable building provided the site coverage is not more than 150m² from that existing at the effective date; or
 - (iii) minor utilities;
 - (b) buildings or works within a communications station buffer area if:
 - (i) the building height is not more than 9.5m; and
 - (ii) is located not less than:
 - a. 5m from a security fence associated with a communications station; or
 - b. 5m from the boundary of a lot containing a communications station;
 - (c) use or development for Utilities within a communications station buffer area;
 - (d) use or development of electricity transmission infrastructure;
 - (e) use or development within a building area on a sealed plan approved under this planning scheme; and
 - (f) consolidation of lots.

C4.5 Use Standards

C4.5.1 Sensitive use within a substation facility buffer area

Objective:		n a building and located within a substation facility to not cause an unreasonable loss of amenity due
Acceptable Solutions		Performance Criteria

Accepta	ble Solutions		
A1		P1	
 A sensitive use, excluding any non-habitable rooms, contained within a building and located within a substation facility buffer area must: (a) be for an existing sensitive use, provided the distance between the building and the substation facility is not reduced; or (b) not be exposed to substation noise emission higher than: 		 A sensitive use, excluding any non-habitable rooms, contained within a building and located within a substation facility buffer area must be appropriately located or designed to not cause unreasonable loss of amenity due to substation noise emission, having regard to: (a) the nature of the sensitive use; (b) proximity to the substation facility; 	
(i) (ii)	 55 dB(A) (LAeq) within the hours of 8:00am to 6:00pm; 5 dB(A) above the background (LA90) level or 40 dB(A) (LAeq), whichever is the lower, within the hours of 6:00pm to 8:00am; and 	 (c) noise levels generated by the substation facility; (d) any existing buffers to noise impacts; (e) any mitigation measures proposed; (f) any written advice from a suitably qualified person; and 	
(iii) 65 dB(A) (LAmax).Noise levels are to be averaged over a 15 minute interval.		(g) any advice from the electricity entity.	

Objective:	That dust or other airborne particulates do not adversely affect the safe and reliable operation of overhead electricity transmission infrastructure within an electricity transmission corridor.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable	Solution.	 A use listed in Table C4.1 and located within an electricity transmission corridor must not generate dust or other airborne particulates that will cause an unreasonable impact on the operation of overhead electricity transmission infrastructure, having regard to: (a) the nature of the proposed use and the materials that will be stored and handled on the site; (b) the conductivity or corrosiveness of any dust or other airborne particulates and its potential to affect the operation of the electricity transmission infrastructure; (c) proximity to the electricity transmission infrastructure; (d) any mitigation measures proposed; and (e) any advice from the electricity entity.

C4.5.2 Dust or other airborne particulates within an electricity transmission corridor

Objective:

	safe and reliable operation of electricity transmission infrastructure within a substation facility buffer area.	
Acceptable Solu	tions	Performance Criteria
A1 No Acceptable Sc		 P1 A use listed in Table C4.1 and located within a substation facility buffer area must not generate dust or other airborne particulates that will cause an unreasonable impact on the operation of a substation facility, having regard to: (a) the nature of the proposed use and the materials that will be stored and handled on the site; (b) the conductivity or corrosiveness of any dust or other airborne particulates and its potential to affect the operation of the substation facility; (c) proximity to the substation facility; (d) any mitigation measures proposed; and (e) any advice from the electricity entity.

That dust or other airborne particulates do not cause an unreasonable impact on the

C4.5.3 Dust or other airborne particulates within a substation facility buffer area

Table C4.1 Uses with the Potential to Create Dust or Other AirborneParticulates

Use Class	Qualification	
Bulky Goods Sales	 If not located within a building and: (a) for garden and landscaping materials suppliers; (b) for a supplier for Extractive Industry, Resource Development or Resource Processing; or (c) for a timber yard. 	
Crematoria and Cemeteries	If for a crematorium.	
Extractive Industry	If not located within a building.	
Manufacturing and Processing	If not located within a building.	
Recycling and Waste Disposal	If not located within a building.	
Resource Processing	If not located within a building.	
Service Industry	If not located within a building.	

Use Class	Qualification	
Storage	If not located within a building and: (a) for a liquid, solid or gas fuel depot; or	
	(b) for a woodyard.	

C4.6 Development Standards for Buildings or Works

Objective:	 That buildings or works within an electricity transmission corridor are located at appropriate distances from transmission lines or cables to: (a) ensure operational efficiencies, access to, and security of, existing or future electricity transmission infrastructure; and (b) protect against a safety hazard associated with proximity to existing or future electricity transmission infrastructure. 	
Acceptable Solutions		Performance Criteria
corridor must no (a) an inner pro	rks within an electricity transmission of be within: offection area; or d electricity easement.	 P1 Buildings or works within an electricity transmission corridor must not cause an unreasonable impact on the safety, security, operation of, or access to, existing or future electricity transmission infrastructure, having regard to: (a) the nature, height and materials of the buildings and works; (b) the extent of encroachment of the buildings and works into the electricity transmission corridor; (c) the location of the buildings and works within the electricity transmission corridor; and (d) any advice from the electricity entity.

C4.6.1 Buildings or works within an electricity transmission corridor

Objective:	That buildings or works within a substation facility buffer area are appropriately located to minimise risk to the security, operation, safety and access to existing and future electricity transmission infrastructure.		
Acceptable Solutions		Perf	ormance Criteria
A1		P1	
A1 Buildings or works within a substation facility buffer area must be located not less than 5m from a substation facility.		area must oper	lings or works within a substation facility buffer and located less than 5m from a substation facility, a minimise any impact on the safety, security, ation or access to the substation facility, having rd to: the nature, height, and materials of the buildings and works; the location of the buildings and works; any proposed mitigation measures; and any advice from the electricity entity.

C4.6.2 Buildings or works within a substation facility buffer area

C4.6.3 Buildings or works within a communications station buffer area

Obje	ective:	That buildings or works do not adversely impact upon the safety, security, operation of, and access to, a communications station.		
Acceptable Solutions		Per	formance Criteria	
A 1			P1	
A1 Buildings or works within a communications station buffer area must: (a) be located: (i) not less than 5m from any security fence associated with a communications station; or (ii) not less than 5m from a lot boundary of a lot containing a communications station; and		buff the	dings or works within a communications station er area must not cause an unreasonable impact on safety, security, operation of, or access to, the munication station, having regard to: the nature, height and materials of the buildings and works; the location of the buildings and works; and any advice from the electricity entity.	
(b)	-	ght must be not more than the e communications station's		

C4.7 Development Standards for Subdivision

C4.7.1 Subdivision	
--------------------	--

Objective:	 To provide for subdivision: (a) that allows for development to be suitably located to avoid hazards from electricity transmission infrastructure and enable appropriate levels of amenity; and (b) so that future development does not compromise safety, security, access to, and operation of, existing and future electricity transmission infrastructure. 	
Acceptable S	Solutions	Performance Criteria
 A lot, or a lot proposed in a plan of subdivision, within an electricity transmission corridor, must: (a) be for the creation of separate lots for existing buildings where the buildings are located wholly outside an inner protection area or a registered electricity easement; (b) be required for public use by the Crown, a council or a State authority; (c) be required for the provision of Utilities; or 		 P1 A lot, or a lot proposed in a plan of subdivision, within the electricity transmission corridor must not cause an unreasonable impact on the safety, security, operation of, or access to, existing or future electricity transmission infrastructure, having regard to: (a) the intended use of the proposed lots; (b) the location of any proposed building areas; and (c) any advice from the electricity entity.
building a located o	e creation of a lot that contains a area not less than 10m x 15m entirely putside an inner protection area or d electricity easement.	

A2

A lot, or a lot proposed in a plan of subdivision, within a substation facility buffer area, must be:

- (a) for the creation of separate lots for existing buildings;
- (b) be for the creation of a lot that contains a building area not less than 10m x 15m entirely located outside the substation facility buffer area; or
- (c) be for the creation of a lot with a building area not less than 10m x 15m and satisfies the following:
 - (i) is not less than 5m from the substation facility; and
 - (ii) if the subdivision creates an opportunity for a sensitive use, is not exposed to substation noise emissions that exceed the following:
 - a. 55 dB(A) (LAeq) within the hours of 8.00am to 6.00pm;
 - b. 5 dB(A) above the background (LA90) level or 40 dB(A) (LAeq), whichever is the lower, within the hours of 6.00pm to 8.00am; and
 - c. 65 dB(A) (LAmax).

Noise levels are to be averaged over a 15 minute interval.

P2

A lot, or a lot proposed in a plan of subdivision, within a substation facility buffer area, must not cause an unreasonable impact on the operation of the substation facility, having regard to:

- (a) provision of access to and security of the substation facility;
- (b) safety hazards associated with proximity to the substation facility;
- (c) if the subdivision creates an opportunity for a sensitive use:
 - (i) the nature of the sensitive use;
 - (ii) proximity to the substation facility;
 - (iii) noise levels generated by the substation facility;
 - (iv) any existing buffers to noise impacts;
 - (v) any mitigation measures proposed; and
 - (vi) any advice from a suitably qualified person regarding the likelihood of a sensitive use on the lot experiencing an environmental nuisance as a result of noise emissions from the substation facility; and
- (d) any advice from the electricity entity.

A3	Р3	
 A lot, or a lot proposed in a plan of subdivision, within a communications station buffer area, must: (a) be for the creation of separate lots for existing buildings; (b) be required for public use by the Crown, a council, a State; (c) be required for the provision of Utilities; or (d) identify a building area with dimensions of not less than 10m x 15m that is located no less than either: (i) 5m from any security fence associated with a communications station; or (ii) 5m from a boundary of a lot that accommodates a communications station. 	 A lot, or a lot proposed in a plan of subdivision, within a communications station buffer area, must identify a building area that will not compromise access to, security of, or the operation of a communications station, having regard to: (a) the intended use of the proposed lots; (b) the location of any proposed building areas; and (c) any advice from the electricity entity. 	

Т

C4.0 Electricity Transmission Infrastructure Protection Code: 11

C5.0 Telecommunications Code

C5.1 Code Purpose

The purpose of the Telecommunications Code is:

- C5.1.1 To provide for telecommunication networks as a service for the community.
- C5.1.2 To ensure that facilities are co-located where practicable.
- C5.1.3 To ensure that facilities use mitigation measures to avoid an unreasonable loss of visual amenity.

C5.2 Application of this Code

- C5.2.1 Unless otherwise stated in a particular purpose zone, this code applies to all development for telecommunication facilities.
- C5.2.2 This code does not apply to use.

C5.3 Definition of Terms

C5.3.1	In this code, unless the contrary intention appears:
--------	--

Term	Definition
facilities	means, any part of the infrastructure of a telecommunications network and includes any line, equipment, apparatus, tower, mast, antenna, tunnel, duct, hole, pit, pole or other structure used, or for use, in or in connection with a telecommunications network.
line	means a wire, cable, optical fibre, tube, conduit, waveguide or other physical medium used, or for use, as a continuous artificial guide for, or in connection with, carrying communications by means of guided electromagnetic energy.
telecommunications networks	means a system, or series of systems, that carries, or is capable of carrying, communications by means of guided and/or unguided electromagnetic energy.
tower	means a tower, pole, mast or similar structure used to supply a carriage service by means of telecommunication.

C5.4 Use or Development Exempt from this Code

C5.4.1 There are no exemptions from this code.

C5.5 Use Standards

C5.5.1 There are no Use Standards in this code.

C5.6 Development Standards for Buildings and Works

C5.6.1	Visual amenity	
--------	----------------	--

Objective:	That facilities do not cause an unreasonable loss of visual amenity.		
Acceptable So	blutions	Performance Criteria	
A1		P1.1	
No Acceptable	Solution.	Facilities located within existing utility corridors or on sites with existing facilities, must not cause an unreasonable loss of visual amenity, having regard to:	
		(a) the siting and design of facilities;	
		(b) best practice methods to:	
		(i) reduce the visual impact of facilities; or	
		 (ii) conceal facilities within the surrounding natural or built environment; 	
		(c) the need to minimise clearing of vegetation; and	
		 (d) functional and safety requirements to establish, operate and maintain facilities. 	
	P1.2		
		Facilities not located within existing utility corridors or on sites with existing facilities, must not cause an unreasonable loss of visual amenity, having regard to:	
		 (a) the need to locate the facility outside existing utility corridors or on a site with an existing facility; 	
		(b) the siting and design of facilities;	
		(c) best practice methods to:	
		(i) reduce the visual impact of facilities; or	
		(ii) conceal facilities within the surrounding natural or built environment;	
		(d) the need to minimise clearing of vegetation; and	
		 (e) functional and safety requirements to establish, operate and maintain the facilities. 	

A2	P2
 Building height of freestanding towers must be not more than: (a) 30m in the Rural Living Zone, General Business Zone, Central Business Zone, Commercial Zone, General Industrial Zone, Rural Zone, Agriculture Zone, Landscape Conservation Zone, Environmental Management Zone, Major Tourism Zone, Port and Marine Zone, or Utilities Zone; (b) 20m in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Local Business Zone, Light Industrial Zone, Community Purpose Zone, Recreation Zone, Open Space Zone, Future Urban Zone and a particular purpose zone. 	 The height of freestanding towers must not cause an unreasonable visual impact on vistas to significant public buildings, streetscapes and land reserved for, or designated in this planning scheme for, natural or scenic values, having regard to: (a) the topography and predominant height of existing buildings or vegetation in the surrounding area; (b) best practice methods to reduce visual impact; (c) functional and safety requirements to establish, operate and maintain the facility; (d) the siting and design of the facility; and (e) the necessity or critical role of the facility within the telecommunications network.

C6.0 Local Historic Heritage Code

C6.1 Code Purpose

The purpose of the Local Historic Heritage Code is:

- C6.1.1 To recognise and protect:
 - (a) the local historic heritage significance of local places, precincts, landscapes and areas of archaeological potential; and
 - (b) significant trees.
- C6.1.2 This code does not apply to Aboriginal heritage values.

C6.2 Application of this Code

- C6.2.1 This code applies to:
 - (a) development on land within any of the following, as defined in this code:
 - (i) a local heritage place;
 - (ii) a local heritage precinct;
 - (iii) a local historic landscape precinct; and
 - (iv) for excavation only, a place or precinct of archaeological potential; and
 - (b) the lopping, pruning, removal or destruction of a significant tree as defined in this code.
- C6.2.2 If a site is listed as a local heritage place and also within a local heritage precinct or local historic landscape precinct, it is only necessary to demonstrate compliance with the standards for the local heritage place unless demolition, buildings and works are proposed for an area of the site outside the identified specific extent of the local heritage place.
- C6.2.3 This code does not apply to a registered place entered on the Tasmanian Heritage Register, unless for the lopping, pruning, removal or destruction of a significant tree as defined in this code.
- C6.2.4 This code does not apply to use¹.

C6.3 Definition of Terms

Term	Definition
archaeological evidence	means the remains of former structures and surfaces, construction debris, demolition debris, fabric, fittings and finishes, modified landforms, burials, subsurface features and deposits, artefacts, discarded waste or by-products, residues, or pollen.
archaeological impact assessment	means a report prepared by a suitably qualified person that describes the impact of proposed works upon archaeological sensitivity as referred to in a

C6.3.1 In this code, unless the contrary intention appears:

¹ Clause 7.4, change of use of a local heritage place may apply.

Term	Definition	
	statement of archaeological potential.	
local historic heritage significance	 means significance in relation to a local heritage place or a local heritage precinct or local historic landscape precinct, and its historic heritage values as identified in the relevant list, in the relevant Local Provisions Schedule, because of: (a) its role in, representation of, or potential for contributing to the understanding of: (i) local history; (ii) creative or technical achievements; (iii) a class of building or place; or (iv) aesthetic characteristics; or 	
	 (b) its association with: (i) a particular community or cultural group for social or spiritual reasons; or (ii) the life or works of a person, or group of persons, of importance to the locality or region, as identified in the relevant list in the relevant Local Provisions Schedule, or in a report prepared by a suitably qualified person, if not identified in the relevant list. 	
local historic landscape precinct	 means an area that has been identified as having particular local historic heritage significance because of the collective heritage value of individual elements and features, both natural and constructed, as a group, for their landscape value and is: (a) shown on an overlay map in the relevant Local Provisions Schedule; and (b) listed and identified in the local historic landscape precincts list in the relevant Local Provisions Schedule. 	
local heritage place	means a place that is listed, and the specific extent identified, in the local heritage places list in the relevant Local Provisions Schedule.	
local heritage precinct	 means an area that has been identified as having particular local historic heritage significance because of the collective heritage value of individual places as a group for their streetscape or townscape values, and is: (a) shown on an overlay map in the relevant Local Provisions Schedule; and (b) listed and identified in the local heritage precincts list in the relevant Local Provisions Schedule. 	
place or precinct of archaeological potential	 means a place that is a site, precinct or parcel of land that has been identified as having the potential to contain archaeological evidence that provides information about the past and is: (a) shown on an overlay map in the relevant Local Provisions Schedule; and (b) listed and identified in the places or precincts of archaeological potential list in the relevant Local Provisions Schedule. 	
registered place	means a place as defined in the <i>Historic Cultural Heritage Act 1995</i> and entered on the Tasmanian Heritage Register.	

Term	Definition
setting	means the surroundings or environment of a local heritage place.

significant tree	means a tree that is listed and identified in the significant trees list in the relevant Local Provisions Schedule.	
statement of archaeological potential	 means a statement prepared by a suitably qualified person that includes: (a) a written and illustrated site history; (b) plans depicting the main historical phases of site development and land use; (c) a disturbance history; and (d) a written statement of archaeological significance and potential, accompanied by an archaeological sensitivity plan depicting the likely surviving extent of important archaeological evidence which takes into consideration key phases of site development and land use and the impact of disturbance. 	
tree protection zone	means the space surrounding individual trees based on trunk (stem) diameter (DBH), measured at 1.4m up from ground level. The radius of the tree protection zone is calculated by multiplying the tree's DBH by 12. For example, a tree with 0.4m DBH requires a tree protection zone of 4.8m. The method provides a tree protection zone that addresses both tree stability and growth requirements. Tree protection zone distances are measured as a radius from the centre of the trunk at ground level. ²	

C6.4 Development Exempt from this Code

C6.4.1 Development described in Table C6.4.1 is exempt from this code provided it meets the corresponding qualifications.

Table C6.4.1 Exempt Development

Exempt Development	Qualifications	
Development within a local heritage place	 (a) temporary structural stabilisation works as certified by a structural engineer; (b) permanent structural stabilisation works considered by a suitably qualified person to maintain the local historic heritage significance of the place; 	
	 (c) building works, alterations and modifications required for compliance with fire regulation under the <i>Building Code of Australia</i>, which are not visible externally upon completion from any road or public open space adjoining the site; or 	
	(d) the pruning of a tree to improve its health or appearance provided its normal	

² Tree Protection Zone is based on the method outlined in *Australian Standard AS4970-2009: Protection of trees on development sites.*

Exempt Development	Qualifications	
	growth habit is not retarded.	
Development within a local heritage place, local heritage precinct or local historic landscape	a maximum of 1 mast for telecommunica each is not more than 6m in height and i specifically part of a local heritage place Provisions Schedule;	s not attached to any building
precinct	he construction or demolition of:	
	i) side and rear boundary fences:	
	a. not adjoining a road or public	reserve; and
	b. not more than a total height o	f 2.1m above existing ground level,
	except where they are within a gard part of a local heritage place listed Schedule; or	-
	 (ii) fencing of agricultural land or for pr watercourses; 	otection of wetlands and
	he planting, clearing or modification of v and, other than for plantation forestry or	• • • • •

	olar collector panels and photovoltaic c and located on a roof plane not visible fr adjoining the site;	•
	one satellite dish not more than 2m in dia place not visible from any road or public	
	ninor upgrade by, or on behalf, of a Stat nfrastructure such as roads, rail lines, fo power lines and pipelines including:	
	 minor widening or narrowing of exis placing or upgrading kerbs, gutters control devices; and 	
	 road markings, street lighting and la those elements are specifically part relevant Local Provisions Schedule 	t of a local heritage place listed in the
Development involving a	levelopment not involving ground distur	bance;
place or precinct of archaeological potential	vorks involving excavation within an are previous development application and th ealised when that permit was acted upo archaeological sensitivity in that process	e archaeological potential was n or the site was found not to be of

Exempt Development	Qualifications	
	 (c) minor excavations where a suitably qualified person has prepared an archaeological impact assessment and determined that there is no chance of disturbance to significant archaeological values; 	
	 (d) removal of non-significant deposits by a suitably qualified person to test, confirm or refine an archaeological assessment and temporarily expose underlying deposits without disturbing them; 	
	(e) excavation of land to a depth of not more than 1m on a site provided it is within an existing building that is not listed as a local heritage place; or	
	 (f) excavation of land to a depth of not more than 0.3m and not more than 20m² in area on a site provided it is for the purposes of minor building works and structures. 	
Involving development to significant trees	The pruning of a tree to improve its health or appearance provided its normal growth habit is not retarded.	
signs	All signs, excluding any associated excavation works on a place or precinct of archaeological potential not exempt from this code ³ .	

C6.5 Use Standards

C6.5.1 There are no Use Standards in this code.

C6.6 Development Standards for Local Heritage Places

Objective:	That the demolition or removal of buildings do not cause an unacceptable impact on the local historic heritage significance of local heritage places.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	Demolition or removal of buildings on a local heritage place must not cause an unacceptable impact on the local historic heritage significance of the place, having regard to:
		(a) the physical condition of the local heritage place;
		 (b) the extent and rate of deterioration of the building or structure;
		(c) the safety of the building or structure;
		(d) the streetscape or setting in which the building or

³ Standards for signs located on land in a local heritage place, local heritage precinct or local historic landscape precinct are contained in the Signs Code.

the historic heritage values of the local heritage place as identified in the relevant Local
Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person;
any options to reduce or mitigate deterioration;
whether demolition is a reasonable option to secure the long-term future of a building or structure; and

C6.6.2 Site coverage

Objective:	That site coverage is compatible with the local historic heritage significance of local heritage places.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable	Solution.	The site coverage must be compatible with the local historic heritage significance of a local heritage place, having regard to:
		(a) the topography of the site; and
		 (b) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person.

C6.6.3 Height and bulk of buildings

Objective:	That the height and bulk of buildings are compatible with the local historic heritage significance of local heritage places.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	The height and bulk of buildings must be compatible with the local historic heritage significance of a local

heritage place, having regard to:
 (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person;
 (b) the character and appearance of the existing building or place;
 (c) the height and bulk of other buildings in the surrounding area; and
(d) the setting of the local heritage place.

C6.6.4	Siting of buildings and structures
--------	------------------------------------

Objective:	That the siting of buildings is compatible with the local historic heritage significance of local heritage places.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	 The front, side and rear setbacks of a building must be compatible with the local historic heritage significance of the place, having regard to: (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person;
		(b) the topography of the site;
		(c) the size, shape, and orientation of the lot; and
		(d) the setbacks of other buildings in the surrounding area.

C6.6.5	Fences
--------	--------

Objective:	That fences are compatible with the local historic heritage significance of local heritage places.	
Acceptable Solutions		Performance Criteria
A1		P1
New fences and gates on local heritage places must be designed and constructed to match existing original fences on the site.		New fences and gates must be compatible with the local historic heritage significance of a local heritage place, having regard to:
		 (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person;
		(b) the architectural style of the buildings on the site;
		(c) the dominant fencing style in the setting;
		(d) the original or previous fences on the site; and

(e) the p	proposed height and location of the fence.
-----------	--

C6.6.6 Roof form and materials

Objective:	That roof form and materials are compatible with the local historic heritage significance of local heritage places.		
Acceptable Sol	utions	Performance Criteria	
A1		P1	
Replacement roofs on local heritage places which will be visible from any road or public open space adjoining the site, must be of a form and material to		Roof form and materials must be compatible with the local historic heritage significance of a local heritage place, having regard to:	
match the existing roof being replaced.		 (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person; 	
		 (b) the design, period of construction and materials of the building on the site that the roof directly relates to; 	
		 (c) the dominant roofing style and materials in the setting; and 	
		(d) the streetscape.	

C6.6.7 Building alterations, excluding roof form and materials

ľ

Objective:	That building alterations, excluding roof form and materials, are compatible with the local historic heritage significance of local heritage places.		
Acceptable So	lutions	Performance Criteria	
A1		P1	
No Acceptable Solution.		Building alterations, excluding roof form and materials, of an existing building that is a local heritage place must be compatible with and not detract from the local historic heritage significance of the place, having regard to:	
		 (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person; 	
		(b) the design, period of construction and materials	

of the building on the site that the building alterations most directly relate to;
(c) the dominant external building materials in the setting; and
(d) the streetscape.

C6.6.8 Outbuildings and structures

Objective:	That the siting of outbuildings and structures are compatible with the local historic heritage significance of local heritage places.		
Acceptable Sc	lutions	Performance Criteria	
A1		P1	
 Outbuildings and structures on local heritage places must: (a) not be located in the front setback; (b) not be visible from any road or public open space adjoining the site; (c) not have a side that is longer than 3m; (d) have a gross floor area less than 9m²; (e) have a combined total area of all outbuildings on the site of not more than 20m²; (f) have a maximum height less than 2.4m above existing ground level; (g) not have a maximum change of level as a result of cut or fill of more than 1m; and (h) not encroach on any service easement or be 		 Outbuildings and structures must be compatible with the local historic heritage significance of a local heritage place, having regard to: (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person; (b) the bulk, form and size of buildings on the site; (c) the bulk, form and size of the proposed outbuilding or structure; (d) the external materials, finishes and decoration of the outbuilding or structure; and (e) the visibility of the outbuilding or structure from 	
located within 1m of any underground service. (e) the visibility of	(e) the visibility of the outbuilding or structure from any road or public open space adjoining the site		

T

Objective:	That driveways and parking for non-residential purposes are compatible with the local historic heritage significance of local heritage places.			
Acceptable So	lutions	Performance Criteria		
A1		P1		
Driveways and parking areas for non-residential purposes on local heritage places must be located behind the building line of buildings located or proposed on a site.		Driveways and parking areas for non-residential purposes must be compatible with the local historic heritage significance of a local heritage place, having regard to:		
		 (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person; 		
		(b) the loss of any building fabric;		
		(c) the removal of gardens or vegetated areas;		
		(d) parking availability in the surrounding area;		
		(e) vehicle and pedestrian traffic safety; and		
		(f) the streetscape.		

C6.6.9 Driveways and parking for non-residential purposes

C6.6.10	Removal, destruction or lopping of trees, or removal of vegetation, that is specifically part of a local
	heritage place

Objective:	That the removal, destruction or lopping of trees or the removal of vegetation that is specifically part of a local heritage place does not impact on the local historic heritage significance of the place.	
Acceptable S	Solutions	Performance Criteria
A1		P1
No Acceptable Solution.		 The removal, destruction or lopping of trees or the removal of vegetation which is specifically part of a local heritage place listed in the relevant Local Provisions Schedule, must not cause an unreasonable impact on the local historic heritage significance of a local heritage place, having regard to: (a) the historic heritage values of the local heritage place as identified in the relevant Local Provisions Schedule, or if there are no historic heritage values identified in the relevant Local
		Provisions Schedule, the historic heritage values as identified in a report prepared by a suitably qualified person;
		(b) the age and condition of the tree or vegetation;
		(c) the size and form of the tree or vegetation;
		 (d) the importance of the tree or vegetation to the local historic heritage significance of a local heritage place; and
		(e) any advice by a suitably qualified person.

Development Standards for Local Heritage Precincts and Local Historic C6.7 Landscape Precincts

C6.7.1	Demolition	within	a local	heritage	precinct
00.7.1	Donnondon		aiooui	nonago	p1001101

Objective: That demolition within a local heritag the local historic heritage significanc		ge precinct does not have an unacceptable impact on ce of the precinct.	
Acceptable Solutions		Performance Criteria	
A1 Within a local he building, works of walls and outbuil (a) not be on a (b) not be visib space; and (c) not involve specifically	eritage precinct, demolition of a or fabric, including trees, fences,	 P1 Within a local heritage precinct, demolition of a building, works or fabric, including trees, fences, walls and outbuildings, must not cause an unacceptable impact on the local historic heritage significance of the local heritage precinct as identified in the relevant Local Provisions Schedule, having regard to: (a) the physical condition of the building, works, structure or trees; (b) the extent and rate of deterioration of the building, works, structure or trees; (c) the safety of the building, works, structure or trees; (d) the streetscape in which the building, works, structure or trees is located; (e) the special or unique contribution that the building, works, structure or trees makes to the streetscape or townscape values of the local heritage precinct identified in the relevant Local Provisions Schedule; (f) any options to reduce or mitigate deterioration; (g) whether demolition is a reasonable option to secure the long-term future of a building. works or structure; and 	

T

C6.7.2	Demolition within a local historic landscape precinct
--------	---

-	That demolition within a local historic landscape precinct does not have an unacceptable impact on the local historic heritage significance of the precinct.	
Acceptable Solutions		Performance Criteria
A1		P1
of a building, work including trees, fe (a) not be on a lo (b) not be visible space; and (c) not involve a specifically p	toric landscape precinct, demolition ks, fabric or landscape elements ences, walls and outbuildings must: ocal heritage place; e from any road or public open value, feature or characteristic art of a precinct listed in the al Provisions Schedule.	 Within a local historic landscape precinct, demolition of a building, works, fabric or landscape elements including trees, fences, walls and outbuildings, must not cause an unacceptable impact on the local historic heritage significance of the local historic landscape precinct as identified in the relevant Local Provisions Schedule, having regard to: (a) the physical condition of the building, works, structure or trees; (b) the extent and rate of deterioration of the building, works, structure or trees; (c) the safety of the building, works, structure or trees; (d) the special or unique contribution that the building, works, structure or trees makes to the landscape values of the local historic landscape precinct identified in the relevant Local Provisions Schedule; (e) any options to reduce or mitigate deterioration; (f) whether demolition is a reasonable option to secure the long-term future of a building, works or structure; and (g) any economic considerations.

Objective:	That development within a local heritage precinct or a local historic landscape precinct is sympathetic to the character of that particular precinct.		
Acceptable Solutions		Performance Criteria	
A1		P1.1	
 Within a local he landscape precir demolition, must (a) not be on a (b) not be visibl space; and (c) not involve a specifically plocal historic 	ritage precinct or local historic net, building and works, excluding : local heritage place; e from any road or public open a value, feature or characteristic part of a local heritage precinct or c landscape precinct listed in the cal Provisions Schedule.	 P1.1 Within a local heritage precinct, design and siting of buildings and works, excluding demolition, must be compatible with the local heritage precinct, except if a local heritage place of an architectural style different from that characterising the precinct, having regard to: (a) the streetscape or townscape values identified in the local heritage precinct, as identified in the local heritage precinct, as identified in the local heritage precinct, as identified in the relevant Local Provisions Schedule; (b) the character and appearance of the surrounding area; (c) the height and bulk of other buildings in the surrounding area; and (e) any relevant design criteria or conservation policies for the local heritage precinct, as identified in the relevant Local Provisions Schedule. P1.2 Within a local heritage precinct, extensions to existing buildings must be compatible with the local heritage precinct, having regard to: (a) the streetscape or townscape values identified in the local heritage precinct, as identified in the relevant Local Provisions Schedule. (b) the streetscape or townscape values identified in the local heritage precinct, as identified in the relevant Local Provisions Schedule; (b) the character and appearance of the local heritage precinct, as identified in the surrounding area; (c) the height and bulk of other buildings in the surrounding area; (d) the setbacks of other buildings in the surrounding area; (e) any relevant design criteria or conservation policies for the local heritage precinct, as identified in the relevant Local Provisions Schedule; 	

C6.7.3 Buildings and works, excluding demolition

	Schedule.
	P1.3
	Within a local historic landscape precinct, design and siting of buildings and works, excluding demolition, must be compatible with the local historic landscape precinct, having regard to:
	 (a) the landscape values identified in the statement of local historic heritage significance for the local historic landscape precinct, as identified in the relevant Local Provisions Schedule; and
	 (b) any relevant design criteria or conservation policies for the local historic landscape precinct, as identified in the relevant Local Provisions Schedule.
A2	P2
Within a local heritage precinct, new front fences and gates must be designed and constructed to match the existing original fences on the site.	Within a local heritage precinct, new front fences and gates must be compatible with the local heritage precinct, having regard to:
	 (a) the streetscape or townscape values identified in the local historic heritage significance of the local heritage precinct, as identified in the relevant Local Provisions Schedule;
	(b) height, form, style and materials of the proposed fence; and
	(c) the style, characteristics and setbacks of fences and gates in the surrounding area.

Development Standards for Places or Precincts of Archaeological C6.8 Potential

C6.8.1	Building and Works
--------	--------------------

Objective:	That building and works on a place or precinct of archaeological potential is implemented in a manner that seeks to retain or protect, preserve or otherwise appropriately manage archaeological evidence.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	Building and works on places or precincts of archaeological potential must not cause an unacceptable impact on archaeological evidence, having regard to:
		 (a) the nature of the archaeological evidence, either known or potential;
		 (b) measures proposed to investigate the archaeological evidence to confirm statements of potential;
		 (c) strategies to avoid, minimise or control impacts arising from building, works and demolition;
		(d) measures proposed to preserve significant archaeological evidence in situ; and
		 (e) any advice contained in a statement of archaeological potential.

C6.9 **Significant Trees**

C6.9.1 Significant Trees

Objective:	That significant trees are not unnecessarily destroyed and are managed in a way that maintains their health, structural stability and appearance.	
Acceptable So	plutions	Performance Criteria
A1		P1
No Acceptable	Solution.	Works involving construction, soil disturbance or soil compaction within the tree protection zone of a significant tree must not impact the health and appearance of the tree, and be supported by a written statement to that effect prepared by a suitably qualified person.

A2	P2
No Acceptable Solution.	Works requiring the removal of a listed tree or which may impact on the health, structural stability or appearance of a listed tree must demonstrate:
	 (a) that there are no feasible alternatives which could be implemented to avoid impacting on the tree and the proposed methodology of the works incorporates measures to minimise and mitigate any damage to the tree; and
	 (b) there are environmental, economic or safety reasons of greater value to the community than the cultural significance of the tree; or
	 (c) the tree is determined to be dead or dying based on a written statement to that effect prepared by a suitably qualified person.

C6.10 Development Standards for Subdivision

C6.10.1 Lot design on a Local Heritage Place

Objective:	That subdivision does not cause an unacceptable impact on the local historic heritage significance of local heritage places.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	Subdivision must not cause an unacceptable impact on the local historic heritage significance of a local heritage place, having regard to:
		 (a) the local historic heritage significance of the local heritage place identified in the relevant Local Provisions Schedule;
		(b) the historic development pattern of the area;
		 (c) the separation of buildings or structures from their original setting;
		(d) the lot sizes, dimensions, frontage, access and orientation;
		(e) the suitability of the proposed lots for their intended uses; and
		(f) the removal of vegetation, trees or garden settings.

Objective:	That:
	 (a) subdivision within a local heritage precinct is consistent with historic patterns of development; and
	(b) subdivision within a local historic landscape precinct is compatible with the character of the precinct.

C6.10.2	Lot design for a Local Heritage Precinct or a Local Historic Landscape Precinct
---------	---

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	 Subdivision must be compatible with the local historic heritage significance of a local heritage precinct or a local historic landscape precinct, as identified in the relevant Local Provisions Schedule, having regard to: (a) any relevant design criteria or conservation policy for a local heritage precinct or local historic landscape precinct, as identified in the relevant Local Provisions Schedule; and (b) the historic pattern of subdivision of the precinct.

C6.10.3 Subdivision works for places or precincts of archaeological potential

Objective:	That works associated with subdivision, including infrastructure, do not increase the likelihood of adverse impact on a place or precinct of archaeological potential.	
Acceptable Sol	utions	Performance Criteria
A1		P1
No Acceptable S	Solution.	Works associated with subdivision must not increase the likelihood of adverse impact on archaeological evidence on places or precincts of archaeological potential, having regard to:
		 (a) the nature, extent and significance of the archaeological evidence existing on the land;
		 (b) any significant impact upon archaeological evidence or potential;
		 (c) any increased likelihood of future development that is incompatible with a place or precinct of archaeological potential;
		 (d) the statement of archaeological potential for the place or precinct identified in the relevant Local Provisions Schedule; and
		(e) any advice contained in a statement of archaeological potential.

Tasmanian Planning Scheme – State Planning Provisions

C7.0 Natural Assets Code

C7.1 Code Purpose

The purpose of the Natural Assets Code is:

- C7.1.1 To minimise impacts on water quality, natural assets including native riparian vegetation, river condition and the natural ecological function of watercourses, wetlands and lakes.
- C7.1.2 To minimise impacts on coastal and foreshore assets, native littoral vegetation, natural coastal processes and the natural ecological function of the coast.
- C7.1.3 To protect vulnerable coastal areas to enable natural processes to continue to occur, including the landward transgression of sand dunes, wetlands, saltmarshes and other sensitive coastal habitats due to sea-level rise.
- C7.1.4 To minimise impacts on identified priority vegetation.
- C7.1.5 To manage impacts on threatened fauna species by minimising clearance of significant habitat.

C7.2 Application of this Code

- C7.2.1 This code applies to development on land within the following areas:
 - (a) a waterway and coastal protection area;
 - (b) a future coastal refugia area; and
 - (c) a priority vegetation area only if within the following zones:
 - (i) Rural Living Zone;
 - (ii) Rural Zone;
 - (iii) Landscape Conservation Zone;
 - (iv) Environmental Management Zone;
 - (v) Major Tourism Zone;
 - (vi) Utilities Zone;
 - (vii) Community Purpose Zone;
 - (viii) Recreation Zone;
 - (ix) Open Space Zone;
 - (x) Future Urban Zone;
 - (xi) Particular Purpose Zone; or
 - (xii) General Residential Zone or Low Density Residential Zone, only if an application for subdivision.
- C7.2.2 This code does not apply to use.

C7.3 Definition of Terms

C7.3.1 III this code, unless the contrary intention appear	C7.3.1	In this code, unless the contrary intention appears:
--	--------	--

Term	Definition
coastal values	means the values of coastal areas derived from their coastal habitat and vegetation, physical elements, landscape values, recreational values and economic values and the processes and functions that underpin them.
future coastal refugia	means land where coastal processes are likely to occur naturally and can continue to occur, including the landward transgression of sand dunes, wetlands, saltmarshes, and other sensitive coastal habitats due to sea-level rise.
future coastal refugia area	means land shown on an overlay map in the relevant Local Provisions Schedule, as within a future coastal refugia area.
littoral vegetation	means vegetation adjacent to a sea, lake or river that is close to the shore. It includes the intertidal zone to high water mark and can include wetlands.
natural streambank and streambed condition	means the natural rate of erosion or accretion of the bank and bed of a watercourse and natural hydrological processes, as determined using <i>The Tasmanian River Condition Index Book 2 Hydrology User's Manual and Book 3 Physical Form Field Manual.</i>
natural assets	means biodiversity, environmental flows, natural streambank and streambed condition, riparian vegetation, littoral vegetation, water quality, wetlands, river condition and waterway and/or coastal values.
priority vegetation	 means native vegetation where any of the following apply: (a) it forms an integral part of a threatened native vegetation community as prescribed under Schedule 3A of the <i>Nature Conservation Act 2002</i>; (b) is a threatened flora species; (c) it forms a significant habitat for a threatened fauna species; or (d) it has been identified as native vegetation of local importance.
priority vegetation area	means land shown on an overlay map in the relevant Local Provisions Schedule, as within a priority vegetation area.
residual impacts	means those environmental effects predicted to remain after the initial effects of development have been avoided or minimised through design.

Term	Definition
riparian vegetation	means vegetation found within or adjacent to watercourses, wetlands, lakes and recharge basins.
river condition	means condition of a waterway as determined using the <i>Tasmanian</i> <i>River Condition Index.</i>
significant habitat	 means the habitat within the known or core range of a threatened fauna species, where any of the following applies: (a) is known to be of high priority for the maintenance of breeding populations throughout the species' range; or (b) the conversion of it to non-priority vegetation is considered to result in a long-term negative impact on breeding populations of the threatened fauna species.
threatened fauna species	means listed under the <i>Threatened Species Protection Act 1995</i> or listed as threatened or migratory under the <i>Environment Protection and</i> <i>Biodiversity Conservation Act 1999.</i>
threatened flora species	means listed under the <i>Threatened Species Protection Act 1995</i> or as threatened under <i>the Environment Protection and Biodiversity</i> <i>Conservation Act 1999</i> .
waterway and coastal protection area	 means land: (a) shown on an overlay map in the relevant Local Provisions Schedule as within a waterway and coastal protection area; or (b) within the relevant distance from a watercourse, wetland, lake or the coast shown in the Table C7.3 below, but does not include a piped watercourse or piped drainage line.
	If an inconsistency for the width exists between Table C7.3 and the area shown on the overlay map, the greater distance prevails, excluding the width measured from the high water mark of tidal waters where the distance shown on the overlay map in the relevant Local Provisions Schedule prevails.
	The depiction of a watercourse, or a section of a watercourse on an overlay map in the relevant Local Provisions Schedule, is definitive regardless of the actual area of the catchment.
waterway values	means the values of watercourses and wetlands derived from their aquatic habitat and riparian vegetation, physical elements, landscape function, recreational function and economic function.

Table C7.3 Spatial Extent of Waterway and Coastal Protection Areas

	xtent of Waterway and Coastal Protection Areas	Width	
Class 1:			
Watercourses named on the 1:100,000 topographical series maps, lakes, artificial water			
storages	(other than farm dams), and the high water mark of tidal waters.		
Class 2:		30m	
	urses from the point where their catchment exceeds 100ha.	20m	
Class 5.			
	urses carrying running water for most of the year between the points where their of the form 50 has to 100 has		
catchment is from 50ha to 100ha.			
	watercourses carrying running water for part or all of the year for most years.

Inver Residential Zone; General Residential Zone; Low Density Residential Zone; Urban Mixed Use Zone; Local Business Zone; General Business Zone; Central Business Zone; Light Industrial Zone;		

C7.4 Use or Development Exempt from this Code

- C7.4.1 The following use or development is exempt from this code:
 - (a) works by or on behalf of the Crown, State authority, or council to remedy an unacceptable risk to public or private safety or to mitigate or prevent environmental harm;
 - (b) development assessed as a Level 2 Activity;
 - (c) clearance of native vegetation within a priority vegetation area,
 - (i) on existing pasture or crop production land; or
 - (ii) if the vegetation is within a private garden, public garden or park, national park, or within State-reserved land or a council reserve,

provided the native vegetation is not protected by legislation, a permit condition, an agreement made under section 71 of the Act, or a covenant;

- (d) forest practices or forest operations in accordance with a forest practices plan certified under the Forest Practices Act 1985, unless for the construction of a building or the carrying out of any associated development;
- (e) works by or on behalf of the Crown, State authority, or council for the protection of a water supply, watercourse, lake, wetland, or tidal waters or coastal assets as part of an endorsed or approved management plan;
- (f) coastal protection works by or on behalf of the Crown, State authority, or council that have been designed by a suitably qualified person; and
- (g) consolidation of lots.

C7.5 **Use Standards**

C7.5.1 There are no Use Standards in this code.

C7.6 **Development Standards for Buildings and Works**

C7.6.1 Buildings and works within a waterway and coastal protection area or a future coastal refugia area

	Wetlands and Waterways Works Manual; and
	(n) the guidelines in the <i>Tasmanian Coastal Works Manual</i> .
	P1.2
	Buildings and works within the spatial extent of tidal waters must be for a use that relies upon a coastal location to fulfil its purpose, having regard to:
	 (a) the need to access a specific resource in a coastal location;
	 (b) the need to operate a marine farming shore facility;
	 (c) the need to access infrastructure available in a coastal location;
	 (d) the need to service a marine or coastal related activity;
	(e) provision of essential utility or marine infrastructure; or
	(f) provisions of open space or for marine-related educational, research, or recreational facilities.
A2	P2.1
Buildings and works within a future coastal refugia area must be located within a building area on a sealed plan approved under this planning scheme.	Buildings and works within a future coastal refugia area must allow for natural coastal processes to continue to occur and avoid or minimise adverse impacts on natural assets, having regard to:
	 (a) allowing for the landward transgression of sand dunes and the landward colonisation of wetlands, saltmarshes and other coastal habitats from adjacent areas;
	 (b) avoiding the creation of barriers or drainage networks that would prevent future tidal inundation;
	 (c) allowing the coastal processes of sand deposition or erosion to continue to occur;
	 (d) the need to group new facilities with existing facilities, where reasonably practical;
	(e) the impacts on native vegetation;
	(f) minimising cut and fill;
	 (g) building design that responds to the particular size, shape, contours or slope of the land;
	(h) the impacts of sea-level rise on natural coastal

	processes and coastal habitat;
	 the environmental best practice guidelines in the Wetlands and Waterways Works Manual; and
	(j) the guidelines in the <i>Tasmanian Coastal Works Manual</i> .
	P2.2
	Buildings and works within a future coastal refugia area must be for a use that relies upon a coastal location to fulfil its purpose, having regard to:
	 (a) the need to access a specific resource in a coastal location;
	 (b) the need to operate a marine farming shore facility;
	 (c) the need to access infrastructure available in a coastal location;
	 (d) the need to service a marine or coastal related activity;
	(e) provision of essential utility or marine infrastructure; and
	(f) provision of open space or for marine-related educational, research, or recreational facilities.
A3	P3
Development within a waterway and coastal protection area or a future coastal refugia area must not involve a new stormwater point discharge into a watercourse, wetland or lake.	Development within a waterway and coastal protection area or a future coastal refugia area involving a new stormwater point discharge into a watercourse, wetland or lake must avoid or minimise adverse impacts on natural assets, having regard to:
	 (a) the need to minimise impacts on water quality; and
	(b) the need to mitigate and manage any impacts likely to arise from erosion, sedimentation or runoff.
A4	P4.1
Dredging or reclamation must not occur within a waterway and coastal protection area or a future coastal refugia area.	Dredging or reclamation within a waterway and coastal protection area or a future coastal refugia area must minimise adverse impacts on natural coastal processes and natural assets, having regard to:
	(a) impacts caused by erosion, siltation,

	sedimentation and runoff;
	(b) impacts on riparian or littoral vegetation;
	(c) the need to avoid land filling of wetlands;
	(d) impacts on sand movement and wave action; and
	(e) the potential for increased risk to inundation of adjacent land.
	P4.2
	Dredging or reclamation within a waterway and coastal protection area or a future coastal refugia area must be necessary:
	 (a) to continue an existing use or development on adjacent land; or
	(b) for a use which relies upon a coastal location to fulfil its purpose, having regard to:
	(i) the need to access a specific resource in a coastal location;
	(ii) the need to operate a marine farming shore facility;
	(iii) the need to access infrastructure available in a coastal location;
	(iv) the need to service a marine or coastal related activity;
	 (v) provision of essential utility or marine infrastructure; and
	(vi) provision of open space or for marine- related educational, research, or recreational facilities.
A5	Р5
Coastal protection works or watercourse erosion or inundation protection works must not occur within a waterway and coastal protection area or a future coastal refugia area.	Coastal protection works or watercourse erosion or inundation protection works within a waterway and coastal protection area or a future coastal refugia area must be designed by a suitably qualified person and minimise adverse impacts on natural coastal processes, having regard to:
	(a) impacts on sand movement and wave action; and
	(b) the potential for increased risk of inundation to adjacent land.

Objective:	That clearance of native vegetation within a priority vegetation area:
	(a) does not result in unreasonable loss of priority vegetation;
	(b) is appropriately managed to adequately protect identified priority vegetation; and
	(c) minimises and appropriately manages impacts from construction and development activities

Acceptable Solutions	Performance Criteria
A1	P1.1
Clearance of native vegetation within a priority vegetation area must be within a building area on a	Clearance of native vegetation within a priority vegetation area must be for:
sealed plan approved under this planning scheme.	 (a) an existing use on the site, provided any clearance is contained within the minimum area necessary to be cleared to provide adequate bushfire protection, as recommended by the Tasmania Fire Service or an accredited person;
	 (b) buildings and works associated with the construction of a single dwelling or an associated outbuilding;
	 (c) subdivision in the General Residential Zone or Low Density Residential Zone;
	 (d) use or development that will result in significant long term social and economic benefits and there is no feasible alternative location or design;
	 (e) clearance of native vegetation where it is demonstrated that on-going pre-existing management cannot ensure the survival of the priority vegetation and there is little potential for long-term persistence; or
	 (f) the clearance of native vegetation that is of limited scale relative to the extent of priority vegetation on the site.
	P1.2
	Clearance of native vegetation within a priority vegetation area must minimise adverse impacts on priority vegetation, having regard to:
	 (a) the design and location of buildings and works and any constraints such as topography or land hazards;

C7.6.2 Clearance within a priority vegetation area

 (b) any particular requirements for the buildings and works;
 (c) minimising impacts resulting from bushfire hazard management measures through siting and fire-resistant design of habitable buildings;
 (d) any mitigation measures implemented to minimise the residual impacts on priority vegetation;
(e) any on-site biodiversity offsets; and
(f) any existing cleared areas on the site.

C7.7 Development Standards for Subdivision

Objective:	 e: That: (a) works associated with subdivision within a waterway and coastal protection area or a future coastal refugia area will not have an unnecessary or unacceptable impact on natural assets; and (b) future development likely to be facilitated by subdivision is unlikely to lead to an unnecessary or unacceptable impact on natural assets. 	
Acceptable So	lutions	Performance Criteria
A1		P1
 within a waterway future coastal registry (a) be for the orbuildings; (b) be required council, or a (c) be required (d) be for the orbuilding (e) not include fencing), but hazard many within a waterway 	t proposed in a plan of subdivision, ay and coastal protection area or a efugia area, must: creation of separate lots for existing I for public use by the Crown, a a State authority; I for the provision of Utilities; consolidation of a lot; or any works (excluding boundary uilding area, services, bushfire magement area or vehicular access terway and coastal protection area pastal refugia area.	 Each lot, or a lot proposed in a plan of subdivision, within a waterway and coastal protection area or a future coastal refugia area, must minimise adverse impacts on natural assets, having regard to: (a) the need to locate building areas and any associated bushfire hazard management area to be outside a waterway and coastal protection area or a future coastal refugia area; and (b) future development likely to be facilitated by the subdivision.

C7.7.1 Subdivision within a waterway and coastal protection area or a future coastal refugia area

Objective:	 That: (a) works associated with subdivision will not have an unnecessary or unacceptable imparent on priority vegetation; and (b) future development likely to be facilitated by subdivision is unlikely to lead to an unnecessary or unacceptable impact on priority vegetation. 		
Acceptable Solutions		Performance Criteria	
A1		P1.1	
Each lot, or a lot proposed in a plan of subdivision, within a priority vegetation area must:		Each lot, or a lot proposed in a plan of subdivision, within a priority vegetation area must be for:	
 existing b be require council, o be require be require be for the hot includ fencing), h 	purposes of creating separate lots for uildings; ed for public use by the Crown, a r a State authority; ed for the provision of Utilities; consolidation of a lot; or e any works (excluding boundary building area, bushfire hazard eent area, services or vehicular access riority vegetation area.	 (a) subdivision for an existing use on the site, provided any clearance is contained within the minimum area necessary to be cleared to provide adequate bushfire protection, as recommended by the Tasmania Fire Service or an accredited person; (b) subdivision for the construction of a single dwelling or an associated outbuilding; (c) subdivision in the General Residential Zone or Low Density Residential Zone; (d) use or development that will result in significant long term social and economic benefits and there is no feasible alternative location or design; (e) subdivision involving clearance of native vegetation where it is demonstrated that ongoing pre-existing management cannot ensure the survival of the priority vegetation and there is little potential for long-term persistence; or (f) subdivision involving clearance of native vegetation that is of limited scale relative to the extent of priority vegetation on the site. P1.2 Works association with subdivision within a priority vegetation area must minimise adverse impacts on priority vegetation, having regard to: (a) the design and location of any works, future development likely to be facilitated by the subdivision, and any constraints such as topography or land hazards; 	

C7.7.2 Subdivision within a priority vegetation area

(t		any particular requirements for the works and future development likely to be facilitated by the subdivision;
(0		the need to minimise impacts resulting from bushfire hazard management measures through siting and fire-resistant design of any future habitable buildings;
(c	,	any mitigation measures implemented to minimise the residual impacts on priority vegetation;
(6	e)	any on-site biodiversity offsets; and
(f	f)	any existing cleared areas on the site.

C8.0 Scenic Protection Code

C8.1 Code Purpose

The purpose of the Scenic Protection Code is:

C8.1.1 To recognise and protect landscapes that are identified as important for their scenic values.

C8.2 Application of this Code

- C8.2.1 This code applies to development on land within a scenic protection area or scenic road corridor and only if within the following zones:
 - (a) Rural Living Zone;
 - (b) Rural Zone;
 - (c) Agriculture Zone;
 - (d) Landscape Conservation Zone;
 - (e) Environmental Management Zone; or
 - (f) Open Space Zone.
- C8.2.2 This code does not apply to use.

C8.3 Definition of Terms

C8.3.1	In this code.	unless the co	ontrary intention	appears:
00.0.1				appears.

Term	Definition	
management objectives	means the management objectives for the scenic protection area or scenic road corridor as detailed in the scenic protection areas list in the relevant Local Provisions Schedule.	
scenic protection area	means an area shown on an overlay map in the relevant Local Provisions Schedule, as within a scenic protection area, and is listed and described in the scenic protection areas list in the relevant Local Provisions Schedule.	
scenic road corridor	 means: (a) an area shown on an overlay map in the relevant Local Provisions Schedule, as within a scenic road corridor; or (b) the area of land that is within: (i) 100m of the frontage to a road shown on an overlay map in the relevant Local Provisions Schedule as a scenic road; or (ii) where there is no frontage, 120m of the edge of the carriageway of a road shown on an overlay map in the relevant Local Provisions Schedule as a scenic road, and is listed and described in the scenic road corridors list in the relevant Local Provisions Schedule. 	
scenic value	means the specific characteristics or features of the landscape that collectively contribute to a scenic protection area or a scenic road corridor, as described in the scenic protection areas list or the scenic road corridors list in the relevant Local Provisions Schedule.	

C8.4 Use or Development Exempt from this Code

- C8.4.1 The following development is exempt from this code:
 - (a) planting or destruction of vegetation on existing pasture or crop production land, unless for the destruction of the following:
 - (i) exotic trees, other than part of an agricultural crop, more than 10m in height within a scenic road corridor; or
 - (ii) hedgerows adjoining a scenic road within a scenic road corridor,
 - (b) agricultural buildings and works, including structures for controlled environment agriculture, irrigation and netting, on land within an Agriculture Zone or Rural Zone, excluding the destruction of vegetation identified in C8.4.1(a);
 - (c) alterations or extensions to an existing building if:
 - the gross floor area is increased by not more than 25% from that existing at the effective date;
 - (ii) there is no increase in the building height; and
 - (iii) external finishes are the same or similar to the existing building;
 - (d) subdivision not involving any works;
 - (e) development subject to the Telecommunications Code; and
 - (f) any development or works associated with road construction within a scenic road corridor.

C8.5 Use Standards

C8.5.1 There are no Use Standards in this code.

C8.6 Development Standards for Buildings and Works

C8.6.1	Development within a scenic protection area
--------	---

Objective:	That:	
	value of a scenic protection a	es not cause an unreasonable reduction of the scenic area; and ause an unreasonable reduction of the scenic value of a
Acceptable S	Golutions	Performance Criteria
A1		P1.1
vegetation, within a scenic protection area must: (a) be on land not less than 50m in elevation		Destruction of vegetation within a scenic protection area must not cause an unreasonable impact on the scenic value of a scenic protection area, having regard to:
(b) not total	more than 500m ² in extent.	 (a) the nature of the vegetation to be removed; (b) the area of vegetation to be removed; (c) the topography of the site; (d) any visual impact on a skyline; (e) the nature of the reduction of the scenic value; and (f) the purpose of any management objectives identified in the relevant Local Provisions Schedule.
		P1.2
		Buildings or works within a scenic protection area must not cause an unreasonable reduction of the scenic value of a scenic protection area, having regard to:
		(a) the topography of the site;(b) the location of, and materials used in construction of, driveways or access tracks;
		 (c) proposed reflectance and colour of external finishes;
		 (d) design and proposed location of the buildings of works;
		(e) the extent of any cut or fill required;
		(f) any visual impact on a skyline;
		(g) any existing or proposed screening; and
		 (h) the purpose of any management objectives identified in the relevant Local Provisions Schedule.

Objective:	 That: (a) destruction of native vegetation or exotic vegetation does not cause an unreasonable loss of scenic value of scenic road corridors; and (b) buildings and works do not cause an unreasonable loss of the scenic value of scenic road corridors. 	
Acceptable Sol	utions	Performance Criteria
A1		P1
Destruction of exotic trees with a height more than 10m, native vegetation, or hedgerows within a scenic road corridor must not be visible from the scenic road.		Destruction of exotic trees with a height more than 10m, native vegetation, or hedgerows within a scenic road corridor must not cause an unreasonable reduction of the scenic value of the road corridor, having regard to:
		 (a) the nature, extent and location of the exotic trees, native vegetation and hedgerows; and (b) the purpose of any management objectives identified in the relevant Local Provisions Schedule.
A2		P2
-	ks within a scenic road corridor ble from the scenic road.	Buildings or works within a scenic road corridor must not cause an unreasonable reduction of the scenic value of the road corridor, having regard to:
		(a) the topography of the site;
		 (b) proposed reflectance and colour of external finishes;
		 (c) design and proposed location of the buildings or works;
		(d) the extent of any cut or fill required;
		(e) any existing or proposed screening;
		(f) the impact on views from the road; and
		 (g) the purpose of any management objectives identified in the relevant Local Provisions Schedule.

C8.6.2 Development within a scenic road corridor

C9.0 Attenuation Code

C9.1 Code Purpose

The purpose of the Attenuation Code is:

- C9.1.1 To minimise adverse impacts on the health, safety and amenity of sensitive use from activities which have the potential to cause emissions.
- C9.1.2 To minimise the likelihood for sensitive use to conflict with, interfere with, or constrain, activities which have the potential to cause emissions.

C9.2 Application of this Code

- C9.2.1 This code applies to:
 - (a) activities listed in Tables C9.1 and C9.2;
 - (b) sensitive uses; and
 - (c) subdivision if it creates a lot where a sensitive use could be established, within an attenuation area.
- C9.2.2 The code does not apply to attenuation areas between the activities listed in Tables C9.1 and C9.2 where those activities occur within the Light Industrial Zone, General Industrial Zone, Port and Marine Zone, and Utilities Zone.
- C9.2.3 The code does not apply to sensitive uses occurring within the Light Industrial Zone, General Industrial Zone, Port and Marine Zone, and Utilities Zone.
- C9.2.4 The code does not apply to a plant nursery or controlled environment agriculture activities occurring within the Rural Zone and Agriculture Zone.

C9.3 Definition of Terms

C9.3.1	In this code, unless the contrary intention appears:
--------	--

Term	Definition
aerated lagoon	means a lagoon with mechanical aerators sufficient to transfer the oxygen required for biological treatment of sewage and to maintain solids in suspension to undergo aerobic decomposition.
aerobic lagoon	means a lagoon where the water column is characterised by aerobic conditions, being where oxygen is freely available for biological purposes.
anaerobic lagoon	means a lagoon where the water column is characterised by anaerobic conditions, being where oxygen is totally depleted and oxidised nitrogen is absent.

Term	Definition
attenuation area	 means land that is: (a) within the boundary of an attenuation area shown on an overlay map in the relevant Local Provisions Schedule; or
	(b) within the relevant attenuation distance from an activity listed in Table C9.1 or C9.2, which is an existing activity or an activity for which a planning permit is in force.
	If an inconsistency exists between the relevant attenuation distance in Tables C9.1 or C9.2, and an attenuation area shown on an overlay map in the relevant Local Provisions Schedule, the distance shown on the overlay map applies.
attenuation distance	means the distance listed in Tables C9.1 and C9.2 for the relevant activity measured as the shortest distance from the boundary of the site on which the activity is located.
facultative lagoon	means a lagoon similar to an aerobic lagoon, but with lower energy input, sufficient to transfer the oxygen required to biological treatment of sewage but not to maintain solids in suspension which settle onto the lagoon floor and undergo anaerobic decomposition.
level 1 activity	means as defined in the Environmental Management and Pollution Control Act 1994.

C9.4 Use or Development Exempt from this Code

- C9.4.1 The following use or development is exempt from this code:
 - (a) use or development assessed as a level 2 activity; and
 - (b) additions or alterations to an existing building used for sensitive use, provided that the gross floor area does not increase by more than 50% or 100m², whichever is the greater, from that existing at the effective date.

C9.5 Use Standards

Objective:	That an activity with potential to cau unreasonable impact on an existing	tial to cause emissions is located so that it does not cause an n existing sensitive use.			
Acceptable Sol	utions	Perfo	rmance Criteria		
A1		P1			
The attenuation C9.1 or C9.2 mu (a) a site used existing; (b) a site that h use; or (c) land within Inner Resid Residential	area of an activity listed in Tables st not include: for a sensitive use which is has a planning permit for a sensitive the General Residential Zone, dential Zone, Low Density Zone, Rural Living Zone A, Rural e B, Village Zone or Urban Mixed	An ac cause (a) a (b) ((b) (1 1 1 1 1 1 1 (0 (0 (0 (0 (0) (0)	tivity listed in Tables C9.1 or C9.2 must not :: an unreasonable loss of amenity or unreasonable impacts on health and safety of a sensitive use which is existing, or has a planning permit; or unreasonable impacts on land within the relevant attenuation area that is in the General Residential Zone, Inner Residential Zone, Low Density Residential Zone, Rural Living Zone A, Rural Living Zone B, Village Zone or Urban Mixed Use Zone, having regard to: (i) operational characteristics of the activity; (ii) scale and intensity of the activity; (iii) degree of hazard or pollution that may be emitted from the activity; (iv) hours of operation of the activity; (v) nature of likely emissions such as noise, odour, gases, dust, particulates, radiation,		
		(vibrations or waste; (vi) existing emissions such as noise, odour, gases, dust, particulates, radiation, vibrations or words; and 		
		(vibrations or waste; and(vii) measures to eliminate, mitigate or manage emissions from the activity.		

C9.5.1 Activities with potential to cause emissions

Tasmanian Planning Scheme – State Planning Provisions

Objective:	That sensitive use located within an attenuation area does not interfere with or constrain the operation of an existing activity listed in Tables C9.1 or C9.2.			
Acceptable S	olutions	Performance Criteria		
A1		P1		
No Acceptable Solution.		Sensitive use within an attenuation area, must not interfere with or constrain an existing activity listed in Tables C9.1 or C9.2, having regard to:		
		 (a) the nature of the activity with potential to cause emissions including: 		
		(i) operational characteristics of the activity;		
		(ii) scale and intensity of the activity; and		
		(iii) degree of hazard or pollution that may be emitted from the activity;		
		(b) the nature of the sensitive use;		
		 (c) the extent of encroachment by the sensitive use into the attenuation area; 		
		 (d) measures in the design, layout and construction of the development for the sensitive use to eliminate, mitigate or manage effects of emissions of the activity; 		
		(e) any advice from the Director, Environment Protection Authority; and		
		(f) any advice from the Director of Mines.		

C9.5.2 Sensitive use within an attenuation area

C9.6 Development Standards for Subdivision

C9.6.1	Lot design
--------	------------

Objective:	appropriate levels of amenity;	with potential to cause emissions and enable
Acceptable So	blutions	Performance Criteria
A1		P1

	ch lot, or a lot proposed in a plan of subdivision, hin an attenuation area must:			, or a lot proposed in a plan of subdivision, n attenuation area must not result in the
(a)	be for the creation of separate lots for existing buildings;	•		I for a sensitive use to be impacted by ns, having regard to:
(b)	be for the creation of a lot where a building for a sensitive use can be located entirely outside	(a)		nature of the activity with the potential to se emissions, including:
	the attenuation area; or		(i)	operational characteristics of the activity;
(c)	not be for the creation of a lot intended for a		(ii)	scale and intensity of the activity; and
	sensitive use.		(iii)	degree of emissions from the activity; and
		(b)	the	intended use of the lot.

Table C9.1 Attenuation Distances

Activity		Attenuation Distance		
		Level 1 Activity	Level 2 Activity	
Abattoir or slaughterhouse (primary) The conduct of meat processing within the meaning of the <i>Primary Produce Safety Act</i> 2011, excluding rendering or fat extraction works – emissions such as odour, noise, dust and light pollution			1,000m	
Abrasive blasting The cleaning of materials by the abrasive action of any metal shot or mineral particulate propelled in a gaseous or liquid	Blasting in cabinets less than 5 cubic metres in volume or totally enclosed automatic blast cleaning units – emissions such as noise and dust.	100m	_	
medium.	All other types of operation – emissions such as noise and dust.	300m	-	
Agricultural produce processing works The conduct of works for the processing of vegetables, seed, grain, or any other agricultural crop by deep fat frying or roasting or boiling or drying through application of heat – emissions such as odour and noise.			300m	
Animal saleyard Yards for the holding of live animals pending sale, shipment or slaughter–emissions such as odour, noise and dust.		500m	-	
Aquaculture operation	Marine or estuarine operations - emissions such as odour and noise.	300m	-	
	Land operations - emissions such as odour and noise.	100m	-	
Bakery Excluding a bakery primarily selling produce directly to the public - emissions such as noise.		200m	-	
Beverage production (non-alcoholic) Beverage production plants with the capacit emissions such as odour and noise.	ty to produce more than 2000L per day -	300m	-	

Activity		Attenuation Distance	
		Level 1 Activity	Level 2 Activity
	ordance with the requirement of Sections 4 and 5 Suidelines 1999 – emissions such as odour, noise	100m	100m
	ion of beer by infusion, boiling or fermentation, or to produce more than 2000L per day - emissions	200m	500m
	n Schedule 2 clause 2(a) of the <i>Environmental</i> Act 1994 - emissions such as noise and dust.	-	2,000m
pottery goods, refractories or glass th	ion of any products such as bricks, tiles, pipes, nat are manufactured or are capable of being ed by fuel – emissions such as noise and dust.	200m	500m
Chemical works	The manufacture (through chemical reaction) of any inorganic chemical, including sulphuric acid, inorganic fertilisers, sodium silicate, lime or other calcium compound - emissions such as odour, noise and gases.	300m	1,000m
	The manufacture (through chemical reaction) or processing of any organic chemicals or chemical product or petrochemical - emissions such as odour, noise and gases.	500m	1,500m
Cidery	Bottling facilities only – emissions such as odour and noise.	300m	-
	Cider production facilities– emissions such as odour and noise.	500m	-

Activity		Attenuation Distance		
		Level 1 Activity	Level 2 Activity	
Composting works Excluding backyard composting for	Vegetation only - emissions such as odour and noise.	250m	500m	
domestic use, on-farm composting for use on agricultural land having the same owner as the land on which the compost is produced, and works in respect of silage for use on agricultural land.	Human or animal wastes - emissions such as odour and noise.	500m	1,000m	
Concrete batching plants The conduct of works for the production of o rock, aggregate or other similar materials, e products - emissions such as noise and dus	excluding the manufacture of concrete	200m	-	
Concrete or stone product manufacture The conduct of works to manufacture concr batching plants - emissions such as odour,		300m	-	
Crematoria Emissions such as odour and gases.		300m	_	
Dog kennels Commercial operations only – emissions su	ich as odour and noise.	300m	-	
Effluent irrigation scheme	Spray irrigation	200m	_	
Irrigation of land by treated sewage effluent.	Flood irrigation	50m	_	
	Drip irrigation	20m	-	
	Storage lagoon/holding dams	250m	-	
	Effluent transfer/irrigation pumps	50m	-	
Feedlot Intensive animal husbandry (excluding pigg such operation carried out at an abattoir, sla only of drought or other emergency feeding dust.	aughterhouse or saleyard or for the purpose	3,000m	-	
Fibreglass manufacture Manufacture of fibre-reinforced plastic prod	ucts - emissions such as odour and noise.	300m	_	

Activity		Attenuatio	n Distance

Fish processing The conduct of works for scaling, gilling, gu processing fish for sale, other than by freez processing of fish only in the course of a bu emissions such as odour and noise.	ing, chilling or packing, excluding the	250m	500m
Flour mill Grain or seed milling works, excluding non- emissions such as noise and dust.	commercial processing for on farm use -	300m	-
Frost fan Emissions such as noise.		2,000m	-
Fuel burning Excluding fuel burning associated with a domestic or on-farm use.	Waste incinerator: Wood waste - emissions such as odour, particles and gases.	100m	300m
	Waste incinerator: Plastic or rubber waste - emissions such as odour, particles and gases.	500m	1,000m
	Waste incinerator: Chemical, biomedical or organic waste - emissions such as odour, particles and gases.	500m	1,000m
	All other types of operation - emissions such as odour, particles and gases.	100m	300m
Gas pressure reduction facility A facility for altering the pressure between a gas transmission pipeline and a gas distribution system - emissions such as odour, noise and gases.		300m	-
Horse stables Commercial operations only – emissions su	uch as odour, noise and dust.	500m	-
Joinery Production of wooden furniture and househ flooring and mouldings - emissions such as		200m	-
Liquid waste spray application to land Spray application of liquid fruit or vegetable wastes, excluding spray application of treated sewage effluent	Primary treated Secondary treated	500m 200m	-

Activity		Attenuation Distance	
		Level 1 Activity	Level 2 Activity
Liquid waste treatment Lagoons for the treatment of wastewater, so and cider production, excluding sewage treat – emissions such as odour.	uch as treatment of wastewater for wineries atment plants ¹ and organic waste treatment	300m	-
Marinas Excluding maritime construction and mainte	enance works - emissions such as noise.	200m	_
Maritime construction and maintenance works The conduct of works for the construction, maintenance or repair of ships, vessels or floating platforms or structures, being works with the capacity to construct or repair ships, vessels or floating platforms or structures.	Organotin compounds used or removed from ships, vessels, or floating platforms or structures – emissions such as odour, noise, dust and gases.	500m	_
	All other types of operation – emissions such as odour, noise, dust and gases.	300m	-
Materials handling	Crushing or grinding.	750m	750m
Processing of chemicals, rubber, rock, ores and minerals by crushing, grinding, milling or separating into different sizes by sieving, air elutriation or in any other manner – emissions such as noise and dust.	Other methods.	500m	500m
Metal fabrication The fabrication of sheet metal, structural me excluding metallurgical works, and ferrous a such as noise and particles.	-	500m	_
Metal melting (ferrous and non-ferrous) The melting of ferrous or non-ferrous metal noise.	in a furnace – emissions such as odour and	300m	1,000m
Metallurgical works The conduct of metallurgical works as desc <i>Environmental Management and Pollution</i> of noise, dust and gases.	ribed in Schedule 2, clause 2(d) of the Control Act 1994 - emissions such as odour,	_	2,000m
Milk processing works The conduct of works at which milk is evapor manufacture of milk powder, cheese, butter emissions such as odour and noise.	prated or otherwise processed for the , ice cream or other similar dairy products –	100m	500m

 $^{1}\,\mbox{For sewage treatment plants, refer to Table C9.2.}$

Activity		Attenuation Distance	
		Level 1 Activity	Level 2 Activity
Milking shed (dairy) Milk shed operations on dairy farms – emis	sions such as odour, noise and dust.	300m	-
Mine	Open cut.	1,000m	2,000m
The extraction of any minerals, excluding a quarry or extractive pit - emissions such as noise, dust, ground vibration and shock waves.	Underground.	1,000m	1,000m
Motor bodyworks Panel beating, spray painting, and the like -	- emissions such as odour and noise.	100m	_
Motor racing or performance trials The conduct of facilities designed for motor vehicles or motor-driven boat racing competitions, or speed or performance trials – emissions such as odour, noise and dust.		3,000m	-
Oil and gas extraction and production Land or offshore, excluding gas extraction from landfill sites – emissions such as odour, noise and gases.		2,000m	-
Oil refinery The conduct of oil refinery works as described in Schedule 2, clause 1(c) of the <i>Environmental Management and</i> <i>Pollution Control Act 1994</i> .	Refining of recycled oil – emissions such as odour, noise and gases.	-	500m
	All other refining – emissions such as odour, noise and gases.	_	2,000m
Organic waste treatment The treatment of organic waste such as animal manures, and solid waste from fruit or vegetable processing, excluding sewage treatment plants ² and liquid waste treatment – emissions such as odour, gases and disease vectors.		500m	-
Piggery Intensive animal husbandry.	Less than 50 pigs – emissions such as odour and noise.	500m	-
	50 or more pigs – emissions such as odour and noise.	2,000m	-
Plant nurseries and controlled environment agriculture	With manure or refuse use – emissions such as odour.	300m	-
Excluding operations primarily selling directly to the public.	All other types of operation use – emissions such as odour.	100m	_

 $^{^{\}rm 2}$ For sewage treatment plants, refer to Table C9.2.

Activity		Attenuation Distance	
		Level 1 Activity	Level 2 Activity
Poultry farm Intensive animal husbandry – emissions suc	ch as odour, dust and noise.	500m	_
Pre-mix bitumen plant Works in which crushed or ground rock aggregates are mixed with bituminous or asphaltic materials for the purpose of producing road-building mixtures– emissions such as odour and noise.		500m	1,000m
Pulp and paper works The conduct of pulp and paper works as described in Schedule 2, clause 2(f) of the <i>Environmental Management and Pollution</i> <i>Control Act 1994.</i>	Process involving combustion of sulphur or sulphur-containing materials - emissions such as odour, noise, particles and gases.	_	5,000m
	All other processes - emissions such as odour, noise, particles and gases.	_	1,000m
Quarry or extractive pit Extraction of rock, gravel, sand or clay, excluding a mine – emissions such as noise, dust, ground vibration and shock waves.	No blasting, crushing or vibratory screening – emissions such as noise, dust, ground vibration and shock waves.	300m	300m
	Vibratory screening – emissions such as noise, dust, ground vibration and shock waves.	500m	500m
	Crushing or grinding – emissions such as noise, dust, ground vibration and shock waves.	750m	750m
	Blasting – emissions such as noise, dust, ground vibration and shock waves.	1,000m	1,000m
Rendering or fat extraction works The conduct of works at which animal, fish or grease trap wastes or other matter is processed or is capable of being processed by rendering or extraction or by some other means to produce tallow or fat or their derivatives or proteinaceous matter.	Processing of fish – emissions such as odour and noise.	500m	1,000m
	Processing of other matter – emissions such as odour and noise.	1,000m	1,500m

Activity		Attenuation	n Distance

Winery	Bottling facilities only – emissions such as odour and noise.	300m	_
	Wine making – emissions such as odour and noise.	500m	_
Woodchip mill	Less than 1000 tonnes per year production capacity - emissions such as noise and particles.	250m	-
	1000 tonnes to 20 000 tonnes per year production capacity - emissions such as noise and particles.	_	500m
	More than 20 000 tonnes per year production capacity - emissions such as noise and particles.	_	1,000m
Wood preservation works The conduct of wood preservation works as described in Schedule 2, clause 1(d) of the <i>Environmental Management and Pollution Control Act 1994</i> - emissions such as odour and noise.		-	300m
Wood processing works The conduct of works (other than works at	Sawmill - emissions such as noise and particles.	250m	500m
a builders supply yard, home improvement centre or firewood depot) at which timber is sawn, cut, compressed, milled, machined or kiln-dried.	All other types of operation (excluding joinery, firewood merchant or woodchip mill) - emissions such as noise and particles.	250m	1,000m

Activity	Attenuation Distance	
	Level 1 Activity	Level 2 Activity
Wool scouring, tannery or fellmongery The conduct of works for the scouring of wool or the commercial preservation or treatment or drying of animal skins or hides - emissions such as odour and noise.	250m	500m
Wrecking yard (automotive) Emissions such as noise and dust.	200m	-

Table C9.2 Attenuation Distances for Sewage Treatment Plant Processes

Activity (type of sewage treatment plant process)	Attenuation distance according to sewage treatment plant designed capacity (average dry weather flow) in kL/day or person equivalent (pe)				
	<275kL/day or <1000pe	<1375kL/day or <5000pe	<5500kL/day or <20000pe	<13750kL/day or <50000pe	>13750kL/day or >50000pe
Mechanical/biological treatment (includes aerated lagoons)	100m	200m	300m	400m	>400m
Aerobic lagoons	150m	350m	700m	1,000m	>1,000m
Facultative lagoons	300m	550m	700m	1,000m	>1,000m
Anaerobic lagoons	400m	700m	1,400m	2,200m	>2,200m

C10.0 Coastal Erosion Hazard Code

C10.1 Code Purpose

The purpose of the Coastal Erosion Hazard Code is:

- C10.1.1 To ensure that use or development subject to risk from coastal erosion is appropriately located and managed, so that:
 - (a) people, property and infrastructure are not exposed to an unacceptable level of risk;
 - (b) future costs associated with options for adaptation, protection, retreat or abandonment of property and infrastructure are minimised;
 - (c) it does not increase the risk from coastal erosion to other land or public infrastructure; and
 - (d) works to protect land from coastal erosion are undertaken in a way that provides appropriate protection without increasing risks to other land.

C10.1.2 To provide for appropriate use or development that relies upon a coastal location to fulfil its purpose.

C10.2 Application of this Code

- C10.2.1 This code applies to:
 - (a) use and development of land within a coastal erosion hazard area; or
 - (b) development identified in a report, that is lodged with an application, or required in response to a request under section 54 of the Act, as located on an actively mobile landform within the coastal zone.
- C10.2.2 The planning authority may only make a request under clause C10.2.1(b) where it reasonably believes, based on information in its possession, that the land is located on an actively mobile landform within the coastal zone.
- C10.2.3 For the purposes of C10.5.1, Residential and Visitor Accommodation are not Use Classes that are reliant on a coastal location.

C10.3 Definition of Terms

Term	Definition
coastal erosion	 means: (a) erosion of the coastline by water, wind and general weather conditions; or (b) coastal recession, which is the long-term movement of the coastline due to sea level rise.
coastal erosion hazard area	 means land: (a) shown on an overlay map in the relevant Local Provisions Schedule, as within a coastal erosion hazard area, which is classified into one of three coastal erosion hazard bands; (b) shown on an overlay map in the relevant Local Provisions

C10.3.1 In this code, unless the contrary intention appears:

Term	Definition
	Schedule as within a coastal erosion investigation area; or (c) identified in a report for the purposes of C10.2.1(b).
coastal erosion hazard bands	 means the classification of land within a coastal erosion hazard area into one of the following coastal erosion hazard bands: (a) low; (b) medium; or (c) high.
coastal erosion hazard report	 means a report prepared by geotechnical practitioner and must include: (a) details of, and be signed by, the person who prepared or verified the report; (b) confirmation that the person has the appropriate qualifications and expertise; (c) confirmation that the report has been prepared in accordance with any methodology specified by a State authority; (d) a report of a geotechnical site investigation undertaken consistent with <i>Australian Standard AS 1726-2017 Geotechnical site investigations;</i> and (e) conclusions based on consideration of the proposed use and development: (i) as to whether the use or development is likely to cause or contribute to the occurrence of coastal erosion on the site or on adjacent land; (ii) as to whether the use or development can achieve and maintain a tolerable risk for the intended life of the use or development, having regard to: a. the nature, intensity and duration of any development; c. the likely change in the risk across the intended life of the use or development; d. the ability to adapt to a change in the level of risk; e. the ability to maintain access to utilities and services; f. the need for specific coastal erosion reduction or protection measures beyond the boundary of the site; and h. any coastal erosion management plan in place for the site or adjacent land; (iii) any advice relating to the ongoing management of the use or development; (iv) as to whether the use or development is located on an actively mobile landform within the coastal zone; and (v) relating to any matter specifically required by Performance Criteria in this code.
coastal erosion investigation area	means land shown on an overlay map in the relevant Local Provisions

Term	Definition
	Schedule as within a coastal erosion investigation area.
coastal erosion investigation area report	 means a report prepared by a suitably qualified person for a site that: (a) categorises the site in the relevant coastal erosion hazard band in accordance with the methodology in the <i>Coastal Erosion Investigation Area – Site Assessment</i>; and (b) considers any matter specifically required by Performance Criteria in this Code.
coastal erosion management plan	means a management plan for a coastal erosion hazard area endorsed by the relevant council.
critical use	means a use that is within one of the following Use Classes:(a) Emergency Services; or(b) Hospital Services.
geotechnical practitioner	 means: (a) a person holding a building services license issued under the <i>Occupational Licensing Act 2005</i> in the class of engineer-civil; (b) a geotechnical engineer acting within their area of competence; or (c) an engineering geologist acting within their area of competence.
hazardous use	 means a use that is within one of the following Use Classes: (a) Crematoria and Cemeteries; (b) Extractive Industry, if the use involves the storage of a hazardous chemical of a manifest quantity; (c) Hospital Services, if the use involves the storage of a hazardous chemical of a manifest quantity; (d) Manufacturing and Processing, if the use involves the storage of a hazardous chemical of a manifest quantity; (e) Recycling and Waste Disposal; (f) Research and Development, if the use involves the storage of a hazardous chemical of a manifest quantity; (g) Storage, if the use involves the storage of a hazardous chemical of a manifest quantity; (h) Transport Depot and Distribution, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; (j) Vehicle Fuel Sales and Service.

Term	Definition
non-urban zone	 means land shown on a zone map in the relevant Local Provisions Schedule, as within the following zones: (a) Rural Living Zone; (b) Rural Zone; (c) Agriculture Zone; (d) Landscape Conservation Zone; (e) Environmental Management Zone; (f) Utilities Zone; (g) Open Space Zone; and (h) Future Urban Zone.
urban zone	 means land shown on a zone map in the relevant Local Provisions Schedule, as within the following zones: (a) General Residential Zone; (b) Inner Residential Zone; (c) Low Density Residential Zone; (d) Village Zone; (e) Urban Mixed Use Zone; (f) Local Business Zone; (g) General Business Zone; (h) Central Business Zone; (i) Commercial Zone; (j) Light Industrial Zone; (k) General Industrial Zone; (l) Major Tourism Zone; (m) Port and Marine Zone; (n) Community Purpose Zone; (o) Recreation Zone; and (p) any particular purpose zone.
vulnerable use	 means a use that is within one of the following Use Classes: (a) Custodial Facility; (b) Educational and Occasional Care; (c) Residential, if for a respite centre, residential care facility, retirement village or assisted housing; or (d) Visitor Accommodation, if the use accommodates more than 12 guests.

C10.4 Use or Development Exempt from this Code

- C10.4.1 Excluding where development occurs on an actively mobile landform in the coastal zone, the following use or development is exempt from this code:
 - (a) use or development that requires authorisation under the *Building Act 2016*, excluding:
 - (i) a critical use, hazardous use, or vulnerable use;
 - (ii) if located within a high coastal erosion hazard band; or
 - (iii) coastal protection works;
 - (b) intensification of an existing use, if not for a critical, hazardous, or vulnerable use;
 - (c) alterations or extensions to an existing building located within a high coastal erosion hazard band, if:
 - the site coverage is not increased by more than 20m² from that existing at the effective date; and
 - (ii) not for a critical, hazardous, or vulnerable use;
 - (d) use or development of land for:
 - (i) Natural and Cultural Values Management;
 - (ii) Passive Recreation;
 - (iii) Port and Shipping in a proclaimed wharf area;
 - (iv) Resource Development, excluding use or development in the high coastal erosion hazard band that requires authorisation under the *Building Act 2016*; or
 - (v) minor utilities;
 - (e) planting or disturbance of vegetation on existing pasture or crop production land; or
 - (f) consolidation of lots.

C10.5 Use Standards

Objective:	That use within a high coastal erosion hazard band: (a) is reliant on a coastal location; and (b) can achieve and maintain a tolerable risk from coastal erosion.	
Acceptable Solutions		Performance Criteria
A1		P1.1
No Acceptable Solution.		A use within a high coastal erosion hazard band must be for a use which relies upon a coastal location to fulfil its purpose, having regard to:
		 (a) the need to access a specific resource in a coastal location;
		(b) the need to operate a marine farming shore facility;
		 (c) the need to access infrastructure available in a coastal location;
		 (d) the need to service a marine or coastal related activity;
		(e) provision of an essential utility or marine infrastructure;
		(f) provision of open space or for marine-related educational, research or recreational facilities;
		(g) any advice from a State authority, regulated entity or a council; and
		(h) the advice obtained in a coastal erosion hazard report.
		P1.2
		A coastal erosion hazard report also demonstrates that:
		 (a) any increase in the level of risk from coastal erosion does not require any specific hazard reduction or protection measures; or
		 (b) the use can achieve and maintain a tolerable risk from a coastal erosion event in 2100 for the intended life of the use without requiring any specific hazard reduction or protection measures.

C10.5.1 Use within a high coastal erosion hazard band

Objective:

	hazard band can achieve and maintain a tolerable risk from coastal erosion.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable Solution.		A tolerable risk for a use located within a non-urban zone and within a low or medium coastal erosion hazard band can be achieved and maintained, having regard to:	
		(a)	any increase in the risk from coastal erosion;
		(b)	any requirement for specific hazard reduction or protection measures;
		(c)	the need to minimise any:
			(i) increase in risk to public infrastructure; and
			(ii) reliance on coastal protection works;
		(d)	any advice from a State authority, regulated entity or a council; and
		(e)	the advice contained in a coastal erosion hazard report.

C10.5.2 Uses located within a non-urban zone and within a low or medium coastal erosion hazard band

That a use located within a non-urban zone and within a low or medium coastal erosion

C10.5.3 Critical use, hazardous use or vulnerable use

Objective:	That critical, hazardous and vulnerable uses located within a coastal erosion hazard band can achieve and maintain a tolerable risk from coastal erosion.		
Acceptable Solutions		Performance Criteria	
A1		P1.1	
No Acceptable Solution.		eros relie	cated within a non-urban zone or a high coastal ion hazard band, the use must be for a use which s upon a coastal location to fulfil its purpose, ng regard to:
		(a)	the need to access a specific resource in a coastal location;
		(b)	the need to operate a marine farming shore facility;
		(c)	the need to access infrastructure available in a coastal location;
		(d)	the need to service a marine or coastal related activity;
		(e)	provision of an essential utility or marine infrastructure;
		(f)	provision of open space or for marine-related educational, research, or recreational facilities; and
		(g)	the advice contained in a coastal erosion hazard report.
		P1.2	2
		A co that:	pastal erosion hazard report also demonstrates
		(a)	an increase in the level of risk from coastal erosion does not require any specific hazard reduction or protection measures; or
		(b)	the use can achieve and maintain a tolerable risk from a coastal erosion event in 2100 for the intended life of the use without requiring any specific hazard reduction or protection measures.

A2	P2		
No Acceptable Solution.	In addition to the requirements in clause C10.5.3 P1.2, a critical use within a coastal erosion hazard area must achieve and maintain a tolerable risk from coastal erosion in 2100, having regard to:		
	 (a) the ability of the use to function and maintain service during the coastal erosion event and recovery period; 		
	 (b) any interruption to the operation of the critical use in locations external to the immediate impact of the coastal erosion event; 		
	(c) the creation of risk to the health or safety of people from damage or disruption to:		
	(i) a water supply service; or		
	(ii) the drainage and treatment of waste water;		
	(d) the advice contained in a coastal erosion hazard report; and		
	(e) any advice from a State authority, regulated entity or a council.		
A3	P3		
No Acceptable Solution.	In addition to the requirements in clause C10.5.3 P1.2, the impact of coastal erosion on a hazardous use within a coastal erosion hazard band must have a tolerable risk in 2100, having regard to:		
	(a) the health and safety of people;		
	(b) any impact on property;		
	(c) any impact on the environment;		
	(d) the advice contained in a coastal erosion hazard report; and		
	(e) any advice from a State authority, regulated entity or a council.		

Acceptable Solutions	Performance Criteria
A4	P4
No Acceptable Solution.	In addition to the requirements in clause C10.5.3 P1.2, vulnerable use within a coastal erosion hazard area, must be protected from coastal erosion, having regard to:
	(a) any protection measures, existing or proposed;
	 (b) the ability and capability of people in a coastal erosion event who may live, work or visit the site, to:
	(i) protect themselves;
	(ii) evacuate in an emergency; and
	(iii) understand and respond to instructions in the event of an emergency;
	(c) any emergency evacuation plan;
	 (d) the level of risk for emergency personnel involved in evacuation and rescue tasks;
	(e) the advice contained in a coastal erosion hazard report; and
	(f) any advice from a State authority, regulated entity or a council.

C10.5.4 Uses located within a coastal erosion investigation area

Objective:	That use within a coastal erosion investigation area can achieve and maintain a tolerable risk from coastal erosion.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable	Solution.	 A coastal erosion investigation area report for a use within a coastal erosion investigation area demonstrates that: (a) it is not located within a low, medium or high coastal erosion hazard band; (b) it is located within a high coastal erosion hazard
		band and it meets the requirements in clauseC10.5.1 P1;(c) it is located within a non-urban zone and within a low or medium coastal erosion hazard band

	and it meets the requirements in clause C10.5.2 P1: or
(d)	if it is for a critical use, hazardous use, or
	vulnerable use, it is located within a low,
	medium or high coastal erosion hazard band
	and it meets the relevant requirements in clause
	C10.5.3 P1, P2, P3 and P4.

C10.6 Development Standards for Buildings and Works

C10 C 1	Duilding and sea of superior	avaluation analysis	م مناطئاتین میاہمیں ممانی میں	as a stal a vasian barrand avas
CIUNT	Buildings and works	excluding coastal pro	nection works within a	coastal erosion hazard area
0.0.0.1	Bananigo ana nonto,	onordaning oodolal pro	toodon nonto, manna	

Objective:	That:
	(a) building and works, excluding coastal protection works, within a coastal erosion hazard area, can achieve and maintain a tolerable risk from coastal erosion; and
	(b) buildings and works do not increase the risk from coastal erosion to adjacent land and public infrastructure.

Acceptable Solutions	Performance Criteria	
A1	P1.1	
No Acceptable Solution.	Buildings and works, excluding coastal protection works, within a coastal erosion hazard area must have a tolerable risk, having regard to:	
	 (a) whether any increase in the level of risk from coastal erosion requires any specific hazard reduction or protection measures; 	
	(b) any advice from a State authority, regulated entity or a council; and	
	(c) the advice contained in a coastal erosion hazard report.	
	P1.2	
	A coastal erosion hazard report demonstrates that:	
	(a) the building and works:	
	 do not cause or contribute to any coastal erosion on the site, on adjacent land or public infrastructure; and 	
	 (ii) can achieve and maintain a tolerable risk from a coastal erosion event in 2100 for the intended life of the use without requiring any specific coastal erosion protection works; 	
	(b) buildings and works are not located on actively mobile landforms, unless for engineering or	

	remediation works to protect land, property and human life.
--	---

C10.6.2 Coastal protection works within a coastal erosion hazard area

Objective:	That coastal protection works located within a coastal erosion hazard area are kept to a minimum, appropriately located, fit for purpose and do not increase the likely risks from coastal erosion to adjacent land.	
Acceptable	Solutions	Performance Criteria
A1		P1
No Acceptat	ble Solution.	Coastal protection works within a coastal erosion hazard area must be appropriately located, fit for purpose and kept to a minimum, having regard to:
		 (a) if within a non-urban zone, the works are for the protection of a use that relies upon a coastal location to fulfil its purpose;
		 (b) the advice contained in a coastal erosion hazard report that:
		 there is no increased risk from coastal erosion on the site, on adjacent land or public infrastructure; and
		(ii) risks from coastal erosion to 2100 can be mitigated;
		 (c) the need for arrangements to be made, including with the applicant, to meet the cost of construction and ongoing maintenance of the coastal protection works; and
		(d) any advice from a State authority, regulated entity or a council.

Objective:	That:	
		ng coastal protection works, within a coastal erosion ve and maintain a tolerable risk from coastal erosion;
		ated within a coastal erosion investigation area are kept located, fit for purpose and do not increase the likely adjacent land.
Acceptable So	lutions	Performance Criteria
A1		P1
No Acceptable s	Solution.	 A coastal erosion investigation area report for buildings and works within a coastal erosion investigation area demonstrates that: (a) it is not located within a low, medium or high coastal erosion hazard band; (b) it is located within a low, medium or high coastal erosion hazard band and it meets the requirements in clause C10.6.1 P1; or (c) if for coastal protection works, it meets the requirements in clause C10.6.2 P1.

C10.6.3 Buildings and works located within a coastal erosion investigation area

C10.7 Development Standards for Subdivision

Objective:	That subdivision within a coastal erosion hazard area does not create opportunity for use or development that cannot achieve and maintain a tolerable risk from coastal erosion.	
Acceptable Solutions		Performance Criteria
A1		P1
 Each lot, or a lot proposed in a plan of subdivision, within a coastal erosion hazard area, must: (a) be able to contain a building area, vehicle access, and services, that are wholly located 		Each lot, or a lot proposed in a plan of subdivision, within a coastal erosion hazard area must not create an opportunity for use or development that cannot achieve and maintain a tolerable risk from coastal

C10.7.1 Subdivision within a coastal erosion hazard area

	outside a coastal erosion hazard area;	eros	ion, having regard to:
(b)	be for the creation of separate lots for existing buildings;	(a)	any increase in risk from coastal erosion for adjacent land;
(c)	be required for public use by the Crown, a council or a State authority; or be required for the provision of Utilities,	(b)	the level of risk to use or development arising from an increased reliance on public infrastructure;
(d) and	not be located on an actively mobile landform.	(c)	the need to minimise future remediation works;
		(d)	any loss or substantial compromise, by coastal erosion, of access to the lot on or off site;
		(e)	the need to locate building areas outside the coastal erosion hazard area;
		(f)	any advice from a State authority, regulated entity or a council; and
		(g)	the advice contained in a coastal erosion hazard report,
		land	works must not be located on actively mobile forms unless for engineering or remediation as to protect land, property and human life.

C11.0 Coastal Inundation Hazard Code

C11.1 Code Purpose

The purpose of the Coastal Inundation Hazard Code is:

- C11.1.1 To ensure that use or development subject to risk from coastal inundation is appropriately located and managed so that:
 - (a) people, property and infrastructure are not exposed to an unacceptable level of risk;
 - (b) future costs associated with options for adaptation, protection, retreat or abandonment of property and infrastructure are minimised;
 - (c) it does not increase the risk from coastal inundation to other land or public infrastructure; and
 - (d) works to protect land from coastal inundation are undertaken in a way that provides appropriate protection without increasing risks to other land.
 - C11.1.2 To provide for appropriate use or development that relies upon a coastal location to fulfil its purpose.

C11.2 Application of this Code

- C11.2.1 This code applies to use and development of land within a coastal inundation hazard area.
- C11.2.2 This code applies to land in a coastal inundation investigation area where a suitably qualified person has provided a land survey showing an AHD for the land that falls within one of the coastal inundation hazard band levels shown in the coastal inundation hazard bands AHD levels list in the relevant Local Provisions Schedule and the standards relevant to each band apply.
- C11.2.3 This code does not apply to land in a coastal inundation investigation area where a suitably qualified person has provided a land survey showing an AHD for the land in excess of the low hazard band level relevant for that land, as shown in the coastal inundation hazard bands AHD levels list in the relevant Local Provisions Schedule.
- C11.2.4 For the purposes of C11.5.1 and C11.5.2, Residential or Visitor Accommodation are not Use Classes that are reliant on a coastal location.

C11.3 Definition of Terms

Term	Definition
coastal inundation	 means the risk of temporary or permanent inundation of land by the sea as a result of: (a) storm surge; (b) tides; or (c) sea-level rise.
coastal inundation hazard area	means land: (a) shown on an overlay map in the relevant Local Provisions Schedule, as within a coastal inundation hazard area, which is classified into one of

C11.3.1 In this code, unless the contrary intention appears:

Term	Definition
	 three coastal inundation hazard bands; or (b) in a coastal inundation investigation area where a suitably qualified person has provided a land survey showing an AHD for the land that falls within one of the coastal inundation hazard band levels shown in the coastal inundation hazard bands AHD levels list in the relevant Local Provisions Schedule.
coastal inundation hazard bands	 means the classification of land within a coastal inundation hazard area into one of the following coastal inundation hazard bands: (a) low; (b) medium; or (c) high.
coastal inundation hazard report	 means a report prepared by a suitably qualified person for a site that must include: (a) details of, and be signed by, the person who prepared or verified the report; (b) confirmation that the person has the appropriate qualifications and expertise; (c) confirmation that the report has been prepared in accordance with any methodology specified by a State authority; and (d) conclusions based on consideration of the proposed use and development: (i) as to whether the use or development is likely to cause or contribute to coastal inundation on the site or on adjacent land; (ii) as to whether the use or development can achieve and maintain a tolerable risk for the intended life of the use or development, having regard to: a. the nature, intensity and duration of the use; b. the type, form and duration of any development; c. the likely change in the risk across the intended life of the use or development; d. the ability to adapt to a change in the level of risk; e. the ability to maintain access to utilities and services; f. the need for specific coastal inundation hazard reduction or protection measures on the site; g. the need for coastal inundation reduction or protection measures beyond the boundary of the site; h. any coastal inundation management plan in place for the site or adjacent land; (iii) any advice relating to the ongoing management of the use or development; and (iv) relating to any matter specifically required by Performance Criteria in this code.

coastal inundation investigation area	means land shown on an overlay map in the relevant Local Provisions Schedule as within a coastal inundation investigation area.
coastal inundation management plan	means a management plan for a coastal inundation hazard area endorsed by the relevant council.
critical use	means a use that is within one of the following Use Classes:(a) Emergency Services; or(b) Hospital Services.
hazardous use	 means a use that is within one of the following Use Classes: (a) Crematoria and Cemeteries; (b) Extractive Industry, if the use involves the storage of a hazardous chemical of a manifest quantity; (c) Hospital Services, if the use involves the storage of a hazardous chemical of a manifest quantity; (d) Manufacturing and Processing, if the use involves the storage of a hazardous chemical of a manifest quantity; (e) Recycling and Waste Disposal; (f) Research and Development, if the use involves the storage of a hazardous chemical of a manifest quantity; (g) Storage, if the use involves the storage of a hazardous chemical of a manifest quantity; (h) Transport Depot and Distribution, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; or (j) Vehicle Fuel Sales and Service.
non-urban zone	 means land shown on a zone map in the relevant Local Provisions Schedule, as within the following zones: (a) Rural Living Zone; (b) Rural Zone; (c) Agriculture Zone; (d) Landscape Conservation Zone; (e) Environmental Management Zone; (f) Utilities Zone; (g) Open Space Zone; and (h) Future Urban Zone.
urban zone	 means land shown on a zone map in the relevant Local Provisions Schedule, as within the following zones: (a) General Residential Zone; (b) Inner Residential Zone; (c) Low Density Residential Zone; (d) Village Zone; (e) Urban Mixed Use Zone; (f) Local Business Zone; (g) General Business Zone;

	(h)	Central Business Zone;
	(i)	Commercial Zone;
	(j)	Light Industrial Zone;
	(k)	General Industrial Zone;
	(I)	Major Tourism Zone;
	(m)	Port and Marine Zone;
	(n)	Community Purpose Zone;
	(o)	Recreation Zone; and
	(p)	any particular purpose zone.
vulnerable use	means a use that is within one of the following Use Classes:	
	(a)	Custodial Facility;
	(b)	Educational and Occasional Care;
	(c)	Residential, if for respite centre, residential care facility, retirement village
		or assisted housing; or
	(d)	Visitor Accommodation, if the use accommodates more than 12 guests.

C11.4 Use or Development Exempt from this Code

C11.4.1 The following use or development is exempt from this Code:

- (a) development that requires authorisation under the Building Act 2016, excluding:
 - (i) a critical use, hazardous use, or vulnerable use;
 - (ii) if located within a high coastal inundation hazard band;
 - (iii) located within a non-urban zone and within a medium coastal inundation hazard band; or
 - (iv) coastal protection works;
- (b) intensification of an existing use, if not for a critical, hazardous, or vulnerable use;
- (c) alterations or extensions to an existing building located within a high coastal inundation hazard band, if:
 - the site coverage is not increased by more than 20m² from that existing at the effective date; and
 - (ii) not for a critical, hazardous, or vulnerable use;
- (d) use or development of land for:
 - (i) Natural and Cultural Values Management;
 - (ii) Passive Recreation;
 - (iii) Port and Shipping in a proclaimed wharf area;
 - (iv) Resource Development; or
 - (v) minor utilities;
- (e) planting or disturbance of vegetation on existing pasture or crop production land; or
- (f) consolidation of lots.

C11.5 Use Standards

C11.5.1 Uses within a high coastal inundation hazard band

Objective:	That use within a high coastal inundation hazard band: (a) is reliant on a coastal location; and (b) can achieve and maintain a tolerable risk from coastal inundation.	
Acceptable S	Solutions	Performance Criteria
A1		P1.1
No Acceptabl	e Solution.	A use within a high coastal inundation hazard band must be for a use which relies upon a coastal location to fulfil its purpose, having regard to:
		 (a) the need to access a specific resource in a coastal location;
		(b) the need to operate a marine farming shore

facility;
 (c) the need to access infrastructure available in a coastal location;
 (d) the need to service a marine or coastal related activity;
 (e) provision of an essential utility or marine infrastructure;
(f) provision of open space or for marine-related educational, research, or recreational facilities;
(g) any advice from a State authority, regulated entity or a council; and
 (h) the advice obtained in a coastal inundation hazard report.
P1.2
A coastal inundation hazard report also demonstrates that:
 (a) any increase in the level of risk from coastal inundation does not require any specific hazard reduction or protection measures; or
 (b) the use can achieve and maintain a tolerable risk from a 1% annual exceedance probability coastal inundation event in 2100 for the intended life of the use without requiring any specific hazard reduction or protection measures.

C11.5.2 Uses located within a non-urban zone and within a medium coastal inundation hazard band

Objective:	To ensure that a use located within a non-urban zone and within a medium coastal inundation hazard band: (a) is reliant on a coastal location; and (b) can achieve and maintain a tolerable risk from exposure to coastal inundation.	
Acceptable So	lutions	Performance Criteria
A1		P1.1
No Acceptable	Solution.	A use within a non-urban zone and within a medium coastal inundation hazard band must be for a use which relies upon a coastal location to fulfil its purpose, having regard to:
		 (a) the need to access a specific resource in a coastal location;
		(b) the need to operate a marine farming shore

astructure available in a narine or coastal related al utility or marine
narine or coastal related
al utility or marine
e or for marine-related or recreational facilities;
e authority, regulated
a coastal inundation
report also demonstrates
el of risk from coastal quire any specific hazard measures; or
ed maintain a tolerable exceedance probability nt in 2100 for the intended equiring any specific otection measures.

C11.5.3 Uses located within a non-urban zone and within a low coastal inundation hazard band

Objective:	That a use located within a non-urban zone and within a low coastal inundation hazard band can achieve and maintain a tolerable risk from coastal inundation.	
Acceptable So	lutions	Performance Criteria
A1		P1
No Acceptable	Solution.	A tolerable risk for a use located within a non-urban zone and within a low coastal inundation hazard band can be achieved and maintained, having regard to:
		 (a) any increase in the level of risk from coastal inundation;
		 (b) any requirement for specific hazard reduction or protection measures;
		(c) the need to minimise any:

(i) increase in risk to public infrastructure; and
(ii) reliance on coastal protection works;
(d) any advice from a State authority, regulated entity or a council; and
 (e) the advice contained in a coastal inundation hazard report.

Objective:	That critical, hazardous and vulnerable uses located within a coastal inundation hazard area can achieve and maintain a tolerable risk from coastal inundation.	
Acceptable Solutions		Performance Criteria
A1		P1.1
No Acceptable Solution.		If located within a non-urban zone or a high coastal inundation hazard band, the use must be for a use which relies upon a coastal location to fulfil its purpose, having regard to:
		(a) the need to access a specific resource in a coastal location;
		(b) the need to access infrastructure available in a coastal location;
		(c) the need to operate a marine farming shore facility;
		(d) the need to service a marine or coastal related activity;
		(e) provision of an essential utility or marine infrastructure; and
		(f) provision of open space or for marine-related educational, research, or recreational facilities;
		(g) the advice contained in a coastal inundation hazard report.
		P1.2
		A coastal inundation hazard report also demonstrates that:
		 (a) an increase in the level of risk from a coastal inundation does not require any specific hazard reduction or protection measures; or
		(b) the use can achieve and maintain a tolerable risk from a 1% annual exceedance probability

C11.5.4 Critical use, hazardous use or vulnerable use

	coastal inundation event in 2100 for the intended life of the use without requiring any specific hazard reduction or protection measures.
A2	P2
No Acceptable Solution.	In addition to the requirements in clause C11.5.4 P1.2, a critical use within a coastal inundation hazard area must achieve and maintain a tolerable risk from a 1% annual exceedance probability coastal inundation event in 2100, having regard to:
	 (a) the ability of the use to function and maintain service during the coastal inundation event and recovery period;
	 (b) any interruption to the operation of the critical use in locations external to the immediate impact of the coastal inundation event;
	(c) the creation of a risk to the health or safety of people from damage or disruption to:
	(i) a water supply service; or
	(ii) the drainage and treatment of waste water;
	 (d) the advice contained in a coastal inundation hazard report; and
	(e) any advice from a State authority, regulated entity or a council.
A3	P3
No Acceptable Solution.	In addition to the requirements in clause C11.5.4 P1.2, the impact of coastal inundation on a hazardous use within a coastal inundation hazard area must have a tolerable risk in a 1% annual exceedance probability coastal inundation event in 2100, having regard to:
	(a) the health and safety of people;
	(b) any impact on property;
	(c) any impact on the environment;
	(d) the advice contained in a coastal inundation hazard report; and
	(e) any advice from a State authority, regulated entity or a council.

A4	P4
No Acceptable Solution.	In addition to the requirements in clause C11.5.4 P1.2, a vulnerable use in a coastal inundation hazard area must be protected from coastal inundation in a 1% annual exceedance probability coastal inundation event in 2100, having regard to:
	(a) any protection measures, existing or proposed;
	(b) the ability and capability of people in a coastal inundation event who may live, work or visit the site, to:
	(i) protect themselves;
	(ii) evacuate in an emergency; and
	(iii) understand and respond to instructions in the event of an emergency;
	(c) any emergency evacuation plan;
	 (d) the level of risk for emergency personnel involved in evacuation and rescue tasks;
	 (e) the advice contained in a coastal inundation hazard report; and
	(f) any advice from a State authority, regulated entity or a council.

C11.6 Development Standards for Buildings and Works

C11.6.1 Buildings and works, excluding coastal protection works, within a coastal inundation hazard area

Objective:	 That: (a) building and works, excluding coastal protection works, within a coastal inundation hazard area, can achieve and maintain a tolerable risk from coastal inundation; and (b) buildings and works do not increase the risk from coastal inundation to adjacent land and public infrastructure. 	
Acceptable S	olutions	Performance Criteria
A1		P1.1
No Acceptable	e Solution.	Buildings and works, excluding coastal protection works, within a coastal inundation hazard area must have a tolerable risk, having regard to:
		 (a) whether any increase in the level of risk from coastal inundation requires any specific hazard reduction or protection measures;
		(b) any advice from a State authority, regulated entity or a council; and
		(c) the advice contained in a coastal inundation hazard report.
		P1.2

A coastal inundation hazard report also demonstrates that the building or works:

- (a) do not cause or contribute to coastal inundation on the site, on adjacent land or public infrastructure; and
- (b) can achieve and maintain a tolerable risk from a 1% annual exceedance probability coastal inundation event in 2100 for the intended life of the use without requiring any specific coastal inundation protection works.

Objective:	That coastal protection works located within a coastal inundation hazard area are kept to a minimum, appropriately located, fit for purpose and do not increase the likely risks from coastal inundation to adjacent land.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable	e Solution.	 Coastal protection works within a coastal inundation hazard area must be appropriately located, fit for purpose and kept to a minimum, having regard to: (a) if within a non-urban zone, the works are for the protection of a use that relies upon a coastal location to fulfil its purpose; 	
		 (b) the advice contained in a coastal inundation hazard report that: 	
		 there will not be an increased risk of coastal inundation from a 1% annual exceedance probability coastal inundation event in 2100 on the site, on adjacent land or public infrastructure; and 	
		 (ii) the risks from coastal inundation in a 1% annual exceedance probability coastal inundation event in 2100 can be mitigated; 	
		 (c) the need for arrangements to be made, including with the applicant, to meet the cost of construction and ongoing maintenance of the coastal protection works; and 	
		(d) any advice from a State authority, regulated entity or a council.	

C11.6.2 Coastal protection works within a coastal inundation hazard area

C11.7 Development Standards for Subdivision

Objective:	That subdivision within a coastal inundation hazard area does not create an opportunity for use or development that cannot achieve and maintain a tolerable risk from coastal inundation.		
Acceptable Sol	lutions	Performance Criteria	
A1		P1	
 within a coastal (a) be able to a access, an outside a c (b) be for the a buildings; (c) be required council or a building and a council or a council o	t proposed in a plan of subdivision, inundation hazard area, must: contain a building area, vehicle id services, that are wholly located coastal inundation hazard area; creation of separate lots for existing d for public use by the Crown, a a State authority; or d for the provision of Utilities.	 Each lot, or a lot proposed in a plan of subdivision within a coastal inundation hazard area must not create an opportunity for use or development that cannot achieve and maintain a tolerable risk from coastal inundation, having regard to: (a) any increase in risk from coastal inundation for adjacent land; (b) the level of risk to use or development arising from an increased reliance on public infrastructure; (c) the need to minimise future remediation works; (d) any loss or substantial compromise, by coastal inundation, of access to the lot on or off site; (e) the need to locate building areas outside the coastal inundation hazard area; (f) any advice from a State authority, regulated entity or a council; and (g) the advice contained in a coastal inundation hazard report. 	

C11.7.1 Subdivision within a coastal inundation hazard area

C12.0 Flood-Prone Areas Hazard Code

C12.1 Code Purpose

The purpose of the Flood-Prone Areas Hazard Code is:

- C12.1.1 To ensure that use or development subject to risk from flood is appropriately located and managed, so that:
 - (a) people, property and infrastructure are not exposed to an unacceptable level of risk;
 - (b) future costs associated with options for adaptation, protection, retreat or abandonment of property and infrastructure are minimised; and
 - (c) it does not increase the risk from flood to other land or public infrastructure.
- C12.1.2 To preclude development on land that will unreasonably affect flood flow or be affected by permanent or periodic flood.

C12.2 Application of this Code

- C12.2.1 This code applies to development of land within a flood-prone hazard area.
- C12.2.2 This code applies to use of land within a flood-prone hazard area if for:
 - (a) a change of use that converts a non-habitable building to a habitable building; or
 - (b) a new habitable room within an existing building.
- C12.2.3 This code applies to use in a habitable building, or development of land, identified in a report prepared by a suitably qualified person, that is lodged with an application for a permit, or required in response to a request under section 54 of the Act, as subject to risk from flood or that has the potential to cause increased risk from flood.
- C12.2.4 The planning authority may only make a request under clause C12.2.3 where it reasonably believes, based on information in its possession, that the land is subject to risk from flood or has the potential to cause increased risk from flood.
- C12.2.5 This code does not apply to land subject to the Coastal Inundation Hazard Code.

C12.3 Definition of Terms

Term	Definition	
critical use	means a use that is within one of the following Use Classes:(a) Emergency Services; or(b) Hospital Services.	
flood	means the risk of periodic or permanent flooding of land from a watercourse or other inland water source.	
flood-prone hazard area	 means land: (a) shown on an overlay map in the relevant Local Provisions Schedule, as within a flood-prone hazard area; or (b) identified in a report for the purposes of C12.2.3. 	
flood hazard report	 means a report prepared by a suitably qualified person for a site, that must include: (a) details of, and be signed by, the person who prepared or verified the report; (b) confirmation that the person has the appropriate qualifications and expertise; (c) confirmation that the report has been prepared in accordance with any methodology specified by a State authority; and (d) conclusions based on consideration of the proposed use or development: (i) as to whether the use or development is likely to cause or contribute to the occurrence of flood on the site or on adjacent land; (ii) as to whether the use or development can achieve and maintain a tolerable risk for the intended life of the use or development, having regard to: a. the nature, intensity and duration of any development; c. the likely change in the level of risk across the intended life of the use or development; d. the ability to adapt to a change in the level of risk; e. the ability to maintain access to utilities and services; f. the need for flood reduction or protection measures beyond the boundary of the site; g. any flood management plan in place for the site and/or adjacent land; and h. any advice relating to the ongoing management of the use or development; and 	

C12.3.1 In this code, unless the contrary intention appears:

Term	Definition	
flood management plan	means a management plan for a flood-prone hazard area endorsed by the relevant council.	
hazardous use	 means a use that is within one of the following Use Classes: (a) Crematoria and Cemeteries; (b) Extractive Industry, if the use involves the storage of a hazardous chemical of a manifest quantity; (c) Hospital Services, if the use involves the storage of a hazardous chemical of a manifest quantity; (d) Manufacturing and Processing, if the use involves the storage of a hazardous chemical of a manifest quantity; (e) Recycling and Waste Disposal; (f) Research and Development, if the use involves the storage of a hazardous chemical of a manifest quantity; (g) Storage, if the use involves the storage of a hazardous chemical of a manifest quantity; (h) Transport Depot and Distribution, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; (j) Vehicle Fuel Sales and Service. 	
vulnerable use	 means a use that is within one of the following Use Classes: (a) Custodial Facility; (b) Educational and Occasional Care; (c) Residential, if for a respite centre, residential care facility, retirement village or assisted housing; or (d) Visitor Accommodation, if the use accommodates more than 12 guests. 	

C12.4 Use or Development Exempt from this Code

- C12.4.1 The following use or development is exempt from this code:
 - (a) alterations or extensions to an existing building if:
 - the site coverage is not increased by more than 20m² from that existing at the effective date; and
 - (ii) not for a critical, hazardous, or vulnerable use;
 - (b) use or development of land for:
 - (i) Natural and Cultural Values Management;
 - (ii) Passive Recreation;
 - (iii) Port and Shipping in a proclaimed wharf area;
 - (iv) Resource Development, excluding a habitable building;
 - (v) minor utilities;
 - (vi) infrastructure for the generation of hydro-electricity; and
 - (vii) outbuildings;
 - (c) planting or disturbance of vegetation on existing pasture or crop production land; and
 - (d) consolidation of lots.

C12.5 Use Standards

Г

Objective:	That a habitable building can achieve and maintain a tolerable risk from flood.		
Acceptable Solutions		Performance Criteria	
A1		P1.1	
No Acceptable Solution.		A change of use that, converts a non-habitable building to a habitable building, or a use involving a new habitable room within an existing building, within a flood-prone hazard area must have a tolerable risk, having regard to:	
		(a)	the location of the building;
		(b)	the advice in a flood hazard report; and
		(c)	any advice from a State authority, regulated entity or a council.
		P1.2	
		A floo	d hazard report also demonstrates that:
		(a)	any increase in the level of risk from flood does not require any specific hazard reduction or protection measures; or
			the use can achieve and maintain a tolerable risk from a 1 % annual exceedance probability flood event for the intended life of the use without requiring any flood protection measures.

C12.5.1 Uses within a flood-prone hazard area

Tasmanian Planning Scheme – State Planning Provisions

Objective:	That critical, hazardous and vulnerable uses, located within a flood-prone hazard area can achieve and maintain a tolerable risk from flood.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		A critical, hazardous, or vulnerable use within a flood- prone hazard area must achieve a tolerable level of risk from flood, having regard to:
		(a) the type form and duration of the use; and
		(b) a flood hazard report that demonstrates that:
		 (i) any increase in the level of risk from flood does not warrant any specific hazard reduction or protection measures; or
		 (ii) the use can achieve and maintain a tolerable risk from a 1% annual exceedance probability flood event for the intended life of the use without requiring any flood protection measures.
A2		P2
No Acceptable	e Solution.	In addition to the requirements in clause C12.5.2 P1, a critical use within a flood-prone hazard area must achieve and maintain a tolerable risk, having regard to:
		 (a) the ability of the use to function and maintain service during the flood event and recovery period;
		 (b) any interruption to the operation of the critical use in locations external to the immediate impact of the flood;
		(c) the creation of risk to the health or safety of people from damage or disruption to:
		(i) a water supply service; or
		(ii) the drainage and treatment of waste water;
		(d) the advice contained in a flood hazard report; and
		(e) any advice from a State authority, regulated entity or a council.

C12.5.2 Critical use, hazardous use or vulnerable use

A3	P3
No Acceptable Solution.	In addition to the requirements in clause C12.5.2 P1, the impact of flood on a hazardous use within a flood- prone hazard area must achieve and maintain a tolerable risk, having regard to:
	(a) the health and safety of people;
	(b) any impact on property;
	(c) any impact on the environment;
	(d) the advice contained in a flood hazard report; and
	(e) any advice from a State authority, regulated entity or a council.
A4	P4
No Acceptable Solutions.	In addition to the requirements in clause C12.5.2 P1, a vulnerable use within a flood-prone hazard area, must be protected from flood, having regard to:
	(a) any protection measures, existing or proposed;
	 (b) the ability and capability of people in a flood event who may live, work or visit the site, to:
	(i) protect themselves;
	(ii) evacuate in an emergency; and
	(iii) understand and respond to instructions in the event of an emergency;
	(c) any emergency evacuation plan;
	 (d) the level of risk for emergency personnel involved in evacuation and rescue tasks;
	 (e) the advice contained in a flood hazard report; and
	(f) any advice from a State authority, regulated entity or a council.

C12.6 Development Standards for Buildings and Works

C12.6.1	Buildings and works within a flood-prone hazard area
---------	--

Objective:	 That: (a) building and works within a flood-prone hazard area can achieve and maintain a tolerable risk from flood; and (b) buildings and works do not increase the risk from flood to adjacent land and public infrastructure. 	
Acceptable S	olutions	Performance Criteria
A1		P1.1
No Acceptable	Solution.	Buildings and works within a flood-prone hazard area must achieve and maintain a tolerable risk from a flood, having regard to:
		 (a) the type, form, scale and intended duration of the development;
		 (b) whether any increase in the level of risk from flood requires any specific hazard reduction or protection measures;
		(c) any advice from a State authority, regulated entity or a council; and
		(d) the advice contained in a flood hazard report.
		P1.2
		A flood hazard report also demonstrates that the building and works:
		 (a) do not cause or contribute to flood on the site, on adjacent land or public infrastructure; and
		 (b) can achieve and maintain a tolerable risk from a 1% annual exceedance probability flood event for the intended life of the use without requiring any flood protection measures.

C12.7 Development Standards for Subdivision

Obje	ective:	That subdivision within a flood-prone hazard area does not create an opportunity for use or development that cannot achieve a tolerable risk from flood.		
Acc	eptable Sol	utions	Perf	ormance Criteria
A1			P1	
 Each lot, or a lot proposed in a plan of subdivision, within a flood-prone hazard area, must: (a) be able to contain a building area, vehicle access, and services, that are wholly located outside a flood-prone hazard area; 		Each lot, or a lot proposed in a plan of subdivision, within a flood-prone hazard area, must not create an opportunity for use or development that cannot achieve a tolerable risk from flood, having regard to: (a) any increase in risk from flood for adjacent land;		
(b) (c)	buildings;	creation of separate lots for existing	(b)	the level of risk to use or development arising from an increased reliance on public infrastructure;
(0)	•	a State authority; or	(c)	the need to minimise future remediation works;
(d)	be required	d for the provision of Utilities.	(d)	any loss or substantial compromise by flood of access to the lot, on or off site;
			(e)	the need to locate building areas outside the flood-prone hazard area;
			(f)	any advice from a State authority, regulated entity or a council; and
			(g)	the advice contained in a flood hazard report.

C12.7.1 Subdivision within a flood-prone hazard area

C13.0 Bushfire-Prone Areas Code

C13.1 Code Purpose

The purpose of the Bushfire-Prone Areas Code is:

C13.1.1 To ensure that use and development is appropriately designed, located, serviced, and constructed, to reduce the risk to human life and property, and the cost to the community, caused by bushfires.

C13.2 Application of this Code

- C13.2.1 This code applies to:
 - (a) subdivision of land that is located within, or partially within, a bushfire-prone area; and
 - (b) a use, on land that is located within, or partially within, a bushfire-prone area, that is a vulnerable use or hazardous use.

C13.3 Definition of Terms

C13.3.1 In this code, unless the contrary intention appears:		
Term	Definition	
accredited person	means as defined in the Act.	
bushfire attack level (BAL)	means the bushfire attack level as defined in <i>Australian Standard AS3959:2018</i> <i>Construction of buildings in bushfire-prone areas</i> as 'a means of measuring the severity of a building's potential exposure to ember attack, radiant heat and direct flame contact, using increments of radiant heat expressed in kilowatts per metre squared, and the basis for establishing the requirements for construction to improve protection of building elements from attack by bushfire'.	
bushfire hazard management plan	means as defined in the Act.	
bushfire protection measures	means the measures that might be used to reduce the risk of bushfire attack and the threat to life and property in the event of bushfire.	
bushfire-prone area	 means: (a) land shown on an overlay map in the relevant Local Provisions Schedule, as within a bushfire-prone area; or (b) where there is no overlay map in the relevant Local Provisions Schedule, land that is within 100m of an area of bushfire-prone vegetation equal to or greater than 1ha. 	
bushfire-prone vegetation	means contiguous vegetation including grasses and shrubs but not including maintained lawns, parks and gardens, nature strips, plant nurseries, golf courses, vineyards, orchards or vegetation on land that is used for horticultural purposes.	

C13.3.1 In this code, unless the contrary intention appears:

Term	Definition			
carriageway	means the section of road formation which is used by traffic, and includes all the area of the traffic lane pavement together with the formed shoulders.			
contiguous	means separated by less than 20m.			
emergency management strategy (hazardous use)	means a strategy that provides for mitigation measures to achieve and maintain a level of tolerable risk that is specifically developed to address the characteristics, nature and scale of the use considering:			
	 (a) the nature of the bushfire-prone vegetation including the type, fuel load, structure and flammability; and 			
	(b) available fire protection measures to:			
	 (i) prevent the hazardous use from contributing to the spread or intensification of bushfire; 			
	(ii) limit the potential for bushfire to be ignited on the site;			
	 (iii) prevent exposure of people and the environment to the hazardous chemicals, explosives or emissions as a consequence of bushfire; and 			
	(iv) reduce risk to emergency service personnel.			
emergency management strategy (vulnerable use)	means a strategy that provides for mitigation measures to achieve and maintain a level of tolerable risk that is specifically developed to address the characteristics, nature and scale of the use considering:			
	 (a) the nature of the bushfire-prone vegetation including the type, fuel load, structure and flammability; 			
	(b) the ability of occupants of the vulnerable use to:			
	(i) protect themselves and defend property from bushfire attack;			
	(ii) evacuate in an emergency; and			
	(iii) understand and respond to instructions in the event of a bushfire; and			
	 (c) any bushfire protection measures available to reduce risk to emergency service personnel. 			
fire fighting water point	means the point where a fire appliance is able to connect to a water supply for fire fighting purposes. This includes a coupling in the case of a fire hydrant, offtake or outlet, or the minimum water level in the case of a static water supply.			
fire hydrant	means as described in Australian Standard AS2419.1-2005 Fire hydrant installations, Part 1:System design, installation and commissioning.			
hardstand	means as described in Australian Standard AS 2419.1-2005 Fire hydrant installations, Part1:System design, installation and commissioning.			
hazard management area	means the area, between a habitable building or building area and bushfire- prone vegetation, which provides access to a fire front for fire fighting, which is maintained in a minimal fuel condition and in which there are no other hazards present which will significantly contribute to the spread of a bushfire.			
hazardous use	means a use where:			

Term	Definition	
	 (a) hazardous chemicals of a manifest quantity are stored on a site; or (b) explosives are stored on a site and where classified as an explosives location or large explosives location as specified in the <i>Explosives Act 2012</i>. 	
hose lay	means the distance between two points established by a fire hose laid out on the ground, inclusive of obstructions.	
property access	means the carriageway which provides vehicular access from the carriageway of a road onto land, measured along the centre line of the carriageway, from the edge of the road carriageway to the nearest point of the building area.	
static water supply	means water stored in a tank, swimming pool, dam, or lake, that is available for fire fighting purposes at all times.	
TFS	means Tasmania Fire Service.	

Term	Definition	
vulnerable use	means a use that is within one or more of the following use classes:(a) Custodial Facility;(b) Education and Occasional Care;	
	(c) Hospital Services;(d) Residential if the use is for assisted housing, residential care facility, respite centre or retirement village.	
water corporation	means the corporation within the meaning of the <i>Water and Sewerage Corporation Act 2012</i> .	

C13.4 Use or Development Exempt from this Code

- C13.4.1 The following use or development is exempt from this code:
 - (a) any use or development that the TFS or an accredited person, having regard to the objective of all applicable standards in this code, certifies there is an insufficient increase in risk to the use or development from bushfire to warrant any specific bushfire protection measures; and
 - (b) adjustment of a boundary in accordance with clause 7.3 of this planning scheme.

C13.5 Use Standards

C13.5.1 Vulnerable u	uses
----------------------	------

Objective:	That vulnerable uses can only be located on land within a bushfire-prone area where	
	tolerable risks are achieved through mitigation measures that take into account the specific	
	characteristics of both the vulnerable use and the bushfire hazard.	

Acceptable Solutions	Performance Criteria	
A1	P1	
No Acceptable Solution.	A vulnerable use must only be located in a bushfire- prone area if a tolerable risk from bushfire can be achieved and maintained, having regard to:	
	 (a) the location, characteristics, nature and scale of the use; 	
	(b) whether there is an overriding benefit to the community;	
	 (c) whether there is no suitable alternative lower-risk site; 	
	(d) the emergency management strategy (vulnerable use) and bushfire hazard management plan; and	
	(e) other advice, if any, from the TFS.	
A2	P2	
An emergency management strategy (vulnerable use) is endorsed by the TFS or accredited person.	No Performance Criterion.	
A3	P3	
A bushfire hazard management plan that contains appropriate bushfire protection measures that is certified by the TFS or an accredited person.	No Performance Criterion.	

C13.5.2 Hazardous uses

Objective:	That hazardous uses can only be located on land within a bushfire-prone area where tolerable risks are achieved through mitigation measures that take into account the specific characteristics of both the hazardous use and the bushfire hazard.		
Acceptable Solutions		Performance Criteria	
A1		P1	
No Acceptable Solution.		A hazardous use must only be located in a bushfire- prone area if a tolerable risk from bushfire can be achieved and maintained, having regard to:	
		(a)	the location, characteristics, nature and scale of the use;
		(b)	whether there is an overriding benefit to the community;
		(c)	whether there is no suitable alternative lower-risk site;
		(d)	the emergency management strategy (hazardous use) and bushfire management plan; and
		(e)	other advice, if any, from the TFS.
A2		P2	
An emergency management strategy (hazardous use) endorsed by the TFS or accredited person.		No F	Performance Criterion.
A3		P3	
A bushfire hazard management plan that contains appropriate bushfire protection measures that is certified by the TFS or an accredited person.		No F	Performance Criterion.

C13.6 Development Standards for Subdivision

C13.6.1	Provision of hazard	I management areas
---------	---------------------	--------------------

Objective: That subdivision provides for hazard management areas that: (a) facilitate an integrated approach between subdivision and subsequent building on a lot; (b) provide for sufficient separation of building areas from bushfire-prone vegetation to reduce the radiant heat levels, direct flame attack and ember attack at the building area; and (c) provide protection for lots at any stage of a staged subdivision.		
Acceptable Sol	utions	Performance Criteria
A1		P1
 (a) TFS or an accredited person certifies that there is an insufficient increase in risk from bushfire to warrant the provision of hazard management areas as part of a subdivision; or 		A proposed plan of subdivision shows adequate hazard management areas in relation to the building areas shown on lots within a bushfire-prone area, having regard to:
(b) The propos	sed plan of subdivision:	(a) the dimensions of hazard management areas;
within a	all lots that are within or partly bushfire-prone area, including eveloped at each stage of a staged sion;	 (b) a bushfire risk assessment of each lot at any stage of staged subdivision; (c) the nature of the bushfire-prone vegetation including the type, fuel load, attractive, and
(ii) shows t	the building area for each lot;	including the type, fuel load, structure and flammability;
 (iii) shows I betwee each bu equal to distance of Austa Construareas; a (iv) is accour manage individu TFS or hazard greater required Australity 	hazard management areas in bushfire-prone vegetation and uilding area that have dimensions b, or greater than, the separation es required for BAL 19 in Table 2.6 ralian Standard AS3959:2018 uction of buildings in bushfire-prone and mpanied by a bushfire hazard ement plan that addresses all the ial lots and that is certified by the accredited person, showing management areas equal to, or than the separation distances d for BAL 19 in Table 2.6 of <i>ian Standard AS3959:2018</i> uction of buildings in bushfire-prone	 (d) the topography, including site slope; (e) any other potential forms of fuel and ignition sources; (f) separation distances from the bushfire-prone vegetation not unreasonably restricting subsequent development; (g) an instrument that will facilitate management of fuels located on land external to the subdivision; and (h) any advice from the TFS.
	anagement areas are to be located ernal to the proposed subdivision

 bushfire-prone vegetation to permit the undertaking of hazard management works; and
(ii) fire fighting water supplies; and
(c) any advice from the TFS.

Element		Requirement
Α.	Roads.	Unless the development standards in the zone require a higher standard, the following apply:
		(a) two-wheel drive, all-weather construction;
		 (b) load capacity of at least 20 tonnes, including for bridges and culverts;
		 (c) minimum carriageway width is 7m for a through road, or 5.5m for a dead-end or cul-de-sac road;
		(d) minimum vertical clearance of 4m;
		 (e) minimum horizontal clearance of 2m from the edge of the carriageway;
		(f) cross falls of less than 3 degrees (1:20 or 5%);
		 (g) maximum gradient of 15 degrees (1:3.5 or 28%) for sealed roads, and 10 degrees (1:5.5 or 18%) for unsealed roads;
		(h) curves have a minimum inner radius of 10m;
		 dead-end or cul-de-sac roads are not more than 200m in length unless the carriageway is 7m in width;
		 (j) dead-end or cul-de-sac roads have a turning circle with a minimum 12m outer radius; and
		(k) carriageways less than 7m wide have 'No Parking' zones on one side, indicated by a road sign that complies with Australian Standard AS1743:2018 Road signs-Specifications.

Table C13.2:	Standards	for Prope	rty Access
--------------	-----------	-----------	------------

	Element	Requirement	
Α.	Property access length is less than 30m; or access is not required for a fire appliance to access a fire fighting water point.	There are no specified design and construction requirements.	
В.	Property access length is 30m or greater; or access is required for a fire appliance to a fire fighting water point.	 The following design and construction requirements apply to property access: (a) all-weather construction; (b) load capacity of at least 20t, including for bridges and culverts; (c) minimum carriageway width of 4m; (d) minimum vertical clearance of 4m; (e) minimum horizontal clearance of 0.5m from the edge of the carriageway; (f) cross falls of less than 3 degrees (1:20 or 5%); (g) dips less than 7 degrees (1:8 or 12.5%) entry and exit angle; (h) curves with a minimum inner radius of 10m; (i) maximum gradient of 15 degrees (1:3.5 or 28%) for sealed roads, and 10 degrees (1:5.5 or 18%) for unsealed roads; and (j) terminate with a turning area for fire appliances provided by one of the following: (i) a turning circle with a minimum outer radius of 10m; or (ii) a property access encircling the building; or (iii) a hammerhead "T" or "Y" turning head 4m wide and 8m long. 	
C.	Property access length is 200m or greater.	 The following design and construction requirements apply to property access: (a) the requirements for B above; and (b) passing bays of 2m additional carriageway width and 20m length provided every 200m. 	
D.	Property access length is greater than 30m, and access is provided to 3 or more properties.	 The following design and construction requirements apply to property access: (a) complies with requirements for B above; and (b) passing bays of 2m additional carriageway width and 20m length must be provided every 100m. 	

Table C13.3	: Standards	for Fire Trails
-------------	-------------	-----------------

	Element	Requirement	
Α.	All fire trails.	 The following design and construction requirements apply: (a) all-weather, 4-wheel drive construction; (b) load capacity of at least 20t, including for bridges and culverts; (c) minimum carriageway width of 4m; (d) minimum vertical clearance of 4m; (e) minimum horizontal clearance of 2m from the edge of the carriageway; (f) cross falls of less than 3 degrees (1:20 or 5%); (g) dips less than 7 degrees (1:8 or 12.5%) entry and exit angle; (h) curves with a minimum inner radius of 10m; (i) maximum gradient of 15 degrees (1:3.5 or 28%) for sealed fire trails, and 10 degrees (1:5.5 or 18%) for unsealed fire trails; (j) gates if installed at fire trail entry, have a minimum width of 3.6m, and if locked, keys are provided to TFS; and (k) terminate with a turning area for fire appliances provided by one of the following: (i) a turning circle with a minimum outer radius of 10m; or (ii) a hammerhead "T" or "Y" turning head 4m wide and 8m long. 	
В.	Fire trail length is 200m or greater.	 The following design and construction requirements apply: (a) the requirements for A above; and (b) passing bays of 2m additional carriageway width and 20m length provided every 200m.

C13.6.3 Provision of water supply for fire fighting purposes

	Element	Requirement
A.	Distance between building area to be protected and water supply.	 The following requirements apply: (a) the building area to be protected must be located within 120m of a fire hydrant; and (b) the distance must be measured as a hose lay, between the fire fighting water point and the furthest part of the building area.
В.	Design criteria for fire hydrants.	 The following requirements apply: (a) fire hydrant system must be designed and constructed in accordance with <i>TasWater Supplement to Water Supply Code of Australia, WSA 03-2011-3.1 MRWA 2nd edition</i>; and (b) fire hydrants are not installed in parking areas.
C.	Hardstand.	 A hardstand area for fire appliances must be provided: (a) no more than 3m from the hydrant, measured as a hose lay; (b) no closer than 6m from the building area to be protected; (c) with a minimum width of 3m constructed to the same standard as the carriageway; and (d) connected to the property access by a carriageway equivalent to the standard of the property access.

 Table C13.4: Reticulated Water Supply for Fire Fighting

	Element	Requirement
Α.	Distance between building area to be protected and water supply.	 The following requirements apply: (a) the building area to be protected must be located within 90m of the fire fighting water point of a static water supply; and (b) the distance must be measured as a hose lay, between the fire fighting water point and the furthest part of the building area.
В.	Static Water Supplies.	 The static water supply: (a) may have a remotely located offtake connected to the static water supply; (b) may be a supply for combined use (fire fighting and other uses) but the specified minimum quantity of fire fighting water must be available at all times; (c) must be a minimum of 10,000L per building area to be protected. This volume of water must not be used for any other purpose including fire fighting sprinkler or spray systems; (d) must be metal, concrete or lagged by non-combustible materials if above ground; and (e) if a tank can be located so it is shielded in all directions in compliance with Section 3.5 of <i>Australian Standard AS3959:2018 Construction of buildings in bushfire-prone areas</i>, the tank may be constructed of any material provided that the lowest 400mm of the tank exterior is protected by: (i) metal; (ii) non-combustible material; or (iii) fibre-cement a minimum of 6mm thickness.

Table C13.5: Static Water Supply for Fire Fighting

C.	Fittings, pipework and accessories (including	Fittings and pipework associated with a fire fighting water point for a static water supply must:	
	stands and tank supports).	(a) have a minimum nominal internal diameter of 50mm;	
		(b) be fitted with a valve with a minimum nominal internal diameter of 50mm;	
		(c) be metal or lagged by non-combustible materials if above ground;	
		(d) if buried, have a minimum depth of 300mm;	
		 (e) provide a DIN or NEN standard forged Storz 65 mm coupling fitted with a suction washer for connection to fire fighting equipment; 	
		 (f) ensure the coupling is accessible and available for connection at all times; 	
		(g) ensure the coupling is fitted with a blank cap and securing chain (minimum 220mm length);	
		 (h) ensure underground tanks have either an opening at the top of not less than 250mm diameter or a coupling compliant with this Table; and 	
		 (i) if a remote offtake is installed, ensure the offtake is in a position that is: 	
		(i) visible;	
		(ii) accessible to allow connection by fire fighting equipment;	
		(iii) at a working height of 450 – 600mm above ground level; and	
		(iv) protected from possible damage, including damage by vehicles.	
D.	Signage for static water connections.	The fire fighting water point for a static water supply must be identified by a sign permanently fixed to the exterior of the assembly in a visible location. The sign must comply with:	
		 (a) water tank signage requirements of Australian Standard AS 2304:2019 Water storage tanks for fire protection systems; or 	
		(b) Water Supply Signage Guideline, version 1.0, Tasmania Fire Service, February 2017.	
Е.	Hardstand.	A hardstand area for fire appliances must be:	
		 (a) no more than 3m from the firefighting water point, measured as a hose lay (including the minimum water level in dams, swimming pools and the like); (b) no closer than 6m from the building area to be protected; 	
		 (c) a minimum width of 3m constructed to the same standard as the carriageway; and 	
		 (d) connected to the property access by a carriageway equivalent to the standard of the property access. 	

C14.0 Potentially Contaminated Land Code

C14.1 Purpose of the Potentially Contaminated Land Code

The purpose of the Potentially Contaminated Land Code is:

C14.1.1 To ensure that use or development of potentially contaminated land does not adversely impact on human health or the environment.

C14.2 Application of this Code

- C14.2.1 This code applies to a sensitive use, a use listed in a Use Class in Table C14.1 as one of the specified uses, or development, on land that:
 - (a) is shown on an overlay map in the relevant Local Provisions Schedule as within an area of potentially contaminated land;
 - (b) the planning authority knows to have been used for a potentially contaminating activity, by reference to:
 - (i) a notice issued in accordance with Part 5A of the *Environmental Management and Pollution Control Act 1994*; or
 - (ii) a previous permit;
 - (c) the planning authority reasonably suspects may be contaminated by reference to:
 - (i) a notice issued in accordance with Part 5A of the Environmental Management and Pollution Control Act 1994; or
 - (ii) advice from the Director that it is likely that contamination has migrated onto the land; or
 - (d) has been identified as having been used, or may have been used, for a potentially contaminating activity, or as land onto which it is likely that contamination from a potentially contaminating activity has migrated:
 - (i) in a report lodged with the application; or
 - (ii) in a report prepared by a site contamination practitioner in response to a request under section 54 of the Act.
- C14.2.2 The planning authority may only make a request under clause C14.2.1(d)(ii) where it reasonably believes, based on information in its possession that the land has been used, or may have been used, for one of the potentially contaminating activities listed in Table C14.2, or as land onto which it is likely that contamination from a potentially contaminating activity has migrated.

Table C14.1 Specified Use

Use Class	Specified Use
Passive Recreation	If for public parks, gardens and playgrounds.
Sports and Recreation	If for outdoor recreation facilities.

C14.3 Definition of Terms

Term	Definition	
background concentration	means as defined in Part 5A of the Environmental Management and Pollution Control Act 1994.	
contaminated	means the condition of land or water, where any chemical substance, or waste, has been added as a direct or indirect result of human activity at above background concentration, and represents or potentially represents an adverse impact on human health or the environment.	
environmental site assessment	means a report prepared by a site contamination practitioner or a person approved by the Director for the purpose of this code on the nature, extent and levels of existing contamination and the actual or potential risk to human health or the environment, on or off the site, resulting from that contamination, prepared in accordance with the <i>National Environment</i> <i>Protection (Assessment of Site Contamination) Measure 1999.</i>	
Director	means as defined in the Environmental Management and Pollution Control Act 1994.	
person approved by the Director for the purpose of this code	 means a contaminated land auditor accredited under the following legislation: (a) Contaminated Land Management Act 1997 (NSW); (b) Environment Protection Act 1993 (SA); (c) Environment Protection Act 1970 (Vic); (d) Contaminated Sites Act 2003 (WA); or (e) Environment Protection Act 1994 (Qld), 	
potentially contaminating activity	 and approved by the Director to provide certification of land in Tasmania. means an activity listed in Table C14.2 as a potentially contaminating activity that is not directly associated with and subservient to Residential. 	
potentially contaminated land	 means land: (a) shown on an overlay map in the relevant Local Provisions Schedule as potentially contaminated land; (b) the planning authority knows to have been used for a potentially contaminating activity in accordance with C14.2.1(b); (c) the planning authority reasonably suspects may be contaminated in accordance with C14.2.1(c); or (d) identified in a report for the purposes of C14.2.1(d). 	
site history	means the collection of information from historical sources to determine if a site is likely to have been impacted by a potentially contaminating activity.	
site contamination practitioner	means a person who is certified under a contaminated land practitioners scheme that is endorsed by the Director.	

C14.3.1 In this code, unless the contrary intention appears:

C14.4 Use or Development Exempt from this Code

- C14.4.1 The following use or development is exempt from this code:
 - (a) development:
 - (i) to investigate whether a potentially contaminating activity has contaminated the land; or
 - (ii) in accordance with a notice issued in accordance with Part 5A of the Environmental Management and Pollution Control Act 1994;
 - (b) development that does not involve disturbance of more than $1m^2$ of land;
 - (c) any use or development where a site history prepared by a site contamination practitioner or a person approved by the Director for the purpose of this code, has been provided to the planning authority and that site history confirms potentially contaminating activities did not contaminate the site;
 - (d) any use or development that the Director, a site contamination practitioner, or a person approved by the Director for the purpose of this code, having regard to the applicable standards in this code, has issued a certificate stating that there is insufficient increase in risk from contamination to warrant any specific remediation and protection measures; or
 - (e) any use or development that operates in accordance with an approval granted as a result of an assessment of that use or development by the Board of the Environment Protection Authority.

C14.5 Use Standards

Objective:	That potentially contaminated land is suitable for a sensitive use or a Use Class listed in Table C14.1 and is one of the specified uses.	
Acceptable solu	utions	Performance Criteria
A1		P1
For a sensitive use, or a specified use listed in Table C14.1, the Director, or a person approved by the Director for the purpose of this code:		For a sensitive use, or a specified use listed in Table C14.1, the land is suitable for the intended use, having regard to:
 Director for the purpose of this code: (a) certifies that land is suitable for the intended use; or (b) certifies a plan to manage contamination and associated risk to human health or the environment, so that the land is suitable for the intended use, or if in relation to redevelopment on land subject to the <i>Macquarie Point Development Corporation Act 2012</i>, the intended use must be in accordance with a certificate that has been or will be granted by an accredited environmental auditor. 		 (a) an environmental site assessment that demonstrates there is no evidence the land is contaminated; (b) an environmental site assessment that demonstrates that the level of contamination does not present a risk to human health or the environment; or (c) an environmental site assessment that includes a plan, to manage contamination and associated risk to human health or the environment that includes:
		 (i) any specific remediation and protection measures required to be implemented before any use commences; and (ii) a statement that the land will be suitable for the intended use.

C14.6 Development Standards for Building and Works

C14.6.1 Excavation works, excluding land subject to the Macquarie Point Development Corporation Act 2012

Objective:		-	contaminated land, excluding on land subject to a Act 2012, do not adversely impact on human
Acceptable so	lutions	Perfo	rmance Criteria
A1		P1	
Macquarie Poir	cluding on land subject to the <i>nt Development Corporation Act 2012,</i> ss than 250m ³ of site disturbance.	Point have a	ration, excluding on land subject to the <i>Macquarie</i> <i>Development Corporation Act 2012,</i> must not an adverse impact on human health or the onment, having regard to:
		(a)	an environmental site assessment that demonstrates there is no evidence the land is contaminated;
		(b)	an environmental site assessment that demonstrates that the level of contamination does not present a risk to human health or the environment; or
		(c)	an environmental site assessment, including a plan to manage contamination and associated risk to human health and the environment, that includes:
			 (i) any specific remediation and protection measures required to be implemented before excavation commences; and
			 (ii) a statement that the excavation does not adversely impact on human health or the environment.

C14.6.2 Redevelopment on land subject to the Macquarie Point Development Corporation Act 2012

occurs to a standard that is satisfactory		the <i>Macquarie Point Development Corporation Act 2012</i> y for the purposes of redevelopment of the site, and uman health or the environment, in accordance with <i>velopment Corporation Act 2012</i> .
Acceptable Solutions		Performance Criteria
A1		P1
Redevelopment of land subject to the <i>Macquarie Point</i> <i>Development Corporation Act 2012</i> must be in accordance with a certificate that has been or will be granted by an accredited environmental auditor.		No Performance Criterion.

C14.7 Development Standards for Subdivision

C14.7.1	Subdivision	for	sensitive	use
---------	-------------	-----	-----------	-----

Objec	ctive:	That subdivision of potentially contam Class listed in Table C14.1, and is on human health or the environment.			at allows for a sensitive use or a Use ed uses, does not adversely impact on
Acce	ptable solu	utions	Perfo	rmance	e Criteria

	oved by the certifies t	of land, the Director, or a person Director for the purpose of this code: hat the land is suitable for the use or development; or	adver and is	sely im	of potentially contaminated land does not pact on human health or the environment le for its intended use or development, d to:
(b)	associate	a plan to manage contamination and ed risk to human health or the ent, so that the subdivision does not	(a)	demo	nvironmental site assessment that onstrates there is no evidence the land is aminated;
	environm	y impact on human health or the ent and is suitable for its intended evelopment.	(b)	demo does	nvironmental site assessment that onstrates that the level of contamination not present a risk to human health or the onment; or
			(c)	plan risk te	nvironmental site assessment, including a to manage contamination and associated o human health and the environment, ncludes:
				(i)	any specific remediation and protection measures required to be implemented before any use or development commences; and
				(ii)	a statement that the land is suitable for the intended use or development.

Table C14.2 Potentially Contaminating Activities

Potentially Contaminating Activity	Potentially Contaminating Activity
Acid / alkali plant and formulation	Mineral processing
Ammunition manufacture and usage (e.g. shooting ranges)	Mine sites involving waste rock or tailings deposits
Asbestos production, handling or disposal	Oil or gas production or refining
Asphalt/bitumen manufacturing	Paint manufacture and formulation
Battery manufacturing or recycling	Pesticide manufacture and formulation
Boat/ship building, marinas, slip ways and associated boat yards	Petroleum product or oil storage
Boiler or kiln usage	Pharmaceutical manufacture and formulation
Chemical manufacture and formulation (e.g. fertilisers, paints, pesticides, photography, plastics, solvents)	Power stations
Commercial engine and machinery repair sites	Printing
Drum conditioning works	Radio-active material usage (e.g. hospitals)
Dry cleaning establishments	Railway yards
Electrical transformers	Scrap yards and recycling facilities
Ethanol production plants	Sewage treatment plants
Explosives industries	Sheep and cattle dips
Fertiliser manufacturing plants	Sites of fires involving hazardous materials, including firefighting foam use
Fill material imported onto a site from a potentially contaminated source	Sites of incidents involving release of hazardous materials
Foundry operations	Spray painting industries
Gas works	Spray storage and mixing sites (e.g. for orchards)
Herbicide manufacture	Tanning and associated trades
Industrial activities involving hazardous chemicals in significant quantities	Textile operations

Potentially Contaminating Activity	Potentially Contaminating Activity
Iron and steel works	Tyre manufacturing and retreading works
Landfill sites, including on-site waste disposal and refuse pits	Wood preservation and storage or cutting of treated timber
Metal smelting, refining or finishing	Wool scouring
Metal treatments (e.g. electroplating) and abrasive blasting	

C15.0 Landslip Hazard Code

C15.1 Code Purpose

The purpose of the Landslip Hazard Code is:

C15.1.1 To ensure that a tolerable risk can be achieved and maintained for the type, scale and intensity and intended life of use or development on land within a landslip hazard area.

C15.2 Application of this Code

- C15.2.1 This code applies to:
 - (a) use or development of land within a landslip hazard area; or
 - (b) use or development of land identified in a report, that is lodged with an application, or required in response to a request under section 54 of the Act, as having potential to cause or contribute to a landslip.
- C15.2.2 The planning authority may only make a request under clause C15.2.1(b) where it reasonably believes, based on information in its possession, that the use or development of land has the potential to cause or contribute to landslip.

C15.3 Definition of Terms

C15.3.1 In this code, unless the contrary intention appears	C15.3.1	In this code, unless the contrary intention appears:
---	---------	--

Term	Definition
critical use	means a use that is within one of the following Use Classes:
	(a) Emergency Services; or
	(b) Hospital Services.
geotechnical practitioner	 means: (a) a person holding a building services license issued under the Occupational Licensing Act 2005 in the class of engineer-civil;
	(b) a geotechnical engineer acting within their area of competence; or(c) an engineering geologist acting within their area of competence.

Term	Definition
hazardous use	 means a use that is within one or more of the following use classes: (a) Crematoria and Cemeteries; (b) Extractive Industries, if the use involves the storage of a hazardous chemical of a manifest quantity; (c) Hospital Services, if the use involves the storage of a hazardous chemical of a manifest quantity; (d) Manufacturing and Processing, if the use involves the storage of a hazardous chemical of a manifest quantity; (e) Recycling and Waste Disposal; (f) Research and Development, if the use involves the storage of a hazardous chemical of a manifest quantity; (g) Storage, if the use involves the storage of a hazardous chemical of a manifest quantity; (h) Transport Depot and Distribution, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; (i) Utilities, if the use involves the storage of a hazardous chemical of a manifest quantity; (j) Vehicles Fuel Sales and Service.
landslide	means landslip for the purposes of this code.
landslip	means the downslope movement of a mass of rock, debris, or earth.
landslip hazard area	 means land: (a) shown on an overlay map in the relevant Local Provisions Schedule, as within a landslip hazard area, which is classified into one of four landslip hazard bands; or (b) identified in a report for the purposes of C15.2.1 (b).
landslip hazard bands	 means the classification of land within a landslip hazard area into one of the following landslip hazard bands: (a) low (b) medium; (c) medium-active; or (d) high
landslip hazard report	 means a report prepared using the methodology of the <i>Practice Note</i> <i>Guidelines for Landslide Risk Management 2007</i> by a geotechnical practitioner and must include: (a) details of, and be signed by, the person who prepared or verified the report; (b) confirmation that the person has the appropriate qualifications and expertise; (c) confirmation that the report has been prepared in accordance with any methodology specified by a State authority; (d) a report of a geotechnical site investigation undertaken consistent with <i>Australian Standard AS 1726-2017 Geotechnical site</i> <i>investigations</i>; (e) conclusions based on consideration of the proposed use or development: (i) as to whether the use or development is likely to cause or

Term	Definition	
	 contribute to the occurrence of a landslip event on the site or on adjacent land; (ii) as to whether the use or development can achieve and maintain a tolerable risk for the intended life of the development, having regard to: a. the nature, intensity and duration of the use; b. the type, form and duration of any development; c. the likely change in the risk across the intended life of the use or development; d. the ability to adapt to a change in the risk; e. the ability to maintain access to utilities and services; f. the need for specific landslip reduction or protection measures beyond the boundary of the site; and h. any landslip management plan in place for the use or development; (iii) any advice relating to the ongoing management of the use or development; and (iv) relating to any matter specifically required by Performance Criteria in this code. 	
landslip management plan		
significant works	 means any of the following: (a) excavation equal to or greater than 1m in depth, including temporary excavations for the installation or maintenance of services or pipes; (b) excavation or land filling of greater than 100m³ whether or not material is sourced on the site or imported; (c) felling or removal of vegetation over a contiguous area greater than 1000m²; (d) the collection, pooling or storage of water in a dam, pond, tank or swimming pool with a volume of more than 45 000L; (e) removal, redirection, or introduction of drainage for surface or groundwater; and (f) discharge of stormwater, sewage, water storage overflow or other wastewater. 	
vulnerable use	 wastewater. means a use that is within one or more of the following Use Classes: (a) Custodial Facility; (b) Education and Occasional Care; (c) Residential, if for respite centre, residential care facility, retirement village or assisted housing; or (d) Visitor Accommodation, if the use is to accommodate more than 12 guests. 	

C15.4 Use or Development Exempt from this Code

- C15.4.1 The following use or development is exempt from this code:
 - use of land within a low or medium landslip hazard band, excluding for a critical use, hazardous use or vulnerable use;
 - (b) use or development of land for Extractive Industry where a mining lease under the Mineral Resources Development Act 1995 is in force, excluding a hazardous use;
 - (c) use of land for:
 - (i) Natural and Cultural Values Management;
 - (ii) Passive Recreation;
 - (iii) Resource Development; or
 - (iv) Utilities;
 - (d) development on land within a low or medium landslip hazard band that requires authorisation under the *Building Act 2016*;
 - (e) development, including subdivision, on land within a low landslip hazard band, if it does not involve significant works;
 - development for Resource Development on land within the low or medium landslip hazard band, if it does not involve significant works;
 - (g) development for minor utilities or linear utilities associated with sewer, water, or stormwater systems, electricity, gas, telecommunications and roads, if it does not involve significant works;
 - (h) subdivision of land within the medium-active or high landslip hazard band, if it does not involve any works; and
 - (i) subdivision of land within a medium landslip hazard band if:
 - (i) it does not involve significant works; or
 - (ii) it does not create a new road, or extend an existing road.

C15.5 Use Standards

	C15.5.1	Use within a landslip hazard area
--	---------	-----------------------------------

Objective:	That uses, including critical, hazardous or vulnerable use, can achieve and maintain a tolerable risk from exposure to a landslip for the nature and intended duration of the use.	
Acceptable So	lutions	Performance Criteria
A1 No Acceptable	Solution.	 P1.1 A use, including a critical use, hazardous use, or vulnerable use, within a landslip hazard area achieve and maintain a tolerable risk from exposure to landslip, having regard to: (a) the type, form and duration of the use; and (b) a landslip hazard report that demonstrates that: (i) any increase in the level of risk from landslip does not require any specific hazard reduction or protection measure; or (ii) the use can achieve and maintain a tolerable risk for the intended life of the use. P1.2 If landslip reduction or protection measures are required on land beyond the boundary of the site, the consent in writing of the owner of that land must be provided for that land to be managed in accordance with the landslip reduction or protection measures.

A2	P2
No Acceptable Solution.	In addition to the requirements in clause C15.5.1 P1.1, a critical use within a landslip hazard area must achieve and maintain a tolerable risk from landslip, having regard to:
	 (a) the impact on the ability of the use to respond to a landslip event; (b) the impact on ability of the use to function and maintain service during the landslip and recovery period; (c) any interruption to the operation of the critical use in locations external to the immediate impact of the landslip event; (d) the creation of risk to the health or safety of people from damage or disruption to: (i) a water supply service; (ii) an energy supply; or (iii) the drainage and treatment of waste water; (e) any advice from a State authority, regulated entity or a council.
A3	P3
No Acceptable Solution.	 In addition to the requirements in clause C15.5.1 P1.1, a hazardous use within a landslip hazard area must achieve and maintain a tolerable risk, having regard to: (a) the health and safety of people; (b) any impact on property; (c) any impact on the environment; (d) the advice contained in a landslip hazard report; and (e) any advice from a State authority, regulated entity or a council.

A4	Р4
No Acceptable Solution.	 In addition to the requirements in clause C15.5.1 P1.1, a vulnerable use within a landslip hazard area must be protected from landslip, having regard to: (a) any protection measures, existing or proposed; (b) the ability and capability of people in a landslip event who may live, work or visit the site, to: (i) protect themselves; (ii) evacuate in an emergency; and (iii) understand and respond to instructions in the event of an emergency; (c) any emergency evacuation plan; (d) the advice contained in a landslip hazard report; and (e) any advice from a State authority, regulated entity or a council.

C15.6 Development Standards for Buildings and Works

C15.6.1	Buildi	ng and works within a landslip hazard area

C15.6.1 Bui	ding and works within a landslip hazar	
Objective:	That building and works on land within a landslip hazard area can:(a) minimise the likelihood of triggering a landslip event; and(b) achieve and maintain a tolerable risk from a landslip.	
Acceptable S	olutions	Performance Criteria
A1 No Acceptable	e Solution.	 P1.1 Building and works within a landslip hazard area must minimise the likelihood of triggering a landslip event and achieve and maintain a tolerable risk from landslip, having regard to: (a) the type, form, scale and intended duration of the development; (b) whether any increase in the level of risk from a landslip requires any specific hazard reduction or protection measures; (c) any advice from a State authority, regulated entity or a council; and (d) the advice contained in a landslip hazard report.
		A landslip hazard report also demonstrates that the buildings and works do not cause or contribute to landslip on the site, on adjacent land or public infrastructure. P1.3 If landslip reduction or protection measures are required beyond the boundary of the site the consent in writing of the owner of that land must be provided for that land to be managed in accordance with the specific hazard reduction or protection measures.

C15.7 Development Standards for Subdivision

C15.7.1 Subdivision within a landslip hazard area

Objective:	That subdivision within a landslip hazard area does not create an opportunity for use or development that cannot achieve a tolerable risk from a landslip.		
Acceptable Sol	utions	Performance Criteria	
A1		P1	
 within a landslip (a) be able to c access, and outside a la (b) be for the crubuildings; (c) be required council or a 	t proposed in a plan of subdivision, hazard area, must: contain a building area, vehicle d services, that are wholly located ndslip hazard area; reation of separate lots for existing for public use by the Crown, a State authority; or for the provision of Utilities.	 Each lot, or a lot proposed in a plan of subdivision, within a landslip hazard area must not create an opportunity for use or development that cannot achieve a tolerable risk from landslip, having regard to: (a) any increase in risk from a landslip for adjacent land; (b) the level of risk to use or development arising from an increased reliance on public infrastructure; (c) the need to minimise future remediation works; (d) any loss or substantial compromise, by a landslip, of access to the lot on or off site; (e) the need to locate building areas outside the landslip hazard area; (f) any advice from a State authority, regulated entity or a council; and (g) the advice contained in a landslip hazard report. 	

C16.0 Safeguarding of Airports Code

C16.1 Code Purpose

The purpose of the Safeguarding of Airports Code is:

- C16.1.1 To safeguard the operation of airports from incompatible use or development.
- C16.1.2 To provide for use and development that is compatible with the operation of airports in accordance with the appropriate future airport noise exposure patterns and with safe air navigation for aircraft approaching and departing an airport.

C16.2 Application of this Code

- C16.2.1 This code applies to:
 - (a) a sensitive use within an airport noise exposure area; and
 - (b) development within an airport obstacle limitation area.

C16.3 Definition of Terms

C16.3.1 In this code, unless the contrary intention appears:

Term	Definition	
airport master plan	 means a final master plan: (a) approved under the <i>Airports Act 1996</i> (Commonwealth); or (b) prepared and adopted for a non-Commonwealth-leased airport. 	
airport noise exposure area	means land shown on an overlay map in the relevant Local Provisions Schedule to be within an airport noise exposure area.	
airport obstacle limitation area	means land in the vicinity of an airport shown on an overlay map in the relevant Local Provisions Schedule on which specific limits expressed by AHD apply for the height of development as are necessary to protect aircraft movement and safety in accordance with the applicable Obstacle Limitation Surfaces and Procedures for Air Navigation Services – Aircraft Operations for that airport.	
Commonwealth-leased airport	means the: (a) Hobart International Airport; and (b) Launceston Airport.	
Obstacle Limitation Surfaces	 means the conceptual surfaces associated with an airport runway which: (a) are defined by reference to the conventional pattern required by aircraft to manoeuvre for take-off and approach for landing when the pilot is flying by sight; and (b) specify a height limitation for vertical obstacles that have the potential to become obstacles to aircraft operations. 	

Tasmanian Planning Scheme - State Planning Provisions

Term	Definition
Procedures for Air Navigation Services – Aircraft Operations	 means the conceptual surfaces associated with an airport runway which: (a) are defined by reference to the safe minimum altitude to which an aircraft can manoeuvre for circumstances where the aircraft is guided solely by instruments in conditions of poor visibility; and (b) specify a height limitation for vertical obstacles that have the potential to become obstacles to aircraft operations.

C16.4 Use or Development Exempt from this Code

- C16.4.1 The following use or development is exempt from this code:
 - (a) development that is not more than the AHD height specified for the site of the development in the relevant airport obstacle limitation area.

C16.5 Use Standards

C16.5.1 Sensitive use within an airport noise exposure area

Objective:	That:
	 (a) sensitive uses are appropriately located or designed to minimise exposure to excessive aircraft noise; and
	(b) the operation of airports are not compromised by the amenity expectations of sensitive uses.

Acceptable Solutions	Performance Criteria
A1	P1
A sensitive use must not be located within an airport noise exposure area.	A sensitive use within an airport noise exposure area must be located and designed to minimise exposure to excessive aircraft noise, having regard to:
	 (a) the location, orientation and elevation of the site relative to aircraft flight paths;
	 (b) the current and future type and frequency of aircraft operating from the airport;
	 (c) the type of use and the operational requirements for the use;
	 (d) the layout and construction of buildings associated with the use;
	 (e) the need to not compromise the future operation of the airport;
	 (f) the noise attenuation measures required by Section 3 of the Australian Standard AS 2021 – 2015, Acoustics – Aircraft Noise Intrusion – Building Siting and Construction;
	(g) the requirements of any relevant airport master plan; and
	 (h) any advice from the airport operator or Airservices Australia.

C16.6 Development Standards for Buildings and Works

Objective:	That buildings and works do not interfere with safe aircraft operations in the vicinity of an airport and on land within an airport obstacle limitation area.	
Acceptable Sol	utions	Performance Criteria
A1 Buildings and works within an airport obstacle limitation area associated with a Commonwealth- leased airport that exceed the specified height limit shown on the airport obstacle limitation area overlay applicable for the site of the development must have approval from the relevant Commonwealth department under the <i>Airports Act</i> <i>1996</i> (Commonwealth).		P1 No Performance Criterion.
A2 No Acceptable S	Solution.	 P2 Buildings and works within an airport obstacle limitation area associated with a non-Commonwealth-leased airport that exceed the specified height limit shown on the airport obstacle limitation area overlay applicable for the site of the development must not create an obstruction or hazard for the operation of aircraft, having regard to any advice from: (a) Airservices Australia; (b) the Civil Aviation Safety Authority; and (c) the airport operator.

C16.6.1 Buildings and works within an airport obstacle limitation area

C16.7 Development Standards for Subdivision

C16.7.1 Subdivision

Objective:	aircraft noise; and	be suitably located to avoid exposure to excessive sensitive use does not compromise the operation of
Acceptable So	lutions	Performance Criteria
A1		P1
 within an airpor (a) be for the obuildings; (b) be required council or a council or a (c) be required (d) be for the obuilding are located out area; or 	et proposed in a plan of subdivision, t noise exposure area must be: creation of separate lots for existing d for public use by the Crown, a a State authority; d for the provision of Utilities; consolidation of lots; creation of a lot that contains a ea not less than 10m x 15m entirely iside of the airport noise exposure anded for a sensitive use.	 Each lot, or a lot proposed in a plan of subdivision, within an airport noise exposure area must not create an opportunity for a sensitive use to be exposed to excessive aircraft noise, having regard to: (a) the location, orientation and elevation of the site relative to aircraft flight paths; (b) the current and future type and frequency of aircraft operating from the airport; (c) the type of use and the operational requirements for the use; (d) the layout and construction of buildings associated with the use; (e) the need to not compromise the future operation of the airport; (f) the requirements of any relevant airport master plan; and
		(g) any advice from the airport operator or Airservices Australia.

LP1.0 Local Provisions Schedule Requirements

LP1.1 Local Provisions Schedule Structure and Numbering

- LP1.1.1 The structure to which each Local Provisions Schedule (LPS) is to conform to the requirements set out in Appendix A.
- LP1.1.2 Each clause in each LPS must contain the relevant numbering prefix specified in Table LP1.0 and as shown in Appendix A.

Table LP1.0 Local Provisions Schedule Numbering

LP1.2 Zone Maps

- LP1.2.1 Each LPS must contain a map that provides for the spatial application of the zones to land in the municipal area.
- LP1.2.2 The zone map contained within each LPS must differentiate between Rural Living Zone A, Rural Living Zone B, Rural Living Zone C and Rural Living Zone D and any particular purpose zones.

LP1.3 Local Area Objectives

- LP1.3.1 Each LPS may include local area objectives in zones and specific area plans.
- LP1.3.2 Local area objectives must be listed in a table in the LPS in separate sub-clauses for each zone or in the specified sub-clause in a specific area plan.
- LP1.3.3 If a local area objective is included in a LPS it must be shown on an overlay map identifying the area of the local area objective.

LP1.4 Particular Purpose Zones

- LP1.4.1 A particular purpose zone must include:
 - (a) Zone Purpose;
 - (b) Use Table;
 - (c) Development Standards for Buildings and Works; and
 - (d) Development Standards for Subdivision.
- LP1.4.2 The provisions of a particular purpose zone must include each of the headings shown in Appendix A, followed by either the substance of the provision, or the words "This sub-clause is not used in this particular purpose zone", as the case may be.
- LP1.4.3 Any defined terms within a particular purpose zone must be additional to those set out in clause 3.0 and must not change the meaning of a defined term.
- LP1.4.4 A particular purpose zone may include two or more areas, such as precincts, within the area of the zone. A particular purpose zone with two or more areas may include:
 - (a) additional subclauses to identify the application of the particular purpose zone to the different areas; and
 - (b) separate local area objectives, use tables, and use and development standards to reflect the different areas within the area of the particular purpose zone.

LP1.5 Specific Area Plans

- LP1.5.1 A specific area plan must include:
 - (a) Plan Purpose; and
 - (b) Application,

as well as at least one other sub-clause, excluding local area objectives, definition of terms or tables.

LP1.5.2 The provisions of a specific area plan must include each of the headings shown in Appendix A followed by either the substance of the provision, or the words "This sub-clause is not used in this specific area plan", as the case may be.

- LP1.5.3 Any defined terms within a specific area plan must be additional to those set out in clause 3.0 and must not change the meaning of an existing defined term.
- LP1.5.4 If a specific area plan is included in a LPS it must be shown on an overlay map identifying the area of the specific area plan.
- LP1.5.5 A specific area plan may include two or more areas, such as precincts, within the area of the specific area plan. A specific area plan with two or more areas may include:
 - (a) additional subclauses to identify the application of the specific area plan to the different areas; and
 - (b) separate local area objectives, use tables, and use and development standards to reflect the different areas within the area of the specific area plan.

LP1.6 Site-specific Qualifications

LP1.6.1 Site-specific qualifications for a particular area of land must be shown on the overlay maps, annotated with the reference number and all information requirements completed in a relevant list in the LPS.

LP1.7 Code Overlay Maps

- LP1.7.1 Parking and Sustainable Transport Code
 - (a) If the planning authority has:
 - (i) a pedestrian priority street for; or
 - (ii) parking precinct plan within,

its municipal area, the LPS must contain an overlay map showing that plan, or that street, for the purposes of the application of the Parking and Sustainable Transport Code.

LP1.7.2 Road and Railway Assets Code

- (a) Where part of the municipal area is reserved or allocated for the purposes of:
 - (i) a future major road; or
 - (ii) a future railway,

the planning authority must contain in the LPS an overlay map showing the reservation or application for the purposes of the application of the Road and Railway Assets Code.

- (b) Each LPS may contain an overlay map showing a road or railway attenuation area for the application of the Road and Railway Assets Code.
- LP1.7.3 Electricity Transmission Infrastructure Protection Code
 - (a) Each LPS must contain an overlay map for the application of the Electricity Transmission Infrastructure Protection Code, produced by TasNetworks, showing:
 - (i) a communications station buffer area;
 - (ii) an electricity transmission corridor;
 - (iii) an inner protection area;
 - (iv) a substation facility; and
 - (v) a substation facility buffer area,

unless modified by the planning authority for part of the municipal area. If modified, the modified map must be shown.

- LP1.7.4 Local Historic Heritage Code
 - (a) If the planning authority has:
 - (i) local heritage landscape precincts;
 - (ii) local heritage precincts; or

(iii) places or precincts of archaeological potential,

within its municipal area, the LPS must include an overlay map showing the place or precinct for the application of the Local Historic Heritage Code.

- (b) Each LPS may contain an overlay map showing local heritage places for the application of the Local Historic Heritage Code.
- (c) Each LPS may contain an overlay map showing significant trees in the relevant Local Provisions Schedule, for the application of the Local Historic Heritage Code.
- LP1.7.5 Natural Assets Code
 - (a) If a planning authority has areas identified for:
 - (i) future coastal refugia; or
 - (ii) waterway and coastal protection,

in its municipal area, the LPS must contain an overlay map showing those areas for the application of the Natural Assets Code.

- (b) Each LPS must contain an overlay map showing priority vegetation areas, produced in accordance with sub-clauses LP1.7.5(c) and (d), for the application of the Natural Assets Code.
- (c) The priority vegetation area must:
 - (i) include threatened native vegetation communities as identified on TASVEG Version 3 mapping, as published on the Department of Primary Industries, Parks, Water and the Environment's website and available on the Land Information System Tasmania;
 - (ii) be derived from threatened flora data from the Natural Values Atlas, as published on the Department of Primary Industries, Parks, Water and the Environment's website and available on the Land Information System Tasmania; and
 - (iii) be derived from threatened fauna data from the Natural Values Atlas, as published on the Department of Primary Industries, Parks, Water and the Environment's website for the identification of significant habitat for threatened fauna species; and
- (d) the planning authority may modify the priority vegetation area derived under clause LP1.7.5(c) based on field verification, analysis or mapping undertaken by, the planning authority or a suitably qualified person on behalf of the planning authority, at a local or regional level, which:
 - addresses any anomalies or inaccuracies in the mapping and data in sub-clause LP1.7.5(c);
 - provides more recent or detailed local assessment of the mapping and data in subclause LP1.7.5(c); or
 - (iii) identifies native vegetation of local importance, including habitat for native fauna of local importance.

LP1.7.6 Scenic Protection Code

- (a) If the planning authority has:
 - (i) a scenic protection area; or
 - (ii) a scenic road corridor,

within its municipal area, the LPS must contain an overlay map showing the area or road for the application of the Scenic Protection Code.

- LP1.7.7 Attenuation Code
 - (a) Each LPS may contain an overlay map showing attenuation areas for the spatial application of the Attenuation Code.
- LP1.7.8 Coastal Erosion Hazard Code
 - Each LPS must contain an overlay map produced by the Department of Premier and Cabinet, showing:
 - (i) coastal erosion hazard areas; and
 - (ii) coastal erosion investigation areas,

for the application of the Coastal Erosion Hazard Code, unless modified by the planning authority for part of the municipal area. If modified, the modified map must be shown.

- LP1.7.9 Coastal Inundation Hazard Code
 - (a) Each LPS must contain an overlay map produced by the Department of Premier and Cabinet, showing:
 - (i) coastal inundation hazard areas; and
 - (ii) coastal inundation investigation areas,

for the application of the Coastal Inundation Hazard Code, unless modified by the planning authority for part of the municipal area. If modified, the modified map must be shown.

- LP1.7.10 Flood-Prone Areas Hazard Code
 - (a) If a planning authority has flood-prone areas in its municipal area, the LPS must contain an overlay showing the areas for the application of the Flood-Prone Areas Hazard Code.
- LP1.7.11 Bushfire-Prone Areas Code
 - (a) Each LPS may contain an overlay map showing bushfire-prone areas for the application of the Bushfire-Prone Areas Code.
- LP1.7.12 Landslip Hazard Code
 - (a) Each LPS must contain an overlay map produced by the Department of Premier and Cabinet, showing landslip hazard areas for the application of the Landslip Hazard Code, unless modified by the planning authority for part of the municipal area. If modified, the modified map must be shown.
- LP1.7.13 Potentially Contaminated Land Code
 - (a) Each LPS may contain an overlay map showing potentially contaminated land for the purposes of the application of the Potentially Contaminated Land Code.
- LP1.7.14 Safeguarding of Airports Code
 - (a) If a planning authority has:
 - (i) airport noise exposure areas based on airport noise contours contained in an airport master plan or otherwise adopted for the relevant airport; and
 - (ii) airport obstacle limitation area based on the Obstacle Limitation Surfaces and Procedures for Air Navigation Services – Aircraft Operations for the relevant airport,

in its municipal area, the LPS must contain an overlay map showing those areas for the application of the Safeguarding of Airports Code.

LP1.8 Code Lists in Tables

- LP1.8.1 Each LPS may contain lists in a table for the application of the Road and Railway Assets Code, Local Historic Heritage Code, Scenic Protection Code and Coastal Inundation Hazard Code. All information requirements are to be completed in the tables.
- LP1.8.2 If a planning authority does not list any:
 - (a) other major roads;
 - (b) local heritage places;
 - (c) local heritage precincts;
 - (d) local historic landscape precincts;
 - (e) places or precincts of archaeological potential;
 - (f) significant trees;
 - (g) scenic protection areas;
 - (h) scenic road corridors; or
 - (i) coastal inundation hazard bands AHD levels,

the relevant table must be used with "This table is not used in this Local Provisions Schedule" inserted in the second row of the first column of the table.

Appendix A - Local Provisions Schedule Structure

<municipal area name> Local Provisions Schedule

<prefix>-Local Provisions Schedule Title

<prefix>1.1 This Local Provisions Schedule is called the <municipal area name> Local Provisions Schedule and comprises all the land within the municipal area.

Northern Midlands Local Provisions Schedule

NOR-Local Provisions Schedule Title

NOR-1.1 This Local Provisions Schedule is called the Northern Midlands Local Provisions Schedule and comprises all the land within the municipal area.

NOR-Effective Date

NOR-1.2 The effective date for this Local Provisions Schedule is 9 November 2022.

NOR-Local Area Objectives

This sub-clause is not used in this Local Provision Schedule.

NOR-P1.0 Particular Purpose Zone – Campbell Town Service Station

NOR-P1.1 Zone Purpose

The purpose of the Particular Purpose Zone - Campbell Town Service Station is:

- NOR-P1.1.1 To provide for vehicle fuel sales and limited associated uses servicing the wider region, including heavy transport vehicles.
- NOR-P1.1.2 To ensure off-site impacts are minimal or can be managed to minimise conflict with, or unreasonable loss of amenity to, any sensitive uses.

NOR-P1.2 Local Area Objectives

This sub-clause is not used in this particular purpose zone.

NOR-P1.3 Definition of Terms

This sub-clause is not used in this particular purpose zone.

NOR-P1.4 Use Table

Use Class	Qualification	
No Permit Required		
Utilities	If for minor utilities.	
Permitted		
Vehicle Fuel Sales and Service		
Discretionary		
Food Services	If associated with Vehicle Fuel Sales and Service use on the same site.	
Service Industry	If for a car wash.	
Utilities If not listed as No Permit Required.		
Prohibited		
All other uses		

NOR-P1.5 Use Standards

NOR-P1.5.1 A	menity
--------------	--------

Objective:	That uses do not cause an unreaso	pnable loss of amenity to nearby sensitive uses.	
Acceptable Solutions		Performance Criteria	
A1		P1	
Hours of operation of a use, commercial vehicle movements, and unloading and loading of commercial vehicles for a use must be within the hours of 6.00am to 8.00pm.		Hours of operation of a use, commercial vehicle movements, and unloading and loading of commercial vehicles for a use must not cause an unreasonable loss of potential or actual amenity to adjoining properties, having regard to:	
		 (a) the timing, duration or extent of vehicle movements; 	
		 (b) the number and frequency of vehicle movements; 	
		 (c) the potential for light spill from vehicle headlights; 	
		(d) the size of vehicles involved;	
		 (e) manoeuvring required by heavy vehicles, including the amount of reversing and associated warning noise; 	
		 (f) the potential for loss of residential amenity due to noise, and any noise mitigation measures between the vehicle movement areas and the adjoining residential areas; and 	
		(g) potential conflicts with other traffic.	
A2		P2	
the use must no	ne boundary, noise levels caused by ot exceed: netween 8.00am and 8.00pm;	Noise must not cause unreasonable loss of potential or actual amenity to adjoining properties, having regard to:	
	t other times; and	(a) background noise levels;	
	pove background for intrusive noise.	(b) the duration and tonal characteristics of the noise; and	
		(c) time of day.	
A3		P3	
External lighting	g for a use must:	External lighting for a use must not cause an unreasonable loss of potential or actual amenity to adjoining properties, having regard to:	

(a) (b)	not operate within the hours of 8.00pm to 6.00am, excluding any security lighting; and if for security lighting, be baffled so that direct light does not extend into the adjoining property.	(a) (b)	the level of illumination and duration of lighting; and the distance to habitable rooms of an adjacent dwelling.
	rlooking of private open space on adjoining perties must not occur.	priva adjoi (a) (b)	use should not cause an unreasonable loss of cy to the potential or actual private open space of ning properties, having regard to: the existing level of privacy; the eye level of the drivers of vehicles visiting the site; and the distance of vehicle manoeuvring areas from the side and rear boundaries.

NOR-P1.5.2 Pollutants

Objective:	That pollutants caused by the use are contained within the site.		
Acceptable Solutions		Performance Criteria	
A1.1		P1	
The following pollutants caused by the use must be contained within the site:		No Performance Criterion.	
(a) fuels;			
(b) oils;			
(c) mud or silt; and			
(d) chemicals	; or		
A1.2			
	nust be treated in accordance with a eement and directed to a sewer.		

NOR-P1.6.1	Building height	
Objective:	To provide for a building height that:	
	(a) is compatible with the form a	nd scale of residential development; and
	(b) minimises adverse impacts on adjoining properties.	
Acceptable So	ble Solutions Performance Criteria	
A1		P1
Building height i	must be not more than 8.5m.	 Building height must be necessary for the operation of the use and not cause an unreasonable impact on adjoining properties, having regard to: (a) the bulk and form of the building; (b) separation from existing uses on adjoining properties; (c) any buffers created by natural or other features; and (d) the degree of overshadowing and overlooking of adjoining residential properties.

NOR-P1.6 Development Standards for Buildings and Works

NOR-P1.6.2	Setback

Objective:	That the building setback:	
	(a) provides sufficient area for access and landscaping; and	
	(b) minimises adverse impacts on adjoining properties.	
Acceptable So	Solutions Performance Criteria	
A1		P1
Buildings must not less than 1	have a setback from a frontage of 0m.	 Buildings must have a setback from a frontage that provides adequate space for vehicle access, and landscaping, and minimises adverse impact on adjoining residential properties, having regard to: (a) the topography of the site; (b) the setback of buildings on adjacent properties; (c) the safety of road users; (d) the amenity of residents; and (e) landscaping to integrate development with the streetscape.

A2	P2
Buildings must have a setback from a side and rear boundary of not less than 10m.	Buildings must be sited to not cause an unreasonable loss of residential amenity to adjoining properties, having regard to:
	 (a) overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings;
	(b) overlooking and reduction of privacy;
	 (c) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from the adjoining property;
	(d) the level and effectiveness of physical screening by fences or vegetation;
	 (e) the location and impacts of traffic circulation and the need to locate parking away from residential boundaries; and
	(f) the location and impacts of illumination of the site.

NOR-P1.6.3	Fencing
1001-11.0.5	renoing

Obje	ective:	That fencing:		
(a) is compatible with the streets		(a) is compatible with the street	tscape; and	
		(b) assists with the maintenance of residential amenity to adjoining residential properties.		
Acc	eptable Sol	utions	Performance Criteria	
A1			P1	
Fen	ces must be	located and designed to prevent:	Fences must be located and designed to protect	
(a)		ghts of vehicles using the site being to windows of adjacent dwellings;	residential amenity on adjacent properties, having regard to:	
	and		(a) attenuation of noise;	
(b) overlooking of private open spaces of adjacent			(b) potential for light spill;	
	residential properties.		(c) prevention of overlooking;	
			(d) fence height, design, location and extent;	
			(e) the proposed materials and construction;	
			 (f) the potential for loss of sunlight to residential buildings or private open space; 	
			(g) the potential for visual impact due to appearance of bulk; and	

	(h) streetscape appearance.
A2	P2
Frontage fences with a height greater than 1.2m must be setback from the boundary and integrated with landscaping for the site.	Fences at the frontage of a site must not detract from the streetscape or the character of the local area, having regard to the height, apparent scale, proportions, materials, design and colour of the fence.

NOR-P1.6.4	Landscaping
NOK-F 1.0.4	Lanuscaping

NOR-P1	.6.4 Landscaping		
Objecti	ive: That landscaping:	That landscaping:	
	(a) enhances the appearance	of the site; and	
	(b) does not detract from the a	amenity of adjacent residential properties.	
Accept	table Solutions	Performance Criteria	
A1		P1	
Along a frontage, landscaping must be provided for a minimum of 30% of the frontage at a minimum width of 3m.		Landscaping along a frontage must enhance the appearance of the site, having regard to:	
width o		(a) the width of the setback;	
		(b) the width of the frontage;	
		(c) the topography of the site;	
		(d) the existing vegetation on the site;	
		(e) the type and growth of the proposed vegetation and	
		(f) the location of parking and access areas.	
A2		P2	
Along a boundary with a residential zone landscaping must:		Landscaping along a boundary with a residential zon must not detract from the amenity of adjacent	
	e provided for a depth of not less than 2m; and	residential properties, and appearance of the site, having regard to:	
(b) provid	provide mature species to a height of at least	(a) the topography of the site;	
	m within 50% of the landscaping area.	(b) the existing vegetation on the site;	
		(c) the type and growth of the proposed vegetation and	
		(d) any proposed screening.	

Objective:	That stormwater from the subject si	te is d	irected into a public stormwater system.
Acceptable So	lutions	Perf	ormance Criteria
A1		P1	
All stormwater runoff must be captured within the boundaries of the site and directed into a public stormwater system.		discl	tormwater runoff is to be collected and narged in a manner that does not cause adverse acts, having regard to:
		(a)	the location of the discharge point (if any);
		(b)	the stormwater flow paths both internal and external to the site;
		(c)	the location of building areas within the site;
		(d)	the topography of the site;
		(e)	the characteristics of the site, including rainfall;
		(f)	the development on the site and adjoining land;
		(g)	the potential for contamination; and
		(h)	any on-site storage devices, detention basins or other water sensitive urban design techniques within the subdivision.

NOR-P1.6.5 Stormwater

NOR-P1.7 Development Standards for Subdivision

NOR-P1.7.1 Lot design		
Objective:	That each lot:(a) is for the provision of public utilities; and(b) is provided with appropriate access to a road.	
Acceptable Sol	utions	Performance Criteria
A1 Each lot (other than the balance lot) must be for the provision of public utilities.		P1 No Performance Criterion.
A2 Each lot, or a lot proposed in a plan of subdivision, must have a frontage of not less than 20m.		P2 Each lot, or a lot proposed in a plan of subdivision, must be provided with a frontage or legal connection to a road by a right of carriageway, that is sufficient for the intended use, having regard to:

 (a) the number of other lots which have the land subject to the right of carriageway as their sole or principal means of access;
(b) the topography of the site;
(c) the functionality and usability of the frontage;
 (d) the anticipated nature of vehicles likely to access the site;
(e) the ability to manoeuvre vehicles on the site; and
(f) the ability for emergency services to access the site.

NOR-P1.7.2 Services

Objective:	That the subdivision of land provides services for the future use and development of the land.	
Acceptable Sc	lutions	Performance Criteria
A1		P1
Each lot, or lot proposed in a plan of subdivision, excluding those for Utilities, must:		No Performance Criterion.
 (a) have a connection to a reticulated sewerage system; or 		
(b) be capable of accommodating an on-site waste water management system.		
A2		P2
Each lot, or lot proposed in a plan of subdivision, excluding those for Utilities, must be capable of connecting to a public stormwater system.		No Performance Criterion.
A3		P3
Each lot, or lot proposed in a plan of subdivision, excluding those for Utilities, must be capable of connecting to a public reticulated water system.		No Performance Criterion.

NOR-P1.8 Tables

This sub-clause is not used in this particular purpose zone.

NOR-P2.0 Particular Purpose Zone – Epping Forest Service Station

NOR-P2.1 Zone Purpose

The purpose of the Particular Purpose Zone – Epping Forest Service Station is:

- NOR-P2.1.1 To provide for vehicle fuel sales and limited associated uses.
- NOR-P2.1.2 To minimise unreasonable impact on the amenity of adjacent sensitive uses.

NOR-P2.2 Local Area Objectives

This sub-clause is not used in this particular purpose zone.

NOR-P2.3 Definition of Terms

This sub-clause is not used in this particular purpose zone.

NOR-P2.4 Use Table

Use Class	Qualification	
No Permit Required		
Utilities	If for minor utilities.	
Permitted		
Vehicle Fuel Sales and Service		
Discretionary		
Food Services	If associated with Vehicle Fuel Sales and Service use on the same site.	
Service Industry	If for a car wash.	
Utilities	If not listed as No Permit Required.	
Prohibited		
All other uses		

NOR-P2.5 Use Standards

NOR-	P2.5.1	Amenity		
Objective: That uses do not cause an unreasonable loss of amenity to		loss of amenity to adjacent sensitive uses.		
Acce	eptable Sol	utions	Perf	ormance Criteria
A1			P1	
 Hours of operation of a use, excluding minor Utilities and Vehicle Fuel Sales and Service, must be within the hours of: (a) 7.00am to 9.00pm Monday to Saturday; and (b) 8.00am to 6.00pm Sunday and public holidays. 		and ` an ui	s of operation of use, excluding minor Utilities Vehicle Fuel Sales and Services, must not cause preasonable loss of amenity to adjacent sensitive , having regard to: the timing, duration or extent of vehicle movement; and noise, lighting or other emissions.	
A2			P2	
External lighting for a use, must:		Exte	rnal lighting for a use, used on the site must not	
 (a) not operate within the hours of 9.00pm to 7.00am, excluding any security lighting; and 			e an unreasonable loss of amenity to adjacent itive uses, having regard to:	
(b) if for se		r security lighting, be baffled so that it does cause emission of light onto an adjacent	(a)	the number of proposed light sources and their intensity;
	property.		(b)	the location of the proposed light sources;
			(c)	the topography of the site;
			(d)	the degree of screening between the light source and the sensitive use; and
			(e)	existing light sources.

NOR-P2.6.1	Building height	
Objective:	To provide for a building height that:	
	(a) is necessary for the operation	n of the use; and
	(b) minimises adverse impacts of	on adjacent properties.
Acceptable So	lutions	Performance Criteria
A1		P1
Building height must be not more than 8.5m.		Building height must be necessary for the operation of the use and not cause an unreasonable impact on adjacent properties, having regard to:
		(a) the bulk and form of the building;
		 (b) separation from existing uses on adjacent properties;
		 (c) any buffers created by natural or other features; and
		(d) the degree of overshadowing and overlooking of adjacent sensitive uses.

NOR-P2.6 Development Standards for Buildings and Works

NOR-P2.6.2	Setbacks

NON-F2.0.2 Selbacks		
Objective:	That building setbacks:	
	(a) are appropriate for the site;	and
	(b) do not cause an unreasonable loss of amenity to adjacent sensitive uses.	
Acceptable Solutions Performance Criteria		Performance Criteria
A1 P1		P1
Buildings must not less than 1	have a setback from a frontage of 0m.	Buildings must have a setback from a frontage that provides adequate space for vehicle access and landscaping, and does not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) the topography of the site;
		(b) the setback of buildings on adjacent properties;(c) the safety of road users; and

(d) the provision of landscaping along the frontage of the site.

A2	P2
Buildings must have a setback from a side and rear boundary of not less than 10m.	Buildings must be sited so there is no unreasonable loss of amenity to adjacent sensitive uses, having regard to:
	 (a) the degree of overshadowing and overlooking of adjacent sensitive uses;
	 (b) visual impacts caused by the apparent scale, bulk or proportions of the building when viewed from adjacent sensitive uses;
	 (c) the level and effectiveness of physical screening by fences or vegetation; and
	 (d) the location of traffic circulation and parking in relation to adjacent sensitive uses.
A3	P3
Air conditioning, air extraction vents, self-bunded fuel tanks, pumping, heating or refrigeration systems, compressors or generators must have a setback from a sensitive use of not less than 40m. ¹	Air conditioning, air extraction vents, self-bunded fuel tanks, pumping, heating or refrigeration systems, compressors or generators within 40m of a sensitive use must be designed, located, baffled or insulated to not cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to:
	 (a) the characteristics and frequency of any emissions generated;
	(b) the nature of the proposed use;
	 (c) the topography of the site and location of adjacent sensitive uses; and
	(d) any mitigation measures proposed.

NOR-P2.6.3 Fencing

Objective:	That fencing does not result in unreasonable loss of amenity to adjacent sensitive uses.	
Acceptable Solutions		Performance Criteria
A1		P1
Fences must be solid and no less than 1.8m and not more than a height of 2.1m above existing natural ground level.		Fences must be located and designed so as not to cause an unreasonable loss of amenity to adjacent sensitive uses, having regard to: (a) attenuation of noise;

¹ An exemption for air conditioners and heat pumps applies in this zone – see Table 4.6.

 (b) potential for light spill, including lights from vehicles using the site;
(c) prevention of overlooking;
(d) the height, design, location and extent of the fence; and
(e) overlooking of private open spaces of adjacent residential properties
(f) the proposed materials and construction and bulk;
(g) the potential for loss of sunlight; and
(h) the streetscape.

Objective:	That landscaping:	
	(a) enhances the appearance of the site; and	
	(b) does not result in unreasonable loss of amenity to adjacent sensitive uses.	

Acceptable Solutions	Performance Criteria
A1.1	P1
Landscaping treatment to a depth of 3m must be provided along a boundary within 40m of an adjacent dwelling, excluding areas required for vehicle access and other services.	Landscaping treatment does not result in an unreasonable loss amenity to adjacent sensitive uses and enhances the appearance of the site, having regard to:
A1.2	(a) the topography of the site;
Landscaping treatment must have a minimum of	(b) any existing vegetation on the site;
50% of the landscaped area made up of species that are known to grow to a mature height of at least 4m.	(c) the type, growth, and mature height of the proposed vegetation; and(d) any hard screening proposed.
	(-, -, -, -, -, -, -, -, -, -, -, -, -, -

NOR-1 2.0.5			
Objective:	That outdoor storage areas do not detract from the appearance of the site or surrounding area.		
Acceptable Solutions		Perf	ormance Criteria
A1		P1	
Outdoor storage areas, excluding for the display of goods for sale, must not be visible from any road or public open space adjoining the site.		mus unre	door storage areas, excluding any goods for sale, t be located, treated or screened to not cause an asonable loss of the visual amenity of the area, ng regard to:
		(a)	visual impact on adjacent sensitive uses,
		(b)	the nature of the use;
		(c)	the type of goods, materials or waste to be stored;
		(d)	the topography of the site; and
		(e)	any screening proposed.

NOR-P2.6.5 Outdoor storage areas

NOR-P2.7 Development Standards for Subdivision

NOR-	P2.7.1	Lot design	
Obje	ective:	 That each lot: (a) is for public use by the Crown, a council or a State authority or for the provision of public utilities; and (b) is provided with appropriate access to a road. 	
Acc	Acceptable Solutions		Performance Criteria
A1	A1		P1
Each lot, or a lot proposed in a plan of subdivision, must:		proposed in a plan of subdivision,	No Performance Criterion.
(a)	 be required for public use by the Crown, a council or a State authority; 		
(b)	b) be required for the provision of Utilities; or		
(c)	(c) be for the consolidation of a lot with another lot provided both lots are within the same zone.		

NOR-P2.8 Tables

This sub-clause is not used in this particular purpose zone.

NOR-S1.0 Translink Specific Area Plan

NOR-S1.1 Plan Purpose

The purpose of the Translink Specific Area Plan is:

- NOR-S1.1.1 Provide for industrial and commercial uses and developments which serve the strategic needs of the Launceston and Northern Midlands region and the State, and which would derive a particular benefit from a location having proximity to Launceston Airport, access to the State's road and rail network or links to the port of Bell Bay.
- NOR-S1.1.2 Cater primarily for storage, transport and industrial uses.
- NOR-S1.1.3 Provide for a limited range of retail or other activity, which supports storage, transport and industrial uses.
- NOR-S1.1.4 Provide for a limited range of retail or other activity, which can demonstrate that the location offers a particular strategic advantage.
- NOR-S1.1.5 Provide an area within which business-support facilities for the Translink Industrial Zone and Airport operations can locate.
- NOR-S1.1.6 Provide opportunities for the development of accommodation adjacent to and serving the Airport.
- NOR-S1.1.7 Provide detailed guidance on use and development within the General Industrial Zone at Translink, particular to the unique characteristics of the area.

NOR-S1.2 Application of this Plan

- NOR-S1.2.1 The specific area plan applies to the area of land designated as NOR-S1.0 Translink Specific Area Plan on the overlay maps and in Figure NOR-S1.2.1.
- NOR-S1.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and are in addition to the provisions of:
 - (a) General Industrial Zone;
 - (b) Agriculture Zone;
 - (c) Parking and Sustainable Transport Code; and
 - (d) Safeguarding Airports Code,

as specified in the relevant provisions.

NOR-S1.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

Term	Definition
curtilage	means the area of land occupied by development including its yard, outbuildings, car parking, driveways, storage areas, landscaping, wastewater disposal areas and land maintained for natural hazard protection.

NOR-S1.4 Definition of Terms

NOR-S1.5 Use Table

NOR-S1.5.1 - Area 1 (refer to Figure NOR-S1.2.1)

Use Class	Qualification	
No Permit Required		
Passive Recreation		
Utilities	If for minor utilities.	
Permitted		
Research and Development		
Service Industry		
Storage	If not for a liquid fuel depot or solid fuel depot.	
Transport Depot and Distribution		
Utilities	If not listed as No Permit Required.	
Vehicle Fuel Sales and Service		
Vehicle Parking		
Discretionary		
Bulky Goods Sales	If for a showroom with a gross floor area of not more than 200m ² .	
Emergency Services		
Manufacturing and Processing		
Resource Processing		
Storage	If for a liquid fuel depot or solid fuel depot.	

Use Class	Qualification	
Prohibited		
All other uses		

NOR-S1.5.2 - Area 2 (refer to Figure NOR-S1.2.1)

Use Class	Qualification	
No Permit Required		
Passive Recreation		
Utilities	If for minor utilities.	
Permitted		
Storage	If not for a liquid fuel depot or solid fuel depot.	
Transport Depot and Distribution	If not for a passenger transport terminal.	
Vehicle Parking		
Discretionary		
Bulky Goods Sales	If for:	
	(a) a showroom; or	
	(b) motor vehicle, boat or caravan sales.	
Business and Professional Services	If for an office.	
Emergency Services		
Food Services	If for existing.	
Manufacturing and Processing		
Resource Processing	If at 13 Richard Street, Western Junction folio of the Register 129904/5.	
Transport Depot and Distribution	If not listed as Permitted.	
Prohibited		
All other uses		

NOR-S1.5.3 - Area 3 (refer to Figure NOR-S1.2.1)

This clause is in substitution for General Industrial Zone – clause 19.2 Use Table.

Use Class	Qualification	
No Permit Required		
Utilities	If for minor utilities.	
Permitted		
Storage	If not for a liquid fuel depot or solid fuel depot.	
Transport Depot and Distribution		
Discretionary		
Manufacturing and Processing		
Research and Development		
Resource Processing		
Storage	If not listed as Permitted.	
Utilities	If not listed as No Permit Required.	
Prohibited		
All other uses		

NOR-S1.5.4 - Area 4 (refer to Figure NOR-S1.2.1)

Use Class	Qualification
No Permit Required	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Bulky Goods Sales	If for existing motor vehicle, boat, or caravan sales.
Business and Professional Services	If for an office.
Community Meeting and Entertainment	
Food Services	If for a restaurant.

Use Class	Qualification	
Residential	If for a home-based business.	
Visitor Accommodation	If not for a motel.	
Discretionary		
Food Services	If for a takeaway shop and not listed as Permitted.	
General Retail and Hire	If for a gross floor area of not more than 250m ² .	
Transport Depot and Distribution	If for a passenger transport depot.	
Utilities	If not listed as No Permit Required.	
Vehicle Fuel Sales and Service	If for a service station.	
Visitor Accommodation	If not listed as No Permit Required.	
Prohibited		
All other uses

Utilities	If not listed as No Permit Required.	
Vehicle fuel sales and service	If for a service station.	
Discretionary		
Bulky Goods Sales	If for a showroom.	
Business and Professional Services	If for an office.	
General Retail and Hire	If for a gross floor area of not more than 250m ² .	

Use Class	Qualification	
Storage	If at 74 Evandale Road, Western Junction folio of the Register 150770/1, 86 Evandale Road, Western Junction folio of the Register 150770/2, or 2 Translink Avenue folio of the Register 50770/3.	
Visitor Accommodation	If for a motel.	
Prohibited		
All other uses		

NOR-S1.5.7 - Area 7 (refer to Figure NOR-S1.2.1)

This clause is in substitution for Agriculture Zone – clause 19.2 Use Table.

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Resource Development	If not for:	
	(a) plantation forestry on prime agricultural land;	
	(b) controlled environment agriculture on prime agricultural land;	
	(c) intensive animal husbandry on prime agricultural land;	
	(d) a dwelling; or	
	(e) forestry or plantation forestry on non-prime agricultural land.	
Utilities	If for existing uses and the curtilage does not increase by more than 30% as at 1 June 2013 and not located on prime agricultural land.	
Permitted		
Business and Professional Services	If for a veterinary centre or similar specialist animal breeding or care services.	
Domestic Animal Breeding, Boarding or Training	If not on prime agricultural land.	
Community Meeting and Entertainment	If for existing premises used for public purposes.	
Crematoria and Cemeteries	If for crematoria and not on prime agricultural land.	
Extractive Industries	If not:	
	(a) located on prime agricultural land; or	
	(b) for a level 2 activity.	

Use Class	Qualification	
Food Services	If for existing uses and the curtilage does not increase by more than 30% as at 1 June 2013.	
Hotel Industry	If for existing uses and the curtilage does not increase by more than 30% as at 1 June 2013.	
Residential	If for existing uses or home-based business in an existing dwelling.	
Resource Development	lf :	
	(a) not for plantation forestry on prime agricultural land;	
	 (b) not for controlled environment agriculture on prime agricultural land; or 	
	(c) not for animal husbandry on prime agricultural land; and	
	(d) not listed as No Permit Required.	
Resource Processing	If directly associated with produce from the subject site.	
Sports and Recreation	If for existing uses and the curtilage does not increase by more than 30% as at 1 June 2013.	
Visitor Accommodation	If for existing uses and the curtilage does not increase by more than 30% as at 1 June 2013.	
Discretionary		
Bulky Goods Sales	If for rural supplies, landscape supplies and timber yard.	
Business and Professional Services	If not listed as No Permit Required.	
Educational and Occasional Care	If providing education services for the Resource Development use class.	
Emergency Services		
Equipment and Machinery Sales and Hire		
Extractive Industries	If not listed as Permitted.	
Food Services	If not listed as Permitted.	
General Retail and Hire		
Hotel Industry	lf:	
	(a) for cellar door sales, micro-breweries or micro distilleries; and	
	(b) not listed as Permitted.	
Motor Racing Facility	If not a new facility on prime agricultural land.	
Recycling and Waste Disposal		

Use Class	Qualification	
Research and Development	If directly associated with Resource Development.	
Residential	If for single dwelling.	
Resource Development	If not listed as No Permit Required or Permitted.	
Resource Processing	If not listed as Permitted.	
Service Industry		
Sports and Recreation	If not listed as Permitted.	
Tourist Operation		
Transport Depot		
Utilities	lf:	
	(a) for existing uses on prime agricultural land;	
	(b) not for existing uses; or	
	(c) the curtilage increases by more than 30% from that existing at 1 June 2013.	
Vehicle Fuels Sales and Service		
Visitor Accommodation	If not listed as Permitted.	
Prohibited		
All other uses		

NOR-S1.6 Use Standards

NOR-S1.6.1 External lighting

This clause is in addition to General Industrial Zone – clause 19.3.1 Discretionary uses and Agriculture Zone – clause 21.3.1 Discretionary uses.

Objective:	That external lighting does not impact on the operational safety of the Launceston Airport.	
Acceptable Sol	utions	Performance Criteria
A1		P1
External lighting must be hooded and directed so as not to cause nuisance, threat or hazard to the operation of Launceston Airport.		No Performance Criterion.

NOR-S1.6.2 Environmental quality

This clause is in addition to General Industrial Zone – clause 19.3.1 Discretionary uses and Agriculture Zone – clause 21.3.1 Discretionary uses.

Objective:	That development does not:(a) result in environmental harm to the local area; or(b) impact on the operational safety of the Launceston Airport.	
Acceptable Solutions		Performance Criteria
A1 Emissions must not cause a hazard to the safe operation of Launceston Airport.		P1 No Performance Criterion.
A2 Emissions must not cause a hazard to the residents in the Devon Hills Low Density Residential Zone.		P2 No Performance Criterion.

NOR-S1.6.3 Residential use

This clause is in addition to General Industrial Zone – clause 19.3.1 Discretionary uses, Agriculture Zone – clause 21.3.1 Discretionary uses, and C16.5.1 Sensitive Use within an airport noise exposure area.

Objective:	That airport operations are not adversely affected by residential use.	
Acceptable Solutions		Performance Criteria
A1.1		P1
Residential use must be incidental to another use on-site; and		No Performance Criterion.
A1.2		
Residential use must be incorporated into the main building; and		
A1.3		
Development for residential use must meet Australian Standard 2021 - 2000 Acoustics – Aircraft Noise Intrusion – Building Siting and Construction.		

NOR-S1.6.4 Liquid and solid fuel depot

This clause is in addition to General Industrial Zone – clause 19.3.1 Discretionary uses and Agriculture Zone – clause 21.3.1 Discretionary uses.

Objective:	That airport operations are not adversely affected by liquid and solid fuel depots.	
Acceptable Solutions		Performance Criteria
A1		P1
The applicant must provide advice that the relevant airport safety authority has determined that the use will not pose a threat to the safety and amenity of the airport.		No Performance Criterion.

NOR-S1.6.5 General retail and hire

This clause is in addition to General Industrial Zone – clause 19.3.1 Discretionary uses and Agriculture Zone – clause 21.3.1 Discretionary uses.

That general retail and hire is of a scale suitable to the area.	
Solutions Performance Criteria	
	P1
area must not exceed 250m ² .	No Performance Criterion.

NOR-S1.6.6 Car parking numbers

This clause is in substitution for clause C2.5.1 Car Parking Numbers.

Obj	ective:	That adequate on-site parking is provided.		
Acceptable Solutions		Performance Criteria		
A1		P1.1		
The number of on-site car parking spaces must be no less than the number specified in Table C2.1, excluding if:		exclu	number of on-site car parking spaces for uses, uding dwellings, must meet the reasonable needs e use, having regard to:	
(a)	adopted by provision (subject to a parking plan for the area y council, in which case parking spaces or cash-in-lieu) must be in e with that plan;	(a) (b)	the availability of off-street public car parking spaces within reasonable walking distance of the site; the ability of multiple users to share spaces
(b)		contained within a parking precinct ubject to Clause C2.7;	(0)	(i) variations in car parking demand over
(c)		o an intensification of an existing use ment or a change of use where:		time; or

- the number of on-site car parking spaces for the existing use or development specified in Table C2.1 is greater than the number of car parking spaces specified in Table C2.1 for the proposed use or development, in which case no additional on-site car parking is required; or
- (ii) the number of on-site car parking spaces for the existing use or development specified in Table C2.1 is less than the number of car parking spaces specified in Table C2.1 for the proposed use or development, in which case on-site car parking must be calculated as follows:
- (iii) N = A + (C- B) N = Number of on-site car parking spaces required
- (iv) A = Number of existing on site car parking spaces
- B = Number of on-site car parking spaces required for the existing use or development specified in Table C2.1
- (vi) C= Number of on-site car parking spaces required for the proposed use or development specified in Table C2.1.

- (ii) efficiencies gained by consolidation of car parking spaces;
- (c) the availability and frequency of public transport within reasonable walking distance of the site;
- (d) the availability and frequency of other transport alternatives;
- (e) any site constraints such as existing buildings, slope, drainage, vegetation and landscaping;
- (f) the availability, accessibility and safety of onstreet parking, having regard to the nature of the roads, traffic management and other uses in the vicinity;
- (g) the effect on streetscape; and
- (h) any assessment by a suitably qualified person of the actual car parking demand determined having regard to the scale and nature of the use and development, or

P1.2

The number of car parking spaces for dwellings must meet the reasonable needs of the use, having regard to:

- (a) the nature and intensity of the use and car parking required;
- (b) the size of the dwelling and the number of bedrooms; and
- (c) the pattern of parking in the surrounding area.

P1.3

Within Area 5 (refer to Figure NOR-S1.2.1), the car parking requirement may be reduced where the discretion involves the protection of the heritage item or the recycling of heritage buildings for new uses and where Council deems that the car parking generated by the use and development can be effectively accommodated in some other way.

NOR-S1.7 Development Standards for Buildings and Works

NOR-S1.7.1 Building height

This clause is in substitution for General Industrial Zone – clause 19.4.1 Building height and Agriculture Zone – clause 21.4.1 Building height and in addition to clause C16.6.1 Buildings and works within an airport obstacle limitation area.

Objective:	 That: (a) the design of buildings and other works contributes to the development of an industrial estate set in a landscaped park-like setting; and (b) the safety of Launceston Airport is protected. 		
Acceptable Sc	lutions	Performance Criteria	
A1 Within Area 1 (refer to Figure NOR-S1.2.1), the maximum height of buildings and other works must not be more than 12m.		 P1 The maximum building height must be appropriate to the site, having regard to: (a) the safety of Launceston Airport; and (b) the rural vistas viewed by users of Evandale Main Road. 	
A2 Within Area 2 (refer to Figure NOR-S1.2.1), the maximum height of buildings and other works must not be more than 12m.		 P2 The maximum building height must be appropriate to the site, having regard to: (a) the safety of Launceston Airport; and (b) the rural vistas viewed by users of Evandale Main Road. 	
A3 Within Area 3 (refer to Figure NOR-S1.2.1), the maximum height of buildings and other works must not be more than 12m.		 P3 The maximum building height must be appropriate to the site, having regard to: (a) the safety of Launceston Airport; and (b) the rural vistas viewed by users of Evandale Main Road. 	
A4 Within Area 4 (refer to Figure NOR-S1.2.1), the maximum height of buildings must not be more than 8m.		 P4 The maximum building height must be appropriate to the site, having regard to: (a) the safety of Launceston Airport; (b) the heritage values of the Clairville historic site; and 	

	(c) the amenity of the area as a tourist gateway to Launceston and Evandale historic township.
A5	Р5
Within Area 5 (refer to Figure NOR-S1.2.1), the maximum height of buildings must not be more than	The maximum building height must be appropriate to the site, having regard to:
8m.	(a) the safety of Launceston Airport;
	(b) the heritage values of the Clairville historic site; and
	 (c) the amenity of the area as a tourist gateway to Launceston and Evandale historic township.
A6	P6
Within Area 6 (refer to Figure NOR-S1.2.1), the maximum height of buildings must not be more than	The maximum building height must be appropriate to the site, having regard to:
8m.	(a) the safety of Launceston Airport;
	(b) the heritage values of the Clairville historic site; and
	(c) the amenity of the area as a tourist gateway to Launceston and Evandale historic township.

NOR-S1.7.2 Setback

This clause is in substitution for General Industrial Zone – clause 19.4.2 Setback and Agriculture Zone – clause 21.4.2 Setbacks.

Obje	ective:	That the siting and design of buildings and other works contributes to the development of an industrial estate set in a landscaped park-like setting.		
Acceptable Solutions		Per	formance Criteria	
A1		P1		
Within Area 1 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of:		mus	nin Area 1 (refer to Figure NOR-S1.2.1), buildings at be setback from side and rear boundaries to tribute to a park-like setting, having regard to:	
(a)	50m to the	Evandale Main Road frontage;	(a)	the topography of the site;
(b)	20m to the	Distributor Road frontage;	(b)	the size, shape and orientation of the site;
(c)	(c) 10m to an access road frontage;	(c)	the setback of existing buildings on the site and	
(d)	5m to the s	side boundary; and		adjoining properties;
(e)	10m to the	e rear boundary.	(d)	the bulk and form of the building;
			(e)	any existing screening or the ability to implement screening;

A2 Within Area 2 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of: (a) 30m to the Evandale Main Road frontage; (b) 20m to the Translink Avenue frontage; (c) 10m to an access road frontage; (d) 5m to the side boundary; and	 (f) the operational requirements for the building; and (g) access and manoeuvring for vehicles associated with the use. P2 The Translink Avenue setback may be varied if buildings on adjacent properties are at setbacks less than 20m.
(e) 10m to the rear boundary.	
 A3 Within Area 3 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of: (a) 50m to the Evandale Main Road frontage; (b) 10m to an access road frontage; (c) 5m to the side boundary; and (d) 10m to the rear boundary. 	P3 No Performance Criterion.
 A4 Within Area 4 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of: (a) 20m to the Evandale Main Road frontage; (b) 20m to the Distributor Road frontage; (c) 5m to the side boundary; and (d) 10m to the rear boundary. 	P4 No Performance Criterion.
 A5 Within Area 5 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of: (a) 20m to the Evandale Main Road frontage; (b) 5m to the side boundary; and 	P5 No Performance Criterion.

(c) 10m to the rear boundary.	
A6	P6
 Within Area 6 (refer to Figure NOR-S1.2.1), front, side and rear boundary setbacks for buildings or other works must be a minimum of: (a) 20m to the Evandale Main Road frontage; 	For corner sites, one setback may be varied having regard to any existing setbacks on surrounding properties.
(b) 20m to the Distributor Road frontage;	
(c) 5m to the side boundary; and	
(d) 10m to the rear boundary.	

NOR-S1.7.3 Materials and presentation

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works and Agriculture Zone – clause 21.4 Development Standards for Buildings and Works.

Objective:	 To: (a) achieve a high quality of development by encouraging the use of a variety of architectural treatments, responding to the rural and landscaped setting and recognising the importance of the area as one of the tourist gateways to Launceston; and (b) require a high standard of development recognising the prominent location of the zone adjacent to the Airport and that Evandale Main Road is a tourist route. 	
Acceptable Sol	utions	Performance Criteria
A1 Within Areas 1, 2, 3 and 6 (refer to Figure NOR- S1.2.1), a variety of building forms must be used rather than single monolithic structures.		P1 The use of a variety of materials or other techniques to help reduce the interpreted scale of the building.
A2 Within Areas 1, 2, and 3 (refer to Figure NOR- S1.2.1), external walls and roofs must be in face brickwork, form concrete panels, painted or rendered concrete blocks or cement composite sheets or metal clad with a patented pre-treated finish such as colorbond.		P2 No Performance Criterion.
	5, and 6 (refer to Figure NOR- ction must be of masonry and/or	P3 The amenity and visual quality of the area must not be adversely affected.

A4	Р4
Within Areas 4, 5, and 6 (refer to Figure NOR- S1.2.1), developments must be designed and located to minimise visual impact from Evandale Main Road.	No Performance Criterion.
A5	Р5
Within Areas 4, 5, and 6 (refer to Figure NOR- S1.2.1), colours must be muted and in tones compatible with the rural and landscaped setting of the area.	No Performance Criterion.

NOR-S1.7.4 Site coverage

Г

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works and Agriculture Zone – clause 21.4 Development Standards for Buildings and Works.

		That the siting and design of buildin an industrial estate set in a landsca	ings and other works contributes to the development of caped park-like setting.	
Acceptable Solutions			Performance Criteria	
A1			P1	
	coverage fo 0m² must be	r a site with an area less than e:	No Performance Criterion.	
(a)	buildings a 50%; and	nd covered storage – maximum		
(b)	landscape	d area – minimum 10%.		
A2			P2	
	coverage fo)m ² – 2000n	r a site with an area between n ² must be:	No Performance Criterion.	
 (a) buildings and covered storage – maximum 55%; and 		nd covered storage – maximum		
(b) landscaped area – minimum 10%.		d area – minimum 10%.		
A3			P3	
Site coverage for a site with an area greater than 2000m ² and less than 5000m ² must be:		C C	No Performance Criterion.	
 (a) buildings and covered storage – maximum 60%; and 		nd covered storage – maximum		
(b) landscaped area – minimum 10%.		d area – minimum 10%.		

A4		P4
Site coverage for a site with an area 5000m ² or greater must be:		No Performance Criterion.
(a)	buildings and covered storage – maximum 65%; and	
(b)	landscaped area – minimum 10%.	

NOR-S1.7.5 Open space and landscaping

This clause is in substitution for General Industrial Zone – clause 19.4.3 Landscaping and in addition to Agriculture Zone – clause 20.4 Development Standards for Buildings and Works.

Objective:	That open space and landscaping form an integral part of developments to:	
	(a) facilitate the enhanced appearance of buildings and works;	
	(b) provide screening;	
	(c) separate activities;	
	(d) assist in the control of water run-off and erosion;	
	(e) contribute to a reduction in noise levels; and	
	(f) define roads and provide opportunities for passive recreation.	

Acceptable Solutions	Performance Criteria	
A1	P1	
 Within Area 1 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access: (a) 20m from Evandale Main Road; (b) 7m from the Distributor Road; and (c) 3m from an access road. 	 The specified depth of a landscaping area between the setback line and a road frontage may be reduced by up to 30%, having regard to: (a) the creation and maintenance of vegetative screening of buildings and works that would otherwise be visible from the adjoining road; (b) the mature height, density, form, hardiness and suitability to the locality of plant species used for landscaping; (c) the height of mounding; (d) the effect on stormwater management; and (f) the contribution to achieving objectives (a)-(f) above. 	

A2	P2
Within Area 2 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access:	The setback from the Distributor Road may be varied if the setback on adjoining properties is at a setback less than 7m.
(a) 10m from Evandale Main Road;	
(b) 7m from the Distributor Road; and	
(c) 3m from an access road.	
A3	P3
Within Area 3 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access:	No Performance Criterion.
(a) 20m from Evandale Main Road; and	
(b) 3m from an access road.	
A4	P4
Within Area 4 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access:	No Performance Criterion.
(a) 10m from Evandale Main Road.	
A5	P5
Within Area 5 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access:	No Performance Criterion.
(a) 10m from Evandale Main Road.	
A6	P6
Within Area 6 (refer to Figure NOR-S1.2.1), the following setback distance must be used for landscaping, excluding those areas sealed for driveway access:	No Performance Criterion.
(a) 10m from Evandale Main Road.	
A7	P7
Within Areas 1, 2, 3, 4, 5, 6 and 7 (refer to Figure NOR-S1.2.1), landscaping must:	No Performance Criterion.

(a) (b)	be provided for development of vacant land or where landscaping has not previously been undertaken; and be provided with an automated watering system.	
A8 Within Areas 1, 2, and 3 (refer to Figure NOR- S1.2.1), landscaping of sites adjacent to Evandale Main Road must incorporate mounding into the landscaping and must conform to a comprehensive landscape plan approved by Council.		P8 Landscaping provides effective screening of buildings and works from Evandale Main Road.

NOR-S1.7.6 Outdoor storage areas

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works, Agriculture Zone – clause 21.4 Development Standards for Buildings and Works.

Objective:	That the siting and design of buildings and other works contributes to the development of an industrial estate set in a landscaped park-like setting.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Storage areas must be at the rear of buildings and/or where they are not visible from any public road. If site constraints or other circumstances exist, Council may require additional landscaping and/or mounding to screen outside storage areas.		If outside storage areas require screening from adjacent roads, suggested methods of screening include a wall, landscaped earth mound or dense screen planting.	
A2.1		P2	
Outside storage areas must be sealed and drained; or		No Performance Criterion.	
A2.2			
Outside storage areas must be of compacted gravel and drained so that stormwater is discharged from the site in a manner that will not cause siltation or pollution of any stormwater detention or retention basins.			

NOR-S1.7.7 Fencing

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works, Agriculture Zone – clause 21.4 Development Standards for Buildings and Works.

Objective:	That the siting and design of buildings and other works contributes to the development of an industrial estate set in a landscaped park-like setting.	
Acceptable Solutions		Performance Criteria
A1.1		P1
Security fencing must be located behind the front boundary landscaped area; or		No Performance Criterion.
A1.2		
Security fencing, including posts and gates, must be of dark colours.		

NOR-S1.7.8 Stormwater

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works and Rural Zone – clause 21.4 Development Standards for Buildings and Works.

Objective:	That full utility services are available to new development.		
Acceptable Solutions		Performance Criteria	
A1		P1	
The flow rate of stormwater outside the boundaries of the title must be not greater than if the land was used for rural purposes. On-site detention devices must be incorporated in the development.		manı nuisa pollu estua	mwater may only be discharged from the site in a ner that will not cause an environmental ance, and that prevents erosion, siltation or tion of any waterways, coastal lagoons, coastal aries, wetlands or inshore marine areas, having rd to:
		(a)	the intensity of runoff that already occurs on the site before any development has occurred for a storm event of 1% Annual Exceedance Probability (pre-development levels); and
		(b)	how the additional runoff and intensity of runoff that will be created by the subdivision for a storm event of 1% Annual Exceedance Probability, will be released at levels that are the same as those identified at the pre-development levels of the subdivision; and
		(c)	whether any on-site storage devices, retention basins or other Water Sensitive Urban Design (WSUD) techniques are required within the

	(d)	subdivision and the appropriateness of their location; and overland flow paths for overflows during extreme events both internally and externally for the subdivision, so as to not cause a nuisance.
--	-----	---

NOR-S1.7.9 Parking and internal circulation

This clause is in substitution for clause C2.6.1 Construction of parking areas (a) and (b) and clause C2.6.2 Design and layout of parking areas A1.1 (a) (ii) and (a) (iii).

Objective:	That on-site parking, loading/unloading areas and traffic circulation space are constructed to an appropriate standard, and that parking areas are designed and laid out to provide convenient, safe and efficient parking.		
Acceptable Sol	utions	Performance Criteria	
A1 Vehicles must be able to enter and exit the site in a forward direction.		P1 No Performance Criterion.	
A2 Access drives must have a minimum width of 3.6m for one-way traffic and 7m for two-way traffic.		P2 No Performance Criterion.	
-	arking, manoeuvring, loading and must be sealed and drained.	 P3 Access drives, parking, manoeuvring, loading and unloading areas may be of compacted gravel providing that stormwater is discharged from the site in a manner that will not cause an environmental nuisance, and that prevents erosion, siltation or pollution of any stormwater detention or retention basins, waterways, coastal lagoons, coastal estuaries, wetlands or inshore marine areas, having regard to: (a) the intensity of runoff that already occurs on the site before any development has occurred for a storm event of 1% Annual Exceedance Probability (pre-development levels); (b) how the additional runoff and intensity of runoff that will be created by the development for a storm event of 1% Annual Exceedance Probability will be released at levels that are the same as those identified at the predevelopment levels; 	

	 (c) whether any on-site storage devices, retention basins or other Water Sensitive Urban Design (WSUD) techniques are required for the development and the appropriateness of their location; and (d) overland flow paths for overflows during extreme events both internally and externally for the development, so as to not cause a nuisance.
--	---

NOR-S1.7.10 Buffer areas

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works, Agriculture Zone – clause 21.4 Development Standards for Buildings and Works.

Objective:	That industrial development does not adversely impact on the amenity of the Devon Hills residential area.	
Acceptable Sol	utions	Performance Criteria
A1		P1
Development of those sites closest to the Devon Hills residential area must incorporate a landscaped area along the rear boundary.		No Performance Criterion.
A2		P2
Development of those sites closest to the Devon Hills residential area must incorporate effective screening measures for all outside storage areas.		No Performance Criterion.
A3		P3
Development of those sites closest to the Devon Hills must demonstrate how noise emissions will be managed so that at the boundaries of the nearest house they do not exceed 40 dB(A) between the hours of 7:00am and 7:00pm and 35 dB(A) between the hours of 7:00pm and 7:00am.		No Performance Criterion.

NOR-S1.7.11 Heritage

This clause is in addition to General Industrial Zone – clause 19.4 Development Standards for Buildings and Works.

Objective:	To recognise and protect the cultural heritage significance of the Clairville historic site and to provide for future development that is compatible with the identified values.	
Acceptable So	lutions	Performance Criteria
A1		P1
Developments within 100m of the historic Clairville property contained on Folio of the Register 108432/1, must be sympathetic to the cultural significance of the site and Council may require additional landscaping, mounding or other measures to ameliorate potential impacts.		No Performance Criterion.

NOR-S1.8 Development Standards for Subdivision

NOR-S1.8.1 Subdivision

This clause is in substitution for General Industrial Zone – clause 19.5 Development Standards for Subdivision and Agriculture Zone – clause 21.5 Development Standards for Subdivision.

Objective:		ots are appropriate for the zone; and ewerage, water, stormwater, energy and communication zone.
Acceptable Sol	utions	Performance Criteria
must be: (a) a lot densi area being (b) a minimum (c) frontage to A1.2 The lot must be	efer to Figure NOR-S1.2.1), there ty of 1 lot per 10,000m ² over the subdivided; and n lot size of 5000m ² ; and o a road of 50m; or transferred to Council or other dies for the provision of services.	P1 Within Area 1 (refer to Figure NOR-S1.2.1), a proposed lot on a plan of subdivision must have: (a) a minimum area of 3000m ² ; and (b) frontage to a road of at least 9m.

A2.1	P2		
Within Area 2 (refer to Figure NOR-S1.2.1), there must be:	Within Area 2 (refer to Figure NOR-S1.2.1), a proposed lot on a plan of subdivision must have:		
(a) a lot density of 1 lot per 5000m ² over the area being subdivided; and	 (a) a minimum area of 1000m²; and (b) frontage to a road of at least 6m. 		
(b) a minimum lot size of 2000m ² ; and			
(c) frontage to a road of 25m; or			
A2.2			
The lot must be transferred to Council or other Government bodies for the provision of services.			
A3.1	P3		
Within Area 3 (refer to Figure NOR-S1.2.1), there must be:	Within Area 3 (refer to Figure NOR-S1.2.1), a proposed lot on a plan of subdivision must have:		
(a) a lot density of 1 lot per 10,000m ² over the	(a) a minimum area of 3000m ² ; and		
 area being subdivided; and (b) a minimum lot size of 5000m²; and 	(b) frontage to a road of at least 9m.		
 (b) a minimum lot size of 5000m²; and (c) frontage to a road of 50m; or 			
A3.2			
The lot must be transferred to Council or other Government bodies for the provision of services.			
A4.1	P4		
Within Area 4 (refer to Figure NOR-S1.2.1), there must be:	Within Area 4 (refer to Figure NOR-S1.2.1), a proposed lot on a plan of subdivision must have:		
area being subdivided: and	 (a) a minimum area of 550m²; and (b) frontage to a road of at least 6m. 		
(b) a minimum lots size of 1000m ² ; and			
(c) frontage to a road of 8m; or			
A4.2			
The lots must be transferred to Council or other Government bodies for the provision of services.			
A5	P5		
Area 5 (refer to Figure NOR-S1.2.1) - No Acceptable Solution.	Within Area 5 (refer to Figure NOR-S1.2.1), a proposed lot on a plan of subdivision must have:		
	(a) a minimum area of 550m ² ; and		
	(b) frontage to a road of at least 6m.		

A6 Area 6 (refer to Figure NOR-S1.2.1) - No Acceptable Solution.		P6 Area 6 (refer to Figure NOR-S1.2.1) – No Performance Criterion.	
	in Area 7 (refer to Figure NOR-S1.2.1) lots t be:	Within Area 7 (refer to Figure NOR-S1.2.1) the subdivision:	
(a)	for the provision of utilities and required for public use by the Crown, public authority or a Council;	 (a) must demonstrate that the productive capacity of the land will be improved as a result of the subdivision; or 	
(b)	for the consolidation of a lot with another lot with no additional titles created; or	(b) is for the purpose of creating a lot for an approved non-agricultural use, other than a	
(c)	to align existing titles with zone boundaries and with no additional lots created.	residential use, and the productivity of the land will not be materially diminished.	
A8		P8	
	ds must accord with the layout in Figure NOR- 3.1 and meet the following specifications:	The location of the open swale drain may be changed if the stormwater drainage can be accommodated by	
(a)	Evandale Main Road - 42m wide road reservation;	other means to the satisfaction of Council.	
(b)	the Distributor Road - 30m wide road reservation;		
(c)	the design of the Distributor Road must be in accordance with the cross-section provided in Figure NOR-S1.8.2;		
(d)	access roads connecting to distributor roads must have a 20m wide road reservation and carriageway width must be not less than 11m;		
(e)	a permanent cul-de-sac must have a turning circle of not less than 25m diameter at the kerb; and		
(f)	the distributor road reserve must contain an open swale drain to collect all stormwater on the west side of the road.		
A9		P9	
The Plan of Subdivision must provide for the drainage of both roads and other land to be satisfactorily carried off and disposed of in accordance with Figures NOR-S1.8.2 and NOR-S1.8.3.		No Performance Criterion.	

A10		P10	
On-site detention devices must be incorporated in the development so that the flow rate of stormwater outside the boundaries of the title is not greater than if the land was used for rural purposes.		Stormwater may only be discharged from the site in a manner that will not cause an environmental nuisance, and that prevents erosion, siltation or pollution of any waterways, coastal lagoons, coastal estuaries, wetlands or inshore marine areas, having regard to:	
		 (a) the intensity of runoff that already occurs on the site before any development has occurred for a storm event of 1% Annual Exceedance Probability (pre-development levels); and 	
		(b) how the additional runoff and intensity of runoff that will be created by the subdivision for a storm event of 1% Annual Exceedance Probability will be released at levels that are the same as those identified at the pre-development levels of the subdivision; and	
		 (c) whether any on-site storage devices, retention basins or other Water Sensitive Urban Design (WSUD) techniques are required within the subdivision and the appropriateness of their location; and 	
		 (d) overland flow paths for overflows during extreme events both internally and externally for the subdivision, so as to not cause a nuisance. 	
A11		P11	
The	Plan of Subdivision must not include:	No Performance Criterion.	
(a)	blind roads;		
(b)	alleys or rights-of-way to give access to the rear of lots;		
(c)	littoral or riparian reserves;		
(d)	private roads, ways or open spaces;		
(e)	public open space; and		
(f)	any lot which requires the construction of an embankment to a highway which requires a licence under the <i>Highways Act 1951</i> .		
A12		P12	
The	following services must be provided to each lot:	No Performance Criterion.	
(a)	a reticulated water supply;		

(b)	a reticulated sewerage system;	
(c)	a reticulated stormwater system;	
(d)	underground electricity supply;	
(e)	street lighting;	
(f)	sealed roads; and	
(g)	sealed crossovers.	
A13		P13
Archaeological investigations relating to Aboriginal relics must be carried out when preparing the initial 'Plan of Subdivision' for an area.		No Performance Criterion.

NOR-S1.9 Tables

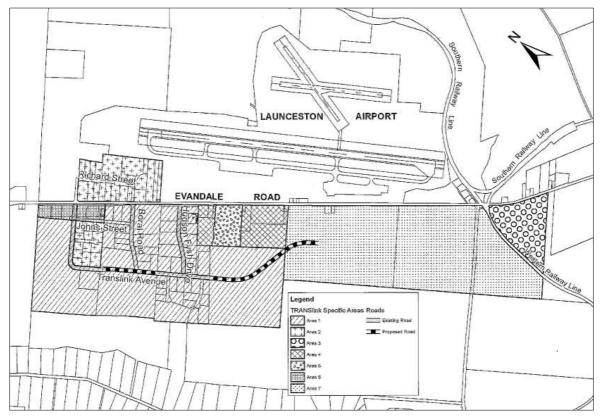

Figure NOR-S1.2.1 Translink Specific Area Plan showing location of Areas 1 to 7 as required by clauses NOR-S1.2, NOR-S1.5.1, NOR-S1.5.2, NOR-S1.5.3, NOR-S1.5.4, NOR-S1.5.5, NOR-S1.5.6, NOR-S1.5.7, NOR-S1.6.6, NOR-S1.7.1, NOR-S1.7.2, NOR-S1.7.3, NOR-S1.7.5, and NOR-S1.8.1

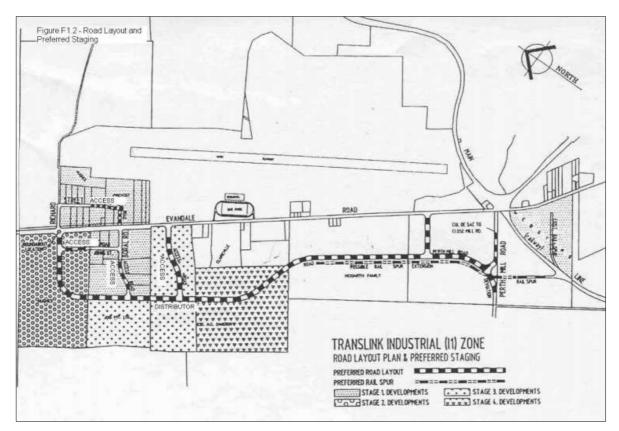

Figure NOR-S1.8.1 Road layout plan as required by clause NOR-S1.8.1

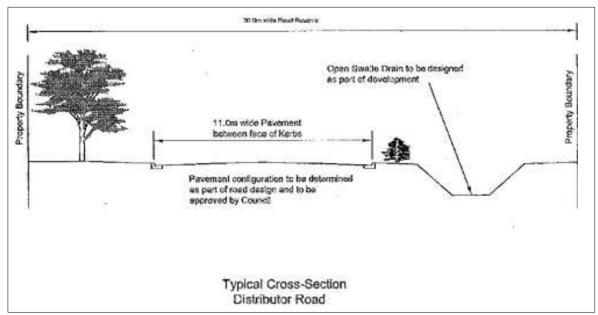

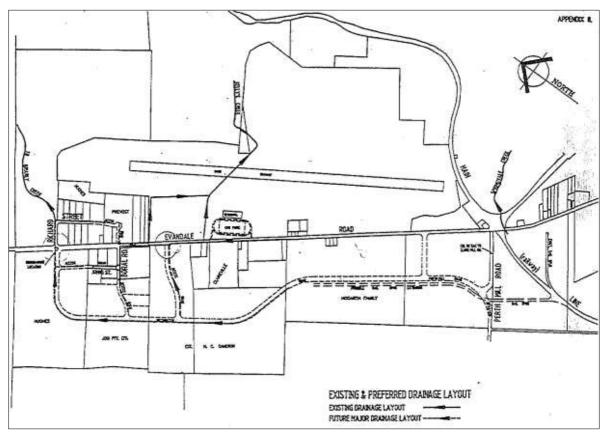

Figure NOR-S1.8.2 Typical cross-section distributor road as required by clause NOR-S1.8.1

NOR-S1.8.3 Drainage layout plan as required by clause NOR-S1.8.1

NOR-S2.0 Campbell Town Specific Area Plan

NOR-S2.1 Plan Purpose

The purpose of the Campbell Town Specific Area Plan is:

- NOR-S2.1.1 To provide for residential use and development that is compatible with the existing rural township character.
- NOR-S2.1.2 To encourage use and development that promotes a vibrant main street and high quality public open space conducive for visitor stop overs.
- NOR-S2.1.3 To encourage the provision of visitor accommodation and community facilities that support annual events and promotes Campbell Town as a meeting centre.
- NOR-S2.1.4 To provide for road transport and recreational vehicle parking.
- NOR-S2.1.5 To provide for the subdivision of key development sites and provide for appropriately located public open space.
- NOR-S2.1.6 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S2.1.7 That as part of any new subdivision new trees are provided to increase the township's tree canopy cover.

NOR-S2.2 Application of this Plan

- NOR-S2.2.1 The specific area plan applies to the area of land designated as NOR-S2.0 Campbell Town Specific Area Plan on the overlay maps and Figure NOR-S2.2.1.
- NOR-S2.2.2 Precinct Plan NOR-S2.2.2 applies to the area of land designated as William Street Development Precinct Masterplan in Figure NOR-S2.2.2.
- NOR-S2.2.3 Precinct Plan NOR-S2.2.3 applies to the area of land designated as Franklin and Bedford Streets Development Precinct Masterplan in Figure NOR-S2.2.3
- NOR-S2.2.4 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and in addition to the provisions of:
 - (a) General Residential Zone;
 - (b) Low Density Residential Zone;
 - (c) Open Space Zone; and
 - (d) Local Historic Heritage Code,

as specified in the relevant provision.

NOR-S2.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S2.4 Definition of Terms

NOR-S2.5 Use Table

This clause is in substitution for Low Density Residential Zone – clause 10.2 Use Table.

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Residential	If for a single dwelling.	
Utilities	If for minor utilities.	
Permitted		
Residential	If for a home based business.	
Visitor Accommodation		
Discretionary		
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic or for the provision of residential support services.	
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.	
Educational and Occasional Care	If not for a tertiary institution.	
Emergency Services		
Food Services	If not for a take away food premises with a drive through facility.	
General Retail and Hire	If for a local shop.	
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.	
Utilities	If not listed as No Permit Required.	
Prohibited		
All other uses		

NOR-S2.6 Use Standards

NOR-S2.7 Development Standards for Buildings and Works

NOR-S2.7.1 Residential density for multiple dwellings

This clause is in substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings.

Objective:	 That the density of multiple dwellings: (a) makes efficient use of land for housing; (b) is compatible with the rural township character of Campbell Town; and (c) optimises the use of infrastructure and community services. 		
Acceptable Sc	blutions	Performance Criteria	
A1		P1	
Multiple dwellings must have a site area per dwelling of not less than 400m ² .		Multiple dwellings must only have a site area per dwelling that is less than 400m ² , if the development will not exceed the capacity of infrastructure services and: (a) is compatible with the density of existing	
		development on established properties within the area; or	
		(b) provides for a significant social or community benefit and is:	
		 (i) wholly or partly within 400m walking distance of a public transport stop; or 	
		(ii) wholly or partly within 400m walking distance of a Village Zone, Local Business Zone, or General Business Zone; or	
		(iii) wholly or partly within 400m walking distance of public open space.	

NOR-S2.8 Development Standards for Subdivision

NOR-S2.8.1 Lot design in development precincts

This clause is in addition to General Residential Zone – clause 8.6.1 Lot design, Low Density Residential Zone – clause 10.6.1 Lot design, Open Space Zone – clause 29.5.1 Lot design, and in substitution for Local Historic Heritage Code clause C6.10.2 Lot design for a Local Heritage Precinct or a Local Historic Landscape Precinct.

Objective:	That each development precinct creates an efficient lot design that provides connectivity and optimal location for public open space compatible with the rural township character.		
Acceptable Solutions		Perf	ormance Criteria
A1		P1	
Each lot, or a lot proposed in a plan of subdivision, must be in accordance with the applicable lot layout shown in the precinct masterplans in Figures NOR- S2.2.2 and NOR-S2.2.3.		mus and	n lot, or a lot proposed in a plan of subdivision, t be consistent with the rural township character provide an optimal location for public open space, ng regard to:
		(a)	lot layout shown in the applicable precinct masterplans in Figures NOR-S2.2.2 and NOR- S2.2.3;
		(b)	the road network as north south grid;
		(c)	fronting new lots onto existing roads where possible;
		(d)	minimising cul-de-sacs;
		(e)	the provision of public open spaces that facilitate pedestrian loops around the town;
		(f)	creating connections between new and existing public open spaces;
		(g)	creating road frontages around public open spaces;
		(h)	using public open spaces for stormwater detention;
		(i)	the relevant requirements for development of buildings on the lots;
		(j)	the intended location of buildings on the lots; and
		(k)	the pattern of development existing on established properties within the area.

NOR-S2.8.2 Lot design

		5
Objective:	That each lot:	
	(a) has an area and dimensions a	appropriate for the use and development;
	(b) is provided with appropriate a	ccess to a road;
		able for development appropriate to the purpose of the ocated to avoid natural hazards; and
	(d) is oriented to provide solar act	cess for future dwellings.
Acceptable Solutions		Performance Criteria
A1 Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 600m ² and:		P1
		Each lot, or a lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
 (a) have an area of not less than 600m² and: (i) be able to contain a minimum area of 10m x 15m with a gradient not steeper 	 (a) the relevant requirements for development of buildings on the lots; 	
th	an 1 in 5, clear of:	(b) the intended location of buildings on the lots;
а	all setbacks required by clause	(c) the topography of the site;
	8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; and	(d) the presence of any natural hazards;
b	easements or other title restrictions	(e) adequate provision of private open space; and
		(f) the pattern of development existing on

(f)

that limit or restrict development;

(ii) existing buildings are consistent with the setback required by clause 8.4.2 A1, A2

and A3, and 8.5.1 A1 and A2; or

be required for public use by the Crown, a

be required for the provisions of Utilities; or

be for the consolidation of a lot with another lot provided each lot is within the same zone.

council or a State authority; or

and

(b)

(c) (d) the pattern of development existing on

established properties within the area.

This clause is in substitution for General Residential Zone - clause 8.6.1 Lot design.

NOR-S2.8.3 Internal lots

This clause is an addition to General Residential Zone - clause 8.6.1 Lot design.

Objective:	That subdivision layout of land outside the precinct masterplans in Figures NOR-S2.2.2 and NOR-S2.2.3:
	(a) minimises internal lots;
	(b) is consistent with existing patterns of residential development in the surrounding area; and
	(c) retains the rural township character.

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	Each internal lot, or an internal lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
	 (a) consistency with existing patterns of residential development of the surrounding area;
	(b) the lot gaining access from a road existing prior to the planning scheme coming into effect;
	 site constraints making an internal lot configuration the only reasonable option to efficiently use the land;
	(d) the lot contributing to the more efficient use of residential land and infrastructure;
	 the amenity of adjacent lots not being unreasonably affected by subsequent development and use;
	 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m;
	 (g) passing bays being provided at appropriate distances to service the likely future use of the lot;
	 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road;
	 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces;

(j)	the relevant requirements for development of buildings on the lots;
(k)	the intended location of buildings on the lots;
(I)	the topography of the site;
(m)	the presence of any natural hazards;
(n)	adequate provision of private open space; and
(0)	the pattern of development existing on established properties in the area.

NOR-S2.8.4 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2 Roads and Low Density Residential Zone – clause 10.6.2 Roads.

Objective:	That the arrangement of new roads w	vithin a subdivision provides for:	
	(a) safe, convenient and efficient connections to assist accessibility and mobility of the community;		
	(b) the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;		
	(c) adequate areas for the planting of street trees in the road reserve; and(d) the efficient ultimate subdivision of the entirety of the land and of surrounding land.		
Acceptable Solutions		Performance Criteria	
A1		P1	
The subdivision includes no new roads.		The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to:	
		(a) any road network plan adopted by the council;	
		(b) the existing and proposed road hierarchy;	
		 (c) the need for connecting roads and pedestrian and cycling paths to common boundaries with adjoining land to facilitate future subdivision potential; 	
		 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks; 	
		 (e) minimising the travel distance between key destinations such as shops and services and public transport routes; 	

		(f) access to public transport;
		(g) the efficient and safe movement of pedestrians, cyclists and public transport;
		 (h) the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the Guide to Road Design Part 6A: Paths for Walking and Cycling 2016;
		(i) the topography of the site; and
		 (j) the future subdivision potential of any balance lots on adjoining or adjacent land.
A2		P2
new i	re the subdivision plan includes one or more roads, street trees must be provided within the reserve:	No Performance Criterion.
(a)	at intervals of not less than 10m measured between the centre of each trunk; or	
(b)	at intervals not less than the canopy diameter of the tree species at maturity; and	
(c)	in locations where sight distances to vehicle access points are compliant with the following:	
	 (i) in the case of non-commercial vehicle accesses, Australian Standard AS 2890.1:2004, Parking Facilities, Part 1: Off-street car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas; and 	
	 (ii) in the case of commercial vehicle accesses, Australian Standard AS 2890.2:2002, Parking facilities Part 2: Off-street commercial vehicle facilities. 	

NOR-S2.9 Tables

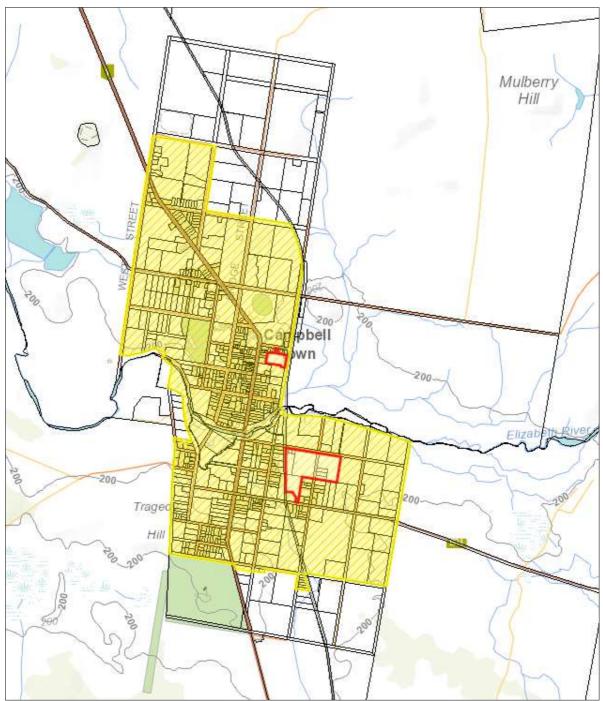

Figure NOR-S2.2.1 Campbell Town Specific Area Plan shown in light yellow as required by clause NOR-S2.2.1, with precinct development masterplan locations outlined in red

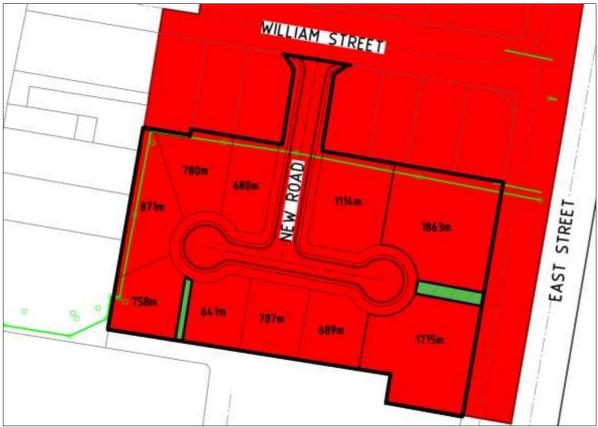

Figure NOR-S2.2.2 William Street Development Precinct Masterplan (outlined in black) as required by clause NOR-S2.2.2, clause NOR-S2.8.1 A1 and P1, and clause NOR-S2.8.3

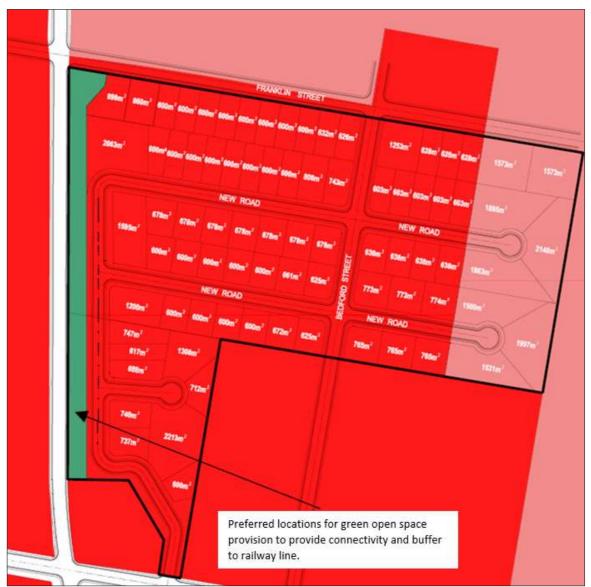

Figure NOR-S2.2.3 Franklin and Bedford Streets Development Precinct Masterplan (outlined in black) as required by clause NOR-S2.2.3, clause NOR-S2.8.1 A1 and P1, and clause NOR-S2.8.3

NOR-S3.0 Cressy Specific Area Plan

NOR-S3.1 Plan Purpose

The purpose of the Cressy Specific Area Plan is:

- NOR-S3.1.1 To provide for residential use and development that is compatible with the existing rural township character, and the natural setting of Cressy and its views to the Western Tiers.
- NOR-S3.1.2 To encourage use and development that is in character with the existing streetscape.
- NOR-S3.1.3 To provide for seasonal visitors and workers.
- NOR-S3.1.4 To provide for the subdivision of key development sites and provide for appropriately located public open space.
- NOR-S3.1.5 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S3.1.6 That as part of any new subdivision new trees are provided to increase the township's tree canopy cover.

NOR-S3.2 Application of this Plan

- NOR-S3.2.1 The specific area plan applies to the area of land designated as NOR-S3.0 Cressy Specific Area Plan on the overlay maps and in Figure NOR-S3.2.1.
- NOR-S3.2.2 Precinct Plan NOR-S3.2.2 applies to the area of land designated as William Street Development Precinct Masterplan in Figure NOR-S3.2.2.
- NOR-S3.2.3 Precinct Plan NOR-S3.2.3 applies to the area of land designated as Main Street 1 Development Precinct Masterplan in Figure NOR-S3.2.3.
- NOR-S3.2.4 Precinct Plan NOR-S3.2.4 applies to the area of land designated as Main Street 2 Development Precinct Masterplan in Figure NOR-S3.2.4.
- NOR-S3.2.5 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and are in addition to the provisions of:
 - (a) General Residential Zone;
 - (b) Low Density Residential Zone; and
 - (c) Open Space Zone,

as specified in the relevant provision.

NOR-S3.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S3.4 Definition of Terms

NOR-S3.5 Use Table

This clause is in substitution for Low Density Residential Zone - clause 10.2 Use Table.

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Residential	If for a single dwelling.	
Utilities	If for minor utilities.	
Permitted		
Residential	If for a home based business.	
Visitor Accommodation		
Discretionary		
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic or for the provision of residential support services.	
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.	
Educational and Occasional Care	If not for a tertiary institution.	
Emergency Services		
Food Services	If not for a take away food premises with a drive through facility.	
General Retail and Hire	If for a local shop.	
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.	
Utilities	If not listed as No Permit Required.	
Prohibited		
All other uses		

NOR-S3.6 Use Standards

NOR-S3.7 Development Standards for Buildings and Works

NOR-S3.7.1 Residential density for multiple dwellings.

This clause is in substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings.

Objective:	 That the density of multiple dwellings: (a) makes efficient use of land for housing; (b) is compatible with the rural township character of Cressy; and (c) optimises the use of infrastructure and community services. 	
Acceptable Sol	utions	Performance Criteria
A1 Multiple dwelling dwelling of not le	gs must have a site area per ess than 400m ² .	 P1 Multiple dwellings must only have a site area per dwelling that is less than 400m², if the development will not exceed the capacity of infrastructure services and: (a) is compatible with the density of existing development on established properties within the area; or (b) provides for a significant social or community benefit and is: (i) wholly or partly within 400m walking distance of a public transport stop; or (ii) wholly or partly within 400m walking distance of a Village Zone, Local Business Zone, or General Business Zone.

NOR-S3.8 Development Standards for Subdivision

NOR-S3.8.1 Lot design in development precincts

This clause is in addition to General Residential Zone – clause 8.6.1 Lot design, Low Density Residential Zone – clause 10.6.1 Lot design, and Open Space Zone – clause 29.5.1 Lot design.

Objective:	That each development precinct creates an efficient lot design that provides connectivity and optimal location for public open space compatible with the rural township character.	
Acceptable Sol	utions	Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, must be in accordance with the lot layout shown in		Each lot, or a lot proposed in a plan of subdivision, must be consistent with the rural township character

the precinct masterplans in Figures NOR-S3.2.2, NOR-S3.2.3 and NOR-S3.2.4.	and provide an optimal location for public open space, having regard to:
	 (a) lot layout shown in the applicable precinct masterplans in Figures NOR-S3.2.2, NOR- S3.2.3 and NOR-S3.2.4;
	(b) the road network as north south grid;
	 (c) fronting new lots onto existing roads where possible;
	(d) minimising cul-de-sacs;
	(e) the provision of public open spaces that facilitate pedestrian loops around the town;
	(f) creating connections between new and existing public open spaces;
	 (g) creating road frontages around public open spaces;
	 (h) using public open spaces for stormwater detention;
	 the relevant requirements for development of buildings on the lots;
	(j) the intended location of buildings on the lots; and
	 (k) the pattern of development existing on established properties within the area.

NOR-S3.8.2 Lot design

This clause is in substitution for General Residential Zone – clause 8.6.1 Lot design.

Objective:	That each lot:	
	(a) has an area and dimensions a	ppropriate for the use and development;
	(b) is provided with appropriate access to a road;	
	 (c) contains areas which are suitable for development appropriate to the purpose of the zone and specific area plan, located to avoid natural hazards; and (d) is oriented to provide solar access for future dwellings. 	
Acceptable Solutions		Performance Criteria
A1 Each lot, or a lot proposed in a plan of subdivision,		P1 Each lot, or a lot proposed in a plan of subdivision
must:		must have sufficient useable area and dimensions suitable for its intended use, having regard to:

(a)	have	an area of not less than 600m ² and:		
(4)			(a)	the relevant requirements for development of
	(i)	be able to contain a minimum area of		buildings on the lots;
		10m x 15m with a gradient not steeper	(b)	the intended location of buildings on the lots;
		than 1 in 5, clear of:	(c)	the topography of the site;
		a. all setbacks required by clause	(d)	the presence of any natural hazards;
		8.4.2 A1, A2 and A3, and 8.5.1 A1	(e)	adequate provision of private open space; and
		and A2; and		
		b. easements or other title restrictions	(f)	the pattern of development existing on
		that limit or restrict development;		established properties within the area.
		and		
	(ii)	existing buildings are consistent with the		
		setback required by clause 8.4.2 A1, A2		
		and A3, and 8.5.1 A1 and A2; or		
(b)	(b) be required for public use by the Crown, a			
	council or a State authority; or			
(c)	(c) be required for the provisions of Utilities; or			
(d)	(d) be for the consolidation of a lot with another lot			
()	provided each lot is within the same zone.			
	•			

NOR-S3.8.3 Internal lots

This clause is an addition to General Residential Zone - clause 8.6.1 Lot design.

Objective:	 That subdivision layout of land outside the precinct masterplans in Figures NOR-S3.2.2, NOR-S3.2.3 and NOR-S3.2.4: (a) minimises internal lots; (b) is consistent with existing patterns of residential development in the surrounding area; and (c) retains the rural township character. 	
Acceptable Sol	utions	Performance Criteria
A1 No Acceptable S	Solution.	 P1 Each internal lot, or an internal lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to: (a) consistency with existing patterns of residential development of the surrounding area; (b) the lot gaining access from a road existing prior to the planning scheme coming into effect;

 (c) site constraints making an internal lot configuration the only reasonable option to efficiently use the land;
 (d) the lot contributing to the more efficient use of residential land and infrastructure;
 (e) the amenity of adjacent lots not being unreasonably affected by subsequent development and use;
 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m;
 (g) passing bays being provided at appropriate distances to service the likely future use of the lot;
 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road;
 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces;
(j) the relevant requirements for development of buildings on the lots;
(k) the intended location of buildings on the lots;
(I) the topography of the site;
(m) the presence of any natural hazards;
(n) adequate provision of private open space; and
 (o) the pattern of development existing on established properties in the area.

NOR-S3.8.4 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2 Roads and Low Density Residential Zone – clause 10.6.2 Roads.

Objective:	That	at the arrangement of new roads within a subdivision provides for:		
	(a)	safe, convenient and efficient community;	conne	ections to assist accessibility and mobility of the
	(b)	the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;		
	(c)	adequate areas for the planting	g of st	reet trees in the road reserve; and
	(d)	the efficient ultimate subdivision	on of th	ne entirety of the land and of surrounding land.
Acceptable So	lution	S	Perf	ormance Criteria
A1			P1	
The subdivision	includ	les no new roads.	subc acce	arrangement and construction of roads within a livision must provide an appropriate level of ess, connectivity, safety and convenience for cles, pedestrians and cyclists, having regard to:
			(a)	any road network plan adopted by the council;
			(b)	the existing and proposed road hierarchy;
			(c)	the need for connecting roads and pedestrian and cycling paths to common boundaries with adjoining land to facilitate future subdivision potential;
			(d)	maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks;
			(e)	minimising the travel distance between key destinations such as shops and services and public transport routes;
			(f)	access to public transport;
			(g)	the efficient and safe movement of pedestrians, cyclists and public transport;
			(h)	the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the <i>Guide to Road Design Part 6A: Paths for Walking and Cycling 2016</i> ;
			(i)	the topography of the site; and
			(j)	the future subdivision potential of any balance lots on adjoining or adjacent land.

A2			P2
new		e subdivision plan includes one or more s, street trees must be provided within the rve:	No Performance Criterion.
(a)		tervals of not less than 10m measured veen the centre of each trunk; or	
(b)		ntervals not less than the canopy diameter ne tree species at maturity; and	
(c)		ecations where sight distances to vehicle ess points are compliant with the following:	
	 (i) in the case of non-commercial vehicle accesses, Australian Standard AS 2890.1:2004, Parking Facilities, Part 1: Off-street car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas; and 		
	(ii)	in the case of commercial vehicle accesses, <i>Australian Standard AS</i> 2890.2:2002, Parking facilities Part 2: Off-street commercial vehicle facilities.

NOR-S4.0 Devon Hills Specific Area Plan

NOR-S4.1 Plan Purpose

The purpose of the Devon Hills Specific Area plan is:

- NOR-S4.1.1 To prohibit the densification of dwellings within Devon Hills.
- NOR-S4.1.2 To maintain the existing uses within Devon Hills.
- NOR-S4.1.3 To maintain the established residential visual character and amenity within Devon Hills.
- NOR-S4.1.4 To maintain a development density that mitigates visual impacts when viewed from public land.

NOR-S4.2 Application of this Plan

- NOR-S4.2.1 The specific area plan applies to the area of land designated as NOR-S4.0 Devon Hills Specific Area Plan on the overlay maps and in Figure NOR-S4.2.1.
- NOR-S4.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for and in addition to the provisions of the Low Density Residential Zone as specified in the relevant provision.

NOR-S4.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S4.4 Definition of Terms

This sub-clause is not used in this specific area plan.

NOR-S4.5 Use Table

This clause is in substitution for Low Density Residential Zone - clause 10.2 Use Table.

Use Class	Qualification	
No Permit Required		
Natural and Cultural Values Management		
Passive Recreation		
Permitted		
Residential	If for an ancillary dwelling, caretakers dwelling, home-based business, single dwelling.	
Utilities	If for minor utilities.	
Visitor Accommodation		

Use Class	Qualification	
Discretionary		
Business and Professional Services	If for a medical centre.	
Community Meeting and Entertainment	If not for a cinema or function centre.	
Emergency Services		
General Retail and Hire	If for a local shop.	
Sports and Recreation		
Utilities	If not for minor utilities.	
Prohibited		
All other uses		

NOR-S4.6 Use Standards

NOR-S4.6.1 Discretionary uses

This clause is in addition to Low Density Residential Zone - clause 10.3.1 Discretionary Use Standards.

Obje	ective:	That discretionary uses support the visual character of the area.		
Acc	eptable Sol	utions	Performance Criteria	
A1			P1	
mus	t not be stor	al storage for discretionary uses ed outside in locations visible from ies, the road or public land.	No Performance Criterion.	
A2	A2		P2	
Was	te material s	storage for discretionary uses must:	No Performance Criterion.	
(a)	(a) not be visible from the road to which the site has frontage; and			
(b)	(b) use self-contained receptacles designed to prevent waste escaping into the environment.			

NOR-S4.7 Development Standards for Buildings and Works

This sub-clause is not used in this specific area plan.

NOR-S4.8 Development Standards for Subdivision

This sub-clause is not used in this specific area plan.

NOR-S4.9 Tables

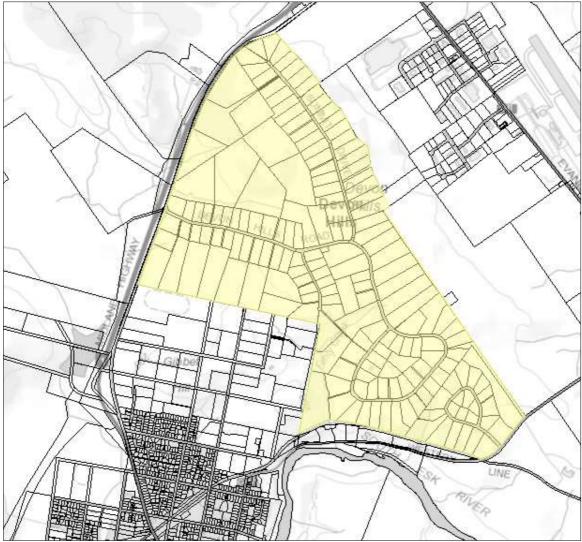

Figure NOR-S4.2.1 Devon Hills Specific Area Plan as shown in light yellow area as required by clause NOR-S4.2.1

NOR-S5.0 Evandale Specific Area Plan

NOR-S5.1 Plan Purpose

The purpose of the Evandale Specific Area Plan is:

- NOR-S5.1.1 To protect and enhance the unique history and character of the village.
- NOR-S5.1.2 To maintain the current open space, picturesque and historic streetscapes.
- NOR-S5.1.3 To provide for community events.
- NOR-S5.1.4 To encourage the provision of appropriate tourism infrastructure whilst maintaining the scenic character of Evandale.
- NOR-S5.1.5 To provide for development that is compatible with the existing streetscape settings, building forms and the rural village character.
- NOR-S5.1.6 To provide for the subdivision of key development sites and provide for appropriately located public open space.
- NOR-S5.1.7 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S5.1.8 That as part of any new subdivision, new trees are provided to increase the township's tree canopy cover.

NOR-S5.2 Application of this Plan

- NOR-S5.2.1 The specific area plan applies to the area of land designated as NOR-S5.0 Evandale Specific Area Plan on the overlay maps and in Figure S5.2.1.
- NOR-S5.2.2 Precinct Plan NOR-S5.2.2 applies to the area of land designated as Cambock Lane West Development Precinct Masterplan on the overlay maps and in Figure NOR-S5.2.2.
- NOR-S5.2.3 Precinct Plan NOR-S5.2.3 applies to the area of land designated as Logan Road Development Precinct Masterplan on the overlay maps and in Figure NOR-S5.2.3.
- NOR-S5.2.4 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for and are in addition to the provisions of:
 - (a) General Residential Zone; and
 - (b) Open Space Zone: and

as specified in the relevant provisions.

NOR-S5.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S5.4 Definition of Terms

This sub-clause is not used in this specific area plan.

NOR-S5.5 Use Table

distance of a Village Zone, Local Business Zone, or General Business

Zone.

NOR-S5.6 Use Standards

This sub-clause is not used in this specific area plan.

NOR-S5.7 Development Standards for Buildings and Works

NOR-S5.7.1 Residential density for multiple dwellings

This clause is a substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings.

Objective:	That the density of multiple dwellings:		
	(a) makes efficient use of land for housing;		
	(b) maintains the village character	of Evandale; and	
	(c) optimises the use of infrastruct	ure and community services.	
Acceptable S	olutions	Performance Criteria	
A1		P1	
Multiple dwellings must have a site area per dwelling of not less than 400m ² .		 Multiple dwellings must only have a site area per dwelling that is less than 400m², if the development will not exceed the capacity of infrastructure services and: (a) is compatible with the density of existing development on established properties within 	
		the area; or(b) provides for a significant social or community	
		benefit and is:(i) wholly or partly within 400m walking distance of a public transport stop; or	
		(ii) wholly or partly within 400m walking	

NOR-S5.7.2 Roof form and materials

Objective:	That roof forms are designed to be compatible with, and not detract from, the existing streetscape or rural village character.	
Acceptable Sol	utions	Performance Criteria
A1		P1
Roof form for new buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be as per the roof forms shown in Figure NOR-S5.7.2, with the roof pitch being within a range of 22.5 – 40 degrees.		Roof form for new buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be compatible with, and not detract from, the existing streetscape or rural village character, having regard to:
		(a) the design and period of construction of the existing buildings in the street;(b) the design and period of construction of the
		existing buildings or rural village character; and (c) visibility from any road or public open space.

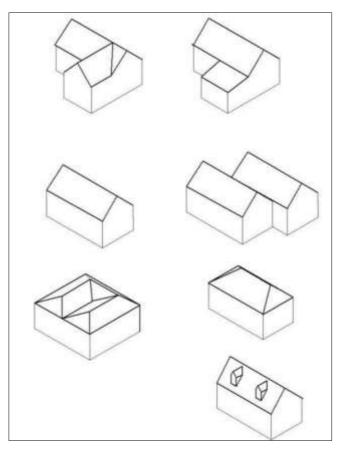

Figure NOR-S5.7.2 Roof forms as required by clause NOR-S5.7.2 A1

NOR-S5.7.3 Wall materials

This clause is in addition to General Residential Zone – clause 8.4 Development Standards for Dwellings and clause 8.5 Development Standards for Non-dwellings.

Objective:	That wall materials used are compatible with the existing streetscape or rural village character.		
Acceptable Sol	utions	Performance Criteria	
character. Acceptable Solutions A1 Wall materials, excluding outbuildings, places listed in Table C6.1, and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be of a form and material that matches the existing building or not be visible from any road or public open space adjoining the site.		 P1 Wall materials of buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings on the site and in the street, and be compatible with the design and period of construction of the existing buildings or rural village character, having regard to: (a) use of bull-nosed timber weatherboards, or materials that have the appearance of bull-nosed timber weatherboards; or (b) use of brickwork with mortar of a neutral earth colour and struck flush with the brickwork; or (c) use of concrete blocks specifically chosen to: (i) blend with dressed sandstone; or (ii) rendered with coloured finishes in neutral earth tones. 	

NOR-S5.7.4 Windows

Objective:	That window form and details are compatible with the streetscape or rural village character.	
Acceptable Solutions		Performance Criteria
A1		P1
Window heads in all buildings, excluding places listed in Table C6.1, sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be a minimum of 300mm below the		No Performance Criterion.

eaves line, or match the level of the window heads in the existing building.	
A2	P2
Windows in a façade facing a frontage, excluding places listed in Table C6.1 and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must have no greater than 30% of the total surface area consisting of windows.	Windows in the front façade of a building, excluding places listed in Table C6.1 and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings in the street.
A3	P3
Windows for new buildings and extensions to existing buildings, or alterations to existing buildings, excluding places listed in Table C6.1 and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must not be visible from public spaces.	Windows for new buildings and extensions to existing buildings, or alterations to existing buildings, excluding places listed in Table C6.1 and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings in the street, having regard to:
	(a) the period and style of the building;
	 (b) the use of multi-pane sashes conforming to the patterns per sash with size and profile glazing bars as shown in Figure NOR-S5.7.4 (b);
	 (c) the use of projecting brick or stone sills that match the existing if in a brick or masonry building;
	(d) the use clear glass; and
	 (e) the division of large areas of glass panelling with vertical mullions to achieve a vertical orientation of glazing.

NOR-S5.8 Development Standards for Subdivision

NOR-S5.8.1 Lot design in development precincts

This clause is in addition to General Residential Zone – clause 8.6.1 Lot design and Open Space Zone – clause 29.5.1 Lot design.

Objective:	That each development precinct creates an efficient lot design that provides connectivity and optimal location for public open space compatible with the rural township character.		
Acceptable Solutions		Perf	ormance Criteria
A1		P1	
Each lot, or a lot proposed in a plan of subdivision, must be in accordance with the lot layout shown in the Precinct Masterplans in Figures NOR-S5.2.2 and NOR-S5.2.3.		Each lot, or a lot proposed in a plan of subdivision, must be consistent with the rural township character and provide an optimal location for public open space, having regard to:	
		(a)	lot layout shown in the applicable precinct masterplans in Figures NOR-S5.2.2 and NOR- S5.2.3;
		(b)	the road network as north south grid;
		(c)	fronting new lots onto existing roads where possible;
		(d)	minimising cul-de-sacs;
		(e)	the provision of public open spaces that facilitate pedestrian loops around the town;
		(f)	creating connections between new and existing public open spaces;
		(g)	creating road frontages around public open spaces;
		(h)	using public open spaces for stormwater detention;
		(i)	the relevant requirements for development of buildings on the lots;
		(j)	the intended location of buildings on the lots; and
		(k)	the pattern of development existing on established properties within the area.

NOR-S5.8.2 Lot design

Objective:	That each lot:		
	(a) has an area and dimensions appropriate for the use and development;		
	(b) is provided with appropriate access to a road;		
	(c) contains areas which are suitable for development appropriate to the purpose of the zone and specific area plan, located to avoid natural hazards; and		
	(d) is oriented to provide solar access for future dwellings.		
Acceptable Solutions		Performance Criteria	
A1		P1	
Each lot, or a lot proposed in a plan of subdivision, must:		Each lot, or a lot proposed in a plan of subdivision must have sufficient useable area and dimensions	

This clause is in substitution for General Residential Zone - clause 8.6.1 Lot design.

- (a) have an area of not less than $600m^2$ and:
 - (i) be able to contain a minimum area of 10m x 15m with a gradient not steeper than 1 in 5, clear of:
 - all setbacks required by clause
 8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; and
 - easements or other title restrictions that limit or restrict development; and
 - (ii) existing buildings are consistent with the setback required by clause 8.4.2A1, A2 and A3, and 8.5.1 A1 and A2; or
- (b) be required for public use by the Crown, a council or a State authority; or
- (c) be required for the provisions of Utilities; or
- (d) be for the consolidation of a lot with another lot provided each lot is within the same zone.

 (a) the relevant requirements for development of buildings on the lots;

suitable for its intended use, having regard to:

- (b) the intended location of buildings on the lots;
- (c) the topography of the site;
- (d) the presence of any natural hazards;
- (e) adequate provision of private open space;
- (f) the pattern of development existing on established properties within the area; and
- (g) must be no more than 15% smaller than the minimum applicable lot size required by clause NOR-S5.8.2 A1 (a).

NOR-S5.8.3 Internal lots

This clause is an addition to General Residential Zone- clause 8.6.1 Lot design.

Objective:	That subdivision layout of land outside the precinct masterplans in Figures NOR-S5.2.2 and NOR-S5.2.3:	
	(a) minimises internal lots;	
	(b) is consistent with existing patterns of residential development in the surrounding area; and	
	(c) retains the rural township character.	

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	Each internal lot, or an internal lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
	 (a) consistency with existing patterns of residential development of the surrounding area;
	(b) the lot gaining access from a road existing prior to the planning scheme coming into effect;
	 (c) site constraints making an internal lot configuration the only reasonable option to efficiently use the land;
	(d) the lot contributing to the more efficient use of residential land and infrastructure;
	 (e) the amenity of adjacent lots not being unreasonably affected by subsequent development and use;
	 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m;
	 (g) passing bays being provided at appropriate distances to service the likely future use of the lot;
	 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road;
	 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces;

(j)	the relevant requirements for development of buildings on the lots;
(k)	the intended location of buildings on the lots;
(I)	the topography of the site;
(m)	the presence of any natural hazards;
(n)	adequate provision of private open space; and
(0)	the pattern of development existing on established properties in the area.

NOR-S5.8.4 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2 Roads.

Objective:	That the arrangement of new roads within a subdivision provides for:			
	(a)	safe, convenient and efficient connections to assist accessibility and mobility of the community;		
	(b)	the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;		
	(c)) adequate areas for the planting of street trees in the road reserve; and		
	(d)	the efficient ultimate subdivision of the entirety of the land and of surrounding land.		
Acceptable Solutions		S	Performance Criteria	

A1	P1	
The subdivision includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to:	
	(a) any road network plan adopted by the council;	
	(b) the existing and proposed road hierarchy;	
	 (c) the need for connecting roads and pedestrian and cycling paths to common boundaries with adjoining land to facilitate future subdivision potential; 	
	 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks; 	
	 (e) minimising the travel distance between key destinations such as shops and services and public transport routes; 	
	(f) access to public transport;	

			(g)	the efficient and safe movement of pedestrians, cyclists and public transport;
			(h)	the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the <i>Guide to Road Design Part 6A: Paths for Walking and Cycling 2016</i> ;
			(i)	the topography of the site; and
			(j)	the future subdivision potential of any balance lots on adjoining or adjacent land.
A2			P2	
new	Where the subdivision plan includes one or more new roads, street trees must be provided within the road reserve:		No F	Performance Criterion.
(a)	(a) at intervals of not less than 10m measured between the centre of each trunk; or			
(b)		tervals not less than the canopy diameter e tree species at maturity; and		
(c)		cations where sight distances to vehicle ess points are compliant with the following:		
	(iii)	in the case of non-commercial vehicle accesses, <i>Australian Standard AS</i> 2890.1:2004, <i>Parking Facilities, Part 1:</i> Off-street car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas; and		
	(iv)	in the case of commercial vehicle accesses, <i>Australian Standard AS</i> 2890.2:2002, <i>Parking facilities Part 2:</i> Off-street commercial vehicle facilities.

NOR-S6.0 Longford Specific Area Plan

NOR-S6.1 Plan Purpose

The purpose of the Longford Specific Area Plan is:

- NOR-S6.1.1 To protect and enhance the unique and intact history and character of the village.
- NOR-S6.1.2 To provide for development that is compatible with the existing streetscape settings, building forms and the rural village character.
- NOR-S6.1.3 To provide for the subdivision of key development sites and provide for appropriately located public open space.
- NOR-S6.1.4 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S6.1.5 To maintain existing character and land use conflict.
- NOR-S6.1.6 That as part of any new subdivision, new trees are provided to increase the township's tree canopy cover.

NOR-S6.2 Application of this Plan

- NOR-S6.2.1 The specific area plan applies to the area of land designated as NOR-S6.0 Longford Specific Area Plan on the overlay maps and in Figure NOR-S6.2.1.
- NOR-S6.2.2 Precinct Plan NOR-S6.2.2 applies to the area of land designated as Pultney Street Development Precinct Masterplan on the overlay maps and in Figure NOR-S6.2.2.
- NOR-S6.2.3 Precinct Plan NOR-S.6.2.3 applies to the area of land designated as Low Density Residential Rural Fringe Development Precinct Masterplan on the overlay maps and in Figure NOR-S6.2.3.
- NOR-S6.2.4 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and in addition to the provisions of:
 - (a) General Residential Zone
 - (b) Low Density Residential Zone; and
 - (c) Open Space Zone,

as specified in the relevant provisions.

NOR-S6.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S6.4 Definition of Terms

NOR-S6.5 Use Table

This clause is a substitution for Low Density Residential Zone – 10.2 Use Table

Use Class	Qualification			
	quaincation			
No Permit Required				
Natural and Cultural Values Management				
Passive Recreation				
Residential	If for a single dwelling.			
Utilities	If for minor utilities.			
Permitted				
Visitor Accommodation				
Residential	If for a home based business.			
Discretionary				
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic or for the provision of residential support services.			
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.			
Educational and Occasional Care	If not for a tertiary institution.			
Emergency Services				
Food Services	If not for a take away food premises with a drive through facility.			
General Retail and Hire	If for a local shop.			
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool, sports ground, or horse training and associated veterinary establishments.			
Utilities	If not listed as No Permit Required.			
Prohibited				
All other uses				

NOR-S6.6 Use Standards

NOR-S6.7 Development Standards for Buildings and Works

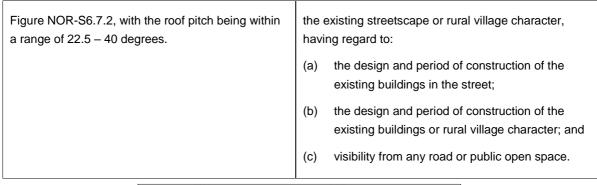

NOR-S6.7.1 Residential density for multiple dwellings

This clause is in substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings

Objective:	That the density of multiple dwellings:		
	(a) makes efficient use of land for housing;		
	(b) maintains the historic and rura	I character of Longford; and	
	(c) optimises the use of infrastructure and community services.		
Acceptable Sol	utions	Performance Criteria	
A1		P1	
Multiple dwelling dwelling of not le	gs must have a site area per ess than 400m².	Multiple dwellings must only have a site area per dwelling that is less than 400m ² , if the development will not exceed the capacity of infrastructure services and:	
		 (a) is compatible with the density of existing development on established properties within the area; or 	
		(b) provides for a significant social or community benefit and is:	
		(i) wholly or partly within 400m walking distance of a public transport stop; or	
		 (ii) wholly or partly within 400m walking distance of a Village Zone, Local Business Zone, or General Business Zone. 	

NOR-S6.7.2 Roof form and materials

Objective:	That roof forms are designed to be compatible with, and not detract from, the existing streetscape or rural village character.	
Acceptable Solutions		Performance Criteria
A1		P1
Roof form for new buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Longford Historic Heritage Precinct listed in Table C6.2, must be as per the roof forms shown in		Roof form for new buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Longford Historic Heritage Precinct listed in Table C6.2, must be compatible with, and not detract from,

NOR-S6.8 Development Standards for Subdivision

NOR-S6.8.1 Lot design in development precinct

This clause is in addition to General Residential Zone – clause 8.6.1 Lot design and Open Space Zone – clause 29.5.1 Lot design.

Objective:			an efficient lot design that provides connectivity e compatible with the rural township character.	
Acceptable Solutions		Performance Criteria		
A1		P1		
Each lot, or a lot proposed in a plan of subdivision, must be in accordance with the lot layout shown in the Precinct Masterplan in Figure NOR-S6.2.2.		mus and	h lot, or a lot proposed in a plan of subdivision, t be consistent with the rural township character provide an optimal location for public open space, ng regard to:	
		(a)	lot layout shown in the applicable precinct masterplans in Figures NOR-S6.2.2;	
		(b)	the road network as north south grid;	
		(c)	fronting new lots onto existing roads where possible;	
		(d)	minimising cul-de-sacs;	
		(e)	the provision of public open spaces that facilitate pedestrian loops around the town;	
		(f)	creating connections between new and existing public open spaces;	
		(g)	creating road frontages around public open spaces;	
		(h)	using public open spaces for stormwater detention;	
		(i)	the relevant requirements for development of buildings on the lots;	
		(j)	the intended location of buildings on the lots; and	
		(k)	the pattern of development existing on established properties within the area.	

NOR-S6.8.2 Lot design - urban

Obje	Dbjective: That each lot:		
(a) has an area and dimensions ap		(a) has an area and dimensions a	ppropriate for the use and development;
(b) is provided with appropriate acc(c) contains areas which are suitable			ccess to a road;
			ble for development appropriate to the purpose of the
		zone and specific area plan, lo	cated to avoid natural hazards; and
(d) is oriented to provide solar acces		(d) is oriented to provide solar acc	ess for future dwellings.
Acc	eptab	le Solutions	Performance Criteria
A1			P1
Each lot, or a lot proposed in a plan of subdivision, must:			Each lot, or a lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
(a)	 have an area of not less than 600m² and: (i) be able to contain a minimum area of 10m x 15m with a gradient not steeper 		 (a) the relevant requirements for development of buildings on the lots;
		than 1 in 5, clear of:	(b) the intended location of buildings on the lots;
		a. all setbacks required by clause	(c) the topography of the site;
		8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; and	(d) the presence of any natural hazards;
			(e) adequate provision of private open space;
		 b. easements or other title restrictions that limit or restrict development; and 	 (f) the pattern of development existing on established properties within the area; and
	(ii)	existing buildings are consistent with the setback required by clause 8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; or	(g) must be no more than 15% smaller than the minimum applicable lot size required by clause NOR-S6.8.2 A1 (a).
(b)		equired for public use by the Crown, a ncil or a State authority; or	
(c) be required for the provisions of Utilities; or		equired for the provisions of Utilities; or	
(d)		or the consolidation of a lot with another lot vided each lot is within the same zone.	

This clause is in substitution for General Residential Zone – clause 8.6.1 Lot design.

NOR-S6.8.3 Lot design – rural fringe

Objectives:	That each lot:	
	 (a) has sufficient area and dimensions appropriate for use and development in the zone and to manage conflict between residential use and agricultural industries; 	
	(b) is provided with appropriate access to a road; and	
	(c) contains areas which are suitable for residential development.	

This clause is in substitution for Low Density Residential Zone – clause 10.6.1 Lot design.

Acc	Acceptable Solutions		Performance Criteria
with	A1 Each lot, or a lot proposed in a plan of subdivision within the precinct shown in Figure NOR-S6.2.3, must:		P1 Each lot, or a lot proposed in a plan of subdivision, must have sufficient useable area and dimensions suitable for its intended use, having regard to:
(a) (b)	(i) (ii) be r	 e an area of not less than 10,000m² and: be able to contain a minimum area of 10m x 15m with a gradient not steeper than 1 in 5, clear of: a. all setbacks required by clause 10.4.3 A1 and A2; and b. easements or other title restrictions that limit or restrict development; and existing buildings are consistent with the setback required by clause 10.4.3 A1 and A2; equired for public use by the Crown, a 	 (a) the relevant requirements for development of buildings on the lots; (b) the intended location of buildings on the lots; (c) the topography of the site; (d) adequate provision of private open space; (e) the pattern of development existing on established properties in the area; and (f) any constraints to development, (g) and must have an area not less than 8000m².
(c) (d)	be r be f	ncil or a State authority; equired for the provision of Utilities; or or the consolidation of a lot with another lot <i>v</i> ided each lot is within the same zone.	

NOR-S6.8.4 Internal lots

This clause is an addition to General Residential Zone- clause 8.6.1 Lot design.

Objective:	That subdivision layout of land outside the precinct masterplans in Figures NOR-S6.2.2 and NOR-S6.2.3:
	(a) minimises internal lots;
	(b) is consistent with existing patterns of residential development in the surrounding area; and
	(c) retains the rural township character.

Acceptable Solutions	Performance Criteria	
A1	P1	
No Acceptable Solution.	Each internal lot, or an internal lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:	
	 (a) consistency with existing patterns of residential development of the surrounding area; 	
	 (b) the lot gaining access from a road existing prior to the planning scheme coming into effect; 	
	 (c) site constraints making an internal lot configuration the only reasonable option to efficiently use the land; 	
	 (d) the lot contributing to the more efficient use of residential land and infrastructure; 	
	 (e) the amenity of adjacent lots not being unreasonably affected by subsequent development and use; 	
	 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m; 	
	 (g) passing bays being provided at appropriate distances to service the likely future use of the lot; 	
	 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road; 	
	 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces; 	

(j)	the relevant requirements for development of buildings on the lots;
(k)	the intended location of buildings on the lots;
(I)	the topography of the site;
(m)	the presence of any natural hazards;
(n)	adequate provision of private open space; and
(0)	the pattern of development existing on established properties in the area.

NOR-S6.8.5 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2 Roads.

	(d) the efficient ultimate subdivision of the entirety of the land and of surrounding land.		
	c) adequate areas for the planting of street trees in the road reserve; and		
	the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;		
	 (a) safe, convenient and efficient connections to assist accessibility and mobility of the community; 		
Objective:	That the arrangement of new roads within a subdivision provides for:		

•	
A1	P1
The subdivision includes no new roads.	 The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to: (a) any road network plan adopted by the council; (b) the existing and proposed road hierarchy; (c) the need for connecting roads and pedestrian and cycling paths to common boundaries with adjoining land to facilitate future subdivision potential;
	 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks;
	 (e) minimising the travel distance between key destinations such as shops and services and public transport routes;
	(f) access to public transport;

	 (g) the efficient and safe movement of pedestrians, cyclists and public transport; (h) the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the <i>Guide to Road Design Part 6A: Paths for Walking and Cycling 2016</i>; (i) the topography of the site; and (j) the future subdivision potential of any balance lots on adjoining or adjacent land.
 A2 Where the subdivision plan includes one or more new roads, street trees must be provided within the road reserve: (a) at intervals of not less than 10m measured between the centre of each trunk; or (b) at intervals not less than the canopy diameter of the tree species at maturity; and (c) in locations where sight distances to vehicle access points are compliant with the following: (i) in the case of non-commercial vehicle accesses, <i>Australian Standard AS</i> 2890.1:2004, <i>Parking Facilities, Part 1: Offstreet car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas</i>; and (ii) in the case of commercial vehicle accesses, <i>Australian Standard AS</i> 2890.2:2002, <i>Parking facilities Part 2: Offstreet commercial vehicle facilities</i>. 	P2 No Performance Criterion.

NOR-S7.0 Perth Specific Area Plan

NOR-S7.1 Plan Purpose

The purpose of the Perth Specific Area Plan is:

- NOR-S7.1.1 To provide for residential use and development that is compatible with the unique and intact history and rural character of the town, its landscape setting along the riverbank and its views to the Ben Lomond Ranges and the Western Tiers.
- NOR-S7.1.2 To provide for public and private transport links to Launceston.
- NOR-S7.1.3 To provide for the subdivision of key development sites and provide for appropriately located public open space for good pedestrian connectivity within Perth and to the river precinct.
- NOR-S7.1.4 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S7.1.5 That as part of any new subdivision new trees are provided to increase the township's tree canopy cover.

NOR-S7.2 Application of this Plan

- NOR-S7.2.1 The specific area plan applies to the area of land designated as NOR-S7.0 Perth Specific Area Plan on the overlay maps and in Figure NOR-S7.2.1.
- NOR-S7.2.2 Precinct Plan NOR-S7.2.2 applies to the area of land designated as Seccombe Street Development Precinct Masterplan on the overlay maps and in Figure NOR-S7.2.2.
- NOR-S7.2.3 Precinct Plan NOR-S7.2.3 applies to the area of land designated as George and Fairtlough Streets Development Precinct Masterplan on the overlay maps and in Figure NOR-S7.2.3.
- NOR-S7.2.4 Precinct Plan NOR-S7.2.4 applies to the area of land designated as Napoleon and Drummond Streets Development Precinct Masterplan on the overlay maps and in Figure NOR-S7.2.4.
- NOR-S7.2.5 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and in addition to the provisions of:
 - (a) General Residential Zone;
 - (b) Low Density Residential Zone; and
 - (c) Open Space Zone,

as specified in the relevant provisions.

NOR-S7.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S7.4 Definition of Terms

NOR-S7.5 Use Table

This clause is a substitution for Low Density Residential Zone – 10.2 Use Table.

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for a single dwelling.
Utilities	If for minor utilities.
Permitted	
Residential	If for a home based business.
Visitor Accommodation	
Discretionary	
Business and Professional Services	If for a consulting room, medical centre, veterinary centre, child health clinic or for the provision of residential support services.
Community Meeting and Entertainment	If for a place of worship, art and craft centre or public hall.
Educational and Occasional Care	If not for a tertiary institution.
Emergency Services	
Food Services	If not for a take away food premises with a drive through facility.
General Retail and Hire	If for a local shop.
Sports and Recreation	If for a fitness centre, gymnasium, public swimming pool or sports ground.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

NOR-S7.6 Use Standards

NOR-S7.7 Development Standards for Buildings and Works

NOR-S7.7.1 Residential density for multiple dwellings

This clause is a substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings.

Objective:	That the density of multiple dwellings: (a) makes efficient use of land for housing,		
	(b) maintains the rural character of Perth; and		
Acceptable Sol	(c) optimises the use of infrastructure and community services. plutions Performance Criteria		
A1 Multiple dwelling dwelling of not le	gs must have a site area per ess than 400m².	P1 Multiple dwellings must only have a site area per dwelling that is less than 400m ² , if the development will not exceed the capacity of infrastructure services and:	
		 (a) is compatible with the density of existing development on established properties within the area; or 	
		(b) provides for a significant social or community benefit and is:	
		(i) wholly or partly within 400m walking distance of a public transport stop; or	
		 (ii) wholly or partly within 400m walking distance of a Village Zone, Local Business Zone, or General Business Zone. 	

NOR-S7.8 Development Standards for Subdivision

NOR-S7.8.1 Lot design in development precincts

This clause is in substitution for General Residential Zone – clause 8.6.1 Lot design, and Open Space Zone – clause 29.5.1 Lot design.

Objective:	ctive: That each development precinct creates an efficient lot design that provides connectivity and optimal location for public open space compatible with the rural township character.				
Acceptable Sol	utions	Per	Performance Criteria		
A1		P1			
Each lot, or a lot proposed in a plan of subdivision, must be in accordance with the lot layout shown in the Precinct Masterplans in Figures NOR-S7.2.2, NOR-S7.2.3 and NOR-S7.2.4.		mus and	h lot, or a lot proposed in a plan of subdivision, t be consistent with the rural township character provide an optimal location for public open space, ng regard to:		
		(a)	lot layout shown in the applicable precinct masterplans in Figures NOR-S7.2.2, NOR-S7.2.3 and NOR-S7.2.4;		
		(b)	the road network as north south grid;		
		(c)	fronting new lots onto existing roads where possible;		
		(d)	minimising cul-de-sacs;		
		(e)	the provision of public open spaces that facilitate pedestrian loops around the town;		
		(f)	creating connections between new and existing public open spaces;		
		(g)	creating road frontages around public open spaces;		
		(h)	using public open spaces for stormwater detention;		
		(i)	the relevant requirements for development of buildings on the lots;		
		(j)	the intended location of buildings on the lots; and		
		(k)	the pattern of development existing on established properties within the area.		

NOR-S7.8.2 Lot design

Obje	ective		That each lot:					
-			approp	ppropriate for the use and development;				
			(b) is provided with appropriate access to a road;					
					I to avoid natural hazards; and			
			(d) is oriented to provide solar a	olar access for future dwellings.				
Acc	eptab	ole Sol	utions	Per	formance Criteria			
A1				P1				
Each lot, or a lot proposed in a plan must:			mus	h lot, or a lot proposed in a plan of subdivision at have sufficient useable area and dimensions able for its intended use, having regard to:				
(a)	(i) be at 10m	ea of not less than 600m ² and: le to contain a minimum area of x 15m with a gradient not steeper	(a)	the relevant requirements for development of buildings on the lots;				
		than	n 1 in 5, clear of:	(b)	the intended location of buildings on the lots;			
	a. al	all setbacks required by clause	(c)	the topography of the site;				
			.4.2 A1, A2 and A3, and 8.5.1 A1	(d)	the presence of any natural hazards;			
			and A2; and	(e)	adequate provision of private open space; and			
		th	asements or other title restrictions hat limit or restrict development; nd	(f)	the pattern of development existing on established properties within the area.			
	(ii)	setba	ng buildings are consistent with the ack required by clause 8.4.2 A1, A2 A3, and 8.5.1 A1 and A2; or					
(b)		•	d for public use by the Crown, a a State authority; or					
(c) be required for the provisions of Utilities; or								
(d)			consolidation of a lot with another lo each lot is within the same zone.	t				

This clause is in substitution for General Residential Zone – clause 8.6.1 Lot design.

NOR-S7.8.3 Internal lots

This clause is an addition to General Residential Zone- clause 8.6.1 Lot design.

Objective:	That subdivision layout of land outside the precinct masterplans in Figures NOR-S7.2.2, NOR-S7.2.3 and NOR-S7.2.4:
	(a) minimises internal lots;
	(b) is consistent with existing patterns of residential development in the surrounding area; and
	(c) retains the rural township character.

Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	Each internal lot, or an internal lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
	 (a) consistency with existing patterns of residential development of the surrounding area;
	(b) the lot gaining access from a road existing prior to the planning scheme coming into effect;
	 (c) site constraints making an internal lot configuration the only reasonable option to efficiently use the land;
	(d) the lot contributing to the more efficient use of residential land and infrastructure;
	 (e) the amenity of adjacent lots not being unreasonably affected by subsequent development and use;
	 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m;
	 (g) passing bays being provided at appropriate distances to service the likely future use of the lot;
	 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road;
	 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces;

(j)	the relevant requirements for development of buildings on the lots;
(k)	the intended location of buildings on the lots;
(I)	the topography of the site;
(m)	the presence of any natural hazards;
(n)	adequate provision of private open space; and
(0)	the pattern of development existing on established properties in the area.

NOR-S7.8.4 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2 Roads and Low Density Residential Zone – clause 10.6.2 Roads.

Objectives:	That the arrangement of new roads within a subdivision provides for:		
	(a) safe, convenient and efficient co community;	nnections to assist accessibility and mobility of the	
	(b) the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;		
	(c) adequate areas for the planting of	of street trees in the road reserve; and	
	(d) the efficient ultimate subdivision of the entirety of the land and of surrounding land		
Acceptable So	plutions P	Performance Criteria	
A1	F	21	
The subdivision	s	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to:	
	(;	a) any road network plan adopted by the council;	
	(1	b) the existing and proposed road hierarchy;	
	(1	c) the need for connecting roads and pedestrian and cycling paths to common boundaries with adjoining land to facilitate future subdivision potential;	
	((maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks; 	
	((e) minimising the travel distance between key destinations such as shops and services and public transport routes; 	

		(f) access to public transport;
		 (g) the efficient and safe movement of pedestrians, cyclists and public transport;
		 (h) the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the Guide to Road Design Part 6A: Paths for Walking and Cycling 2016;
		(i) the topography of the site; and
		 (j) the future subdivision potential of any balance lots on adjoining or adjacent land.
A2		P2
new	re the subdivision plan includes one or more roads, street trees must be provided within the reserve: at intervals of not less than 10m measured between the centre of each trunk; or at intervals not less than the canopy diameter of the tree species at maturity; and in locations where sight distances to vehicle access points are compliant with the following: (i) in the case of non-commercial vehicle accesses, <i>Australian Standard AS</i> 2890.1:2004, Parking Facilities, Part 1:	No Performance Criterion.
	 Off-street car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas; and (ii) in the case of commercial vehicle accesses, Australian Standard AS 2890.2:2002, Parking facilities Part 2: Off-street commercial vehicle facilities.

NOR-S8.0 Ross Specific Area Plan

NOR-S8.1 Plan Purpose

The purpose of the Ross Specific Area Plan is:

- NOR-S8.1.1 To protect and enhance the unique and intact history and character of the town.
- NOR-S8.1.2 To provide for residential use and development that is compatible with the existing streetscape settings, building forms and the rural village character.
- NOR-S8.1.3 To provide for the subdivision of key development sites and provide for appropriately located public open space.
- NOR-S8.1.4 To provide for community events.
- NOR-S8.1.5 To encourage the provision of appropriate tourism infrastructure.
- NOR-S8.1.6 To encourage subdivision that provides for large lots and minimises internal lots.
- NOR-S8.1.7 That as part of any new subdivision, new trees are provided to increase the township's tree canopy cover that is consistent with the historic tree lined streetscapes.

NOR-S8.2 Application of this Plan

- NOR-S8.2.1 The specific area plan applies to the area of land designated as NOR-S8.0 Ross Specific Area Plan on the overlay map and in Figure S8.2.1.
- NOR-S8.2.2 Precinct Plan NOR-S8.2.2 applies to the area of land designated as Bond Street 1 Development Precinct Masterplan.
- NOR-S8.2.3 Precinct Plan NOR-S8.2.3 applies to the area of land designates as Badajos Street Development Precinct Masterplan.
- NOR-S8.2.4 Precinct Plan NOR-S8.2.4 applies to the area of land designated as Bond Street 2 Development Precinct Masterplan.
- NOR-S8.2.5 Precinct Plan NOR-S8.2.5 applies to the area of land designated as Bond Street 3 Development Precinct Masterplan.
- NOR-S8.2.6 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, and in addition to the provisions of:
 - (a) General Residential Zone; and
 - (b) Open Space Zone

as specified in the relevant provision.

NOR-S8.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

NOR-S8.4 Definition of Terms

NOR-S8.5 Use Table

This sub-clause is not used in this specific area plan.

NOR-S8.6 Use Standards

This sub-clause is not used in this specific area plan.

NOR-S8.7 Development Standards for Buildings and Works

NOR-S8.7.1 Residential density for multiple dwellings

This clause is in substitution for General Residential Zone – clause 8.4.1 Residential density for multiple dwellings.

Objective:	That the density of multiple dwellings:	
	(a) makes efficient use of land for	housing;
	(b) maintains the historic and rura	I village character of Ross; and
	(c) optimises the use of infrastruc	ture and community services.
Acceptable Sol	utions	Performance Criteria
A1		P1
Multiple dwelling dwelling of not le	is must have a site area per ess than 400m².	Multiple dwellings must only have a site area per dwelling that is less than 400m ² , if the development will not exceed the capacity of infrastructure services and:
		 (a) is compatible with the density of existing development on established properties within the area; or
		(b) provides for a significant social or community benefit and is:
		 (i) wholly or partly within 400m walking distance of a public transport stop; or
		(ii) wholly or partly within 400m walking distance of a Village Zone, Local Business Zone, or General Business Zone.

NOR-S8.7.2 Roof Form and Materials

This clause is in addition to General Residential Zone – clause 8.4 Development Standards for Dwellings and clause 8.5 Development Standards for Non-dwellings.

Objective:	That roof form and materials are designed to be compatible with, and not detract from, the existing character of the streetscape or townscape.	
Acceptable Sol	utions	Performance Criteria
A1		P1
places listed in T the Ross Historic C6.2, must be as	w buildings, excluding outbuildings, Fable C6.1, and sites located within c Heritage Precinct listed in Table s per the roof forms shown in Figure h the roof pitch being within a range rees.	 Roof form for new buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Ross Historic Heritage Precinct listed in Table C6.2, must be compatible with, and not detract from, the existing streetscape or rural village character, having regard to: (a) the design and period of construction of the existing buildings in the street; (b) the design and period of construction of the existing buildings in the street;
		existing buildings or rural village character; and (c) visibility from any road or public open space.

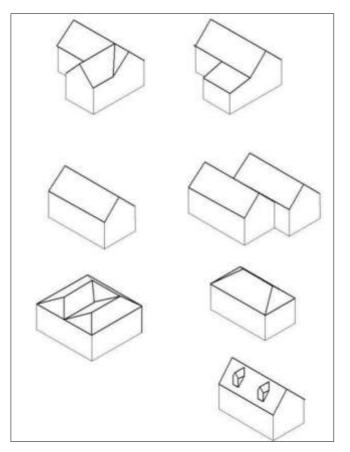

Figure NOR-S8.7.2 Roof forms as required by clause NOR-S8.7.2 A1

NOR-S8.7.3 Wall Materials

This clause is in addition to General Residential Zone – clause 8. 4 Development Standards for Dwellings and clause 8.5 Development Standards for Non-dwellings.

Objective:	That wall materials used are compa character.	tible with the existing streetscape or rural village
Acceptable Sol	utions	Performance Criteria
in Table C6.1, an Historic Heritage be of a form and	excluding outbuildings, places listed nd sites located within the Ross e Precinct listed in Table C6.2, must material that matches the existing e visible from any road or public ining the site.	 P2 Wall materials of buildings, excluding outbuildings, places listed in Table C6.1, and sites located within the Ross Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings on the site and in the street, and be compatible with the design and period of construction of the existing buildings or rural village character, having regard to: (a) use of bull-nosed timber weatherboards, or materials that have the appearance of bull-nosed timber weatherboards; or (b) use of brickwork with mortar of a neutral earth colour and struck flush with the brickwork; or (c) use of concrete blocks specifically chosen to: (i) blend with dressed sandstone; or (ii) rendered with coloured finishes in neutral earth tones.

NOR-S8.7.4 Windows

This clause is in addition to General Residential Zone – clause 8. 4 Development Standards for Dwellings and clause 8.5 Development Standards for Non-dwellings.

Objectives:	That window form and details are consistent with the streetscape or rural village character.	
Acceptable Sol	lutions	Performance Criteria
A1		P1
listed in Table C Ross Historic He must be a minim	n all buildings, excluding places 6.1 and sites located within the eritage Precinct listed in Table C6.2, hum of 300mm below the eaves line, g the level of the window heads in ding.	No Performance Criterion.

	50
A2 Windows in a façade facing a frontage, excluding places listed in Table C6.1 and sites located within the Ross Historic Heritage Precinct listed in Table C6.2, must have no greater than 30% of the total surface area consisting of windows	P2 Windows in the front façade of a building, excluding places listed in Table C6.1 and sites located within the Ross Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings in the street.
A3 Windows for new buildings and extensions to existing buildings, or alterations to existing buildings, excluding places listed in Table C6.1 and sites located within the Evandale Historic Heritage Precinct listed in Table C6.2, must not be visible from public spaces.	 P3 Windows for new buildings and extensions to existing buildings, or alterations to existing buildings, excluding places listed in Table C6.1 and sites located within the Ross Historic Heritage Precinct listed in Table C6.2, must be compatible with the design and period of construction of the existing buildings in the street, having regard to: (a) the period and style of the building; (b) the use of multi-pane sashes conforming to the patterns per sash with size and profile glazing bars as shown in Figure NOR-S5.7.4 (b); (c) the use of projecting brick or stone sills that match the existing if in a brick or masonry building; (d) the use clear glass; and (e) the division of large areas of glass panelling with vertical mullions to achieve a vertical orientation of glazing.

Figure NOR-S8.7.4 (b) Window shapes and styles as required by clause NOR-S5.7.4 A2

NOR-S8.8 Development Standards for Subdivision

NOR-S8.8.1 Lot design in development precincts

This clause is in addition to General Residential Zone – clause 8.6.1 Lot design, Open Space Zone – clause 29.5.1 Lot design, and in substitution for Local Historic Heritage Code clause C6.10.2 Lot design for a Local Heritage Precinct or a Local Historic Landscape.

Objective:	That each development precinct creates an efficient lot design that provides connectivity and optimal location for public open space compatible with the rural township character.	
Acceptable Solutions		Performance Criteria
A1		P1
	proposed in a plan of subdivision, dance with the lot layout shown in	Each lot, or a lot proposed in a plan of subdivision, must be consistent with the rural township character

the Precinct Masterplan in Figures NOR-S8.2.2, NOR-S8.2.3, NOR-S8.2.4 and NOR-S8.2.5.	and provide an optimal location for public open space, having regard to:
	 (a) lot layout shown in the applicable precinct masterplans in Figures NOR-S8.2.2, NOR- S8.2.3, NOR-S8.2.4 and NOR-S8.2.5;
	(b) the road network as north south grid;
	(c) fronting new lots onto existing roads where possible;
	(d) minimising cul-de-sacs;
	(e) the provision of public open spaces that facilitate pedestrian loops around the town;
	(f) creating connections between new and existing public open spaces;
	(g) creating road frontages around public open spaces;
	(h) using public open spaces for stormwater detention;
	 the relevant requirements for development of buildings on the lots;
	(j) the intended location of buildings on the lots; and
	 (k) the pattern of development existing on established properties within the area.

NOR-S8.8.2 Lot design

Obje	ective	s: That each lot:	
		(a) to have an area and dimension	n appropriate for the use and development;
		(b) to be provided with appropriate	e access to a road;
			able for development appropriate to the purpose of the ocated to avoid natural hazards; and
		(d) is oriented to provide solar acc	cess for future dwellings.
Acc	eptak	le Solutions	Performance Criteria
A1			P1
Eacl mus (a)	t:	or a lot proposed in a plan of subdivision, e an area of not less than 600m ² and:	Each lot, or a lot proposed in a plan of subdivision must have sufficient useable area and dimensions suitable for its intended use, having regard to:
()	(i)	be able to contain a minimum area of 10m x 15m with a gradient not steeper	 (a) the relevant requirements for development of buildings on the lots;
		than 1 in 5, clear of:	(b) the intended location of buildings on the lots;
		 a. all setbacks required by clause 8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; and 	 (c) the potential for overshadowing of adjoining lots caused by buildings constructed in the likely building site;
		b. easements or other title restrictions	(d) the topography of the site;
		that limit or restrict development;	(e) the presence of any natural hazards;
	(ii)	and existing buildings are consistent with the	(f) adequate provision of private open space and solar access; and
		setback required by clause 8.4.2 A1, A2 and A3, and 8.5.1 A1 and A2; or	(g) the pattern of development existing on established properties within the area.
(b)		equired for public use by the Crown, a ncil or a State authority; or	
(c)	be r	equired for the provisions of Utilities; or	
(d)		or the consolidation of a lot with another lot ided each lot is within the same zone.	

This clause is in substitution for General Residential Zone – clause 8.6.1 Lot design.

NOR-S8.8.3 Internal lots

This clause is an addition to General Residential Zone- clause 8.6.1 Lot design.

Objective:	That subdivision layout of land outside the precinct masterplans in Figures NOR-S8.2.2, NOR-S8.2.3, NOR-S8.2.4 and NOR-S8.2.5:
	(a) minimises internal lots;
	(b) is consistent with existing patterns of residential development in the surrounding area; and
	(c) retains the rural township character.

Acceptable Solutions	Performance Criteria	
A1	P1	
No Acceptable Solution.	Each internal lot, or an internal lot proposed in a p of subdivision must have sufficient useable area a dimensions suitable for its intended use, having regard to:	
	 (a) consistency with existing patterns of residential development of the surrounding area; 	
	 (b) the lot gaining access from a road existing prior to the planning scheme coming into effect; 	
	 (c) site constraints making an internal lot configuration the only reasonable option to efficiently use the land; 	
	 (d) the lot contributing to the more efficient use of residential land and infrastructure; 	
	 (e) the amenity of adjacent lots not being unreasonably affected by subsequent development and use; 	
	 (f) the lot having access to a road via an access strip, which is part of the lot, or a right-of-way, with a width of no less than 3.6m; 	
	 (g) passing bays being provided at appropriate distances to service the likely future use of the lot; 	
	 (h) the access strip being adjacent to or combined with no more than three other internal lot access strips provided that it is otherwise not appropriate to provide access via a public road; 	
	 the lot addressing and providing for passive surveillance of public open space and public rights of way if it fronts such public spaces; 	

(j)	the relevant requirements for development of buildings on the lots;
(k)	the intended location of buildings on the lots;
(I)	the topography of the site;
(m)	the presence of any natural hazards;
(n)	adequate provision of private open space; and
(0)	the pattern of development existing on established properties in the area.

NOR-S8.8.4 Roads

This clause is in substitution for General Residential Zone – clause 8.6.2.

Objectives:	That the arrangement of new road within a subdivision provides for:		
	(a) safe, convenient and efficient community;	connections to assist accessibility and mobility of the	
	(b) the adequate accommodation traffic;	the adequate accommodation of vehicular, pedestrian, cycling and public transport traffic;	
	(c) adequate areas for the plantin	adequate areas for the planting of street trees in the road reserve; and	
	(d) the efficient ultimate subdivision	the efficient ultimate subdivision of the entirety of the land and of surrounding land.	
Acceptable Sol	lutions	Performance Criteria	

A1	P1	
The subdivision includes no new roads.	The arrangement and construction of roads within a subdivision must provide an appropriate level of access, connectivity, safety and convenience for vehicles, pedestrians and cyclists, having regard to:	
	(a) any road network plan adopted by the council;	
	(b) the existing and proposed road hierarchy;	
	 (c) the need for connecting roads and pedestrian and cycling paths, to common boundaries with adjoining land, to facilitate future subdivision potential; 	
	 (d) maximising connectivity with the surrounding road, pedestrian, cycling and public transport networks; 	
	 (e) minimising the travel distance between key destinations such as shops and services and public transport routes; 	
	(f) access to public transport;	

	 (g) the efficient and safe movement of pedestrians, cyclists and public transport;
	 (h) the need to provide bicycle infrastructure on new arterial and collector roads in accordance with the Guide to Road Design Part 6A: Paths for Walking and Cycling 2016;
	(i) the topography of the site; and
	 (j) the future subdivision potential of any balance lots on adjoining or adjacent land.
A2	P2
Where the subdivision plan includes one or more new roads, street trees must be provided within the road reserve:	No Performance Criterion.
 (a) at intervals of not less than 10m measured between the centre of each trunk; or 	
(b) at intervals not less than the canopy diameter of the tree species at maturity; and	
(c) in locations where sight distances to vehicle access points are compliant with the following:	
 (i) in the case of non-commercial vehicle accesses, Australian Standard AS 2890.1:2004, Parking Facilities, Part 1: Off- street car parking, section 3, Access Facilities to Off-street Parking Areas and Queuing Areas; and 	
 (ii) in the case of commercial vehicle accesses, Australian Standard AS 2890.2:2002, Parking facilities Part 2: Off- street commercial vehicle facilities.

NOR-Table C6.2 Local Heritage Precincts

Reference	Town/Locality	Name of	Description, Statement of Local Historic Heritage
Number		Precinct	Significance, Historic Heritage Values and Design
			Criteria / Conservation Policy
NOR-C6.2.1	Campbell	Campbell	The Campbell Town Heritage Precinct is unique
	Town	Town	because it is the core of a substantially intact nineteenth
		Heritage	century townscape, with its significant built fabric, and
		Precinct	its atmosphere of a traditional resting place on the main
			road between the north and south. Its wide main street,
			historic buildings and resting places for travellers all
			contribute to its unique character. High Street has
			remained as the main commercial focus for the town,
			continuing to serve the needs of residents, visitors and
			the agricultural community. The War Memorial to the
			north marks the approach to the business area which
			terminates at the historic bridge over the Elizabeth
			River; a significant landscape feature. Traditional
			buildings in the Precinct include impressive examples of
			colonial architecture. The historic Valentine's Park is the
			original foreground for 'The Grange' and provides a
			public outdoor resting place for visitors and locals at the
			heart of the town. Campbell Town's heritage ambience
			has been acknowledged, embraced and built on by
			many of those who live in or visit the town.
NOR-C6.2.2	Evandale	Evandale	The Evandale Heritage Precinct is unique because it is
		Heritage	the core of an intact nineteenth century townscape, with
		Precinct	its rich and significant built fabric and village
			atmosphere. Its historic charm, tree lined streets and
			quiet rural setting all contribute to its unique character.
			Its traditional buildings are an impressive mix of

	1	1	
NOR-C6.2.3	Longford	Longford	nineteenth and ealry twentieth century architectureal styles, while its prominent elements are its significant trees, the Water Tower and the Church spires. The original street pattern is an important setting for the Precinct, with views along traditional streetscapes, creating an historic village atmosphere that is still largely intact. Period residential buildings, significant trees, picket fences, hedgerows and cottage gardens are all complementary, contributing to the ambience of a nineteenth century village. The main roads into and out of Evandale create elevated views to the surrounding countryside which give context to the town and the Precinct, and contribute to its character. The quiet village feel of the town is complemented by a mix of businesses meeting local needs, tourism and historic interpretation. Evandale's heritage ambience has been acknowledged, embraced and built on by many of those who live in or visit the village.
NUR-C6.2.3	Longtord	Longford Heritage Precinct	The Longford Heritage Precinct is unique because it is the core of an intact nineteenth century townscape, rich with significant structures and the atmosphere of a centre of trade and commerce for the district. Traditional commercial buildings line the main street, flanked by two large public areas containing the Christ Church grounds and the War Memorial. The street then curves gently at Heritage Corner towards Cressy, and links Longford to the surrounding rural farmland, creating views to the surrounding countryside and a gateway to the World Heritage listed Woolmers and Brickendon estates. Heritage residential buildings are tucked behind the main street comprising traditional styles from the mid-nineteenth centruy to the early twentieth century, including significiant street trees, picket fences and cottage gardens. The rural township feel is complemented by a mix of businesses servicing local needs, tourism and historic interpretation. Longford's heritage ambience has been acknowledged, embraced and built on by many of those who live in or visit the town.
NOR-C6.2.4	Perth	Perth Heritage Precinct	The Perth Heritage Precinct is unique because it is still the core of a small nineteenth century riverside town, built around the throroughfare from the first bridge to cross the South Esk River, and which retains its historic atmosphere. It combines significant colonial buildings, compact early river's edge residential development, and retains the small-scale commercial centre which developed in the nineteenth century at the historic crossroads and river crossing for travel and commerce between Hobart, Launceston and the North West. Perth's unique rural setting is complemented by its mix of businesses still serving local and visitor's needs. Perth's heritage ambience is acknowledged by many of those who live in or visit the town, and enhanced by the Midland Highway bypass.
NOR-C6.2.5	Ross	Ross Heritage Precinct	The Ross Heritage Precinct is unique because it is the intact core of a nineteenth century townscape, with its rich and significant built fabric and the village atmosphere. Its historic charm, wide tree lined streets

and quiet rural environment all contribute to its unique
character. Its traditional buildings comprise simple
colonial forms that are predominantly one storey, while
the prominent elements are its significant trees and
Church spires. Most commercial activities are located in
Church Street as the main axis of the village, which
directs attention to the Ware Memorial and the Uniting
Church on the hill. The existing and original street
pattern creates linear views out to the surrounding
countryside. The quiet rural feel of the township is
complemented by a mix of businesses serving local
needs, tourism and historic interpretation. Ross'
heritage ambience has been acknowledged, embraced
and built on by many of those who live in or visit the
village.

Reference Number	Scenic Protection Area Name	Description	Scenic Value	Management Objectives
NOR- C8.1.1	Mt Arnon Scenic Protection Area	Treed Ridgeline and pasture to the east of Pateena Road and north of Norwich Drive and between Norwich Drive and the Midland Highway and designated as NOR-C.8.1.1 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views;
NOR- C8.1.2	Gibbet Hill Scenic Protection Area	Land to the north of Perth and west of Devon Hills Specific Area Plan. Land above the 200m contour containing the feature known as Gibbet Hill. Comprised of gently sloping rural living land incorporating native vegetation and designated as NOR-C.8.1.2 on	Low density settlement areas with remnant tree cover on skylines visible along important tourism routes.	 (a) Retention of remnant tree cover on skylines and limit further development to low density and low impact; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views; as seen from tourist corridors or through roads.
NOR- C8.1.3	Devon Hills Scenic Protection Area	the overlay maps. Land to the south and south-east of Devon Hills Specific Area Plan providing a buffer to the Translink site and the Launceston Airport. Comprised of gently sloping grazing land incorporating native vegetation and designated as NOR-C.8.1.3 on the overlay maps.	Low density settlement areas with remnant tree cover on skylines visible along important tourism routes.	 (a) Retention of remnant tree cover on skylines and limit further development to low density and low impact; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views; as seen from tourist corridors or through roads.

NOR- C8.1.4	Evandale Scenic Protection Area	Land to the north, north west, west, and south west of Evandale. Northern extent of area extends to the Southern Esk River whilst the southern extent of the area extends to South Line Railway line and designated as NOR-C.8.1.4 on the overlay maps.	Pastoral views across river flood plains and grazing land visible along tourism routes.	 (a) Protection of pastoral views across grazing land and river flood plains wherever visible along tourism routes or through roads from unsympathetic development; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views;
NOR- C8.1.5	Great Western Tiers Scenic Protection Area	Land on the slopes of the Western Tiers west of Blackwood Creek and extending south past Poatina to Lake River Road and designated as NOR-C.8.1.5 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views;
NOR- C8.1.6	O'Connor's Peak and O'Connor's Sugarloaf Scenic Protection Area	Land above the 300m contour of the geological feature identified as O'Connors Peak and O'Connor's Sugarloaf designated as NOR-C.8.1.6 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views;

NOR- C8.1.7	Parnook Hill Scenic Protection Area	Land above the 300m contour of the geological feature identified as Parnook Hill and designated as NOR-C.8.1.7 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views; as seen from tourist corridors or through roads.
NOR- C8.1.8	Connorville Scenic Protection Area	Land above the 350m contour of the geological feature at 395 Macquarie Road, Cressy folio of the Register 132520/1 and designated as NOR-C.8.1.8 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views; (c) as seen from tourist corridors or through roads.
NOR- C8.1.9	Midland Highway Scenic Protection Area	Treed Ridgeline and pasture to the west of the Midland Highway between Devon Hills and Launceston and designated as NOR-C.8.1.9 on the overlay maps.	Undeveloped tree covered skylines and bushland cover on elevated slopes with high habitat values, visible along important tourism routes and other through roads.	 (a) Retention of natural tree cover on skylines and existing bushland cover on elevated slopes and of pastoral views across river flood plains; and (b) Development of land does not: intrude onto skylines or river flood plains; or change the landscape character of elevated areas, pastoral scenes or river flood plain views;

Reference Number	Scenic Road Corridor Description	Scenic Value	Management Objectives
NOR-C8.2.1	Chiswick Road	Northern connector Road between Midland Highway and Ross. Key tourist route providing a scenic entry into the historic township including hawthorn hedges and road side tree plantings.	Maintain scenic landscape views and minimise development that would adversely impact on the rural scenery, historic hedges, and roadside tree plantings. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.2	Clarendon Station Road	Connector Road between Nile Road and Clarendon historic site on the Esk River plain. Key tourist route providing views of local rural landscapes, historic hedges, and scenic Western Tiers.	Maintain scenic landscape views and minimise development that would adversely impact on the rural and landscape scenery, and historic hedges. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.3	Esk Main Road	Key tourist route to Avoca and through the Fingal Valley to the East Coast, providing views of local rural landscapes and National Parks comprised of Castle Carey and surrounding hills including China Cup Hills, Dog Kennels, and St. Paul's dome.	Maintain scenic views and minimise development that would adversely impact on the rural and wilderness scenery. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.

NOR-Table C8.2 Scenic Road Corridors

NOR-C8.2.4	Illawarra Road	Connector Road between Perth and Meander Valley Road. Key tourist route providing views of local rural landscapes and historic hedges.	Maintain scenic landscape views and minimise development that would adversely impact on the rural scenery and historic hedges. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.5	Lake Leake Road	Key tourist route to Lake Leake and Greater Oyster Bay providing views of local rural landscapes and priority vegetation areas.	Maintain scenic landscape views and minimise development that would adversely impact on the treed scenery adjacent to the road. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.6	Leighlands Road	Connector Road between Midland Highway and Evandale. Key tourist route providing views of local rural landscapes and Ben Lomond ranges.	Maintain scenic views and minimise development that would adversely impact on the rural scenery. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.7	Midland Highway	Major north-south tourist route providing views of rural landscape with backdrop of Western Tiers and Ben Lomond Ranges.	Maintain scenic views and minimise development that would adversely impact on the rural scenery. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.

NOR-C8.2.8	Pateena Road	Connector Road between Illawarra Road (midway between Perth and Longford in the south) and Bass Highway in the north; providing views of local rural landscapes and distant views to the western tiers.	Maintain scenic landscape views and minimise development that would adversely impact on the rural scenery. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.9	Saundridge Road	Connector Road between the intersection with Poatina Road in the south to the intersection with Blackwood Creek Road in the north.	Maintain scenic landscape views and minimise development that would adversely impact on the rural scenery and heritage properties. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.
NOR-C8.2.10	Woolmers Lane	Connector Road between Midland Highway and Longford. Key tourist route providing views of local rural landscapes and historic hedges.	Maintain scenic landscape views and minimise development that would adversely impact on the rural scenery and historic hedges. Development of land does not intrude onto skylines or river flood plains, or change the landscape character of elevated areas, pastoral scenes, or river flood plain views.

NOR-Table C6.1 Local Historic Heritage Places Datasheet – NOR-C6.1.102 HOLY TRINITY CHURCH, HALL AND CEMETARY

110 Main Street, Cressy

Name: Holy Trinity Church and Hall

Address: 110 Main Street, Cressy

Use: Place of Assembly

Architectural style: Victorian Gothic (church building) and Federation style (church hall)

Walls: Brick

Roof: Corrugated Iron
Integrity: Predominantly intact

Floors: Timber

Description

Church

A single storey brick Victorian Gothic style building. It has a steep pitched gable roof with rear addition with a bayed hipped end. There are two lower projecting bays at the front with gable roofs and decorative gable with timber framing to represent the seven golden candlesticks of the churches of Asia. The roof covering is corrugated iron sheets. There is an impressive octagonal Belfry covered with Huon pine shingles capped with a decorative ironwork finial, on the eastern end gable ridge. The bell is enclosed with timber louvres. Narrow gothic style timber frame windows are glazed with stained cathedral glass.

Hall

A single storey timber Federation style building. It has a gable roof covered with corrugated iron. The walls are lined with horizontal timber bullnose weatherboards and the windows are timber frame with multi-pane glazing.

Historical Relationships

The first church was between 1838 and 1844 and consecrated by Bishop Nixon. It was replaced by a new church built on the land gifted by Mr. J D Toosey in 1858. In 1894, extensions to the church were designed by Corrie and North of Launceston and constructed by Launceston builders J and T Gunn. The extensions included a brick porch, on the north east corner of the building. The original entrance was at the western end of the church. The hexangular shaped belfry extends about 6.0 metres above the roof of the church and is covered with Huon pine shingles and capped with an ironwork finial about 2.0 metres high. The bell, which formally belonged to the East Indian Company, bears the inscription 'Sara Christiana, July 14, 1798" and was gifted to the church by the late Mr. J D Toosey.

Visual Relationships

The site is located on the west side of Main Street on the corner with Saundridge Road. The church is sited towards the centre of the property with the main driveway entrance centrally located off Main Road with an open green space on the front corner and the Hall opposite north side of the driveway. The driveway extends to a circular drive around both sides of the church. There are graves on both sides of the church and towards the rear of the site. The location of the hall in the front north corner of the site has maintained the picturesque setting of the church with its distinctive bell tower clearly visible from adjoining public spaces. The visual integrity of the church within its setting has been maintained.

Name: **St Mark's Lake River Anglican Church** Address: **3960 Macquarie Road, Cressy** Use: **Place of Assembly** Walls: **Beaded edge timber weatherboards** Floors: **Timber**

Architectural style: Carpentry Gothic Roof: Corrugated Iron Integrity: Predominantly intact

Description

Church

A single storey Timber Gothic style building. It has a steep pitched gable roof covering with corrugated iron. The simple rectangular plan form has a projecting bay on the south side with the main entrance door. The walls are lined externally with horizontal weatherboards with a bottom edge bead. Window frames are narrow timber framed with leadlight glazing. The gable ends are trimmed with decorative timber barge boards. The architectural embellishments are very modest which contribute to the building's simple elegant scale and proportions.

Historical Relationships

The Lake River area was originally part of the district of Norfolk Plains. This area extended from Campbell Town to Bass Strait and from Perth in the central midlands to Deloraine in the west. A Chaplain of Norfolk Plains was appointed by King George IV, in 1830. He was a Church of England clergyman. The headquarters of the region was Latour, which is now Longford. The site for the Church and cemetery at Lake River was donated by John Gatenby Esq. of "Pisa."

The church was built in 1864. Mr. Gatenby provided more than one third of the cost of the building and furnishings. The church was consecrated in 1865 by Bishop Charles Bromby and formed part of the Anglican parish of Cressy. The church was used as a school for children from the surrounding district for a period in the 1920s. St Mark's church was for the use of the members of the Church of England in the missionary district of Macquarie and Lake Rivers.

The site contains graves of the pioneer settlers and their dependents include:

- the Lawrence family of "Formosa";
- the O'Connor family of "Connorville" and "Benham";
- the Gatenby family of "Pisa" and "Creekton";
- the Fletcher family of "Talentyre";
- the Whitfield family of "Fairfield";
- the Parker family of "Parknook"; and
- a number of the employees of those families.

Visual Relationships

The site is approximately 2 acres in a rural setting on the east side of Macquarie Road, a short distance from the Lake River. The church is setback from the road boundary, the siting of the church on a small rise enhances its simple lines and gothic style architectural composition. Although a relatively small structure, the building fits harmoniously within the open landscape. The grounds are well-maintained and contain graves of pioneer settlers and their descendants of the Lake River area.
